In Memoriam

Reverend Louis W. Foxwell

This year there was a change on the campus of the Maryland School for the Deaf. Louis Foxwell brought a very special gift to this School, a gift of love, of tenderness, of understanding and peace. He brought laughter and a sense of untiring service and he touched the life of every child and every adult in this School.

We hurt having lost him on April 2, 1974, but we revel in the knowledge that we knew him and loved him and he was ours for awhile and it is in this knowledge that our present comfort lies. What he brought to this campus will remain as long as there are people who love each other.

Mrs. Alice Long

The Maryland School for the Deaf family was saddened by the loss of Mrs. Alice Long who died suddenly on September 17, 1973. Mrs. Long was taken ill while on duty in the Infirmary here at the school, was rushed to Frederick Memorial Hospital by ambulance, and passed away a few hours later.

Mrs. Long will be missed here at the school by the students whom she served as nurse and by all of her co-workers who enjoyed her friendship.

HOUSE RESOLUTION No. 272

By Delegate Virts

A House Resolution concerning

Reverend Louis Foxwell

FOR the purpose of expressing the condolences of the House of Delegates with respect to the unfortunate and untimely death of Reverend Louis Foxwell.

Reverend Louis Foxwell, Director of Communications Services at the Maryland School for the Deaf, and father of the minister of the Urbana Methodist Circuit, Reverend Louis Foxwell, Jr., met his death near his Northwood home in Baltimore.

Reverend Foxwell was a totally unselfish individual who had dedicated his life to helping deaf people. His death has put the deaf community into a state of sorrow. He was an invaluable asset to the deaf people of this State; he was their minister, interpreter, counsellor, and an advocate for the rights of the deaf.

Reverend Foxwell had established a unique rapport with the students of the Maryland School for the Deaf and the entire deaf community of the State. This relationship was summarized by Dr. David Denton, Superintendent of the Maryland School for the Deaf: "There was a credibility about the man that the students appreciated; you could readily sense that his motives were unselfish and that his ultimate concern was for the deaf persons he served." Dr. Denton's statement accurately reflects the feelings of everyone who knew Reverend Foxwell, and by indicating his concern for people generally, and the deaf in particular, is a fitting epitaph to Reverend Foxwell. He would have liked being remembered as a man who served and cared for others. He was that kind of man; now, therefore, be it

RESOLVED BY THE HOUSE OF DELEGATES OF MARYLAND, That each member of the House extends his sincere condolences to the family and friends of Reverend Foxwell; and be it further

RESOLVED, That copies of this Resolution be sent to the Reverend Louis Foxwell, Jr., Urbana, Maryland, to be distributed by him to his father's family and friends, and also that copies of this Resolution be sent to Dr. David Denton, Superintendent of the Maryland School for the Deaf, Frederick, Maryland 21701, to be distributed by Dr. Denton to the staff and students of the School.

By the HOUSE OF DELEGATES, April 5, 1974.

Read and adopted.

By order, JAMES P. HAUSE, Chief Clerk.

 Speaker
 Chief Clerk

Messages to the Seniors

Congratulations to the Class of 1974!

Graduation is a special time. It is a special time for you as you move from part of your life into another. It is a special time for us as we watch you change from boys and girls into men and women, and move from the security of this campus into a world that you have not yet fully experienced.

When you graduate, it is not as if you will leave the Maryland School for the Deaf behind because you leave with us a part of yourselves and perhaps you will take with you a part of us.

Sincerely,
David M. Denton
Superintendent

Dear Class of 1974:

Congratulations in reaching a major milestone in your life, graduation from high school. It is a significant achievement and one you should be justly proud of attaining. Graduation signifies achievement of certain standards, requirements and experiences, the achievement of which allows you to move on to another important phase of life. You, your family, friends, schoolmates, teachers and houseparents and other persons working at School have made considerable effort to provide you a foundation of education and life experiences to build a happy and successful life.

Speaking for the Sisk family and the Supportive Services staff at Maryland School for the Deaf, best wishes for a full, successful and healthful future life. We have enjoyed knowing and working for and with you. Continue to think of MSD as your School and remain active with us as a part of the MSD family.

Sincerely,
Ronald C. Sisk
Administrator

To our 1974 graduates:

Congratulations to you graduates and to your families, teachers and friends who have assisted you in reaching the "finish line" of your high school education! Life is exciting; isn't it? With the extending of your horizons, you will find you cannot control the length of your life but you can control its width and depth. I remind you to be sensitive to the Word and will of God!

Sincerely,
Ronald E. Ellis
Business Manager

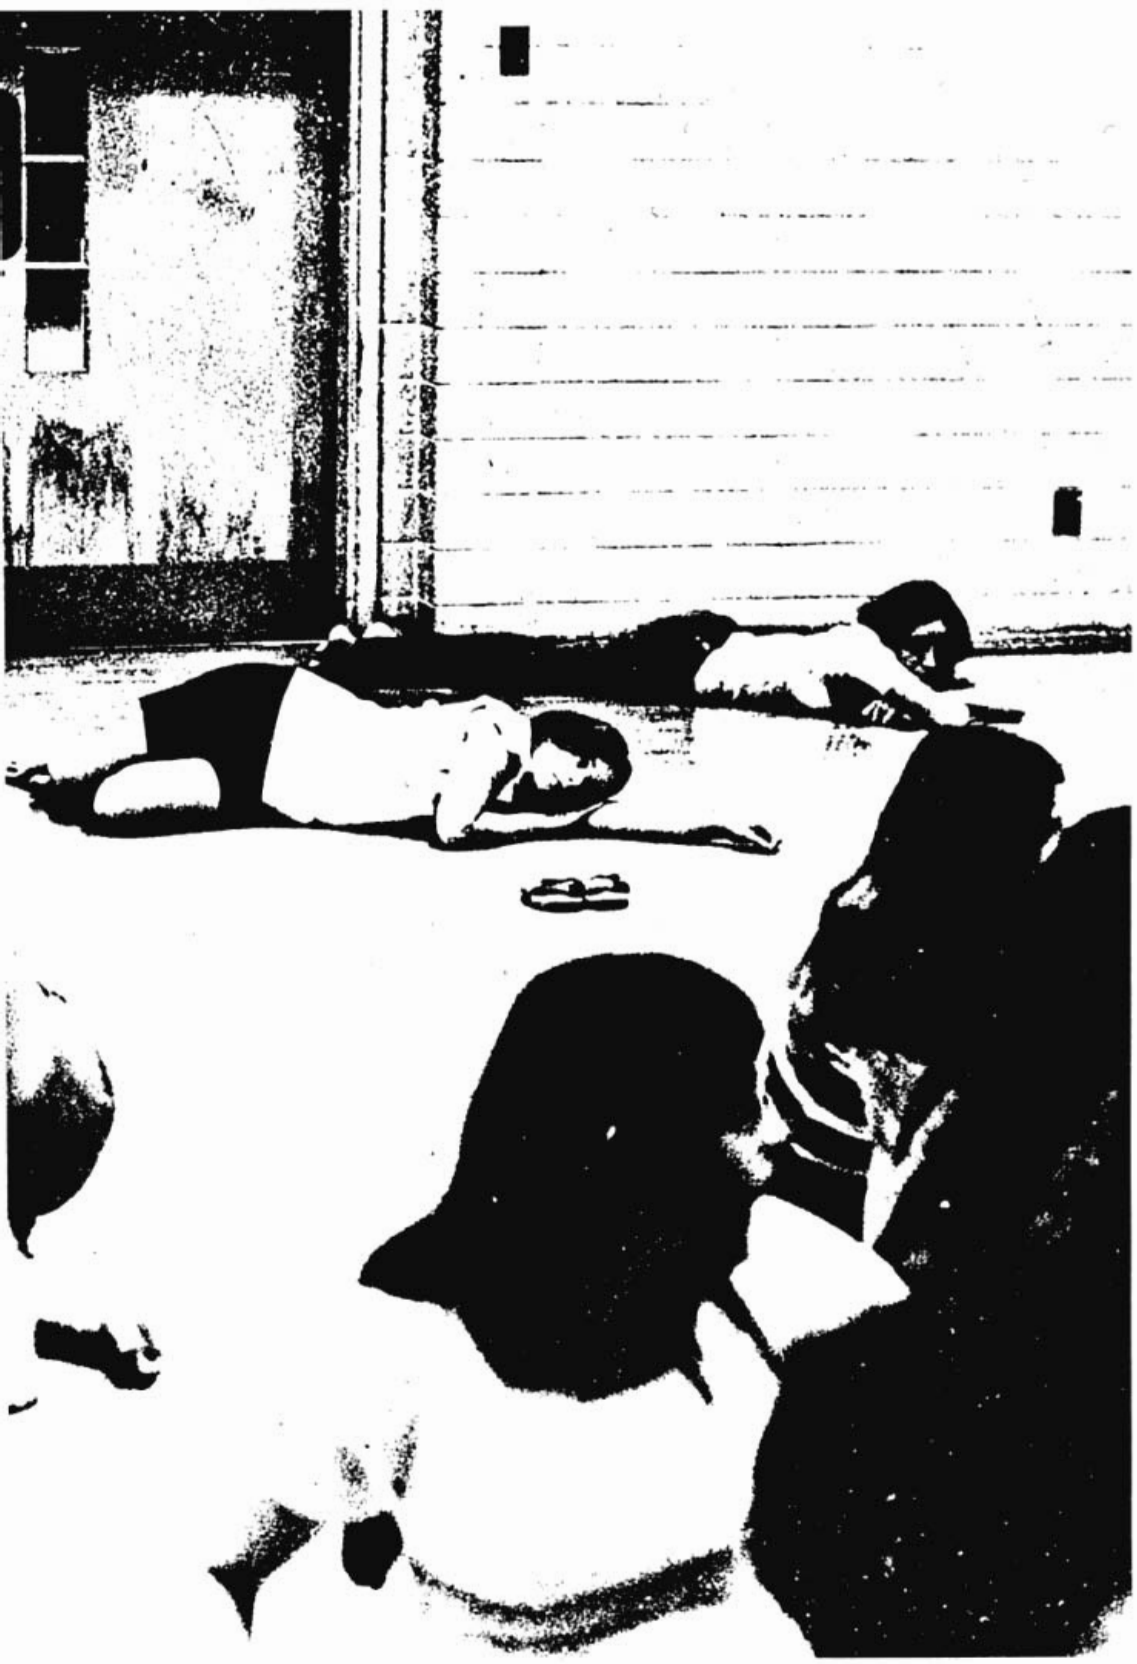

To the Class of 1974:

Graduation means the end of one phase of your lives, but it is also the beginning of a new phase. In this new phase you will be independent, you will set your own goals, you will pace yourselves as you work toward those goals, and you will have to accept the responsibility for your own success or failure. We have been proud of many of your past success and it is our hope that MSD has prepared you well so that we can continue to be proud of your future achievement. We wish each of you much success and happiness throughout your lives.

Sincerely,
Kenneth W. Kritz
Principal

Baltimore, Md.

"Joel" . . . Carolyn in the future . . . sports minded . . . loves to eat pizza every night . . . proud of his long hair . . . Camaro . . . a neat dresser . . . a good friend of Miss Sharpe . . . wants to go to NTID.

Claudia Patricia Williams
Severn, Md.

"Claudia" . . . NEC member . . . emotional . . . likes supervisors . . . wants to live in Virginia . . . loves to nap . . . talks about her boyfriend.

The In-Basket . . .

DAVID M. DENTON

Construction Program- Frederick Campus . . .

Within approximately one (1) year, the major program of construction which has spanned the last several years will be nearing completion. The last few years have literally witnessed the rebuilding of our School. This is an achievement in which all of us enjoy a deep sense of pride and gratitude.

The new Gymnasium is rapidly becoming a center of campus activity. Final touches are now being put to the new Gymnasium and it will be fully operational for the coming school year.

The last major facility to be constructed on the Frederick Campus is the Vocational Building which is scheduled for completion in September. Architecturally, this building is a twin sister to the Gymnasium and the two of them standing side by side bring an air of beauty and dignity to that neighborhood. Obviously, the new Vocational Building will practically double the size of our Vocational Education Program.

The whole area adjacent to the new Gymnasium and Vocational Building is scheduled for development. Site development on this part of the campus will include a wide attractive mall across the front of the two buildings, connecting them and providing access to the athletic area between and behind the two buildings. Site work there will also include the construction of surfaced playing courts for tennis, badminton, etc., planting of appropriate shrubs, the grading and seeding of playing fields, as well as, appropriate lighting and fencing. We are hoping that funds will be sufficient to allow for the construction of bleachers adjacent to the track and football field.

Projects to be completed on the interior of the main campus include, first of all, the razing and removing of the old Gymnasium-Vocational Building. This work is expected to be accomplished during the summer of 1974. After the removal of the old Gymnasium-Vocational Building, the center of the main campus will be redeveloped to include

areas for pedestrian traffic, park-like areas for students, staff, social interaction and enjoyment, the planting of appropriate trees and shrubbery and the construction of a waterfountain between the Ely Building and the School Library. When site work has been completed, it will be possible to stand at the Administration Building and look across a park-like Campus into the courtyard of the old Hessian Barracks.

The Ancient Barracks is scheduled for renovation within the very near future. There is, at this time, an active contract for the restoration of the exterior of this Revolutionary Period structure and an architectural plan for the restoration of the interior is under development.

Construction- Columbia Campus . . .

The second major facility on the Columbia Campus of the Maryland School for the Deaf, the Unit for Multi-Handicapped deaf children, is scheduled for completion and occupancy in September 1974. This building will house a separate self-contained program for a maximum of 50 multi-handicapped deaf children ranging in age from four through ten. Architecturally, this building is similar to the Phase I Elementary School, featuring expanses of glass, non-direct lighting system, natural wood decking and laminated wood beams.

The Elementary School at Columbia has earned two awards to date. The first of these was a joint citation given by the American Institute of Architects and the American Association of School Administrators for excellence of design. This citation was presented at the National Conference of School Administrators, Atlantic City, New Jersey during the Fall meetings. The second award was made by the Illuminating Engineering Society. This citation was given in recognition of the excellence of the lighting system in the school. Obviously, we are proud of this kind of recognition.
