November 26, 2008

Honorable Martin O'Malley, Governor  
Honorable Thomas V. Mike Miller, Jr., President of the Senate  
Honorable Michael E. Busch, Speaker of the House

Gentlemen:

The "Fees and User Charges" Report of the State of Maryland is submitted as required by Title 2, Section 107 of the State Finance and Procurement Article of the Annotated Code of Maryland. The Report provides information on fees and user charges collected by State agencies for the year ended June 30, 2008. In addition, the Report includes a comparison of actual revenues to the total costs of providing the service or performing the function for which the fees or charges are imposed.

The extensive information was compiled by the General Accounting Division based upon reports submitted by various state agencies. I extend my appreciation to all those involved with this effort.

Sincerely yours,

Peter Franchot

PF:bb

## **STATE FEES AND CHARGES**

### **Additional Discussion**

The structure of fees and costs in the judicial system is complex. Historically, court fee/cost schedules were developed locally to cover the cost of court operations. The complexity of the schedule developed as a result of the growth in the body of laws and the types of cases brought before the court. While the current fee/cost structure reflects the origins of court operations, it does not reflect the original purpose of the fees/costs. Modern court fees and costs typically do not cover the cost of services provided; therefore, a subsidy from the State general fund is required. This subsidy pricing structure attempts to avoid unreasonable limitations on access to the judicial system.

The logic that will drive the fee structure of the Circuit Court in the future is one of standardization and consolidation. In standardizing fees, the Circuit Court will alleviate the confusion of trying cases in different jurisdictions. The Administrative Office of the Courts would like to eliminate the smaller fees and raise the initial filing fees. The fees will be designed to recover a portion of the costs of processing a case, ensure access to the court, and provide a disincentive for frivolous lawsuits. This approach to fee setting may allow a larger portion of fees to be collected by the court, thereby increasing revenues.

In addition to the state component of Circuit Court financing, which is the focus of this report, there is a local component as well. Circuit Courts generate revenue from fines, forfeitures, and certain appearance fees, which are returned to the subdivisions. Fees and charges are also levied for such functions as collection of non-support payments and domestic relations matters. In these cases, revenues are used to support the local governments' costs either of the direct function or other judicial-related functions such as local court libraries. For the period July 1, 2007 through June 30, 2008, the total of these local revenues was approximately \$258,833,000 statewide.

## **STATE FEES AND CHARGES**

### **Additional Information**

The Real Property Record Improvement Fund was to expire on June 30, 2001, but the sunset provision was removed by the Legislature during the 2007 special session. (Courts and Judicial Proceedings Article, §§ 13-601-13-606).

### **Additional Discussion**

The Circuit Court Real Property Records Improvement Fund was established by §§13-601-13-606 of the Courts and Judicial Proceedings Article of the Annotated Code of Maryland for the purposes of repairing and modernizing the equipment, and equipment related services in the Land Records offices of the Circuit Courts. The surcharges have been \$20.00 for mortgages, leases, deeds and deeds of trust, with all other instruments being assessed a \$2.00 fee. During the 1999 Session, the General Assembly enacted legislation to capture additional Fund revenues from copies made on equipment purchased through the Fund. For the period July 1, 2007 through June 30, 2008, the special fund revenue generated from the surcharge and copy fees totaled \$21,740,477.

The surcharge resembles market pricing in its intent to provide funds to cover the cost of improvements to service delivery at the land records office and in assigning the costs of service expansion to the direct beneficiaries of the service. Despite adding another fee to the land recordation process, the burden of the surcharge is not substantial.

## **STATE FEES AND CHARGES**

### **Additional Information**

Criminal defendants, in both the Circuit and District Courts, are required to pay costs of the dedicated funds set up to assist the victims and witnesses of crimes. These costs - \$3 for non-jailable vehicle offense, \$35 for other crimes tried in the District Court, and \$45 for other crimes tried in the Circuit Court – are deposited into three funds for victims' programs.

Chapter 455, Acts of 1968, created the Criminal Injuries Compensation Board (now codified under the Criminal Procedure Article, Title 11), to pay medical expenses and other specific disability payments to individuals injured or killed while preventing crimes, during crimes or in apprehending criminals. By Chapter 224, Acts of 1993, The Criminal Injuries Compensation Fund was created to fund the awards made by the Board.

Chapter 165, Acts of 1987, created the Maryland Victims of Crime Fund, for deposit of defendants' assets resulting from movie deals, book contracts and other contracts relating to, and resulting from, the notoriety of their crimes. After payments to victims, money remaining in the Fund was to be used for implementation of statutory guidelines for treatment of victims and witnesses. Chapters 256/257, Acts of 1988, created the State Board of Victim Services (now codified under the Criminal Procedure Article, Title 11) to oversee such implementation and to encourage various victim/witness programs and on ratification of Art. 47 of the Maryland Declaration of Rights charged the Board with implementation of that Article.

Chapter 474, Acts of 1994, created a program for protection of victims and witnesses and for their relocation for that purpose or to facilitate participation in court proceedings (now codified under the Criminal Procedure Article, Title 11), together with the Victim and Witness Protection and Relocation Fund, for implementation of the program.

The first \$500,000 of the \$3 fee, collected by the District or Circuit Court is allocated equally between the Maryland Victim of Crime Fund and the Criminal Injuries Compensation Fund, with the latter getting all money above \$500,000.

The \$45 fee collected by the Circuit Court for other crimes is allocated as follows:

- \$22.50 to the Maryland Victims of Crime Fund Account
- \$ 2.50 to the Victim and Witness Protection and Relocation Fund
- \$20.00 to the Criminal Injuries Compensation Fund

### **Other Revenue Sources:**

The Attorney General is to deposit into the Maryland Victims of Crime Fund Account any money remaining in an escrow account, derived from notoriety of crimes contracts with defendants, after payments, such as subrogation claims of the State, court ordered restitution, and judgments arising out of the crime. See also District Court fees.

DESCRIPTION OF FEE(S): Home Builder Registration Fee

STATUTORY AUTHORITY	REGULATORY CITATION	METHOD TO CHANGE
Business Regulation Article, §4.5-304(a) (2); §4.5-305(c)(3)	Repealed	By Legislative Enactment

RATE OR AMOUNT OF FEE(S): Home builders are required to pay a \$300 fee for an initial two year registration with the Home Builder Registration Unit. They pay this amount upon submission of their registration application. Home builders must renew their registration for an additional two year period. The renewal fee is \$300 for a builder who, in the preceding year, had 11 or more permits issued for the construction of new homes and \$150 for a builder who had 10 or fewer permits issued. The renewal fee is submitted with the builder's renewal application.

DATE FEE(S) FIRST AUTHORIZED: January 1, 2001

DATE AND AMOUNT OF LAST CHANGE: Effective June 1, 2004, Chapter 430 lowered the registration and renewal fees to \$300.00 and \$150.00 as described above.

PURPOSE OF FEE(S): To pay for the "direct and indirect costs of administering and enforcing the Maryland Home Builder Registration Act."

## **STATE FEES AND CHARGES**

### **Additional Information Continued**

#### **Complete Schedule of Fees**

Annual License Fee Schedule as of May 1, 2000 (subject to change)

- 1) All MDProperty View 2000 products include jurisdiction boundary files for zip codes, 1990 census tracts and block groups (includes census data), current congressional and legislative districts and Smart Growth Boundaries. Also included are roads, streams and features (includes text and annotation) from SHA's 1:24,000 grid maps and generalized land use/land cover.
- 2) FINDER contains the tools you need to view electronic tax maps are to search (by owner name, address, account number, map and parcel or your own customized search criteria) for parcel locations in a jurisdiction. Once a parcel or group of parcels is selected, you can link directly to current parcel information via the State Department of Assessments and Taxation Real Property website, view the tax map where the parcel is located and print parcel reports.
- 3) FINDER Online offers statewide access to these map and data layouts in the form of seamless, overlapping Regional maps. Each of the nine regions contains four or more contiguous jurisdictions (counties and Baltimore City) so that any jurisdictions with shared boundaries can be viewed and their map and data layers accessed seamlessly.

Updating and configuring the primary and secondary Domain Name Servers (DNS) to recognize each new domain. Please note: This fee is for clients who do not have other services (i.e. hosting a web site, telecommunications, or network security) with the Archives. ALSO see Hosting DNS. [The one time setup fee does not apply to the maryland.gov or md.gov domains.]	\$100.00
Establishing FTP rights.	\$80.00
Researching hardware/software for client, obtaining bids/quotes for services and ordering hardware/software in accordance with the State's procurement policy.	\$250.00

WEB HOSTING/SERVER CO-LOCATION AND MAINTENANCE FEES.	
Web server with customer specified domain name (ex. <a href="http://www.sos.state.md.us">http://www.sos.state.md.us</a> ); includes support and backup services include but are not limited to: system administration work (creating a tape backup of server software, insuring up time of server, system upgrades, etc.), cabling, switches & routers (maintenance and upgrades), Universal Power Supply (UPS) (insuring server's not affected by power outages), DNS and mx management (maintaining primary and secondary DNS for clients' domain names, including maintaining mx records for directing e-mail), telecommunications (insuring service/notification of service provider downtimes and maintenance routines), troubleshooting, technical support & help/advice line (8:00-5:00, M-F; after hours in an emergency). Also includes two (2) free hours of html training.	\$200.00/mo. per server up to 500mb of disk space.  \$25.00/mo. extra for each additional 250mb of server space required, e.g., 500-750mb = \$150.00/mo.; 750mb-1 gb = \$175.00/mo.
NT/Windows 2000 server maintenance & operation – installation of patches and other upgrades.	\$125.00/mo. per server.
Hosting DNS. Please note: This fee is only for clients who do not have other services (i.e. hosting a web site, telecommunications, or network security) with the Archives. [The \$360.00 annual charge does not apply to the maryland.gov or md.gov domains.]	\$360.00/yr. per 5 domains.  e.g. \$720.00 for 6-10 domains.

Fee associated with basic programming (cgi scripting, Cold Fusion, SQL, and database) Web training, web site additions/corrections (html), and web page design.	\$80.00/hr. \$40.00/hr.
Scanning a graphic.	\$10.00

Converting image formats, e.g., converting a tif or pcx file to a gif file.	\$5.00
Adjusting detail on images.	\$40.00/hr.

ENHANCED WEB SITE FEATURES.	
Creating a counter on a web page.	\$80.00
Creating a guest book on a web page.	\$80.00
Creating a report detailing statistics off of a web site.	\$40.00/mo.
Creating a link check report with Coast Webmaster and forwarding results.	\$40.00/mo.
Microsoft SQL server software.	\$200.00/mo.
System Administration tasks.	\$80.00/hr.
Advanced System Administration tasks, such as creating specialized scripts and/or customized utilities.	\$145.00/hr.

SEARCH ENGINES.	
Creating a Search Engine for a Web Site. Initial fee is based on number of documents contained on your site. (If the number of documents on your site dramatically increases, you will be charged this initial fee for the additional documents that have been added to your site.)	\$ 0.58 per document.
Maintenance Fee -- web sites containing less than 1,000 documents.	\$50.00/mo.
Maintenance Fee -- web sites containing 1,000 to 4,999 documents.	\$75.00/mo.
Maintenance Fee -- web sites containing 5,000 to 9,999 documents.	\$100.00/mo.
Maintenance Fee -- web sites containing 10,000 or more documents.	Available upon request.
CONNECTIVITY SERVICES.	
Network Security. Includes the configuration and maintenance of all firewall servers, software upgrades and annual hardware upgrades. In addition, log files are monitored and tape backups are made and archived on and off site. All incoming and outgoing email is scanned for viruses, attachments with viruses are deleted, and users are alerted to any problems.	\$5,100.00/year.
Telecommunications. Fee covers the internet connectivity for the agency as invoiced from the supplier. Also included is routine monitoring and troubleshooting of problems as they arise.	Available upon request.

NOTE: A seven percent surcharge is applied to all fees charged by the Maryland State Archives as an Educational and Entrepreneurial Reserve and is deposited into the Archives Endowment Fund.

## STATE FEES AND CHARGES

### Additional Information

Fee Schedule

**Temporary Trip Permits:** \$42 to obtain travel authority for 15 days, in lieu of obtaining identification markers and being subject to the motor carrier law International Fuel Tax Agreement (IFTA).

**Additional Information:** Carriers that qualify as IFTA licensees, but do not wish to participate in the IFTA program, must obtain trip permits to travel through member jurisdictions according to the regulations and fees of each member jurisdiction including Maryland on any return trip.

IFTA licensees who are cancelled must also obtain trip permits for interstate travel. Revoked IFTA licensees are not entitled to temporary permits from any jurisdiction.

STATUTORY AUTHORITY	REGULATORY CITATION	METHOD OF CHANGE
<b>IFTA Identification Markers</b>	IFTA Decals	Statute Federal – legislative
Credentials are issued by a motor carrier's base jurisdiction which will allow the IFTA licensee to travel in all IFTA member jurisdictions.		

IFTA- annual renewal:	Maryland does not charge an annual renewal processing fee for an IFTA license.
-----------------------	--

IFTA decals are automatically issued to licensees in good standing. Accounts that are cancelled, revoked, or owe additional taxes must complete a renewal application when resolving all outstanding issues.

<b>Additional Information:</b>	If a Maryland-based carrier that qualifies for an IFTA license and decals has any qualifying motor vehicles which only travel intrastate, the carrier may elect to have both the intrastate and the interstate qualifying motor vehicles issued IFTA decals. In such case, the operation of those intrastate qualifying vehicles will be included on the IFTA tax report. This provision enables the carrier to convert an intrastate vehicle to interstate operations at any time without additional registration.

## STATE FEES AND CHARGES

### Additional Information

Prior to 1992 change--

Manufacturer's warehouse operator's license	\$ 250
Retailer's license	3
Sub wholesaler's license	250
Vending machine operator's license	250
Wholesaler's license	250

Before obtaining the state retail license, the applicant must file for and receive a county license. In all counties except for Cecil, the application fee for the license is \$25. In Cecil County it is \$50. This license must be applied for each year, whereas the state retail license can be renewed for a \$3 fee yearly.

Although fees were increased in 1992, the renewal fee was not increased until the 1993 Session. Only new licensees, therefore, were paying the increased fee, while those with licenses only had to pay the \$250 renewal fee. In 1993, the renewal fee was increased to the original license fee for each category of license.

Effective May, 1993

Cigarette Wholesaler's License	\$750
Cigarette Sub-Wholesaler's License	500
Cigarette Vending Machine Operator's License	500
Cigarette Retail License Fee collected	
By County Clerks	30
Tobacco License Application Fee	200
Tobacco Filing Fee	30

Effective October 1, 1994

Tobacco Manufacturer's License	25
Cigarette Storage Warehouse	25

### Additional Discussion

The Office of the Comptroller collects fees for cigarette licenses under Title 16 of the Business Regulation Article. The fees, which range from \$25 to \$750, were first instituted in 1890 and last changed in 1994. Revenues are intended to be used to administer the title and enforce the Maryland Cigarette Sales Below Cost Act (MCSBCA), and are deposited into a special fund.

### Additional Information

Section 1-204. Organization and capitalization fee.

(a) Definitions.-

- (1) In this section, the following words have the meanings indicated.
- (2) "Aggregate par value of capital stock" means the sum of the total par value of all classes of stock.
- (3) "Corporation" includes a joint stock company.
- (4) "Total par value of a class of capital stock" means:
  - (i) For a class of capital stock having par value, the par value per share of stock in the class times the number of authorized shares in the class; or
  - (ii) For a class of capital stock not having par value, \$20 times the number of authorized shares in the class.

(b) Imposed.-There is an organization and capitalization fee imposed on:

- (1) The aggregate par value of capital stock of a Maryland corporation that incorporates;
- (2) An increase of the aggregate par value of capital stock of a Maryland corporation;
- (3) A consolidation of corporations that results in a Maryland successor corporation that has an aggregate par value of capital stock that exceeds the aggregate par value of the consolidating corporations;
- (4) A merger of corporations if the successor corporation has an aggregate par value that exceeds the aggregate par value of capital stock of the merging corporations; or
- (5) The incorporation of:
  - (i) A Maryland corporation that does not have any capital stock;
  - (ii) A savings and loan association; or
  - (iii) A credit union.

(c) Schedule. –

- (1) Except as otherwise provided in this section, the organization and capitalization fee is as provided in the following schedule:

<u>Aggregate Par Value of Capital Stock</u>	<u>Fee</u>
Not over \$100,000	\$20
Over \$100,000 but not over \$1,000,000	\$20, plus \$1 for each \$5,000 or fractional part of \$5,000 that exceeds \$100,000

## STATE FEES AND CHARGES

### Additional Information Continued

Over \$1,000,000 but not over \$2,000,000	\$200, plus \$10 for each \$100,000 or fractional part of \$100,000 that exceeds \$1,000,000
Over \$2,000,000 but not over \$5,000,000	\$300, plus \$15 for each \$500,000 or fractional part of \$500,000 that exceeds \$2,000,000
Over \$5,000,000	\$390, plus \$20 for each \$1,000,000 or fractional part of \$1,000,000 that exceeds \$5,000,000

- (2) The organization and capitalization fee is \$20 for the incorporation of:
  - (i) A Maryland corporation that does not have any capital stock;
  - (ii) A savings and loan association; or
  - (iii) A credit union.
- (d) Fee for increase in aggregate par value of capital stock.
  - (1) Except as otherwise provided in this subsection, the organization and capitalization fee for an increase in aggregate par value of capital stock is the fee computed on the aggregate par value including the proposed increase less the fee computed on the aggregate par value excluding the proposed increase.
  - (2) Except as provided in paragraph (3) of this subsection, the organization and capitalization fee on an increase in aggregate par value of capital stock of a railroad corporation that is incorporated under the laws of this State and any other state is computed by multiplying the fee computed under paragraph (1) of this subsection by the proportion of the total track mileage of the railroad corporation in this State to the total track mileage of the railroad corporation.
  - (3) The minimum organization and capitalization fee on an increase in aggregate par value is \$20.
- (e) Fee for consolidation of existing corporations.
  - (1) Except as otherwise provided in this subsection, the organization and capitalization fee for the consolidation of existing corporations to form a Maryland successor corporation is the fee computed on the aggregate par value of capital stock of the successor corporation less the fee computed on the combined aggregate par value of capital stock of the consolidating corporations.

\$ 5,000,000	\$ 5,000,000	\$ 2,000
	\$ ----	\$ 2,500 plus .02% of excess over \$5 M

### Additional Discussion

Section 2-206 of the Estates and Trusts Article states that the Register of Wills in each county and Baltimore City are entitled to charge and collect for the performance of their duties. The fee for this service ranges from \$50 to over \$2,500 depending on the value of the probate estate. In addition, the registers are allowed a commission of 25% of the inheritance tax for receiving and paying over to the State the inheritance tax due. In FY 08, the registers collected \$23.9 million from fees and the 25% commission and remitted \$5.5 million in excess fees to the State. Of the \$23.9 million collected, \$7.1 million was collected from probate fees and \$16.8 million was collected from the 25% commission.

The total cost of operations for the Registers in FY 08 was \$18.4 million. In the absence of the 25% commission, probate fee revenues alone, \$7.1 million in FY 08, would not be adequate to cover Registers' expenses. However, the 25% commission allows the Registers to cover the costs of collecting the inheritance tax.

The probate fees and 25% commission can be categorized as market pricing since user fees are designed to cover the cost of operations. The fee scale used by the Registers estate value, provides a mechanism, to correlate the fee with "ability to pay". The ability of the Registers to maintain the sliding fee structure is predicated on their ability to collect the 25% commission from the State. This allows the Registers to keep probate fees reasonable.

State Highway Administration  
Hauling Overweight Trucks

J02B0134

## **STATE FEES AND CHARGES**

### **Additional Information**

Trucks at 45 tons or less went from \$15 to \$30  
For each ton in excess of 45 tons rose from \$2 to \$5  
Blanket permit fees increased from \$40 to \$50 monthly/\$350 to \$500 annually  
Book Permits good for 45 tons increased from \$150 to \$300.

### **Additional Discussion**

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need.

The Annotated Code (Transportation Article §24-112) permits the Department to set fees for hauling overweight cargo at rates which recover the cost of administration and compliance monitoring. This includes the costs of issuing permits, and the capital and operating costs of the truck weight enforcement activities of the Maryland State Police. For Fiscal Year 2008, fees generated for SHA were \$12,997,137.

In addition to the transfers made to the Maryland State Police by SHA, revenues were also distributed by MDOT for their Commercial Vehicle program for Fiscal Year 2008 in the amount of \$14,372,337 which includes their part of truck weight enforcement activities.

The Department advises that the fees have not been raised since 1984 in order to keep the rates competitive with those charged by states with competing port operations. The Department meets with representatives of area states on an annual basis to compare fees.

Storage shed space - \$3.90 per square foot to \$5 per square foot

### **Additional Discussion**

Operating and capital expenditures for the Department of Transportation are supported by a dedicated source of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need. The Department does not generally consider the costs associated with service provision when determining fee levels.

The Maryland Port Administration derives revenues primarily from dockage, wharfage, crane, & and cargo handling fees as well as equipment rental and terminal leases. Because the Port of Baltimore competes for business with other ports in the region, fees reflect market value for the various services provided.

Most customers have long term leases that provide pricing incentives when volume of cargo exceeds pre-determined levels.

Non-Resident Experienced:	125	7/1/2004	75	7/1/1992

### Additional Discussion:

The Motor Vehicle Administration collects four different categories of fees: titling/registration fees, driver and regulatory licensing fees, vehicle emissions inspections fees (VEIP), and miscellaneous fees. Revenues from all fees are deposited into the Transportation Trust Fund TR §3-216. Titling and registration revenues go to support the special fund. Revenues from miscellaneous fees, which are set by the administration, are mandated to cover no less than 95% and no more than 100% of the administration's operating costs. This mandate has been issued by the General Assembly via budget bill language since the 1991 legislative session.

## STATE FEES AND CHARGES

### Additional Information

The following fees are for various types of license plates.

<u>Description</u>	<u>Date</u>	<u>Fee</u>	<u>Note</u>
Organizational (Non-Logo)	10/1/97	\$15	Fee due on issuance of plates. \$12 1/1/94.
Organizational (Logo)	10/1/97	\$25	Annual fee in addition to registration. \$15 1/1/94.
Purple Heart	10/1/97	\$25	Fee due on issuance of plate. \$12 1/1/94
Vanity Plates	7/1/01	\$25	Annual fee in addition to registration \$25 7/1/91

Commemorative Plates:

Agriculture Plate – A \$20 fee is paid upon issuance of the plate. Of the \$20, \$10 goes to MVA and the other \$10 to the Agriculture Foundation. First issued 7/01/01.

Chesapeake Bay Plates - A \$20 fee is paid upon issuance of the plate. Of the \$20, \$10 goes to MVA and the other \$10 to the Chesapeake Bay Foundation. First issued 1/1/91.

Uninsured Motorists Fees §17-106 - Drivers not covered by auto insurance are charged \$150 for the first month of being uninsured and \$7 each additional day, up to \$2,500. The MVA receives 30% of the fines and the remaining 70% is allocated to the School Bus Safety Enforcement Fund, the Vehicle Theft Prevention Fund, the Maryland Automobile Insurance Fund (MAIF), and the General Fund. Prior to June 1, 1996, the MVA received 10% of the first \$150 and 50% of all fines collected over \$150. The non-MVA allocated fine revenue was distributed to the Theft Prevention Program, the MAIF, and the General Fund prior to June 1, 1996.

## STATE FEES AND CHARGES

### Additional Information, Continued

#### Schedule of Vehicle Registration Fees

The fees listed below are the biennial rates for vehicle registration in Maryland unless otherwise noted. Beginning with 1993, registration in Classes A, B, C, D, E, F, H, J, M, P, Q and R are conducted biennially. For example, a typical passenger car would cost the owner \$128 for registration every two years (\$50.50 fee plus \$13.50 surcharge = \$64 per year x 2 years = \$128.00).

<u>Class</u>	<u>Fee</u>	<u>Date</u>	<u>Biennial Surcharge</u>	<u>Date</u>
A (Passenger Cars under 3,700 lbs)	\$101.00	7/1/04	\$ 27	7/1/03

## **STATE FEES AND CHARGES**

### **Additional Information**

Effective June, 1989, the vehicle inspection was changed from an annual requirement to biennial.

### **Additional Discussion**

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need.

Revenues generated by the Vehicle Emissions Inspection Program are part of the administration's miscellaneous fees. Capital costs for the enhanced VEIP will be provided by the Transportation Trust Fund.

## STATE FEES AND CHARGES

AGENCY: Motor Vehicle Administration

DESCRIPTION OF FEE(S): Registration – Emergency Medical Service/Trauma Physicians Service Surcharge

Monthly pass	\$100.00 - 350.00

3. Miscellaneous Revenue              FY 08:              \$6,218,614.00

### Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenues. The majority of funding is realized from gas and titling tax revenues, federal fund reimbursement, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary needs. The Department does not generally consider the costs associated with service provision when determining fee levels.

## STATE FEES AND CHARGES

The fee structure for the Maryland Transit Administration is adjusted periodically to allow sharing of the cost of the system between two groups.

- (1) Riders - the direct beneficiaries who benefit from the convenience of the system itself and riders paying at the fare box.
- (2) Motorists - the indirect beneficiaries who benefit from the reduced traffic load on highways and pay via gasoline taxes.

The rates charged by the Maryland Transit Administration are also adjusted for certain riders. Discounts are available through daily, weekly or monthly unlimited use passes. Senior citizens and the disabled receive a two-thirds discount on a single ride in the Baltimore region. The discount partially mitigates hardship to these riders. Also, there are limited programs available through other State agencies. In addition, free ridership for state employees was initiated in spring 2001, to reduce vehicle congestion and environmental impact. Each agency is budgeted for and remits funding to the Transportation Trust Fund to replace lost revenue.

There is no regulatory citation for the fees charged. Schedules are maintained in the MTA schedule of tariffs. Proposed fee modifications are not subject to legislative review or publication in the Maryland Register, but do require publication in the newspapers and at agency facilities followed by public hearings.

Miscellaneous operating revenues (e.g., advertising space, leased space in and above metro stations, building and land rental, BWI parking) are market-based.

## STATE FEES AND CHARGES

AGENCY: Maryland Aviation Administration (MAA)

DESCRIPTION OF FEE(S): Various airport fees such as: landing fees, space rental fees and concession revenues.

## STATE FEES AND CHARGES

### Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need. The Department does not generally consider the costs associated with service provision when determining fee levels.

As the fee summary schedule below indicates, aircraft landing and parking fees constitute the largest revenue category for the Maryland Aviation Administration. These and other fees charged are market-based. The Annotated Code (Transportation Article §5- 408 (b)(2)(ii)) states that fees are "to be reasonable. In determining reasonableness the Administration shall consider the charges, fees or prices for the same goods or services at comparable airports". Fees, which are reviewed annually, are generally based both on volume of activity (e.g., number of passengers, number and weight of aircraft using facilities) and volume of facilities used (e.g., per square footage of ticket counter space). Although the market-based fees are not tied to service expenditure levels, they do provide the flexibility necessary to maintain competitive pricing.

There is no regulatory citation for the fees charged. Schedules are maintained in the BWI Tenant Directive and the Maryland Aviation Administration Rate and Leasing Policy. Proposed fee modifications are not subject to Legislative review or publication in the Maryland Register. Current fees were last modified September 1, 2008 BWI and July 1, 2008 at Martin State Airport.

#### Summary of Revenue Sources Fiscal Year 2008 (\$ Millions)

## STATE FEES AND CHARGES

### Additional Information

Rate or Amount of Fee(s):

Registration	\$24 Biennial	Security Interest	\$15
Replacement Number	\$ 2	Replacement Decal	\$ 1
Dealer License	\$25	Bad Check	\$35
Documented Decal	\$10 Biennial	True Copy	\$10
Title	\$ 2	Certificate of Number	\$ 5
Replacement	\$ 2		

### FEES LEVIED BY OTHER STATES:

	<u>Registration Fee</u>	<u>Title Fee</u>
Delaware	\$20 - \$120	N/A
DC	\$10 - \$ 60	\$ 2
Florida	\$17 - \$255	\$ 6.75
New Jersey	\$24 - \$500	\$20
Pennsylvania	\$18 - \$ 52	\$15
Virginia	\$18 - \$ 30	\$ 7
West Virginia	\$20 - \$ 50	\$10

NOTE: Of the 50 states and DC, only Maryland and West Virginia have a free registration for boats. In Maryland, a free registration is issued for boats 16' or less with 7.5 hp or less. Registration fees for other states have been calculated to equate to Maryland's 2-year fee structure.

### RECENT OR ANTICIPATED PROPOSALS FOR CHANGES:

The Department of Natural Resources proposed legislation to establish fee changes in 2004 and 2005 to increase the dealer's license fee from \$25 to \$50; increase the two-year paid vessel registration fee from \$24 to a maximum of \$40; increase the replacement fee from \$2 to \$10; increase the documented decal fee from \$10 to \$40; and repeal the \$5 service charge for returned checks. A 2007 proposal would have increased the dealer's license fee from \$25 to \$100, the 2-year paid vessel registration fee from \$24 to \$100, the title fee from \$2 to \$10, the replacement fee from \$2 to \$10, the documented decal from \$10 to \$100 and the dealer certificate of number from \$24 to \$100. These proposals have failed to pass the Maryland General Assembly.

## **STATE FEES AND CHARGES**

### **Additional Information**

#### **RATE OF FEE:**

1) A \$30 annual registration fee is paid by packers and distributors of shell eggs. A packer or distributor who keeps 3,000 or fewer chickens and sells eggs only from those chickens is required to register but is exempt from fees.

2) An inspection fee of 8 cents per 30 dozen cases of sold or delivered shell eggs and a quarterly report detailing the number of shell eggs sold, is due each quarter from packers and distributors. A packer or distributor who keeps less than 3,000 chickens and sells eggs only from those chickens is exempt from filing the report and submitting the fees.

3) If a packer or distributor fails to file a quarterly report and not pay the required inspection fee, then a collection fee is imposed in the amount of ten percent (10%) of the unpaid inspection fee due or \$100, whichever is greater.

#### **DATE AND AMOUNT OF LAST CHANGE:**

Chapter 542; Acts 1993 -- The annual registration fee was raised from \$15 to \$30 annually effective January 1, 1994. The fee exemption threshold, which is based on the number of chickens kept by a packer or distributor, was raised from 50 chickens to 3,000 chickens effective July 1, 1993. The collection fee provision became effective July 1, 1993.

## STATE FEES AND CHARGES

### Additional Information: Lab Calibration Services

#### .02 Cast Iron and Steel Weights (Class F) Tolerance

- A. If a weight is less than or equal to 30 kilograms (66 pounds) the fee is \$9. a unit;
- B. If a weight is greater than 30 kilograms (66 pounds) but less than or equal to 600 kilograms (1300) pounds) the fee is \$28 a unit.
- C. If a weight is greater than 600 kilograms (1300 pounds) but less than or equal to 1100 kilograms (2500 pounds) the fee is \$50 a unit;
- D. If a weight is greater than 1100 kilograms (2500 pounds) but less than or equal to 2200 kilograms (5000 pounds) the fee is \$69 a unit;
- E. If a weight is greater than 2200 kilograms (5000 pounds) but less than or equal to 4500 kilograms (10000 pounds) the fee is \$115 a unit;
- F. If data is included with the certificate of conformance, the fee is \$2 a unit

#### Test Weight Sets \$40-80 a set

#### .03 Class F Tolerance - Test Weight Sets

The Department shall charge the following fees to test a Class F tolerance test weight set provided, however, that the set does not have a total capacity that is greater than 35 kilograms (77 pounds);

- A. If the number of weights in the set is less than or equal to 18, the fee is \$57. a set
- B. If the number of weights in the set is greater than 18, but less than 36, the fee is \$80. a set.
- C. If the number of weights in the set is greater than .36 the fee is \$3 a unit.
- D. If data is included with the certificate of conformance, the fee is \$2. a unit

#### Other Weighing Services

\$ 50 an hour

#### Equipment Refurbishing

\$ 52 an hour

\$ 10 for shop materials

#### Weight-Moving Equipment for Vehicle Sales

\$140 a unit

\$ 10 for shop supplies

#### Mass Laboratory Standards

\$20-125 a unit

#### .07 Mass Laboratory Standards

- A. If the standard is less than or equal to 5 kilograms, the fee is \$25 a unit;
- B. If the standard is greater than 5 kilograms but less than or equal to 30 kilograms, the fee is \$60 a unit; and
- C. If the standard is greater than 30 kilograms but less than or equal to 600 kilograms, the fee is \$125 a unit;

## STATE FEES AND CHARGES

### Additional Information continued: Lab Calibration Services

Laboratory Standards	\$180 + \$50-60
Increments per additional wt. over 18	
Services Related to Laboratory Standards of Mass	\$ 75 an hour
Volumetric Field Standards	\$ 30-250 a unit
Other Volumetric Calibrations	\$ 50 an hour
Volumetric Laboratory Standards	
if the standard is less than or equal to	
4 liters (1 gallon)	\$ 38 each
if the standard is greater than 4 liters	
(1 gallon) but less than or equal to	
40 liters (11 gallons)	\$112 each
if a standard is greater than 40 liters (11 gallons) but less than	
400 liters (110 gallons) the fee is	\$250 each
Other Volumetric Laboratory Services	\$ 45 an hour
Thermometry and Calibration Services	\$ 65 an hour
Environmental Chamber Services	\$250 per use
	\$ 45 per tech
Linear Measures and Surveyor Tapes Testing	
testing rules	\$ 15 a unit
testing tapes	\$ 25-75
other linear devices	\$ 50 an hour

AMOUNT OF OTHER GENERAL  
OR SPECIAL FUNDS USED  
FOR SAME EXPENDITURES:

### Additional Information

Stable License and the Stable inspection fees do not coincide with Title §2-711, Title §2-713 of the Agriculture Article. According to the Agriculture Article, Title §2-712 is clear as to the annual license fee "renewal" equaling \$50, however, there is no explicit reference for a fee when an applicant makes an initial application for a license under Title §2-711. Fiscal year 2003 was the first year of new funding source from feed sales under Title § 6-107.2. See Title 16.01.04F. (c) (ii)

Reinstatement fee	\$632/\$732	Physician	
Credential fee	\$100	Dispensing	\$ 50
Inactive Status Fee	\$ 50		

#### Additional Discussion

The Board of Physicians regulates physicians, physician assistants, medical radiation technologists (radiographers), radiation therapists, nuclear medicine technologists, and respiratory care practitioners through licensure and disciplinary actions. The revenues collected are from license and license renewal fees and delegation agreements for physician assistants.

Through FY 1991, the Board of Physicians Quality Assurance (now "Board of Physicians") was a general fund agency and any fees went into the general fund. Legislation passed in 1991 converted the Board into a special fund agency, creating the Board of Physicians Fund as a non-reverting special fund. At that time, 20% of the fees went into the general fund: 80% went to the Board's fund. In 1993 (effective FY 1995), 14% of the fees was directed into state scholarship funds, 6% into general funds, and 80% to the Board's fund. In 1999, the 6% directed into the general funds was returned to the Board's fund by legislation; therefore, 14% was distributed to the scholarship funds and 86% to the Board's fund. In legislation passed in 2007, the 14% to the scholarship funds was reduced to 12% effective FY 2009.

Fees from physician assistants were originally distributed as 20% to the general fund and 80% to the Board's fund by 1992 legislation. That distribution was unchanged until the 2007 legislation directed that, for FY 2008, 14% would go to the scholarship fund and the balance to the Board's fund and, for FY 2009 and later, 12% would go to the scholarship fund and the balance to the Board's fund.

### Additional Information

COMAR 10.49.01 does not include the fee schedule, but describes how the fees are determined. The Board believes that listing the fees in COMAR would mislead the public into thinking that the Board is in the business of selling bodies/parts. The Board wishes to continue in its current schedule. The schedule would be readily available from the Board upon request.

## STATE FEES AND CHARGES

### Additional Information

Although some fees are based on costs, the State subsidizes this program in order to cover the costs of tests where fees are low to encourage improved public health, i.e., immunizations, communicable diseases. State law prohibits assessment of fees for investigation of infectious diseases and environmental public health. The Secretary of DHMH has the authority in law to rescind fees, if he considers it to be in the best interest of public health.

Fee Table	Fee effective <u>July 1, 2004</u>	Fee effective <u>July 1, 2008</u>
Well Water	\$33	\$43
	Fee effective <u>July 1, 2003</u>	
Hereditary Disorders Testing – PKU	\$42	\$60

### Additional Discussion

The Department charges a registration fee to manufacturers, distributors and dispensers of Controlled Dangerous Substances. The revenues offset the cost of inspections performed by the Division of Drug Control.

### Additional Information

Board of Examiners of Psychologists

Source: Maryland Health Occupations Annotated Code, Article 8, sections 2-20.

The Board of Examiners of Psychologists regulates all persons licensed as psychologists by setting standards for licensure and practice, administering examinations, issuing licenses, and investigating suspected violations. Revenues collected from examination, license, and renewal fees are used to support the Board's operating expenditures.

### Fee Schedule

Scope.

These regulations govern all those licensed or applying for licensure by the Board, or registering as a psychology associate.

Fees.

The following fees are established by the Board:

A. Licensure application fee	\$ 200
B. Psychology associate application fee	\$ 100
C. Examination fees:	
1) National examination	\$ 500
2) State examination	\$ 200
D. Verification of licensure	\$ 20
E. Continuing education sponsor application fee	\$ 50
F. Biennial licensure renewal fee	\$ 350
G. Late fee	\$ 50
H. Inactive status fee	\$ 200
I. Reinstatement fee	\$ 300
J. Penalty for returned check	\$ 25
K. Duplicate license:	
1) Wall certificate	\$ 50
2) Wallet card	\$ 10

Refunds.

Application fees are nonrefundable. Examination fees shall be refunded if the request to cancel an examination is received in writing 2 weeks before the examination date.

Change of Fees.

Fees are subject to change by action of the Board of Examiners of Psychologists. Licensees and applicants shall be notified of the change.

## STATE FEES AND CHARGES

### Additional Information

SB 655, enacted in 1992, mandates that all but two of the state's health occupational licensing boards generate sufficient revenue from professional fees to cover the costs of maintaining a regulatory program. The Board of Nursing Home Administrators & the State Board of Anatomy were granted exemptions.

The Board of Nursing Home Administrators regulates nursing home administrators by setting standards for licensure and practice, administering examinations, issuing licenses, and investigating suspected violations. Revenues collected from examination, license, and renewal fees are paid to the general fund of the State of Maryland. (Health-Occupations Article, 9-206(b)).

Source: Maryland Health Occupations Annotated Code, Article 13, sections 207.

The Board of Physical Therapists regulates physical therapists by setting standards for licensure and practice, administering examinations, issuing licenses, and investigating suspected violations. Revenues collected from examination, license, and renewal fees are used to support the Board's operating expenditures.

Fee Schedule 10.38.07

Authority: Health Occupations Article, §13-206, Annotated Code of Maryland

#### 01. Scope.

These regulations govern all persons licensed or applying for licensure by the Board.

#### 02. Fees.

A. The following fees are established by the Board:

1) Application fee	\$150
2) Biennial renewal fee:	
A. Physical therapist	\$325
B. Physical therapist assistant	\$300
3. Reinstatement fee	\$400
4. Restricted license	\$125
5. Duplicate license	\$ 75
6. Penalty for returned check	\$ 40
7. Written Verification of licensure	\$ 25
8. Law booklet (free to applicants)	\$ 20
9. CEU course approval for sponsor	\$ 50
10. Penalty for Failure to Maintain Correct Address with Board	\$100

B. The Federation of State Boards of Physical Therapy determines the fees for the National Licensure Examination for physical therapists and physical therapist assistants.

C. The Health Care Access and Cost Commission (HCACC) assesses a fee for health care professionals which the applicant shall pay at the time of license renewal as specified in COMAR 10.25.02.

#### 03. Refunds.

A. Fees paid to the board are nonrefundable.

#### 04. Change of Fees

Fees are subject by action of the Board of Physical Therapy Examiners. The Board shall notify licensees and applicants of changes.

## STATE FEES AND CHARGES

AGENCY: Department of Health and Mental Hygiene

DESCRIPTION OF FEE(S): Reimbursement to State for recipient certification by the Program.

STATUTORY AUTHORITY	REGULATORY CITATION	METHOD TO CHANGE
Health-General Article, 13-313	COMAR 10.20.01.04	Statute

RATE OR AMOUNT OF FEE(S): The fee only applies to recipients whose family income exceeds 175% of the poverty income guidelines or whose family liquid assets exceed 200% of the poverty income guidelines, or both. Fee is equal to the sum of 5% of adjusted gross income plus Social Security benefits, all pension or retirement benefits, or both, and all interest income not otherwise included in the adjusted gross income above 175% of the poverty income guidelines adjusted for family size plus 5% of the family's liquid assets above 200% of the poverty income guidelines adjusted for family size.

DATE FEE(S) FIRST AUTHORIZED: 1991

## **STATE FEES AND CHARGES**

### **Additional Information**

The Kidney Disease Program (KDP) Participation Fee is a sliding scale fee which may be assessed for recipient certification by the Program. Fees are assessed annually and are based upon the recipient's family income and liquid assets in excess of federal poverty guidelines as stipulated in KDP regulations. Approved Services for Medicare-eligible end-stage renal disease (ESRD) patients are 80% funded by Medicare with the remaining 20% paid by third party insurers, including the KDP. A payor of last resort, the KDP provides reimbursement for approved inpatient/outpatient hospital services, renal transplantation, chronic maintenance dialysis, home dialysis, physicians, medications, and laboratory services.

### **Additional Discussion**

The Department's Kidney Disease Program (KDP) provides funding of approved renal related treatment and medications for all KDP certified recipients. An annual KDP Participation Fee may be assessed in accordance with KDP regulations to offset Program operating costs. Most end-stage renal disease (ESRD) patients are Medicare-eligible with Medicare reimbursing 80% of provider charges and the remaining 20% paid by third party insurers, including the KDP.

### **Additional Information**

100% of the budget of the Health Services Cost Review Commission (Commission) is funded by user fee assessments against the hospitals in Maryland that the Commission regulates. Under House Bill 1072, the user fees that the Commission collects from Maryland hospitals will be put into a special continuing non-lapsing fund. This funding status became effective July 1, 1995. At the beginning of the fiscal year, the Commission computes the dollar amount to be assessed for each hospital.

The hospitals pay this assessment on a quarterly basis.

## STATE FEES AND CHARGES

AGENCY: Department of Human Resources  
Social Services Administration Adoptions

DESCRIPTION OF FEE(S): Application fees for: Mutual Consent Voluntary Adoption Registry (MCVAR); Adoption Search, Contact and Reunion registration (ASCR), or Both Services. Search Fees: Non-identifying medical/social background information from the case record; Updated non-identifying medical/social background information; Search and reunion with one parent or one adoptee, or Search and reunion with both parents or two adoptees. Training fees: Initial certification training, or refresher training.

STATUTORY AUTHORITY  
Family Law Article §§5-4A  
(.01-.07) §§5-4B-04C (3i-ii)

REGULATORY CITATION  
COMAR 07.02.12.22B(3);

### Additional Information

Boiler/Pressure Vessels: Public Safety Article 12§909-9-919-authorized around 1939.

Elevators: Public Safety Article 12§8-801-8-842 – First authorized 1974.

Amusement Rides: Business & Regulation Article 3-101 to 3-601 – First authorized 1976.

1. Fees for boiler and pressure vessel inspections done by the State are collected from the owner of the equipment. The schedule which follows replaced an earlier one in 2001.

#### Certificates of Inspection

For a boiler or pressure vessel not previously registered in Maryland.	No Charge
For a previously registered boiler/pressure vessel	\$ 40
For an additional boiler/pressure vessel previously registered in Maryland at the same location on same date.	\$ 10
For antique or model steam boiler or pressure vessel.	\$ 15
Follow-up Inspection to determine compliance	\$ 50

#### Special Inspections:

Half-day (up to 4 hours)	\$250
Full day (up to 8 hours)	\$500

2. An annual fee is levied on each company operating boilers or pressure vessels covered by the owner or user inspection service. The fee accompanies an annual statement, which is signed by the engineer who oversees the inspections. The fee schedule is as follows.

For statements covering not more than 25 vessels	\$ 5 per vessel
For statements covering more than 25 but less than 101 vessels	\$125
For statements covering more than 100 but less than 501 vessels	\$250
For statements covering more than 500 vessels	\$325

3. An authorized insurer providing insurance coverage for boilers and pressure vessels is charged the following fees for inspections performed by commissioned inspectors:

Inspection report filing fee if not filed electronically	\$5 per report
--	----------------

#### Special Inspector Commission Fees:

Competency exam or re-exam	\$ 50
Special inspector commission	\$ 50
Special inspector commission renewal or replacement or identification card	\$ 50

## STATE FEES AND CHARGES

### Additional Information - continued

4. The owner or lessee of an elevator, dumbwaiter, escalator or moving walk may be assessed an inspection fee if a State inspector concludes that newly installed equipment scheduled for a final acceptance inspection fails to meet the applicable safety codes or has not been tested or is not functional. The owner or lessee of such equipment may also be assessed an inspection fee if a follow-up inspection is required on an annual inspection to ensure compliance with corrections detailed on the inspection checklist. The inspection fee schedule is as follows:

Half day (up to 4 hours), not to exceed	\$250
Full day (up to 8 hours), not to exceed	\$500

5. The Commissioner may authorize third party qualified elevator inspections to perform certain inspections. These third party inspectors must register with the Commissioner prior to obtaining authorization. The fee to register as a third party qualified elevator inspector is as follows:

### Additional Discussion

The amusement ride and elevator inspections done by the Division of Labor and Industry help protect the safety of the general public. Funding for these inspections is generated by assessments on insurance companies collected by the Workers' Compensation Commission. Insurance companies merely pass along the costs by charging higher premiums to their customers. Since the purchasers of insurance would be liable for any injuries, they are actually the prime beneficiaries of the inspections.

The General Fund is reimbursed only for the special and for indirect costs. Inspections are done on an annual basis.

Boiler and pressure vessel inspections are undertaken by the Division of Labor and Industry to ensure the safety of the population. The inspections were undertaken after a series of incidents that endangered significant elements of the population. The costs of the examinations are borne by the owners of the boilers, who receive much of the benefit for the inspections as they would be held responsible for injuries incurred due to accidents. The fees are set at a sufficiently low level so as to impose no significant hardships on the owners.

Certificates of inspection are valid for 12 to 24 months, depending on the type of equipment.

Inspections on elevators, dumbwaiters, escalators and moving walks are conducted by State inspectors without charge provided the owner or lessee ensures the equipment is installed and maintained to applicable safety codes and regulations. If the equipment is not in compliance, requiring a subsequent inspection(s) from the State inspector, then the owner or lessee is charged an inspection fee.

### Additional Information

The Maryland Occupational Safety and Health (MOSH) program's responsibility is to ensure, as far as possible, a safe workplace for Maryland workers. Consultation and training services are also provided to Maryland employers at no direct cost. Funding for this program consists of four federal grants; two of which require 54% state funds and one requiring only 10% state funds. Program costs are obtained from the Worker's Compensation Commission, through an assessment on insurance companies.

Funds collected are not fees, but penalties paid by employers found to be in violation of Occupational Safety and Health laws, regulations or adopted standards.

### Additional Information

Owner, original	\$50	Pari-mutuel Track, Stable	
Owner, renewal	\$25	Employee or Vendor	\$ 5
Trainer	\$50	Veterinarian	\$25
Assistant Trainer	\$25	Farrier	\$10
Jockey	\$25	Maintenance Employee	\$ 5
Apprentice Jockey	\$25	Exercise Rider	\$ 5
Jockey Agent	\$25	Authorized Agent Registration	\$10
Harness Trainer	\$25	Stable Name Registration	\$75
Driver	\$25		

Mile Thoroughbred and Harness Track Licenses are \$25 per race day.

Satellite Simulcast Betting Permit Fee - \$500 annually

Note that over five million dollars are disbursed from the special fund for grants, impact aid, track operations and other related activities.

The State Racing Commission, established by {11-201 of the Business Regulation Article, licenses and regulates all employees of racetracks and all participants in races in order to ensure the integrity of the races. Aside from this societal benefit of regulation, those who are regulated accrue some benefits due to the restriction on competition that regulation brings.

Revenues received by the Department of Labor, Licensing and Regulation under Title 11 of the Business Regulation Article are paid into a special fund. Monies are disbursed from this fund for various purposes, including impact aid to localities with racetracks. At the end of the year, after these statutory disbursements have been made, the remaining money is split between the Maryland Agricultural Education and Rural Development Assistance Fund and Thoroughbred Standardbred breeder programs.

Costs of the Commission are relatively constant, especially the expenditures from the special fund, most of which are set by statute at a certain dollar amount. These costs have been around \$5 million since FY 1991. Operating expenses and salaries have totaled around \$600,000 for the last three years. Track license fees have consistently generated around \$15,000 to \$18,000, while the occupational licensing fees bring in between \$172,000 and \$300,000.

An insignificant portion of this surplus is paid for by those licensed by the Commission. Less than five percent of the Commission's revenues come from the occupational licenses, and less than one-quarter of one percent from the track licenses. The benefit of this regulation is the largest source of revenue. Others involved in racing, such as jockeys, owners and trainers, also benefit from the assurance of integrity. The distribution of burdens arising from this regulation is equitable.

### Additional Information

The Maryland Racing Commission operates a testing laboratory pursuant to 11-212 of the Business Regulation Article. This laboratory analyzes urine and blood specimens from horses that compete in races on which pari-mutuel betting takes place. The cost of operating the laboratory is funded by a special fund appropriation, but, all the associated costs of the operation are reimbursed to the State by the racetracks holding live racing. The Racing Commission estimates the cost of operations and invoices the tracks for their respective portion and makes any adjustments after the close of the fiscal year.

School, Student & Teacher's fees were eliminated July 1991. The 1991 changes repealed provisions in statute, which set fees and made fee-setting a regulatory matter.

Beginning in 1991, fees were to be structured so as to cover the costs of the Board ({4-302}).

Contracted vendor for examination administration, March 1992.

### Additional Discussion

The State Board of Barbers, established by {4-201 of the Business Occupations and Professions Article, licenses and regulates barbers in order to ensure that licensees have the experience and knowledge necessary to practice safely and with the degree of expertise indicated by the license. Aside from the societal benefits of regulation, benefits accrue to barbers through the recognition if assumed competency that licensing engenders and the restriction on competition within the trade.

All revenues received by the Department of Labor, Licensing and Regulation under Title 4 of the Business Occupations and Professions Article are paid into the general fund. The Board is required to set fees (by regulation) so as to cover the direct and indirect expenses of regulation §4-206. Staggered licenses are now in place as of 1999.

House bill 727 State Board of Barbers-State Board of Cosmetologists-Citations passed in 2005. This bill authorizes inspectors for the State Board of Barbers and the State Board of Cosmetologists to issue citation to impose civil penalties on licensees and permit holders for violation of laws and regulations. Any civil penalties imposed may not exceed \$300 for all violations cited per day. There will be a potential increase in general fund revenue from civil penalties after implementation with some offsetting expenses for any increase in administrative hearings.

The surplus is paid by the barbers and their customers (to the extent that regulatory costs can be passed on). Since these two groups are the primary beneficiaries of the regulation, it seems that the distribution of burdens is equitable. The surplus, however, means that these two groups are burdened more than the average taxpayer with paying for the general fund operations of the State of Maryland.

\*Contracted vendor for examination administration March, 1992

### Additional Discussion

The State Board of Cosmetologists, established by §5-201 of the Business Occupations and Professions Article, licenses and regulates cosmetologists and those in similar occupations in order to ensure that licensees have the experience and knowledge necessary to practice safely and with the degree of expertise indicated by the license. Aside from the societal benefits of regulation, benefits accrue to cosmetologists through the recognition of assumed competency that licensing engenders and the restriction on competition within the trade.

All revenues received by the Department of Labor, Licensing and Regulation under Title 5 of the Business Occupations and Professions Article are paid into the general fund. The Board is required to set fees (by regulation) so as to cover the direct and indirect expenses of regulation §5-205. Costs of the Board are relatively constant. Staggered licenses were implemented in 1999.

House Bill 727 State Board of Barbers-State Board of Cosmetologists-Citations passed in 2005. This bill authorizes inspectors for the State Board of Barbers and the State Board of Cosmetologists to issue citation to impose civil penalties on licensees and permit holders for violation of laws and regulations. Any civil penalties imposed may not exceed \$300 for all violations cited per day. There will be a potential increase in general fund revenue from civil penalties after implementation.

The activities of the Board consistently generate a large surplus paid by cosmetologists and their customers (to the extent that regulatory costs can be passed on). Since these two groups are the primary beneficiaries of the regulation, it seems that the distribution of burdens is equitable. The surplus, however, means that these two groups are burdened more than the average taxpayer with paying for the general fund operations of the State of Maryland.

Reactivation from inactive status	40	
Reinstatement of expired inactive license	20	

Licenses and renewals are valid for two years.

The fees for the first grouping above are set by statute. The fees relating to the Uniform CPA Examination; the original examination application fee, proctoring fee and exam section fees are set by regulation.

### Additional Discussion

The State Board of Public Accountancy, established by §2-201 of the Business Occupations and Professions Article, licenses and regulates certified public accountants in order to establish a high standard of integrity and dignity for practicing certified public accountancy. Aside from the societal benefits of regulation, benefits accrue to accountants through the recognition of assumed competency that licensing engenders and the restriction on competition within the trade.

## **STATE FEES AND CHARGES**

### **Additional Discussion Continued**

All other fees are deposited in a special fund and used exclusively to offset the expenses incurred by the Board for the administration, proctoring, grading and any other expenses associated with the Uniform CPA Examination. The fees, which are set primarily by statute, and other revenues which the Department of Labor, Licensing and Regulation receives under Title 2 of the Business Occupations and Professions Article, are paid into a non-lapsing special fund.

There is no legal requirement, which links revenues and expenditures of the Board, though there is a logical connection. Costs of the Board are relatively constant.

The benefits of regulating accountants are captured primarily by accountants and their customers. Although these two groups bear the costs of regulation, which implies the distribution of the burden is equitably placed, the large surplus means that accountants and their clients are bearing a larger burden of general fund expenditures than the average Maryland citizen.

## **STATE FEES AND CHARGES**

### **Additional Discussion**

The State Board of Stationary Engineers, regulated by Title 6.5 of the Business Occupations and Professions Article, Annotated Code of Maryland, licenses and regulates those who desire to operate steam and power generators, heating plants and boiler, in order to safeguard the general public and promote the safe operation of such plants and machinery. The benefits associated with this regulation are primarily public in nature.

By law, revenue must be deposited in the general fund and shall be at least equal to the direct and indirect costs associated with the operation of the regulatory program. The benefits of this regulation are captured primarily by the general public and employees of those who are regulated. FY 2006 is the first year of the new Board's operation. Fees were set at a level to recover estimated direct and indirect costs. Prior fiscal history is not relevant as the cost recovery requirements represent new law. The costs are paid by those with the above-mentioned machinery and, to the extent that costs can be passed on, by their customers. There is almost no private benefit to be had from this regulation, yet the costs are borne privately, by the regulated group.

Transfer	\$ 50
Change of Status	\$ 50
Late Renewal	\$ 25/30 days, \$50/60 days, \$100/over 60 days
Examination Fee	\$ 65

### Additional Discussion

The State Board of Master Electricians, established by §6-201 of the Business Occupations and Professions Article, licenses and regulates electricians in order to ensure that licensees have the experience and knowledge necessary to practice safely and with the degree of expertise indicated by the license. Aside from the societal benefits of regulation, benefits accrue to master electricians through the recognition of assumed competency that licensing engenders and the restriction on competition within the trade.

All revenues received by the Department of Labor, Licensing and Regulation under Title 6 of the Business Occupations and Professions Article are paid into the general fund. There is no legal requirement that connects these revenues with the expenses of the Board, but there is logical relationship between the two.

Renewal fees are the same as the license fees. Both are valid for two years. Effective in 2005, all examinees, regardless of category, pay an examination fee of \$65 directly to the state's examination contractor.

### Additional Discussion

The State Board of Plumbing, established by §12-201 of the Business Occupations and Professions Article licenses and regulates plumbers to protect the potable water supply and to ensure that licensees have the experience and knowledge necessary to practice plumbing safely and with the degree of expertise relevant to the license. Aside from the societal benefits of regulation, benefits accrue to plumbers through the restriction on competition within the trade.

All revenues received by the Department of Labor, Licensing and Regulation under Title 12 of the Business Occupations and Professions Article are paid into the general fund. There is no legal requirement that connects these revenues with the expenses of the Board, but there is a logical relationship between the two.

### Additional Discussion

The Department of Labor, Licensing and Regulation regulates secondhand precious metal object dealers and pawnbrokers (Business Regulation Article, Title 12). To deal in these areas, one must receive a license from the Department. Licensing ensures that licensees will be cooperative with efforts to recover stolen materials. As there are no requirements for licensure other than providing information, the regulated group gains no competitive advantage. Regulation of this group serves the public interest, but not private interest.

The licensees and their customers are bearing more than 100% of the costs of this program, while deriving no private benefit other than leave to do business. Despite the relatively large annual surplus and the fact that licensing does not serve any direct interest of the licenses, the cost of applying for a license was raised in 1991 from \$200 to \$300, and background checks were instituted, which cost \$42 per employee. The renewal fee had increased from \$200 every other year to \$300 in 1991, but the re-codification of the Business Regulation Article reduced it back to \$200. Fees for original licenses and renewals were reduced to \$15 in 1997. Fee collection for criminal background checks were transferred to CJIS in 1997.

Starting in June 1997, candidates take the exam on computer.

### Additional Discussion

The State Board of Architects, established by §3-201 of the Business Occupations and Professions Article, licenses and regulates architects in order to safeguard life, health, public safety and property and to promote the public welfare. Aside from the societal benefits of regulation, benefits accrue to architects through the recognition of assumed competency that licensing engenders and the restriction on competition within the trade.

Effective July 1, 2003, the fund status of this Board was changed to special fund as it became part of the Occupational and Professional Licensing Design Board's Fund. Non-examination related revenues and expenditures for five design regulatory Boards were clustered in one operational fund. Board's were granted fee setting authority and equalized the primary original and renewal licensing fees for all Boards at \$78. This was reduced to \$68 effective April 9, 2007. Revenues are required to cover direct and indirect costs of operating the cluster as certified by the Secretary of Department of Labor, Licensing & Regulation (DLLR).

The benefits of regulating architects are captured by architects, their customers, and the general public (who can be assured that buildings are well-constructed).

### Additional Discussion

The State Board for Professional Land Surveyors, established by {15-201 of the Business Occupations and Professions Article, licenses and regulates land surveyors to ensure that licensees have the requisite experience and knowledge to be a land surveyor. Aside from the societal benefits of regulation, benefits accrue to land surveyors through the restriction on competition within the trade.

Effective July 1, 2003, the fund status of this Board was changed to special fund as it became part of the Occupational and Professional Licensing Design Board's Fund. Non-examination related revenues and expenditures for five design regulatory Boards were clustered in one operational fund. Boards were granted fee setting authority and equalized the primary original and renewal licensing fees for all Boards at \$78. This was reduced to \$68 May 5, 2007. Revenues are required to cover the direct and indirect costs of operating the cluster as certified by the Secretary of DLLR.

Land surveyors, and their customers (to the extent that costs of regulation can be passed on), bear the costs of this regulation. The benefits of regulation, however, are captured by these two groups and the general public.

AMOUNT OF OTHER GENERAL  
OR SPECIAL FUNDS USED  
FOR SAME EXPENDITURES: N/A

### Additional Discussion

The State Board of Foresters, established by §7-201 of the Business Occupations and Professions Article, regulates professional foresters. Those who wish to practice forestry in the State must receive a license from the Board. The regulation is intended to benefit and protect the public and promote the public welfare. Aside from these social benefits of regulation, foresters benefit privately by the limitation of competition within the trade and the assumed competency that licensing engenders.

All revenues received under Title 7 of this article are paid into the general fund. No legal requirement exists which ties receipts and expenditures of the Board, though there exists a logical connection between the two.

As the total economic benefit derived from the regulation of foresters is both public and private in nature, the general public and foresters as a group should share the costs of regulation. In as much as the costs of licensing and other fees assessed foresters are passed on to consumers of their services, the burden is shared.

## **STATE FEES AND CHARGES**

### **Additional Information**

The State Board of Pilots, established by §11-201 of the Business Occupations and Professions Article, licenses and regulates pilots operating in Maryland waters. The Board is responsible for ensuring that safe pilotage is provided. Aside from this societal benefit of regulation, benefits accrue to pilots through the assumption of competency that licensing engenders and the restriction of competition within the trade.

The disposition of remaining funds is not specified in statute, but in practice it goes into a special fund for the Board. As licensing fees are the primary source of revenue for the Board, these fees must cover expenses.

Since the Board's compensation must be covered, the Board may require flexibility in setting its fees. Because, over a two-year period, revenues are so much greater than the total expenditures for the Board, flexibility is not needed at the current time, although the fees are set in statute (BOP §11-406) so the Board has relatively less leeway than otherwise possible. The unlimited license fee increased from \$400 to \$600 in 1989, while the limited licenses have been changed since at least 1984.

## STATE FEES AND CHARGES

### Additional Discussion

The State Board of Examiners of Landscape Architects, established by §9-201 of the Business Occupations and Professions Article, regulates and licenses landscape architects in order to safeguard public welfare, health and property and to promote the public good. Aside from these societal benefits of regulation, benefits accrue to landscape architects through the recognition of assumed competency that licensing engenders and the limitation of competition within the trade.

It had been the case that statute required all authorized expenses of the Board be payable only from monies collected by the Board. This requirement was changed in 1992, however, when all revenues became general fund revenues. Effective July 1, 2003, the fund status of this Board was again changed to special fund as it became part of the Occupational and Professional Licensing Design Board's fund. Non-examination related revenues and expenditures for five design regulatory Boards were clustered in one operational fund. Boards were granted fee setting authority and equalized the primary original and renewal licensing fees for all Boards at \$78 which was reduced to \$68 effective May 7, 2007. Revenues are required to cover the direct and indirect costs of operating the cluster as certified by the Secretary of DLLR. By statute, landscape and their customers bear the burden of costs of this regulation, which is equitable as they are the primary beneficiaries.

OR SPECIAL FUNDS USED  
FOR SAME EXPENDITURES: N/A

Department of Labor, Licensing & Regulation  
Home Improvement Commission

P00F0117

## **STATE FEES AND CHARGES**

### **Additional Discussion**

The Maryland Home Improvement Commission was established by Article 56, Section 250 in 1962. The Commission licenses and regulates home improvement contractors, subcontractors and salespersons to ensure that consumers dealing with these licensees are afforded protection under the law.

An applicant for a contractor's, sub-contractors or salesperson's license must pass an examination as required since 1979 under Article 56, Section 257D. Pursuant to Section 8-302(g), Business Regulation Article, the Commission may use a testing service to administer the required examinations.

The Home Improvement Guaranty Fund, established by Article 56, Section 277A in 1985, compensates homeowners for losses due to poor, unworkmanlike, inadequate or incomplete work by licensed contractors. Each contractor pays an initial fee of \$100 into the Fund in addition to the licensing fee and a \$100 assessment at every license renewal. Over the last fifteen years the assessment at renewal has fluctuated between \$50 and \$100. Renewal assessments are evaluated by the Commission and the Department every two years, based on the current fund balance, pending claims and past claims pay-out rates. Effective with licenses expiring on or after July 1, 2006, the renewal assessment will be \$75.

All revenues from license fees received by the Department of Labor, Licensing and Regulation under Title 8 of the Business Regulation Article are paid into the general fund. There is no legal requirement that connects these revenues with the expenses of the Commission, but there exists a logical relationship. Costs of the Commission are relatively constant and since the initiation of staggered license expiration dates in 1999, revenues have remained consistent. Original licenses issued after April 2000 must be renewed every two years from the date of issuance of the original license. This has eliminated the previous revenue fluctuation when the expiration of all licenses was on the same two-year cycle. The costs of the program are aid by licensees, and the costs associated with regulation may be passed on by licensees to consumers. Since the benefits of regulation are captured by both licensees and homeowners, the distribution of burdens appears equitable. Licensing fees for contractors, subcontractors and salespersons were raised in 1992 by 28.6%, 67% and 50% respectively.

Department of Labor, Licensing & Regulation  
Real Estate Commission

P00F0118

## **STATE FEES AND CHARGES**

### **Additional Discussion**

The Real Estate Commission, established by §17-201 of the Business Occupations and Professions Article, licenses and regulates real estate brokers and salespeople to ensure that licensees have the experience and knowledge necessary to practice competently. Aside from the societal benefits of regulation, benefits accrue to brokers and salespeople through the recognition of assumed competency that licensing engenders and the restriction on competition within the trade.

Through June 30, 2006, all revenues received by the Department of Labor, Licensing and Regulation under Title 16 of the Business Occupations and Professions Article are paid into the general fund. There is no legal requirement that connects these revenues with the expenses of the Commission, but a logical relationship exists between the two. Effective July 1, 2006 all revenues, except penalties and fines shall be deposited in the Real Estate Special Fund. Title 17 as amended establishes that these revenues must be sufficient to cover the direct and indirect cost of licensing and regulatory program for Real Estate Professionals. The Secretary of DLLR shall certify costs annually and effective July 1, 2007 the Commission shall be responsible for establishing fees sufficient to cover costs.

AMOUNT OF OTHER GENERAL  
OR SPECIAL FUNDS USED  
FOR SAME EXPENDITURES: None

## STATE FEES AND CHARGES

### Additional Information

	<u>New Schedule (7/98)</u>	<u>Old Schedule</u>
Promoter	\$ 150	\$ 300
Referee	\$ 15	\$ 25
Boxer	\$ 10	\$ 20
Second	\$ 10	\$ 20
Manager	\$ 25	\$ 50
Matchmaker	\$ 25	\$ 50
Wrestler	\$ 10	\$ 20
Kick boxer	\$ 10	\$ 20
Judge	\$ 15	\$ 25
Sports Agent	\$ 1000	

### Additional Discussion

The State Athletic Commission, established by §4-201 of the Business Regulation Article, licenses and regulates participants, promoters, referees and judges of boxing, wrestling and kickboxing events, as well as sports agents, in order to ensure that these events are fairly conducted and are safe for the participants. The benefits arising from this regulation accrue primarily to participants in these events, in the form of safeguards for their well-being. The public also benefits through the protection of the integrity of the events.

All revenues received by the Department of Labor, Licensing and Regulation under Title 4 of the Business Regulation Article are paid into the general fund. There is no legal requirement that connects these revenues with the expenses of the Commission, but a logical relationship exists between the two.

The Commission generates a large surplus every year, but this is not due to the licensing fees. The surplus results from payments for services such as pay-per-view and closed circuit television and admission taxes. The distribution of burdens appears equitable. Participants in the matches benefit in a more direct and substantial manner than anyone else, but the per capita cost to the general public (i.e., those in attendance and watching on television) is very low.

## **STATE FEES AND CHARGES**

### **Additional Information**

The State waives these fees in several situations. For example, if the participant is indigent, disabled or attending school, they may receive an exemption.

### **Additional Discussion**

The Division of Parole and Probation is responsible for monitoring offenders which have been sentenced to parole or probation. In order to offset the costs of monitoring the offenders, fees are collected and credited to the general fund. However, many offenders do not pay their fees because their funds are limited or they receive other exemptions. Furthermore, courts often place higher priorities on funds received from people within their supervision. For example, funds collected may be assigned to court fees, victim compensation, or fines before the remainder will be turned over to the Parole and Probation Division for supervisory fees. This often results in a shortfall between fees collected and the actual costs of supervision.

## STATE FEES AND CHARGES

## **STATE FEES AND CHARGES**

### **Additional Information**

The State may waive these fees in several situations. For example, if the participant is indigent, disabled or attending school, they may receive an exemption.

### **Additional Discussion**

The Division of Parole and Probation is responsible for monitoring offenders that are participating in the Drinking Driver Monitor Program. In 2005, the program was moved from a generally funded program to a special fund, which is operated solely from the program fees collected from offenders. In order to offset the costs to monitor the program, fees are collected and credited to the special fund. However, some offenders are exempted from payment of fees. This may result in a shortfall between fees collected and the actual costs of the Drinking Driver Monitor Program.

## **STATE FEES AND CHARGES**

### **Additional Information**

#### **DESCRIPTION OF FEE(S): General Educational Development Test Fees**

##### **FEES FOR GED SERVICES**

First-time scheduling fee for testing and the diploma	\$45
Rescheduling/re-testing fee	45
Diploma fee when tested outside Maryland	15
Fee for each transcript of scores	5
For a returned check	20

Please note: Fees are not refundable under any circumstances. Failure to appear for the test when scheduled requires a waiting period (approximately two months) and repayment of the \$45 scheduling fee. Being turned away from the test center for expired or incorrect ID also requires a waiting period of approximately two months and repayment of the \$45 scheduling fee.

Only checks and money orders are accepted. Make checks and money orders payable to MSDE-GED Office. Checks returned as uncollectible will incur a penalty, (see fee structure listed above). No service will be rendered by the GED Office until all payments have been cleared.

Fee(s) must accompany your test application and all other requests for GED services. Applications are accepted on a first come, first serve basis.

### **Additional Information**

#### **UNIVERSITY SYSTEM OF MARYLAND TUITION**

##### **Tuition Policy**

Annually, the Board of Regents will approve the tuition rates included in the institutional tuition plans. Tuition for each category of student at an institution will be established either as a semester cost or specified as a cost per credit hour.

This policy provides for undergraduate tuition to be established independent of tuition at comparable institutions. However, tuition information for comparable institutions within the region and nationally is to be made available to the Board of Regents Committee on Finance at the time it considers the operating budget request and the related tuition adjustments.

#### BALTIMORE CITY COMMUNITY COLLEGE TUITION AND FEES

Tuition and academic fees at Baltimore City Community College are one of the State's lowest when compared to other Maryland community colleges. FY 2008 in-state tuition is \$2,722 per year for full time students (\$78 per credit hour) and \$6,382 for non-residents (\$200 per credit hour). Annual tuition and fees for full-time State residents enrolled at Baltimore City Community College are among the three lowest of any Maryland Community College.

Unrestricted Revenue	Tuition and Fees <u>Actual FY 08</u>
Credit Tuition	\$11,929,857
Non-credit Tuition	1,363,058
Deferred/Late Payment Fees	171,708
Consolidated Fees	1,445,724
Facilities Capital Fees	178,259
Technology Fees	3,425
Application Fees	69,230
Add/Drop Fees	53,861
Dental Clinic	16,205
Library Fines	13,214
Transcript Fee	54,068
Miscellaneous Fees	<u>55,717</u>
<b>TOTAL TUITION AND FEES</b>	<b>\$15,354,326</b>

## STATE FEES AND CHARGES

### Additional Information

Mitigation is a requirement of a Non-tidal Wetland Permit issued by MDE. The Department may accept compensation only if it is determined that creation, restoration or enhancement of Non-tidal Wetlands are not feasible alternatives.

The Department may determine monetary compensation fees based on costs anticipated to construct mitigation projects, including location and acquisition of land, design, construction, maintenance, and monitoring costs.

AGENCY: Maryland Department of the Environment-Waste Water Treatment Plants

DESCRIPTION OF FEE(S): Bay Restoration Fund

STATUTORY AUTHORITY	REGULATORY CITATION	METHOD TO CHANGE
Environment Article, Title 9-1605.2 - Water Quality Financing Administration	None	Statutory

RATE OR AMOUNT OF FEE(S): \$2.50/month per user of sewerage or septic system

DATE FEE(S) FIRST AUTHORIZED: January 1, 2005

DATE AND AMOUNT OF LAST CHANGE: No change since inception

PURPOSE OF FEE(S): The fees are collected by local billing authorities and deposited to the Maryland State Comptroller, who in turn transfers certain funds to MDE for the following purposes:

A. Fees collected from sewer system users can be used to provide grants for Enhanced Nutrient Removal (ENR) at major wastewater treatment plants (WWTP), rehabilitation of existing sewer collection systems and ENR operation and maintenance costs. Up to 1.5% of the MDE sewer revenue may be used by MDE to administer this capital program.

B. 60% of the fees collected from septic system users can be used to provide grants or loan for upgrade of septic systems with best available nitrogen removal technologies. 40% of the fees go to Maryland Department of Agriculture for the cover crop program. Up to 8% of the MDE septic revenue may be used by MDE to administer this capital program.

## **Additional Information**

Rate or Amount of Fee:

1) Permit Fee	
Construct & operate an incinerator	\$750
Research projects as approved by MDE	25
Distribution	750
Innovative projects, fee not to exceed	750
Transportation, when permitted separately	45
Beneficial use at a sanitary landfill	125
Application to agricultural land	175
Application on marginal land	350
Construct & operate a permanent facility other than an incinerator	350
Disposal at a sanitary landfill	350
Minor modifications	40
Substantive modifications	130

Note: Renewals are charged the same fee amount as new permits.

## **Additional Discussion**

The Sewage Sludge Utilization permit fee is set by regulation, and complements the Annual Generator fee to support the operating expenses of the sewage sludge program within the Waste Management Administration. The fees are levied at varying rates, depending upon the type of permit.

### **2) Generator Fee**

The fee charges for generators of sewage sludge vary dramatically by the amount of sludge generated and the category of the permittee. Essentially, the fee for a sewage sludge generator in Maryland is calculated as a base rate of \$1 per wet ton of sewage sludge, which is then multiplied by an adjustment factor from 0.3 to 1.55 based on the classification of the sludge and the activity of the permittee. Basically, the fee is set to reflect the hazard and regulatory effort caused by the permittee.

## STATE FEES AND CHARGES

AGENCY: MDE - Waste Management Administration

## **STATE FEES AND CHARGES**

### **Additional Information**

#### **Electronic Manufacturer Registration fee**

This fee applies to all electronics manufacturers that manufactured an average of more than 1,000 covered electronics devices per year in the immediately preceding three year period. This is an annual fee with the first yearly payment due by January 1, 2007. The fee is:

- 1) \$10,000 for the initial registration by the manufacturer;
- 2) \$5,000 for each subsequent annual registration by a manufacturer that did not have an implemented electronics take back program in the prior year; or
- 3) \$500 for each subsequent annual registration by a manufacturer that had an implemented electronics take-back program in the prior year.

The Statewide Electronics Recycling Pilot Program, which requires these fees became a permanent program October 1, 2007.

## STATE FEES AND CHARGES

AGENCY: MDE - Waste Management Administration

DESCRIPTION OF FEE(S): Recycling fee - sale of new tires.

STATUTORY AUTHORITY	REGULATORY CITATION	METHOD TO CHANGE
Environment Article, Title 9-228	26.04.08	Legislation

RATE OR AMOUNT OF FEE(S): \$0.80 per tire on first sale of new tire in the State by a tire dealer.

DATE FEE(S) FIRST AUTHORIZED: 1992

DATE AND AMOUNT OF LAST CHANGE: Fee increased from \$0.40 to \$0.80 effective April 1, 2005.

PURPOSE OF FEE(S): To fund regulatory program - clean up tire stockpiles, perform remedial actions, and finance projects to reduce, recover, and recycle scrap tires.

FY 2008 REVENUES: \$3,830,945

FUND THAT REVENUES  
ARE CREDITED TO: Used Tire Cleanup and Recycling Fund

OTHER REVENUE SOURCES  
FOR THE SPECIAL FUND: Penalties, Cost Recovery

AMOUNT AND NATURE OF ASSOCIATED EXPENDITURES:	3080	\$2,024,131
(INCLUDE BUDGET CODES)	3110	<u>233,179</u>
	Total	\$2,257,310

AMOUNT OF OTHER GENERAL  
OR SPECIAL FUNDS USED  
FOR SAME EXPENDITURES: None

### Additional Discussion

The maximum fee placed on the sale of new tires is set by legislation. The specific rate is set by the Board of Public Works (BPW). The statutory limit was initially set at \$1.00 per tire, and the BPW set the fee at this limit. In 2000 the statutory limit was reduced to \$0.40 per tire and the BPW set the fee at \$0.40. In 2004 the statutory limit was restored to \$1.00 per tire. The fee remained at \$0.40 until the BPW increased it to \$0.80 per tire effective April 1, 2005.

---	-----------

## **STATE FEES AND CHARGES**

### **Additional Discussion**

The Oil Disaster Containment, Cleanup and Contingency Fund has been established by the Department of the Environment to support response and clean-up remedies for oil spills and preventative permit and inspection program for petroleum transportation, transfer and aboveground and underground storage in the State.

The Oil Contaminated Site Environmental Clean-Up Fund was established by the Department of the Environment to provide financial assistance to owners of underground storage tanks and aboveground residential heating oil tanks. Applications, as of July 2005, are accepted only for heating oil clean-up. Out of the \$.0575 collected per barrel of oil, \$.0175 per barrel is allocated by legislation to fund this program.

In April 2006, fees for certification of third party inspectors to conduct environmental compliance audits and inspections of underground storage tank systems were established.

Controlled Hazardous Substances

U00A0601E

## STATE FEES AND CHARGES

### Additional Information

#### Facility Permit Fees

The rate for facility permit fees is determined by the Department, according to guidelines established in §7-237 of the Environment Article. This Section states that the rates of the fees should be set on the basis of the following criteria:

The threat to the environment posed by the particular controlled hazardous substance.  
The anticipated cost of monitoring and regulating the facility.  
The anticipated needs for program development activities relating to the management of controlled hazardous substances.  
The anticipated cost of removing and properly disposing of any controlled hazardous substance that may escape from the regulated facility.

The law determines the criteria for the setting of fees. Fees are established or amended in regulation.

#### Hauler's and Driver's Certificates

The Department has authority to set the rates of these fees, with a maximum set in law. The statutory provisions are as follows:

<u>Type of Certificate</u>	<u>Citation</u>	<u>Maximum Fee</u>	<u>Current Fee</u>
Vehicle Certification	§7-252(a)	\$ 50	\$50
Driver Certification	§7-252(b)	20	20

As both of the fees are currently set at their maximum rates, a statutory change would be required to increase their rates.

### Additional Discussion

With legislative direction, the fee-setting structure for Controlled Hazardous Substance facility permits is specifically determined by regulation. The system of determining the fee for a particular facility (as detailed on the previous page) is based on a combination of the costs to regulate the facility and the potential harm caused by the facility. This method seems to represent an effective combination of two justifiable methods of fee setting, which seems entirely appropriate for this case.

The direct costs of permitting activities are supported by special and federal fund revenues as well as general funds. Other necessary activities are supported by general fund subsidies.

### **Additional Discussion**

The Waste Management Administration approves Notice of Intent (NOI) requests for two General Discharge Permits issued by the Administration's Oil Control Program. These permits are authorized through 2007 and the applicable fee is \$120 (prorated) with the NOI submittal and \$120 per year thereafter, due each July 1.

Individual Discharge Permits are also approved by the Administration for specific oil terminals and landfills. These permits are required to follow APA procedures that include public notification and input during the permitting process. These permits are valid for 5 years.

## STATE FEES AND CHARGES

AGENCY: MDE - Air and Radiation Mgmt. Admin.

DESCRIPTION OF FEE(S): Maryland Clean Air Fund fees

STATUTORY AUTHORITY	REGULATORY CITATION	METHOD TO CHANGE
Environment Article, Titles 2 & 6	26.11.02 - 23	Regulation

RATE OR AMOUNT OF FEE(S): Numerous fees are applied, at various rates. A complete schedule of these fees is provided on the following page.

DATE FEE(S) FIRST AUTHORIZED: Generally 1988

DATE AND AMOUNT OF LAST CHANGE: Various changes by regulation

PURPOSE OF FEE(S): These fees fund activities related to identifying, monitoring and regulating air pollution, including program development of these activities.

FY 2008 REVENUES: \$5,926,612

FUND THAT REVENUES  
ARE CREDITED TO: Clean Air Fund

OTHER REVENUE SOURCES  
FOR THE SPECIAL FUND: Additional fines and penalties

## STATE FEES AND CHARGES

### Additional Information

Air Quality Construction Permit and Operating Permit Fees  
Environment Article {2-403, COMAR 26.11.02.16-.19.

Rates: Permit to construct rates are application-specific, and are laid out in the COMAR regulations. The fees range from \$200 to \$20,200, based on the type of permit.

Permit to operate fees was amended in 1992 to comply with requirements of the Federal Clean Air Act Amendments of 1990. The revised fee schedule has led to a significant enhancement in revenue to support the costs of achieving federal goals, with a fee schedule phased in as follows:

CY 1993 - 2006	Range from \$15/ton to \$39.48/ton of regulated emissions
CY 2007	\$41.02/ton - \$328,047/cap
CY 2008	\$41.96/ton - \$335,559/cap

The Maryland Clean Air Fund is established within the Air and Radiation Management Administration to support the Department's efforts to maintain the degree of purity of the air necessary to protect the health, the general welfare, and property of the people of Maryland. Special fund revenue to the Maryland Clean Air Fund is derived from fees, licenses and penalties.

Chapter 358 of the Acts of 1993 has replaced the old system of industry-based operating permit fees in favor of emission-based permit fees for stationary source polluters. The new fee schedule is intended to meet federally-designed "presumptive minimum" funding levels. The breakdown of the FY08 total special fund revenue to the Maryland Clean Air Fund is as follows:

Clean Air Act Title V Operating Permits	\$3,531,638
Non-Title V Operating Permits	\$ 520,501
Construction permits	\$ 706,010
Asbestos Licenses	\$ 74,875
Asbestos Training Fees	\$ 17,275
Penalties	\$1,076,313
Miscellaneous	

Clean Air Act Title V Operating Permit Fee Revenues are projected to be as follows:

<u>FY 2009</u>	<u>FY 2010</u>
\$4,751,230	\$4,751,230

MD Department of the Environment  
Air & Radiation Mgmt. Admin.  
Maryland Clean Air

U00A0701A

## STATE FEES AND CHARGES

### Additional Information, Continued

Beginning in calendar year 1997, these fees have been adjusted in accordance with the Consumer Price Index, such that fees established under this section may not exceed \$700,000 for any single source.

The State's air pollution control program also is funded from sources other than the Maryland Clean Air Fund as follows:

	<u>FY08 Appropriation</u>
General Funds	\$ 2,206,218
Other Special Funds	2,115,224
Federal Funds	3,616,956
Reimbursable Funds	<u>2,878,592</u>
Total	<u>\$10,816,990</u>

## STATE FEES AND CHARGES

### Additional Information Continued

#### Past Due Fees for Unregistered Facilities

Accelerators	\$2,500
Hospital Machines	500
Medical	500
Other Medical & Industrial	500
Dental	80
Veterinary	575
Mammography	500

#### Radiation Machine Fees (annualized)

Accelerator	\$ 500
Hospital Machines	100
Medical	100
Other Medical & Industrial	100
Veterinary	115
Dental	80
Mammography	100

NOTE: All biennial fees invoked in annual installments.

#### Additional Discussion

The Department of the Environment supports its Radiological Health Program in part with fees levied on persons or firms possessing and using radiation machines and radioactive materials.

The fee to cover the costs of inspecting and regulating each dental radiation machine is established in the Maryland Code. All other types of fees are established by regulation, designed to cover the costs of the Department in issuing licenses, registrations, certifications and to regulate the use of the machines or materials.

## STATE FEES AND CHARGES

### Additional Information

Fees are charged annually to two groups of Radioactive Materials users. An annual fee is charged for users holding a Maryland Radioactive Material License. An identical fee is charged to an out-of-state user working in Maryland, under reciprocal recognition of the U.S. Nuclear Regulatory Commission Agreement. Other fees apply to Sealed Source and Device registration and to annual general license fees.

The schedule for each fee is as follows:

Academic Type A Broad	\$1,675	Manufacturing and Distribution	\$ 475

### Additional Discussion

The State Police license special police commissions in the State. Often private organizations wish to employ a security force which has limited police powers (e.g., the power of arrest). The security organizations are required to obtain special police commissions which are licensed by the State Police. The fees are designed to offset the cost of licensing the organizations. The fees are credited to the general fund.

\* Superintendent refers to the Superintendent of the State Police.

### Additional Information

The Maryland State Police charges a \$5 fee for preparing fingerprint cards. Exempted from this fee are fingerprints taken because of law enforcement action, fingerprints retaken because of an error by the Department and those fingerprint fees waived by the Superintendent. Before the fees were charged, the State Police was the only organization in many areas which provided fingerprints at no cost. This resulted in some police barracks spending too much time preparing fingerprints. It is hoped that the fees will reduce the volume of fingerprinting requests, thus enabling troopers to concentrate more of their efforts on law enforcement.
