MEMA Team PLUNGES for Special Olympics

Coming off of the adrenaline of the 2009 Inaugural activities, a team from the Maryland Emergency Management Agency took a chilly plunge into the Chesapeake Bay to benefit the Special Olympics of Maryland.

The 13th Annual Maryland State Police Polar Bear Plunge was held on Saturday, January 24th at Sandy Point State Park. The event raised more than \$3 million for Special Olympics of Maryland and attracted over 11,000 Plungers, including Governor

O'Malley, Ravens Quarterback Joe Flacco, and MEMA's own, Director Richard Muth.

Team MEMA had 12 plungers in its inaugural debut and raised over \$5,000 in donations.

Team MEMA after the icy plunge into the Chesapeake Bay

"I was honored to be a part of such a worthy fundraising effort and proud of the staff and their families that participated", said Director Muth. "It is my hope that Team MEMA will grow for next year's Plunge and this will become an annual MEMA tradition."

Next year's Plunge is scheduled for Saturday, January 30, 2010. Stay tuned for information on the 2010 Team MEMA efforts!

Harford County Implements Connect-CTY Service

Harford County has become the first county in Maryland, to implement the Connect-CTY multi-modal mass notification and alert service from Blackboard Inc., for emergency management notifications. The Connect-CTY service provides county officials the ability to communicate with residents, businesses and staff regarding time-sensitive incidents, which may include planned and unforeseen public safety matters.

Officials are able to send an unlimited number of messages and can do so from any computer with Internet access or telephone. It combines voice, text-messaging, and e-mail, enabling safety officials to simultaneously send messages to all available contact points for each person. The accessibility of Connect-CTY ensures that officials can send

vital messages from wherever they are located—even if they are evacuated.

Messages can also be targeted to an unlimited number of groups—from mobilizing emergency response teams, to coordinating efforts with necessary agencies or volunteers. Authorized users also can use a map on the Connect-CTY system to contact specific geographical locations, sending messages only to the residents within select neighborhoods when needed.

"Harford County decided to replace our outdated auto-dialer system with a system offering greater ease of use, access from any location, and a faster way to notify our citizens," states County Emergency Manager, Rick Ayers. "The Connect CTY service provides fundamental advantages over

the previous, hardware-based notification system. With the Connect CTY service, Harford County is better prepared to provide its citizens with accurate, up-to-date information quickly and easily."

Publicly available primary residential and business phones in Harford County will automatically be included in the system. Residents can opt-in to provide their complete information (up to three phone numbers and two e-mail addresses) and indicate if they have a TTY/TDD device by visiting the Harford Web site (<http://www.harfordcountymd.gov/>) and clicking on the link that says "SIGN UP NOW – SERVICES BY CONNECT-CTY" to enter their information into the secure database.

International Student Workers Evacuation Plan

Touted as a significant collaborative process between local emergency managers and MEMA, the State of Maryland's Evacuation and Relocation Plan for the Ocean City International Student Workforce was developed to address the inability of Ocean City's International Student Work Force to self-evacuate in an emergency. The workforce, comprised mainly of young adults from Eastern Europe and Russia, accounts for a large portion of the employees in Ocean City's numerous shops, hotels, and restaurants during the summer tourist season. At peak season, the workforce includes approximately 5,000 individuals, nearly all of whom rely on public transportation for day-to-day travel. MEMA's Regional Staff, who by understanding the potential hazards of living in a coastal community, particularly for individuals lacking private modes of transportation, engaged, coordinated and collaborated with Ocean City and Worcester County to identify the Workforce as a population requiring special evacuation planning measures in order to ensure their safety during an emergency.

The Plan represents both a comprehensive approach to evacuation and sheltering the Student Workforce population ensuring their safety and ability to either return to work or return home; and the collective efforts of the Town of the Ocean City, Worcester County, MEMA, Maryland Department of Transportation, Maryland Department of Human Resources, and representatives for the Ocean City Seasonal Workforce Committee. A major assumption of the Plan is that the evacuation will be prompted by notice of an event, such as a hurricane, where the Workforce can be evacuated in advance of the general population. The Plan has two major components: a transportation component and a sheltering component. It estimates that the Workforce can be moved to the shelter location(s) within twenty-four hours of implementation. This report is generated as result of the thorough assessment and evaluation of both the Worcester County Emergency Operations Plan and the Ocean City Emergency Operations Plan. The Plan stands as a model for future planning efforts which will enable us to assist other vulnerable populations. Work on this initiative began in early November 2008 and was completed on March 1, 2009. The Plan has been completed well ahead of the student workforce's arrival. It can be shared and reviewed with them during their orientation later this spring.

Not only is this plan a notable achievement for MEMA and the local jurisdictions but it serves as an excellent example of Maryland's proactive emergency preparedness efforts. Committee members hope it will also serve as a Best Practices Model for other states.

**NCR Planner,
Kimberly Nagle**

Kimberly Nagle comes to MEMA via UMB-CHHS. She was previously the regional planner for the Virginia Department of Emergency Management. Though she lives in Virginia, she says that Maryland is the better side of the river. While at MEMA she will be working out of the Montgomery County Emergency Management office to focus on National Capital Region planning efforts. Kimberly – not Kim – is married and has 2 orange tabby cats –

New Faces at MEMA

George (aka psychocat) and Sam (aka speedbump).

Rebecca Heinlein-Davis, more commonly referred to as Becky, was recently hired as a MJOC Operations Officer. She has been an active volunteer at Middle River Volunteer Ambulance and Rescue in Baltimore County for more than 10 years and currently serves as the secretary. Becky also works as a Critical Care Transport Coordinator for Expresscare at the Uni-

versity of Maryland Medical System, where she coordinates the admission and transport of patients to UMMS. Prior to coming to MEMA, Becky worked for nine years as an emergency room technician. Becky is married, and has a daughter, Allyson.

MEMA Website Gets a Facelift

A newly designed www.mema.state.md.us is now up and running! This was an exciting process. The new website contains all the pages, links, functionality, and information of the former version that visitors have come to expect, plus some great new features. These additional features include larger text; a consolidated Main Menu; Quick Tabs; Quick Links; a Video Gallery; an Audio Playlist; a Google Translation tool; a new Search Function; MEMA Twitter Profile links; RSS News Feed links; a Print Page tool; an Email a Friend function; a Text Resizing tool; and an overall updated layout, look, and feel.

Visitors should be able to efficiently find what they want on the website with the fewest number of clicks. For this reason, the website has been redesigned with **Quick Tabs**, **Quick Links**, and new consolidated **Main Menu**. All the information as it relates to preparedness for your family, schools, businesses, communities, MEMA, and our programs continue to be available on the site. The new compact **Main Menu** brings a bulk of this information and content together in one convenient easy to find place. Additionally, the **Quick Tabs** and **Quick Links** contain links to the most frequently navigated pages.

Comments and suggestions from the IT staff, Public Affairs team, MEMA staff, the Maryland Department of Information and Technology, and from MEMA's website visitors have been an invaluable part of the redesign process. Please take a little time to fill out the Website Feedback form located on the MEMA site. We will continue to improve and refine our website to meet our citizen's and our staff's needs.

MEMA Webmaster*

MEMA Welcomes UMBC Interns

From left: David Rinonos, Vanessa Yanavitch, and Lara Costello

MEMA is pleased to welcome three interns from the University of Maryland Baltimore County for the spring.

David Rinonos is a senior at UMBC seeking a B.S. in Emergency Health Services. He is an EMT-B/Fire Fighter active at Lansdowne

Volunteer Fire Department in Baltimore County and Silver Spring Volunteer Fire Department in Montgomery County. David is also a NRA and rock climbing instructor. Hence, his hobbies include falling off cliffs and shooting guns (not at the same time). He currently resides in Elkridge, MD with two roommates.

Vanessa Yanavitch is also a senior in UMBC's Emergency Health Services Bachelors program. She has been involved in emergency services for more than eight years. In addition to participating in her internship, she works for the Penn Township Volunteer Emergency Services (Hanover, PA)

as an EMT-B. Vanessa has also worked with the York Adams Metropolitan Medical Response System on the development of a surge plan for area hospitals in the event of pandemic flu. She resides in Hanover, PA and Arbutus, MD, and enjoys rock climbing and other outdoor activities.

Lara Costello will graduate in May from UMBC's Emergency Health Services Management program. She has been active in EMS for eight years and also volunteers at Lansdowne Volunteer Fire Department. Following graduation, Lara plans to work on her MPH focusing on Epidemiology/ Infectious Diseases, as well as beginning her

Physician Assistant Program next May. Lara lives in Glen Burnie with her boyfriend and nine month old puppy Cooper, and enjoys sailing and snowboarding.

All three are working under the supervision of Agency Planner, Fred Frey. Programs and projects they will be involved with include, Severe Storms and Tsunami Conference planning, Governor's Core Goal Four on Personal Protective Equipment, the review of ESF 11 guidance, and are researching the Stafford Act, NIMS, HSPD's, NFPA 1600, and Emergency Management Partner Organizations.

Please join us in welcoming Dave, Vanessa and Lara to MEMA!

MEMA Gets New Grants Management System

Change is afoot, as MEMA's Grant Management Section in conjunction with the Baltimore Urban Area Security Initiative Working Group has acquired the State Preparedness Assessment and Reporting Service (SPARS) software. The system will be named MEMA GMS. SPARS, a web-based service, will provide MEMA and Homeland Security sub-grantees with tools to support the DHS grant monitoring, evaluation, and reporting process. It is an Application Service Provider (ASP) offering that does not require grant recipients to invest in IT equipment, infrastructure, or personnel. Currently, MEMA and UASI staff are working with SPARS support staff to tailor the application to support the unique workflow, procurement procedures, and grant reporting requirements within Maryland.

SPARS supports five primary grant management functions: System Administration, Grant Administration, Project Administration, Equipment Administration, and Reporting. SPARS was developed to meet the needs of state agencies charged with grant monitoring, readiness evaluation, and bi-annual reporting to the Department of Homeland Security (DHS). It automates the grant application process allowing for the submittal, review, and approval of jurisdictional projects and expenditures through a web-accessible system; enforces grant application rules ensuring compliance by all sub-grantees with requirements and purchasing guidelines set by DHS; performs equipment procurement tracking and backend data entry logging providing a clear and concise audit trail available to system administrators at any time; provides a secure means for collecting first responder readiness assessment data at the jurisdiction, region, and state levels; presents real-time reports on sub-grantee progress in meeting state goals, objectives, and projects; enables administrators, through the Grant Adjustment Notice, to automatically move grant funds from one jurisdiction to another; and allows for seamless M&A tracking that adheres to G&T rules

Currently in the final customization phase, SPARS will begin a local roll-out in the May timeframe with field training dates to be announced shortly. Stay tuned for additional details.

Maryland Auxiliary Communications Service

MEMA has reorganized its volunteer-based emergency communications resources into a new "Maryland Auxiliary Communications Service" (MACS).

Organized within the Maryland Joint Operations Center, the MACS utilizes professional volunteers to supplement communications during an emergency. Amateur radio is a key component to

MACS operations and as such the state government RACES (Radio Amateur Civil Emergency Service) unit is organized within the MACS.

The MACS is also supported by the Army Military Affiliate Radio System and a memorandum of understanding is being prepared to formalize this relationship. During an emergency that impacts communications infrastructure, the MACS

provides a critical link among state agencies, incident scenes, and local emergency operations centers.

For more information regarding the MACS, please contact the MJOC.

MEMA Staff Recognition

On March 12th, MEMA Exercise and Training Program Administrator, Erin Valentine, was certified as a Master Exercise Practitioner (MEP) through the Emergency Management Institute in Emmitsburg, MD. The MEP certification recognizes those individuals who have completed prescribed training and demonstrated, through hands-on application, a high degree of professionalism and capability in the arena of emergency management exercises.

As of September 30, 2008, just over 1,000 individuals could boast this title. MEMA is proud that Ms. Valentine has been able to join those elite few.

Congratulations Erin!

MEMA IT Planner, Mickey Brierley and Communications Manager, Hank Black, recently completed the revision to the State Emergency Alert System (EAS) Plan. The plan was submitted to the Federal Communications Commission for approval in January. Well done!!

Brian Muser, MEMA Interoperability Manager, has received his 2nd doctoral degree from Alameda University. Dr. Muser was awarded a Doctorate of Business Administration in Management Information Systems on March 20, 2009. His first doctoral degree was in Management Information Systems.

Congratulations Brian, on this notable accomplishment!

MEMA bids farewell to Acting MJOE Manager, James Hamilton, as he begins a new emergency management adventure. James is relocating to Austin, Texas and will be working for the Texas Governor's Division of Emergency Management in the position of supervisor of the State Operations Center. Good luck to James and his family on this exciting new chapter in their lives!

Congratulations and job well done to MEMA Webmaster, Eric White. Eric has spent the past several months revamping and renewing MEMA's website. The new site looks great and MEMA is excited to see what else Eric has in store for the website!!!

Congrats to Exercise and Training Branch Manager, Christina Crue and her husband Chris, on the birth of their twin daughters, Sophia and Madison (aka the "Crue"-tons). The girls were born on Sunday, March 1, 2009.

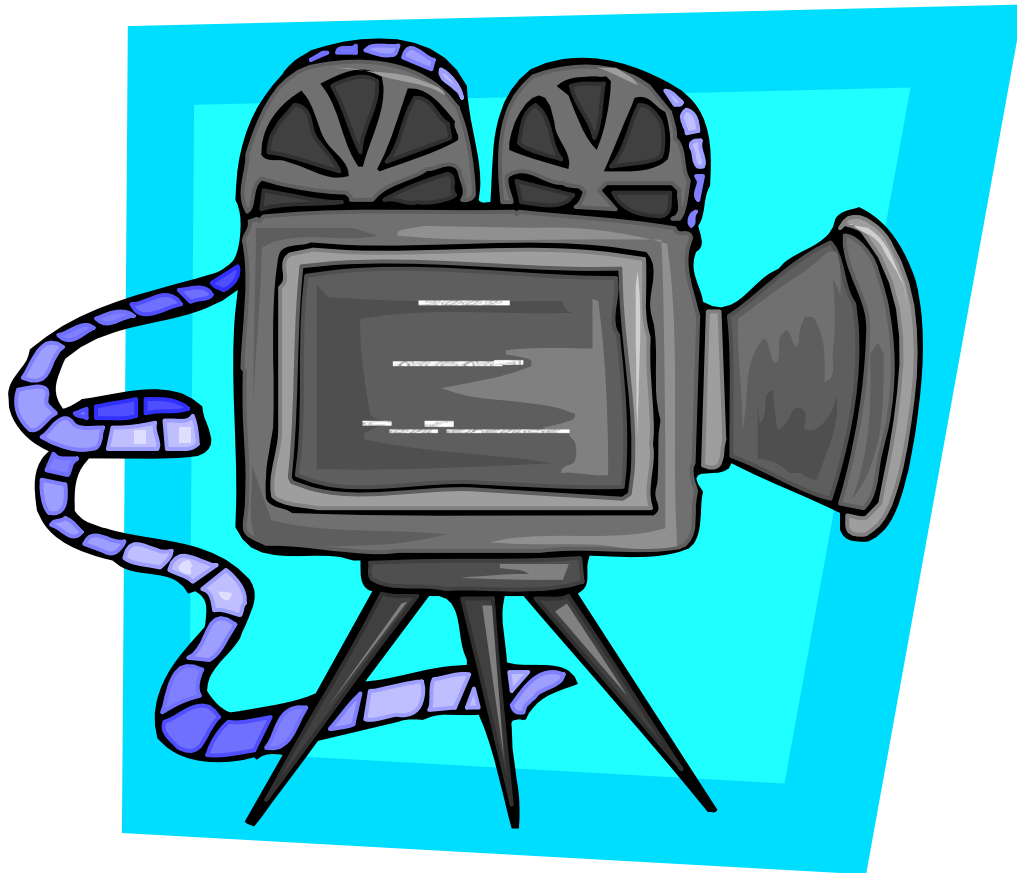

Sophia weighed 4lbs. 14 oz. and was 18 1/2 inches long. Madison weighed in at 4 lbs. 1 oz. and 17 inches long. Mom and girls are doing great and Dad has already claimed his bathroom space! Congratulations Crue family!!!

MEMA NCR Liaison Krista (Horoचना) Sweet tied the knot to Bob Sweet on January 15, 2009 on the beaches of Playa del Carmen, Mexico. Best wishes to the Sweet's for a long and happy marriage!

Registration Information

Conference Registration is free for all personnel employed by a Local County Emergency Management Agency or City of Annapolis, City of Baltimore or Ocean City Emergency Management Agency in Maryland. This includes the Wednesday night themed dinner. Maryland Emergency Management Agency will pay for lodging for one person per Local EMA (as defined above) .

For all other attendees conference registration is \$35.00 per day (Wednesday–Friday), fee includes breakfasts, breaks, and lunches.

Wednesday night themed dinner — Cost \$45 —please see attached flyer

Please send registrations and checks by April 24, 2009 to:

Maryland Emergency Management Association

Attn: David Fitzgerald

C/O Worcester County Department of Emergency Services

1 West Market, ROOM 1002

Snow Hill MD 21863

Registration forms can also be faxed to 410-632-4686 Attn: David Fitzgerald

TUESDAY MAY 26th 2009

- **Golf Outing 8:45 a.m.—Eagles Landing Golf Club**
\$75.00 per person (checks should be payable to the Maryland Emergency Management Association and mailed to Maryland Emergency Management Association, 1 W. Market St., Room 1002, Snow Hill, MD 21863 Attn: Golf Tournament —no later than May 11th 2009) - there will be no exceptions Questions contact Buzzy Bayles at 410-723-6646
- **Pepco Holdings and Delmarva Power evening reception 6:00 p.m. Join us for light fare and drinks !**
- **See the wonderful selection of silent auction items and bid on your favorites**

WEDNESDAY MAY 27th 2009

- ***“Keynote Topic– Crisis Communications and Leadership”***
- **Enjoy a Hollywood themed dinner sponsored by DRC at 6 PM and the annual bonfire on the beach!**
- **Additional Topics to include :**
 - Iowa Boy Scouts Tornado Response**
 - Active Shooter Exercises/ICS**
 - Volunteer Management Planning**
 - SBA Presentation—Using SBA declarations/How to streamline with FEMA recovery**
 - Radiological Emergency Preparedness**
 - CPOD’s use in EMAC (Gulfport MS)**
 - Higher Education options for Today’s Emergency Manager**
 - EM Planning and the Health Department**

THURSDAY MAY 28th 2009

- **Motorola Communications evening reception 7:00 p.m. Join us for light fare and drinks!**

Registering my EMA Staff

1. Fill out the registration on the front page of this flyer for each person attending.
2. Maryland Emergency Management Agency will book and pay for the hotel for ONE person per each Maryland Local Emergency Management Agency (as defined on prior page)- Please assign one person from your jurisdiction by contacting Marijo Warnick at 410-517-5120 by 4/20/2009.
3. **YOU** must book hotel rooms (rate is \$103 per night plus taxes) for each additional individual from your EMA at 1-800-638-2100. The cutoff date for booking rooms is April 24, 2009. Please mention that you are attending the Maryland Emergency Management Conference.
4. **REMEMBER** Conference Registration is gratis for staff currently employed by a Maryland Local Emergency Management Agency (as defined on the prior page).
5. **There will be NO EXCEPTIONS for any of the cutoff dates.**

5th Silent Auction – May 2009

The Silent Auction gives you the chance to bid on a number of specially selected items. If your bid stands up until bids close at 4:30 p.m. on Wed. May 27th, 2009, you will purchase the item at the price you bid.

Visit the tables to see the Silent Auction items and enter your bid into the bid forms available. Please be aware that as with any auction, by placing a bid you are entering into a binding contract obligating you to purchase the item should you have the winning bid.

The Maryland Emergency Management Association does not have Credit Card Capabilities. Therefore, all Silent Auction bids must be paid by cash or by check. All checks are to be made payable to The Maryland Emergency Management Association. However, there are ATM's available in the hotel as well as throughout Ocean City
