COMMENTARY

The Department of Budget and Management annually updates this ten-year summary of all State-owned and non-State owned capital improvement projects and programs that are authorized by the General Assembly, except for those of the Department of Transportation.

The capital improvements listed in this document are financed by five principal types of funding:

- 1) Maryland Consolidated Capital Bond Loan, which the Maryland General Assembly enacts to authorize the sale of bonds to finance improvements to a specific facility owned by a local government or nonprofit organization.
- 2) General Funds, which are used to finance projects which are not suited by nature or law to bond funding. When State revenues suffice, General Funds are also used to increase the scope and funding of the Capital Improvement Program. Appropriations of General Funds for capital projects are included in the State Budget Bill.
- 3) Special Funds, which are generated by activities of certain units of State government. Projects funded from this source are identified in appropriation language in the State Budget Bill.
- 4) Federal Funds, which are also appropriated for specific projects in the State Budget Bill.
- 5) Revenue Bonds, which are issued by certain State agencies, such as State higher education institutions, the Maryland Department of the Environment, and the Maryland Stadium Authority.

Abbreviations used in this document for these fund sources are as follows:

A.F.B.A.	Academic Facilities Bonding Authority (Revenue Bonds of the University System of Maryland)
B.B.	Bond Bills, also known as Legislative Initiatives
F.F.	Federal Funds
G.F.	General Funds
M.C.C.B.L.	Maryland Consolidated Capital Bond Loan
Q.Z.A.B.	Qualified Zone Academy Bonds
R.B.	Revenue Bonds
S.F.	Special Funds

The years shown in this document are calendar years, not fiscal years.

Chapter numbers for legislation authorizing funds for the capital projects described in this document can be found in the Historical Summary if the legislation was used to fund multiple projects, and following the description of the legislation if it was used to fund a specific project.

Unless otherwise noted, projects printed in italics indicate that appropriations have been cancelled or permitted to lapse. In either situation, the State Funds were not used for the project.

First, the Department shall contract with the Maryland Environmental Service to conduct a comprehensive inflow and infiltration data study on every wastewater treatment system with an average wastewater discharge of under 12 million gallons per day. The study shall involve a statewide analysis using readily accessible existing data and shall determine whether there is an inflow and infiltration problem and, if so, determine the magnitude of the problem. Second, the Department shall contract with the Maryland Environmental Service to conduct between three and six comprehensive in-depth inflow and infiltration studies at selected wastewater treatment systems around the State that are representative of the inflow and infiltration problems around the State. Third, the Department shall contract with a qualified third party to conduct a utility rate study for each locality with a wastewater treatment system in Maryland with an average wastewater discharge of under 12 million gallons per day. This study will compare the local jurisdiction's utility rate to that necessary to financially support the jurisdiction's current wastewater treatment program, while ensuring that adequate funding is set aside by the local jurisdiction for a local capital improvement program;	17,832,000

This Act shall take effect July 1, 2011.

PUBLIC SCHOOL CONSTRUCTION PROGRAM

Q.Z.A.B. 2011 A grant to the Interagency Committee on School Construction or the Maryland State Department of Education for the allocation to eligible school systems under the Aging School Program for the renovation, repair and capital improvements of qualified zone academies, as defined in Section 1397E(d)(4)(A) of the Internal Revenue Code, as amended, and in accordance with the Aging School Program of the Interagency Committee on School Construction, as provided under Section 5-303 of the Education Article of the Annotated Code of Maryland, and to provide equipment for use at such academies as allowed under 1397E of the Internal Revenue Code, subject to the requirement that the grantee document the provision of a required Federal matching fund. The grant shall equal the lesser of \$15,902,000 or the matching fund provided. The matching fund shall comply with Section 1397E(d)(2) of the Internal Revenue Code, as amended. The grantee has until June 1, 2012, to present evidence satisfactory to the Board of Public Works that the total matching fund will be provided and documented (Chapter 96). 15,902,000

M.C.C.B.L 2012 Provide funds to construct public school buildings and public school capital improvements in accordance with Sections 5-301 through 5-303 of the Education Article, provided that \$25,000,000 of this appropriation shall be used to fund projects that improve the energy efficiency of schools, including improvements to HVAC systems, lighting, mechanical systems, windows and doors, and any other type of improvement that is specifically designed to improve the energy efficiency of a school building, per standards to be developed by the Interagency Committee (IAC) in collaboration with the Maryland Energy Administration. Priority will be given to projects that maximize leverage, such as projects that only fund the incremental cost of energy efficiency improvements, as opposed to the full costs of the energy project. The funds may also be used to install renewable energy systems in schools, provided that \$25,000,000 of this appropriation is restricted and may not be expended until the IAC submits a report to the budget committees detailing the standards that will be used to allocate funds among projects that improve the energy efficiency of schools. The budget committees shall have 45 days from the receipt of the report to review and comment. 326,393,000

Further provided that any school construction funds allocated to an eligible project in a county that are not spent for the project may, within two years, at the county's option be:

- (1) applied to another eligible project in the current fiscal year; or
- (2) reverted to the contingency fund and reserved for eligible projects in the county in the next fiscal year, which shall be in addition to new funds allocated for eligible projects in the county in the next fiscal year.

Further provided that any school construction funds reserved for a county in the contingency fund that are not encumbered within two years shall become available to be allocated to an eligible project in any county.

NOTE: The projects funded by the Public School Construction Program in 2012 are listed individually by county in Part II. In accordance with HB 1391 (Chapter 144, Acts of 2012), \$2,800,000 will be allocated to the Maryland School for the Blind.

Q.Z.A.B. 2012 A grant to the Interagency Committee on School Construction or the Maryland State Department of Education for the allocation to eligible school systems under the Aging School Program for the renovation, repair and capital improvements of qualified zone academies, as defined in Section 1397E(d)(4)(A) of the Internal Revenue Code, as amended, and in accordance with the Aging School Program of the Interagency Committee on School Construction, as provided under Section 5-303 of the Education Article of the Annotated Code of Maryland, and to provide equipment for use at such academies as allowed under 1397E of the Internal Revenue Code, subject to the requirement that the grantee document the provision of a required Federal matching fund. The grant shall equal the lesser of \$15,324,000 or the matching fund provided. The matching fund shall comply with Section 1397E(d)(2) of the Internal Revenue Code, as amended. The grantee has until June 1, 2012, to present evidence satisfactory to the Board of Public Works that the total matching fund will be provided and documented (Chapter 3). 15,324,000
