So. Maryland So Good...

This booklet is produced by the Southern Maryland Agricultural Development Commission (SMADC).

It is provided as a means to assist and promote farmers and related businesses as Southern Maryland diversifies and transitions away from its tobacco-dependent economy.

The Southern Maryland Agricultural Development Commission is dedicated to the following mission:

“To promote diverse, market-driven agricultural enterprises,* which coupled with agricultural land preservation, will preserve Southern Maryland’s environmental resources and rural character while keeping the region’s farmland productive and the agricultural economy vibrant.”

*“Agricultural enterprises” is considered interchangeable with “natural resource based enterprises” and is broadly defined as tobacco-free sustainable agriculture, and includes forestry and aquatic resources and agriculturally related activities such as agri-tourism and value-added processing.
