

MARYLAND

BUDGET HIGHLIGHTS

FY 2015

Department of Budget
& Management

Martin O'Malley, Governor Anthony G. Brown, Lt. Governor
T. Eloise Foster, Secretary

January 15, 2014

The Senate of Maryland
The Honorable Thomas V. "Mike" Miller, President

The Maryland House of Delegates
The Honorable Michael E. Busch, Speaker

The Citizens and Families of Maryland

Dear Mr. President, Mr. Speaker, Ladies and Gentlemen of the General Assembly, and Fellow Marylanders:

Since 2007, we have focused on making the better choices that protect our shared priorities and deliver better results for all Marylanders. This FY 2015 budget proposal continues our Administration's record of taking a balanced approach to securing Maryland's future by investing in education, innovation, and rebuilding our infrastructure – and we are on the verge of eliminating Maryland's structural deficit.

Together, we have ensured that Maryland is in a strong position to build on our successes and continue to strengthen and grow our middle class, improve public safety and public education, and expand opportunity.

We enter 2014 with the #1 ranked public schools for an unprecedented five years in a row. Since taking office, we have done more to make college more affordable than any other state in the country, including an unprecedented four year tuition freeze at our public universities and colleges. We have driven down violent crime and homicide to three-decade lows. We have worked to make the Chesapeake Bay healthier every year. And because we took a balanced approach, we are one of only 7 states to maintain our Triple A bond rating through every year of the global recession.

This budget cuts spending by \$457 million and goes beyond the General Assembly's Spending Affordability Guidelines, holding spending growth below 4% and reducing the structural deficit by more than \$125 million.

We are supporting our local partners with a record \$7.09 billion in assistance across all categories of aid. The increase in assistance is more than \$183 million, or 2.6%, greater than the FY 2014 budget and includes additional funding in all categories of aid.

Creating Jobs and Expanding Opportunity

Thanks to the better choices we've made to spur innovation and economic growth in our State, we have recovered more than 100 percent of the jobs lost during the global recession. Our unemployment rate, while still too high, has been driven down significantly below the national average. Over the past 12 months, Maryland created jobs at the fastest rate in the region – with our private sector leading the way by creating more than 9 out of every 10 new jobs.

This FY 2015 capital budget supports more than 48,000 jobs and continues the work of rebuilding a network of 21st century roads, bridges, and mass transit systems that will make our State even more attractive to companies looking to invest and create jobs. In addition, we will invest \$4.4 billion over the next six years toward moving forward with transportation projects, including the Red and Purple Lines, that will create 58,000 jobs for Maryland families.

Our State's greatest economic assets are the talents and skills of our people. In order to continue to give Marylanders the opportunities to attain the skills necessary to fill in-demand jobs in growing sectors like wellness, advanced manufacturing and cybersecurity, this budget provides continued funding of \$4.5 million for the Employment Advancement Right Now initiative. This initiative is an industry-led partnership to cultivate the skilled workforce needed for 21st century jobs.

Education and Skills for a Global Economy

Together, we have built the best public school system in America. Eighty-two percent of our kindergarteners are entering school ready to learn and ready to achieve, compared to 60 percent in 2005. Our elementary and middle school students are setting records in the classroom on State reading and math tests. Our high school students lead the nation in taking and passing Advanced Placement (AP) tests. Last year, our high schools graduated a higher percentage of seniors than ever before in our State's history. And we will have invested nearly \$2.7 billion in public school construction.

In order to continue to make gains in preparing our children to compete and win in the global economy, the FY 2015 budget again proposed record funding for public schools—\$6.1 billion, an increase of \$135 million from FY 2014. This budget also provides new funding of \$4.3 million to expand free access to public pre-kindergarten education for low-income Maryland children.

Sustainability and Prosperity

Together, we have made better choices to protect the natural resources we depend on for our prosperity. We are acting to restore the Chesapeake Bay, improve the quality of our air, and protect our land and water. A record number of farmers have planted cover crops, we have preserved more than 140,000 acres of open space and agricultural land, and we have invested to upgrade our water and wastewater systems.

(continued on next page)

Thanks to these better choices we made together, the number of mature female blue crabs has increased by more than 50 percent; and survival rates of our native oyster population are at their highest levels in 27 years.

In addition, we are on pace for meeting the 2017 pollution reduction targets for the Chesapeake Bay. We are leading all Bay States by achieving 100% of our first and second 2-year milestone commitments.

In order to build on those gains, this budget includes \$42.4 million for programs supported by the Chesapeake Bay 2010 Fund, an increase of more than \$10 million over the last budget.

The FY 2015 budget we have proposed puts Maryland on the verge of eliminating the structural budget deficit, clearing the path for future growth and sustainability.

Together, we can continue to make gains as we work to create a better future for our One Maryland—strengthening and growing our middle class, improving public safety and public education, and expanding opportunity for all.

Sincerely,

A handwritten signature in black ink, appearing to read "Martin O'Malley". The signature is fluid and cursive, with a large initial "M" and "O".

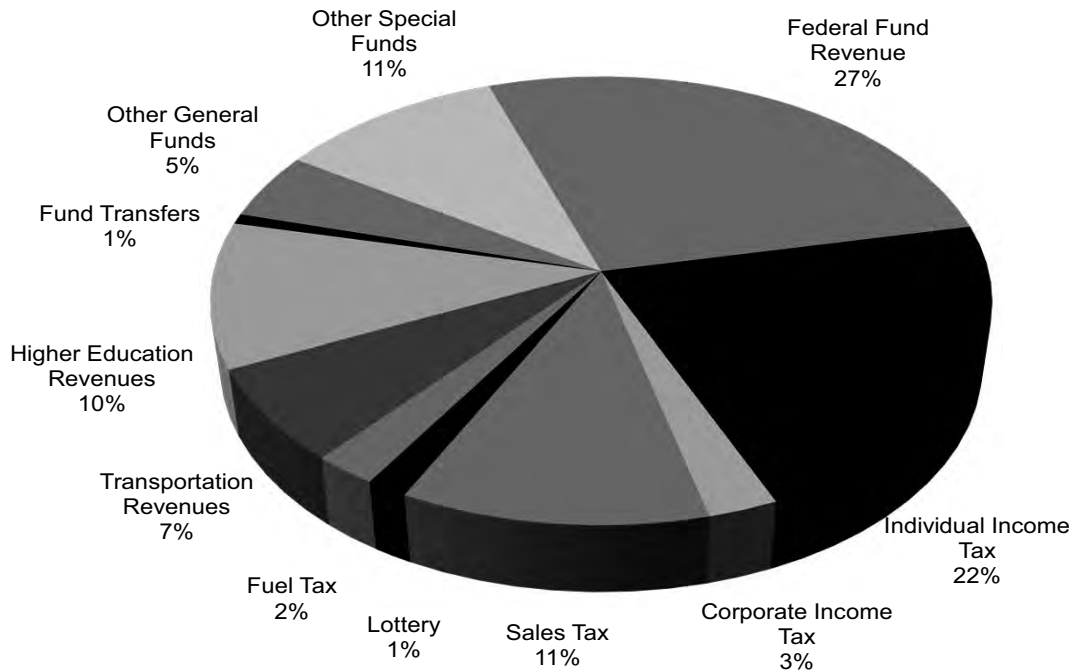

Martin O'Malley
Governor

Fiscal Responsibility: Maryland's Budget in Brief

The FY 2015 budget continues the O'Malley Brown Administration's record of taking a balanced approach to Maryland's future by investing in education, innovation and rebuilding our state's infrastructure. The Administration is on the verge of eliminating the State's persistent structural deficit. Other examples of the Governor's fiscal stewardship include:

- Making \$9.1 billion in total spending reductions since 2007 – that is more cuts than any administration in modern Maryland history;
- Achieving the lowest General Fund budget growth in more than a generation;
- Reducing the size of the executive branch to 1973 levels;
- Preserving the State's Triple A bond rating from all three rating agencies – one of only seven states to maintain that rating throughout the national recession; and
- Complying with the General Assembly's Spending Affordability guidelines for the eighth consecutive year.

Because of the better choices and sound investments we have made together during the first seven years of the Administration, the State of Maryland is emerging stronger from the national recession in better shape than many other states. We have recovered all of the jobs lost in the recession, and our State unemployment rate has declined to 6.4% -- 9% lower than the national average. Despite the national economic headwinds during the past seven years, the O'Malley Brown Administration has made better choices that have led to better results for Maryland families.

- Maryland has increased investment in K-12 education each and every year of the Administration and Maryland's schools were ranked first in the nation for five years in a row, according to Education Week.

Maryland's Housing Market Continues to Strengthen

- We will have invested nearly \$2.7 billion in public school construction to ensure that students are being taught in state-of-the-art facilities.
- Maryland has done more than any other state in the nation since 2007-08 to hold down the cost of tuition according to the College Board.
- By the close of FY 2015, we will have boosted the number of Marylanders with health care coverage by 548,000– half of them children – compared to eight years ago.
- Violent crime and homicide rates have been driven down to three-decade lows.
- Maryland continues to be on pace for meeting the 2017 pollution reduction targets for the Chesapeake Bay and is leading all Bay States by achieving 100% of our first and second 2-year milestone commitments.

Fiscal Responsibility: Maryland's Budget in Brief

- Maryland is recognized as one of the leading clean energy states in the nation and has been ranked in the top 10 for energy efficiency in each of the last three years.
- Maryland continues to make strategic investments to spur innovation and create jobs in growing and high-demand industries like biotechnology and cyber-security.

Maryland's Economic and Revenue Outlook

The State's continues to experience steady economic and revenue growth. More robust growth at both the State and national levels appears to be on the horizon. Positive news at the national level comes from the recent upward revision of third quarter gross domestic product (GDP) by the Bureau of Economic Analysis. Some national forecasting firms have since revised upwards their forecasts for GDP for the fourth quarter of 2013 and for calendar year 2014.

The forecast of the Maryland economy prepared by the Bureau of Revenue Estimates (BRE) in its December report also provides reason for optimism. Employment growth of 1.5% and 1.8% is expected over the next two years—rates of employment growth not seen in almost a decade. Additionally, the forecast calls for a continued strong real estate market with growth in homes sales of 11.1% and 8.4% in 2014 and 2015, respectively. This is on top of growth of 13.0% through November of 2013, according to the Maryland Association of Realtors. The BRE also expects that the strongest part of the sales tax over the next two years will be the construction component, buoyed by an improving real estate market.

The BRE's estimate of revenue mirrors its estimate of the economy with growth of 2.3% projected for FY 2014 and stronger growth of 5.1% estimated for FY 2015. Growth in FY 2015 will be driven by strong personal income tax collections and

increased revenue from taxes on internet sales as the result of the opening of Amazon's distribution center in Baltimore.

Solving the FY 2015 Budget Challenge

This balanced budget resolves a two-year budget shortfall of almost \$600 million. We balanced the budget predominately by spending reductions, and we did so without any tax increases or fee increases. Three-quarters of the shortfall is resolved by spending reductions, with the rest coming from a combination of revenue adjustments and transfers. Among the most notable of the \$457 million in net spending reductions are:

- Retirement savings of \$172 million from capping the reinvestment of pension reform savings at \$200 million a year;
- Employee and retiree health savings of \$164 million from favorable trends from prior cost containment strategies, more efficient contracting, and wellness initiatives;
- Savings of \$61 million from constraining rate increases for most health / human service providers and deferring some of the increases by six months; and
- Reductions of \$47 million in agency operating expenses during the current fiscal year.

The budget assigns an additional \$69 million in revenue from the Transfer Tax to the General Fund for FY 2015. Capital projects normally supported with these dollars will be financed with bonds in subsequent years. The budget also assumes revenue from the transfer of funds balances from the University System of Maryland, sales of old helicopters, cancelation of unclaimed tax credits from prior years, and other miscellaneous sources.

Although many difficult choices were necessary to bring the budget in balance, the O'Malley Brown

Fiscal Responsibility: Maryland's Budget in Brief

Administration chose to include additional funding in the FY 2015 budget to advance the State's priorities.

- Medicaid funding of \$8.9 billion to provide health care coverage to more than one million additional Marylanders;
- A record investment in K-12 education -- \$6.1 billion, an increase of \$135.6 million;
- Additional investments of \$4.4 billion over the next six years in transportation infrastructure, which will support more than 57,000 jobs-- these investments include moving forward with the Red and Purple lines;
- Funding of \$42.4 million for programs supported by the Chesapeake Bay 2010 Fund, an increase of more than \$10 million over the current year;
- Continued funding of \$4.5 million for the Employment Advancement Right Now program, an industry-led partnership to cultivate the skilled workforce needed for 21st century jobs;
- New funding of \$4.3 million to expand access to free public pre-kindergarten education for Maryland children; and
- 100 new correctional officer positions to address staff shortages and reduce overtime in correctional facilities.

The FY 2015 budget provides a record \$7.09 billion in assistance to local governments. The increase in assistance is more than \$183 million, or 2.6%, greater than the FY 2014 budget and includes additional funding in all categories of aid. In addition to the sizable increase in education aid, highlights include:

- Assistance of \$297.5 million for local community colleges, including a 5% increase in Cade formula funding;
- A 12.3% or \$5.1 million increase in aid to local health departments; and
- \$135 million in Disparity Grant funding, an increase of \$8.0 million to assist local jurisdictions with below average revenue generating capacity.

Fiscal Responsibility

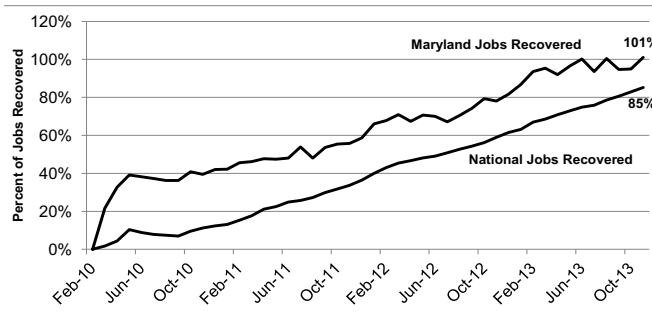

The O'Malley Brown Administration's FY 2015 budget puts Maryland in a better place to address upcoming challenges by leaving cash reserves of \$837 million, including \$800 million in the Rainy Day Fund. For the eighth year in a row, the budget complies with Spending Affordability Guidelines, holding spending growth below 4% and reducing the structural budget deficit by more than \$125 million. Finally, the FY 2015 Budget introduced by the O'Malley Brown Administration puts Maryland on the verge of eliminating the structural budget deficit, clearing the path for future growth and sustainability.

Historically Low Spending Growth

Creating Jobs, Strengthening our Middle Class, and Expanding Opportunities

Maryland Has Recovered Every Job Lost Since the Recession, Faster than the Nation

There is no progress without a job. The surest path to expanding opportunity and spurring growth is to ensure that everyone has a good job.

The O'Malley Brown Administration's FY 2015 budget is a jobs budget, and one that makes strategic investments to generate job growth in all sectors of our economy, from Main Street small businesses to next-generation industries. The fiscal year 2015 budget:

- Recapitalizes the State's primary job creation program to ensure its long-term sustainability;
- Increases the biotechnology, cybersecurity, and research and development tax credits, areas in which Maryland leads the nation and is poised to make additional progress;
- Expands economic development projects in distressed communities;
- Grows business investment for small, minority, and women-owned businesses;

- Supports innovative industry-led partnerships to take advantage of critical training opportunities for the State's workforce; and
- Makes record investments in tourism and the arts to support our creative and hospitality industries.

As of November 2013, Maryland has recovered more than 100 percent of the jobs lost during the national recession. Private business has led the way in this recovery, with nine out of ten new jobs created in the private sector since 2010. Maryland's unemployment rate—while still too high—has been driven down well below the national average.

This past year has seen tremendous gains in employment and job growth; 12,504 Marylanders left welfare and found jobs, a record number for the State. Working with the Department of Business and Economic Development, Amazon.com announced its intent to invest \$212 million in a new distribution center in Baltimore City, creating jobs for more than 1,000 Marylanders. In the same month, Volvo announced a \$30 million investment to expand its powertrain manufacturing facility in Hagerstown and create and retain almost 1,500 jobs. Sephora, MedImmune, and Pepsi have also announced their intent to expand or relocate to the State, creating or retaining nearly 1,500 jobs.

Marylanders are also going to work rebuilding the infrastructure that makes our economy even more attractive to businesses looking to invest and create jobs. Through our capital budget, we are investing in rebuilding our schools, transportation network, and community infrastructure while supporting and leveraging more than 48,000 jobs.

Building on a \$20 million investment in FY 2014, the FY 2015 capital budget includes \$24 million for Rental Housing Works, a job creation initiative to address the shortfall in affordable rental housing. In FY 2015, a total of \$285 million in public and private investment will build and preserve over 1,800 housing units and support about 2,500 jobs.

Creating Jobs, Strengthening our Middle Class, and Expanding Opportunities

Creating Jobs with Strategic Investments in Innovation

The FY 2015 budget continues the O'Malley Brown Administration's aggressive investments in small businesses and large-scale financing projects to spur job creation.

- Nearly \$30 million for the Maryland Enterprise Investment Fund and Challenge Investment Programs will develop high-technology firms throughout the State.
- \$28 million for the Maryland Economic Development Assistance Authority and Fund (MEDAAF), including an infusion of \$8 million in general funds to recapitalize the Fund, will encourage business expansion and relocation to the State.
- A record investment of \$11 million for the Small, Minority, and Women-owned Business Investment Account will support development among the State's historically-disadvantaged companies.
- \$10 million for the Sustainable Communities Tax Credit will leverage private investment and revitalize our State's main streets and downtowns.
- Over \$6 million for the Maryland Small Business Development Financing Authority will help grow our State's small businesses that drive employment growth.

- Nearly \$3 million for the Maryland Agricultural and Resource-Based Industry Development Corporation will provide assistance to our State's vital rural businesses.

The budget also includes significant increases in tax incentives which make it easier for 21st century industries to flourish in the State. This budget provides:

- A \$2 million increase for the Biotechnology Investment Incentive Tax Credit for a record \$12 million investment in the life sciences to help businesses secure the investment they need to create jobs and commercialize their research;
- \$9 million, a \$1 million increase, for the Qualified Research and Development Expenses Tax Credit to make it easier than ever for next-generation discoveries and innovations to be made here in Maryland; and
- \$4 million, a \$1 million increase, for the Cybersecurity Investment Incentive Tax Credit to spur investment in early-stage cybersecurity companies, an industry where Maryland is in a unique position to make significant contributions to the field.

Drawing on the assets of our top-ranked universities, the FY 2015 budget also includes funding for initiatives to take cutting-edge research and bring it to market, creating jobs and driving economic growth in the process. These initiatives include:

- \$10.4 million for stem cell research, bringing the total O'Malley Brown Administration investment to over \$107 million;
- \$5 million for the Maryland Innovation Initiative to perform technology validation and market assessment as well as creating start-up companies from university research; and
- \$400,000 for Maryland Industrial Partnerships that provide private-sector matched funding for new products developed by our State's expert faculty.

Creating Jobs, Strengthening our Middle Class, and Expanding Opportunities

Investing in the Skills of Our Workforce

Fiscal Year 2014 has seen the roll-out of the Employment Advancement Right Now (EARN) program, a \$4.5 million investment in industry-led partnerships to cultivate the skilled workforce needed to compete in the 21st century. In just the first six months since the program's creation:

- 69 conveners applied for grants to develop partnerships; and
- 29 grants have already been awarded totaling more than \$641,410 to plan needed investments in our workforce.

The FY 2015 budget provides second-year funding of \$4.5 million for the EARN program to continue efforts to identify and fill the gaps in making Maryland's workforce the strongest in the nation.

The FY 2015 budget also includes more than \$69.3 million to equip individuals with the training opportunities and marketable skills they need to secure gainful employment.

Highlights include:

- \$34 million for the 12 Workforce Investment Areas which provide occupational skills, on-the-job, and entrepreneurial training as well as career planning, job search assistance, and workplace readiness assessment;
- \$17.1 million for the 24 local job service offices which provide no-cost assistance to job seekers; and
- More than \$3 million for adult education services, including funding to maintain affordability of the GED test for Marylanders who need the credential to gain employment.

The Fiscal Year 2015 budget also includes numerous initiatives to promote financial stability and independence.

- \$34.9 million for the Work Opportunities Program will help transition recipients of public assistance to employment. During the O'Malley Brown Administration, 75,113 individuals have transitioned from public assistance to work.
- \$103.7 million for the Division of Rehabilitation Services will support the employment and economic independence of people with disabilities.
- \$19.0 million will support education and occupational training for our State's incarcerated populations.

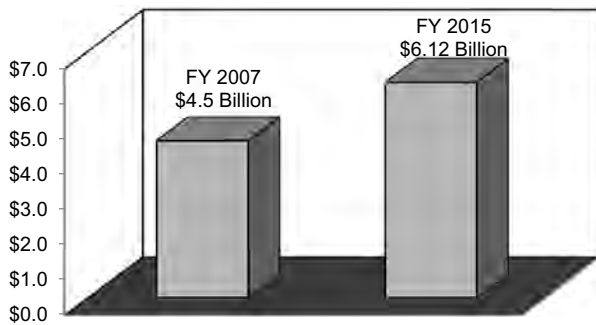

Promoting Tourism and Preserving our Vibrant Cultural Economies

The O'Malley Brown Administration maintains a strong commitment to the artistic and cultural sectors of our economy, which preserve our heritage and draw visitors from all over the globe. The FY 2015 allowance includes record investments in tourism and the arts. Highlights include:

- A record \$17 million for the State Arts Council to provide support for independent artists and arts organizations;
- A record \$14.4 million in State funding for tourism development to bring visitors to the State, including \$2 million for the bicentennial celebration of the War of 1812 to conclude with the Star-Spangled Spectacular in September 2014;
- \$11 million to incentivize film production in the State and promote the hiring of actors, extras, and crew members; and
- \$2 million for the Preservation of Cultural Arts program to support the solvency of our State's great artistic institutions.

Strengthening Our Schools

Growing Our Investment in Maryland's Top Ranked Public Schools

Even as other states have cut back on education spending, Maryland is making record investments in education, building a stronger future for our children. These investments have clearly paid off.

- Maryland's public school system was ranked #1 in the nation by Education Week for five consecutive years.
- For the seventh straight year, Maryland led the nation in the percentage of seniors (29.6% in 2013) who earned a score of 3 or higher on Advanced Placement (AP) exams.
- Maryland has ranked number one in the nation in student academic progress since 2003, including progress by low-income students.
- Maryland students are graduating from high school at a record rate, according to data from the Class of 2012.
- 82% of Maryland students entering kindergarten in 2013 were fully ready to learn, a 15 percentage point increase since FY 2007.

Historic Investments in K-12 Education

The FY 2015 budget continues the O'Malley Brown Administration's unprecedented support for Maryland's best-in-the-nation schools, fully funding direct K-12 education aid and investing a record \$6.12 billion in our public schools.

- Education aid grows \$135.6 million or 2.3% over FY 2014 and \$1.65 billion or 36.9% over FY 2007.
- The State will distribute direct education aid

totaling nearly \$5.32 billion among Maryland's 24 local jurisdictions.

- The FY 2015 allowance brings total support for K-12 education under the O'Malley Brown Administration to \$45.4 billion.

The Geographic Cost of Education Index (GCEI), which adjusts school funding for educational cost differences and enhances aid equity, is fully funded at \$132.7 million. The O'Malley Brown Administration is the first administration ever to fund any part of GCEI.

Further ensuring equity, FY 2015 represents the second year of a five-year phased-in change in the calculation of net taxable income (NTI) used in aid to education formulas. This change is a result of Administration legislation enacted during the 2013 Legislative Session. The NTI adjustment increases by \$18.5 million to \$26.9 million in the FY 2015 allowance.

Advancing Student Progress and Innovation

Because K-12 education is the foundation for preparing Maryland's future workforce, the O'Malley Brown Administration's FY 2015 budget also invests in innovative programs for digital learning, early college access, early childhood education, and students with special needs.

As studies continue to highlight the importance of quality early childhood education in a child's eventual success, the O'Malley Brown Administration's FY 2015 allowance makes a significant investment in expanding access to early childhood programs. Early childhood development funding grows 6% over FY 2014, totaling \$153.7 million in FY 2015. Included in the budget is \$4.3 million to expand access to free public pre-kindergarten education to children across Maryland. As a result of Maryland's support for early childhood programs, 82% of students entering kindergarten in 2013 were fully ready to learn.

The FY 2015 budget includes \$5.5 million in funding for the second year of the O'Malley Brown Administration's competitive grant programs to promote digital learning and early college access.

Strengthening Our Schools

- Funded at \$3.5 million, the Digital Learning Innovation Fund provides resources to local school districts to accelerate their conversion to comprehensive digital learning environments that fundamentally change the interaction between teachers and students.
- The Early College Innovation Fund provides \$2 million in grants to accelerate pathways for students seeking career and technical education or training in science, technology, engineering, and math (STEM) disciplines.

The O'Malley Brown Administration's budget includes \$1.8 million in State funding to sustain the progress Maryland has made through Race to the Top federal grants, bringing total State support for these programs to \$3.6 million in FY 2015. The funding will support local school systems in teacher and principal evaluation, continue operation of the Breakthrough Center, a tool for MSDE to directly assist in the improvement of low performing schools, and sustain new information technology systems that boost statewide data collection and coordination.

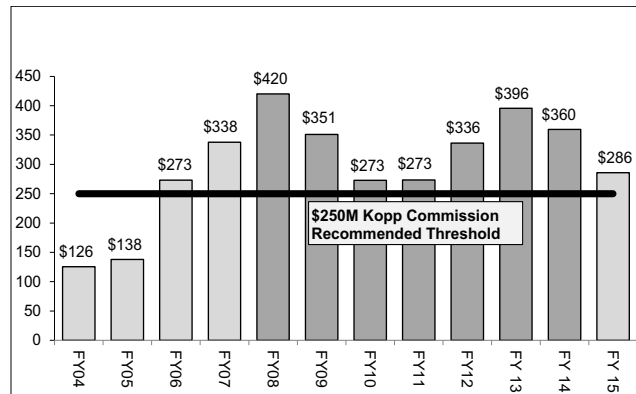

The O'Malley Brown Administration's budget also includes \$2.3 million for the Maryland Longitudinal Data System Center, which was launched in summer 2013 and is in its first full year of operation. The Center provides aggregated trend data that allows us to see where students have come from, where they are going, and what they need to be fully prepared to succeed in college and the workforce.

To ensure Maryland's children who are blind or

hearing impaired reach their fullest potential, the O'Malley Brown Administration budget provides \$34.4 million for the Maryland School for the Deaf and \$19.4 million for the Maryland School for the Blind, record funding for both institutions. The SEED School, the State's first public residential boarding school, receives \$14.5 million to provide a tuition-free, college preparatory education for more than 300 at-risk students in grades 6-12.

State Aided Institutions, non-profits that provide experiential hands-on learning to students, receive \$6.1 million. This includes a new \$50,000 grant for the Calvert Marine Museum.

O'Malley Brown Eight-Year Total for Public School Construction - Nearly \$2.7 Billion

A Historic Commitment to School Construction

The O'Malley Brown Administration has prioritized investments in our school system's infrastructure, providing record funding of nearly \$2.7 billion over eight years to ensure our children are being taught in positive learning environments featuring state-of-the-art and green building technology.

The Administration's FY 2015 capital budget allocates \$275 million to build and renovate schools across the State.

In addition to the traditional school construction program, \$6.1 million is included for the Aging Schools Program; \$4.6 million in Qualified Zone Academy Bonds (QZABs), and \$3.5 million for nonpublic schools.

Strengthening Our Schools

Investing in Higher Education

Maryland’s workforce needs the best skills and education in order to compete and win in the global economy. That’s why the O’Malley Brown Administration continues to support our State’s community colleges and universities when other states are cutting back. The O’Malley Brown Administration FY 2015 allowance provides a record level \$6.02 billion for higher education. Of this amount, State funding makes up \$1.87 billion, a 5.8% increase from last year.

Number of Bachelor’s and Associate’s Degrees Awarded Increased by 24 Percent Since 2008

The State’s investment in higher education continues to show results. In the last year:

- Nearly 62% of first-time, full-time undergraduate students at Maryland’s public institutions graduated with bachelor’s degrees in six years, exceeding the national average;
- An estimated 65,000 students have graduated in STEM disciplines during the O’Malley Brown Administration;
- Approximately 9,800 community college students successfully transferred to public four-year institutions; and
- Among Marylanders ages 25 to 64, 46% possess a college degree, which is on track to reach the O’Malley Brown Administration’s goal of 55% by 2025.

These results continue to earn national recognition. U.S. News and World Report ranks the University

Making College More Affordable for Marylanders

of Maryland, College Park as one of the top 100 universities in the nation and St. Mary’s College of Maryland as one of the top five public liberal arts colleges. Morgan State University has produced the most Fulbright Scholars among all historically black colleges and universities. And, according to Kiplinger’s Personal Finance, five of Maryland’s public universities—the University of Maryland, College Park, St. Mary’s College of Maryland, Salisbury University, Towson University, and the University of Maryland, Baltimore County—are among the nation’s “Best Values in Public Colleges.”

Increasing Access and Affordability

Through a combination of tuition freezes and tuition caps, Maryland has become the national leader in keeping higher education affordable and accessible to all. The non-partisan College Board reports that Maryland has held tuition and fee increases to the lowest in the nation since the O’Malley Brown Administration took office in 2007. The FY 2015 budget maintains the Administration’s commitment to affordability by capping tuition increases at the University System of Maryland to 3% for a fifth year in a row. Morgan State University and St. Mary’s College of Maryland freeze tuition at last year’s rates in FY 2015.

The O’Malley Brown Administration is also committed to enhancing college affordability by providing significant resources to student financial aid. The FY 2015 allowance includes:

Strengthening Our Schools

- Nearly \$119.5 million in State scholarships and grants to be awarded to 60,000 students, 70% of whom are need-based recipients;
- \$15.5 million for the Nurse Support Program II, which has contributed to a 52% increase in Maryland nursing graduates between FY 2007 and FY 2013;
- \$2 million for Health Personnel Shortage Incentive Grants, which have contributed to a 39% increase in students graduating in targeted shortage areas during the same period; and
- \$1.3 million for Workforce Shortage Student Assistance Grants, which have contributed to a 37.1% growth of graduates in workforce shortage areas during the same period.

Maryland's four historically black universities receive \$210.8 million in State funding, an increase of 5.1% from last year.

St. Mary's College of Maryland receives a one-time State grant of \$1.5 million in FY 2015 in addition to its base funding, bringing total State funding to \$22.9 million, an increase of 14.8% over the prior year.

Investments in the community college sector support education and training for over 139,000 Marylanders each year at a time when more than three out of every four projected job openings in Maryland require some type of post-secondary preparation. The FY 2015 budget provides \$297.5 million for the local community colleges, including a 5% growth in funding under the Cade formula. This reflects an increase of \$92 million or nearly 45% since the O'Malley Brown administration took office. Baltimore City Community College receives \$91.6 million in FY 2015, which includes \$41.8 million in State funding.

Sellenger funding for the State's independent colleges and universities is maintained at \$40.9 million.

Investing in Infrastructure

Since taking office, the O'Malley Brown Administration has spent more than \$2.4 billion on Maryland's college classrooms, laboratories, performing arts centers, and other improvements.

The FY 2015 capital budget includes \$373.5 million for higher education projects across the State. Public four-year institutions receive \$289.1 million, which includes:

- \$60.8 million for the new Engineering and Aviation Science Building at the University of Maryland Eastern Shore;
- \$49 million for the new Health Sciences Facility III Building at the University of Maryland, Baltimore;
- \$35 million for the new Academic Commons at Salisbury University;
- \$23.3 million for the new Natural Sciences Building at Bowie State University;
- \$17.9 million for the Anne Arundel Hall Reconstruction at St. Mary's College of Maryland;
- \$17.0 million for facilities renewal projects at University System of Maryland institutions;
- \$11.7 million for projects at Morgan State University, including \$3 million to complete its new School of Business complex;
- \$10.6 million for the New Environmental Sustainability Research Laboratory for the University of Maryland Center for Environmental Science; and
- \$10.3 million to complete the New Science and Technology Center at Coppin State University.

The FY 2015 capital budget also includes \$15 million for a High Performance Computing Data Center at Johns Hopkins University; \$1.6 million for a New Academic Building at Washington College; and \$1.6 million to renovate an Academic Building at Stevenson University.

Maryland's community colleges receive \$65.4 million to improve facilities at nine community colleges, including:

- \$19.9 million for the new Center for Allied Health and Athletics at Chesapeake College;
- \$15 million for the renovation and expansion of the F Building at the Community College of Baltimore County; and
- \$14.5 million for renovation of the Rockville Science West Building at Montgomery College.

Healthy Families and Stronger Communities

The O'Malley Brown Administration is committed to ensuring that every family in our State has access to health insurance and critically important health services. Together, we are making the better choices that are delivering better results – expanding health care coverage to 548,000 more Marylanders, half of them children – by the close of FY 2015, driving down the infant mortality rate to historic lows, and taking actions that strengthen the safety net and protect our most vulnerable citizens.

Expanding Access to Health Care

The FY 2015 budget supports access to health care for over one million adults and children in Maryland, including:

- 140,000 adults who will gain comprehensive coverage through Medicaid as a result of the Affordable Care Act;
- 193,000 individuals with mental health needs;
- 116,000 children in the Maryland Children's Health Program;
- 72,000 individuals in need of treatment for addiction;
- 26,500 individuals with developmental disabilities;
- 15,000 seniors supported by home and community-based services; and
- 146,000 women, infants, and children in need of proper nutrition.

Progress for Marylanders with Developmental Disabilities

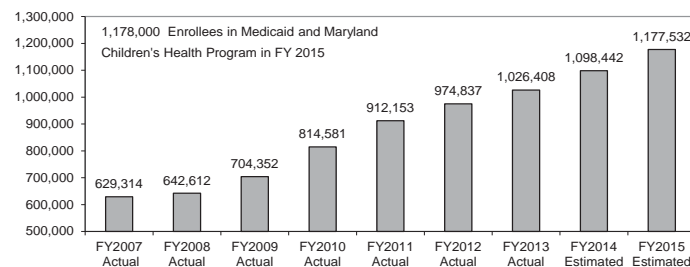

The O'Malley Brown Administration remains committed to supporting important services for individuals with developmental disabilities. Since FY 2013, the Administration will spend \$28.5 million in general funds to support a full, ongoing set of services for individuals at high risk. At the end of this fiscal year,

at least 300 more Marylanders will be receiving ongoing services. The FY 2015 budget includes \$17.2 million in additional general funds to fulfill this commitment.

The O'Malley Brown Administration is committed to expanding disability services:

- \$5.1 million (\$2.9 million in general funds) to support 596 new community placements for transitioning youth;
- \$777,000 (\$422,000 in general funds) to support 30 new service placements for individuals involved with the court;
- \$460,000 (\$287,000 in special funds) to support 37 new service placements through the Waiting List Equity Fund;
- \$625,000 for major IT projects to strengthen the Disability Administration's fiscal system; and
- \$500,000 in annual grants to the Special Olympics, a 67% increase.

Expanding Access to Health Care by More than 548,000 Marylanders Over Eight Years

Healthy Families and Stronger Communities

Building Stronger Communities

The O'Malley Brown Administration is committed to expanding the State's capacity to serve people with long-term care needs in the community. The budget includes a number of initiatives to expand critical community services, including:

- \$9.8 million to increase home and community service providers' rates by 2.5% effective January 1, 2015; and
- An additional \$6 million to increase rates for home- and community-based services for Medicaid enrollees with disabilities.

The O'Malley Brown Administration is committed to restoring balance to Maryland's long term care system. To achieve that goal the FY 2015 budget invests:

- \$32 million for Balancing Incentive Payments providing funding for community-based long-term care, including \$10 million to expand 175 slots for individuals found at the highest risk of entering a nursing facility; and
- \$14.4 million to Money Follows the Person community support contracts, such as peer mentoring and housing development.

Targeted investments in other community-based services include:

- \$4 million in ongoing support for Health Enterprise Zones, a pilot program to reduce health disparities through expansions of primary care, loan assistance repayment, and community-based services; and
- \$1.5 million in additional funds to preserve nutrition, housing, and personal care services for seniors.

Ensuring Veterans' Access to Health Services

The FY 2015 budget includes \$4.5 million to treat the behavioral health needs of veterans. Overall, nearly \$29 million has been provided for mental health services for veterans since 2009.

Treating Addiction and Substance Abuse

The FY 2015 budget invests in treatment and prevention of substance abuse and addiction:

- \$117.3 million for treatment and \$7.9 million for prevention programs, including \$2.4 million in new investments in care coordination during the early stages of recovery from substance abuse through the Access to Recovery program;
- 8.5% increase in funding for substance abuse prevention; and
- \$2.5 million in funding for problem gambling treatment from casino-related revenue.

Investing in Health Infrastructure

The FY 2015 capital budget invests \$56 million in health-related projects, including \$30 million towards a \$200 million multi-year State commitment to assist in the development of a modern, regional medical center in Prince George's County. There is also \$10 million for projects at the University of Maryland Medical System, \$8 million for community health facilities, and \$5 million for projects at local hospitals.

Healthy Families and Stronger Communities

Preserving the Safety Net for Families

The FY 2015 budget funds programs that provide critical safety net services to families, including:

- More than \$1.2 billion in federal supplemental nutrition assistance (SNAP) for 410,000 households;
- \$131 million for over 255,000 heating and electricity assistance benefit awards to help low-income households pay utility bills;
- \$44.2 million in cash, medical and housing benefits to approximately 19,000 individuals with disabilities; and
- An additional \$1.7 million to ensure that combined Temporary Cash Assistance and SNAP benefits meet the statutorily required 61% of the Maryland Minimum Living Level.

This budget advances the O'Malley Brown Administration's commitment to eliminate hunger in our communities, with a targeted focus on ending childhood hunger. The FY 2015 allowance invests \$41.8 million more in the school lunch and breakfast programs, bringing total funding for school nutrition programs to \$318.2 million. This allocation includes \$6.9 million for Maryland Meals for Achievement, an increase of \$1.7 million to expand the classroom breakfast program to an additional 57,000 students.

The FY 2015 budget includes increases for grants to organizations working to end hunger and homelessness in our communities. To help ensure that good nutrition continues to be available to Marylanders struggling through difficult times, the budget includes a \$3 million grant to the Maryland Food Bank, an increase of \$1 million from FY 2014. Moveable Feast, an organization that provides meals, groceries and nutrition counseling to people living with life-challenging illnesses, receives an increase

of nearly \$160,000 to \$400,000. An additional \$1 million is allocated for Emergency Solutions Grants to government and nonprofit programs that provide support to individuals at risk of or experiencing homelessness.

Meals Distributed to Hungry Marylanders

Under the O'Malley Brown Administration, DHR has led the successful implementation of "Place Matters," an initiative focused on finding the best and most appropriate permanent placements for vulnerable children. As a result of Place Matters, today there are fewer Maryland children in foster care and overall outcomes for children have improved. These accomplishments have also produced cost savings, with expenditures for foster care declining from \$353 million in fiscal year 2008 to \$334 million in fiscal year 2015.

The allowance also includes \$3.4 million in FY 2014 deficiencies to backfill federal sequestration cuts to the Social Services Block Grant and Promoting Safe and Stable Families Program. These funds will support services key to furthering Place Matters.

Better Choices for a Safer Maryland

Together with the men and women of our law enforcement agencies, we continue to build on our efforts that have driven down violent crime statewide to three decade lows. With strategic investments in innovative technologies, improved information sharing, and proven law enforcement methodologies, our officers and first responders are saving more lives and making our communities safer.

We set the goal of driving down violent crime by 20% from 2006 to 2012, and exceeded that goal by 6%. Similarly, we set the goal of driving down violent crimes committed against women and children by 25% from 2006 to 2012, and this goal was also met. But there is still more work to be done. We set aggressive new goals to reduce violent crime by an additional 20% and violent crimes committed against women and children by an additional 25% by the end of 2018.

The FY 2015 budget proposes a \$2.4 billion investment in stronger public safety systems that save lives and create a safer Maryland – an increase of \$377 million since 2007.

Violent Crimes Have Declined 26 Percent since 2006

Supporting Law Enforcement

The Office of Crime Control and Prevention's \$118 million budget in FY 2015 will help coordinate statewide public safety initiatives, ensure effective communication and information sharing, and provide valuable resources to police on the streets. This includes nearly \$68 million in local police aid, a record level of funding to local governments and municipalities. In addition, \$26.4 million in local law enforcement grants will support community services and target reductions in domestic violence, substance abuse, and gun trafficking. And, for the first time, \$500,000 is included in the budget to assist families of homicide victims.

To maintain a strong State Police force, the FY 2015 budget includes several enhancements to support criminal investigations and departmental operations.

- \$7 million begins implementation of a multi-year plan to replace the aging Maryland State Police (MSP) vehicle fleet with modern, fully-equipped vehicles.
- \$1.4 million is allocated to replace the MSP's aging IT hardware and network infrastructure.
- Ten pilot positions and \$1.2 million is provided to fully staff the Maryland State Police Aviation Command as it transitions to two-pilot operations, coinciding with the delivery of new AW-139 helicopters.
- Finally, six positions and \$384,000 expands forensic staffing at the Hagerstown Crime Lab.

Recognizing the importance of Maryland's precious natural resources, the O'Malley Brown Administration's budget includes \$1.3 million in additional funding to increase the capacity of the Natural Resources Police to hire new officers, keeping our parks and natural areas safe.

Better Choices for a Safer Maryland

Advancing Correctional Reforms

Enhancing the integrity and safety of Maryland's correctional and detention facilities is a top priority of the O'Malley Brown Administration. To that end, the Administration's FY 2015 budget invests:

- \$8.1 million in FY 2015 and \$5.1 million in FY 2014 deficiency funding to implement new technologies, including an inmate phone system keyword recognition software program that allows for targeted intelligence gathering, a cell phone managed access program that blocks unauthorized cell phone usage within facilities, and upgraded video surveillance and monitoring systems;
- \$4.1 million to hire 100 additional correctional officers, addressing staff shortages and reducing overtime expenditures;
- Seven new positions for the K-9 unit, a low-tech, but highly-effective contraband detection solution; and
- \$1.3 million in deficiency funding to expand the Internal Investigative Unit and support a new polygraph unit to assist in background checks for new correctional officer candidates.

Enhancing Security

The FY 2015 budget invests \$1.2 million to support nine new positions and new contractual staff to enhance capacity at the Maryland Coordination and Analysis Center, or "Fusion Center." The Center coordinates the efforts of federal, state and local agencies to gather, analyze, and share intelligence information with law enforcement, public health, and emergency responder personnel. The additional positions include support for the Center for School Safety, which was created through The Firearm Safety Act that was passed in 2013 to bring together public school and law enforcement

stakeholders to implement a comprehensive approach to school safety.

An additional investment of \$3.8 million in deficiency funding is provided to the Maryland State Police to continue efforts to address the gun registration backlog to ensure guns are kept out of the hands of criminals.

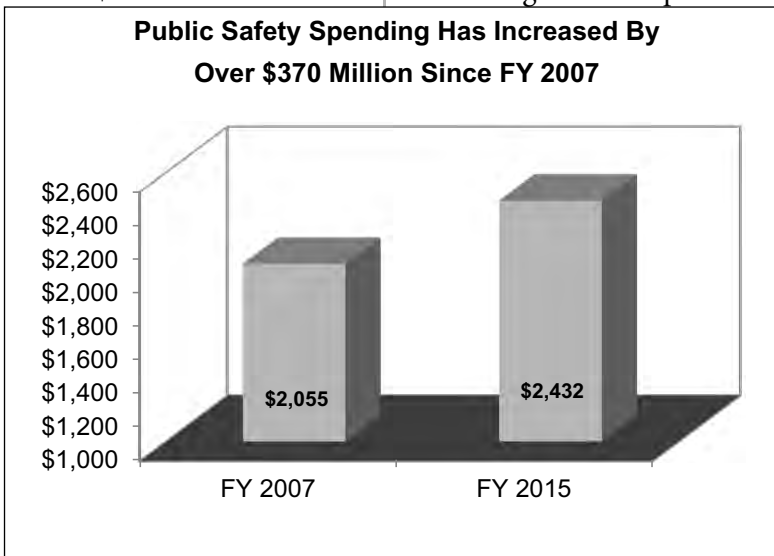

These funds support a "surge" of employees and sworn police officers from allied law enforcement agencies to complete the required background checks in a timely manner.

Preventing Juvenile Crime

Between 2007 and 2012, working together, juvenile homicides were driven down statewide by 58%.

In Baltimore City in particular, as a result of a focus on violence prevention efforts and continued collaboration with the Baltimore City Police Department and the Mayor's Office, juvenile homicides were driven down by 59% and the number of juvenile non-fatal shooting victims were driven down by 72%. While even one homicide is too many, in 2013, only two youth under Department of Juvenile Services' (DJS) supervision were victims of homicide, a 91% decrease compared to 2007.

The FY 2015 budget supports a continued focus on violence prevention initiatives that target at-risk youth, with investments of \$1.5 million for Operation Safe Kids, \$700,000 to monitor high-risk youth using Global Positioning System devices, and more than \$3.9 million to provide Evidence-Based Practices services to approximately 300 juvenile offenders. Additionally, \$550,000 is invested in the Children in Need of Supervision diversion program, expanding it to include Cecil and Montgomery Counties from its current service area of Baltimore City, Baltimore County, and Prince

Better Choices for a Safer Maryland

George's County. Together, these programs divert youth from more costly and disruptive out-of-home placements.

In addition to these efforts, DJS is collaborating with State agencies and the Baltimore City Public Schools to provide wraparound services to pre-teens who have had contact with the juvenile system. The Under-13 (U-13) Initiative was developed as a result of data indicating that from 2007 through 2011, nearly 40% of juvenile homicide victims from Baltimore City had some prior contact with DJS by age 12 or younger.

Investing in Technology and Infrastructure

Advances in technology continue to make our streets and facilities safer. The budget provides \$41.5 million, including \$26.1 million in General Obligation bonds, for the continued development and implementation of Maryland's Public Safety Communications system. The new system will provide a modern, wireless, interoperable radio system for all Maryland law enforcement, public safety agencies, and first responders.

Funding is included in the budget to continue implementation of two other state-of-the-art systems – the Computer-Aided Dispatch and Records Management System, which gives law enforcement agencies immediate and shared access to information in real time, and the Offender Case Management System, the only system in the country capable of carrying case

information on offenders throughout the correctional process, from police booking through community supervision and discharge.

The capital budget invests \$34 million in modern facilities to provide appropriate education, treatment and program spaces for youth in State custody. This includes \$31.5 million for construction of a detention center in Prince George's County and \$2.4 million for design of a new facility for female youths. In addition, nearly \$10 million is included in FY 2015 to construct a facility in Baltimore City for minors in the adult system, the initial phase of a multi-year master plan to modernize the State correctional complex in Baltimore City.

Supporting our Troops

The FY 2015 budget invests \$74.5 million for the Maryland Military Department to maintain Maryland's Army and Air National Guard strength at more than 8,000 members. The budget includes \$960,000 to address much-needed maintenance issues at the department's 36 armories across the State, allowing those facilities to continue serving as muster and training locations.

At Charlotte Hall Veterans Home, a State-run facility whose mission is "serving those who served," the O'Malley Brown Administration's FY 2015 budget provides an additional \$947,000 to support increasing costs of care. The budget also supports two new service officer positions at the State Department of Veterans Affairs to expand outreach to veterans, their dependents, and survivors, to ensure that they receive the federal, State, and local benefits that they deserve.

Creating Green Jobs, Securing our Energy Future, and Protecting our Vital Natural Resources

Making better, more fiscally responsible choices for Maryland's future means acting with the present and our future generations in mind. The O'Malley Brown Administration remains committed to making the respon-

sible choices and strategic investments necessary to restore the health of the Chesapeake Bay, bring back our native oyster population, return the blue crab to historic abundance, preserve acres of irreplaceable lands and critical ecosystems, create a more diverse energy portfolio including renewable energy generation, and foster resilient and sustainable communities for Maryland families.

While protecting the natural resources upon which our prosperity depends, these efforts have also propelled Maryland to grow green jobs faster than any other state in the country, and to have the highest concentration of green jobs in the region.

Protecting Maryland's Land and Water

Maryland continues to be on pace for meeting 2017 pollution reduction targets for the Chesapeake Bay set by Phase II of the State's Watershed Implementation Plan (WIP). Maryland is leading all Bay states by achieving 100% of its first and second 2-year milestone commitments for nitrogen and sediment. Additionally, under the O'Malley Brown Administration funding for the Bay Restoration Fund has increased by more than 85%, to support

Chesapeake Bay 2010 Trust Fund - Grows to Record \$42.4 Million in FY 2015

water infrastructure improvement projects crucial for reducing pollutants entering the Bay from our septic and sewer systems.

The FY 2015 budget invests in vital Best Management Practices to ultimately meet our 2025 Total Maximum Daily Load (TMDL) goals from the Environmental Protection Agency (EPA) for reducing nitrogen, phosphorous and sediment loads to the Bay. This commitment is demonstrated through a record \$42.4 million investment in the Chesapeake Bay 2010 Trust

Fund– a \$10.9 million increase from FY 2014. This brings the total operating investment in 2010 Trust Fund activities to more than \$159 million since 2009. In addition, the FY 2015 capital budget includes \$25 million to fund 2010 Trust Fund projects that help control runoff from storm events and reduce urban pollutants from entering the Bay.

The O'Malley Brown Administration has achieved a 233% increase in funding for cover crops since

Creating Green Jobs, Securing our Energy Future, and Protecting our Vital Natural Resources

2006, a critical component of Bay restoration efforts. In 2013, nearly 1,800 Maryland farmers enrolled approximately 602,000 acres in Maryland Department of Agriculture's (MDA) cover crop program, which continues to be one of the State's most cost-effective means of controlling soil erosion and reducing nutrient runoff into the Chesapeake Bay. FY 2014 spending for this critical Bay restoration program is estimated at \$20.4 million, and comparable spending levels are anticipated for FY 2015.

The FY 2015 budget continues investments that are helping restore Maryland's oyster population. In 2013, a record 1.25 billion native oyster spat were produced to revitalize oyster sanctuaries--eight times the amount produced in 2007. The FY 2015 budget includes \$1.5 million in additional operating funds to continue oyster spat production and \$7.6 million in capital funds for oyster restoration projects. This investment will complete the Harris Creek Oyster Restoration project on the Eastern Shore, the largest project of its kind in the United States.

To ensure that Marylanders can continue to access and enjoy the outdoors now and for years to come, the FY 2015 allowance increases support for boating, park services, and the Natural Resources Police:

- \$4.1 million in increased funds for Waterway Improvement Projects ;
- \$2.4 million in additional funding for the Maryland Park Service; and
- \$1.3 million for the Natural Resources Police to increase capacity to hire officers and boost field strength.

Maryland's Annual Nitrogen Load to the Chesapeake Bay Continues to Decline

Preserving Open Space

The O'Malley Brown Administration's FY 2015 capital budget maintains the Administration's commitment to land preservation. The budget includes \$79.6 million for land preservation initiatives, including \$25.1 million to preserve approximately 9,549 acres through the Rural Legacy Program and Program Open Space, and \$15.2 million to preserve an estimated 3,797 acres of farmland through the Agricultural Land Preservation Program. In addition, \$30.6 million is provided to local jurisdictions for Program Open Space (POS) grants. From January 1, 2007 through December 18, 2013, the Board of Public Works approved \$673 million in funding for POS and Rural Legacy which has preserved approximately 73,500 acres of open space, the land equivalent of all of Calvert County.

Promoting Sustainable Agriculture

Maryland's agriculture industry has historically played a central role in the State's economy, and now leads in innovative techniques designed to

keep our farms sustainable for years to come. The O'Malley Brown Administration's budget provides \$7.0 million to the Tobacco Transition program, which helps landowners and farmers transition from tobacco production to other natural resource-based enterprises and economic development initiatives.

The FY 2015 allowance also provides:

- \$2.7 million to treat approximately 2 million acres throughout the State to prevent the occurrence of mosquito-borne diseases like West Nile virus and Eastern Equine Encephalitis; and

Creating Green Jobs, Securing our Energy Future, and Protecting our Vital Natural Resources

- \$2.9 million for the State Chemist program, which promotes sustainable agriculture through quality control of farming products.

Securing our Energy Future

The Maryland Energy Administration and the Maryland Department of the Environment lead the State's effort to reduce greenhouse gas emissions by 25% from 2006 levels by 2020. Since 2009, Maryland's participation in the Regional Greenhouse Gas Initiative (RGGI) carbon allowance auction has produced \$326.2 million in revenues to the Strategic Energy Investment Fund (SEIF). In FY 2015, MEA estimates that \$69.2 million of RGGI revenue will be placed in SEIF. These funds are allocated to energy efficiency programs, renewable energy projects, climate change efforts, and energy bill payment assistance for low income Marylanders. SEIF funds--among other sources of revenue, including those negotiated for during the Exelon merger--allow the State to continue its clean energy future. FY 2015 highlights include:

- \$18.7 million for Renewable Energy programs, including \$8 million for the development of Off Shore Wind energy generation;
- \$12.6 million for Energy Efficiency grants, including those to low and moderate income Marylanders; and
- \$4.7 million for Net Zero Schools.

Strategic investments in energy efficiency programs continue to make progress towards achieving the State's goal of reducing per capita peak electricity demand by 15% by 2015. Between 2007 and 2012, per capita demand at periods of peak consumption declined by 10.8% and the State is on target to meet its 2015 goal. The Department of General Services (DGS) works with State agencies in reducing energy consumption. As part of that effort, the Board of Public Works has approved 21 Energy Performance Contracts projects (EPCs), saving \$21.3 million and an equivalent of 130,000 tons of CO2 annually. The FY 2015 allowance for EPCs is \$2.9 million.

The capital budget includes \$3 million to launch a new program to promote the construction of "Net Zero Energy" and ultra-efficient homes. The program will expand quality housing opportunities for Maryland residents while reducing greenhouse gas emissions, conserving energy consumption, and decreasing monthly energy bills.

State Government Energy Consumption Continues to Decline

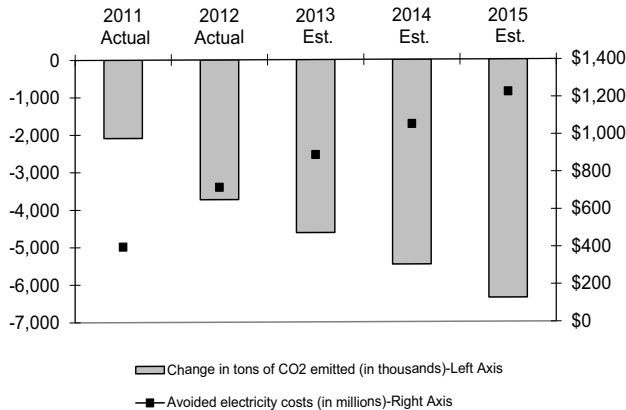

Building Sustainable Communities

As a smart growth incentive, the FY 2015 budget includes \$10 million for Sustainable Communities Tax Credits that support revitalization of historic

Creating Green Jobs, Securing our Energy Future, and Protecting our Vital Natural Resources

EmPOWER Maryland Showing Results

buildings and, by extension, existing communities. In the past 15 years, the Sustainable Communities Tax Credit and its predecessor, the Heritage Structure Rehabilitation Tax Credit, have invested more than \$389 million in Maryland revitalization projects, promoting urban redevelopment while also generating new jobs.

In addition, several capital programs support smart growth in identified Sustainable Communities. The FY 2015 capital budget includes:

- \$10 million for Smart Growth demolition and deconstruction projects to revitalize distressed communities;
- \$6 million for the Community Legacy Program to support mixed use development projects, streetscape, and structural façade improvements in Sustainable Communities; and

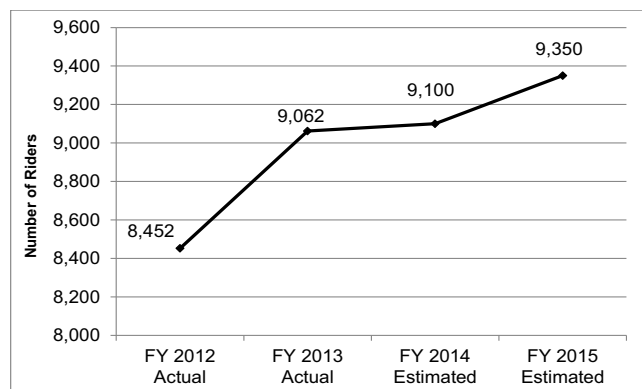

- \$5.25 million, an increase of \$1 million, for the Neighborhood BusinessWorks Program, which provides competitively-priced, flexible financing that will assist businesses and support the creation and preservation of jobs.

Promoting a Sustainable Transportation Network
 Passage of the Transportation Infrastructure Investment Act of 2013 created a sustainable transportation funding source that will allow Maryland to move forward with the first new major transportation projects in more than eight years. Over the next six years, \$4.4 billion in new investments will support more than 57,000 jobs, create hundreds of millions of dollars in economic activity, and provide Marylanders with the transportation infrastructure necessary to grow and prosper for decades to come.

By funding projects that enhance transit throughout the metropolitan areas and promoting transit-oriented development, the O'Malley Brown Administration is making progress toward achieving its goal to double transit ridership in Maryland by 2020. The Maryland Transit Administration (MTA) receives \$1.35 billion in FY 2015. Funds will be used for enhancements for weekend MARC train service on the Penn Line, the Baltimore Charm City Circulator, and enhancements to local bus and commuter bus service. Municipalities will also receive \$16 million in transportation grants for local highway projects.

MARC Train Ridership Continues to Increase

Maryland's Capital Budget

Governor O'Malley's capital budget for fiscal year 2015 totals just over \$4 billion. The capital budget funds construction of buildings, roads, water treatment plants, equipment and other long-lasting assets to provide facilities and infrastructure for Maryland's people and communities.

Overview

State-funded construction plays a vital role in supporting Maryland's construction industry and in creating jobs. Each \$1 million in State construction spending supports 11.3 full-time equivalent jobs. In FY 2015, State construction spending will support more than 31,000 jobs. The State's capital spending also leverages over \$1.5 billion in local government and private sector construction spending, supporting nearly 17,000 additional jobs. In sum, more than 48,000 jobs will be supported by the State's FY 2015 capital investment.

More than half of the capital budget is for transportation, and is funded from fuel taxes and other transportation-related sources. New funding was made available by enactment of the Transportation Infrastructure Investment Act in 2013. This allows the budget to add or restore projects for highway maintenance, improvements to increase safety and reduce congestion, expanded public transportation options, and make other investments in Maryland's transportation network.

The general capital budget, totaling \$1.5 billion, focuses on education and environmental quality.

Community revitalization, health facilities, and public safety projects also receive substantial funding. Funding for these projects includes over \$1.1 billion of State general obligation bonds, along with a variety of other sources.

Education

Governor O'Malley's FY 2015 capital budget provides \$680 million for education projects at all levels. It includes \$275 million for public school construction and renovation, \$6.1 million for the Aging Schools Program, \$4.5 million in Qualified Zone Academy Bonds (QZABs), and \$3.5 million for building systems improvements at qualifying non-public schools.

In 2013, the General Assembly established a program managed jointly by Baltimore City Public Schools and the Maryland Stadium Authority to replace or renovate \$1.1 billion worth of school buildings in Baltimore City over several years. Those projects, which will begin in FY 2016, are in addition to the projects funded in the capital budget.

Projects at public four-year colleges total \$289 million. Projects at campuses of the University System of Maryland include \$49 million for a new Health Sciences Building at University of Maryland, Baltimore and \$35 million for the new Academic Commons at Salisbury University.

Maryland's Five-Year Capital Improvement Program (\$ millions)

	FY 2015*	FY 2016	FY 2017	FY 2018	FY 2019	Five-Year Total
General Capital	1,520	1,575	1,599	1,680	1,735	8,108
Transportation*	2,537	2,715	2,477	2,639	2,599	12,967
Total	4,056	4,290	4,076	4,319	4,334	21,075

*The State Highway Administration Watershed Implementation Plan is Counted in the General Capital, not the Transportation total.

Maryland's Capital Budget

The capital budget contains substantial new investment in facilities at Maryland's historically black colleges and universities. \$61 million continues construction on the new Engineering and Aviation Science Building at the University of Maryland Eastern Shore. The budget includes \$23 million to begin construction of a new Natural Sciences Center at Bowie State University. Coppin State University receives \$10 million to complete its new Science and Technology Center – a \$126 million project. Morgan State University receives \$3 million to complete its new \$80 million business complex.

The capital budget includes \$65 million for building projects at nine community colleges. The projects include \$20 million for the Center for Allied Health and Athletics at Chesapeake College and \$14 million for the Science Building renovation at Montgomery College.

The budget also includes \$36 million for other education projects, including \$13 million to begin renovations to the State Library Resource Center at the Pratt Central Library in Baltimore City.

Environment

The capital budget includes \$456 million in projects and programs to improve environmental quality. Improved water treatment is one of the principal tools to reduce water pollution in the Chesapeake Bay and Maryland's other watersheds. Water quality measures total \$337 million. These include \$130 million in the Maryland Water Quality Revolving Loan Fund, with another \$107 million for biological nutrient removal, enhanced nitrogen removal, and supplemental assistance for communities that need help in meeting the cost of treatment plant upgrades.

The budget also addresses other sources of water pollution. It includes \$45 million for watershed implementation projects to mitigate runoff from

state highways, \$25 million for Bay 2010 Trust Fund projects, over \$15 million for upgrades of septic systems, and \$7 million to manage nutrient runoff from farming operations. The budget also includes \$7.6 million to continue Maryland's oyster restoration plan.

The capital budget directs \$84 million to programs for land preservation, including Program Open Space, Agricultural Land Preservation and the Rural Legacy program.

Community Revitalization and Housing

Addressing needs for affordable housing and community revitalization are important initiatives in this year's capital budget. The budget includes \$126 million for housing and programs to enhance communities.

The budget adds \$24 million for "Rental Housing Works." This funding will attract private investment, create jobs in construction, and produce safe, quality housing within the reach of moderate-income families.

The budget includes \$3 million to initiate a new program to assist in the development of homes with "net zero" energy usage and other ultra-efficient development.

Another \$40 million is directed to developing and improving communities and neighborhoods. Examples include:

- \$5 million as part of the East Baltimore Development Initiative to redevelop the area adjacent to the Johns Hopkins Medical Center and as a major employment and residential center;
- \$10 million to deconstruct and demolish derelict structures to make way for new housing and business development; and
- \$3 million to develop businesses in local neighborhoods statewide.

Maryland's Capital Budget

Safer Communities and Public Safety

The capital budget provides \$110 million for public-safety related projects. They include:

- \$12.5 million will complete the purchase of new state police helicopters for med-evac and law enforcement missions, and construct a flight simulator training facility;
- \$27 million for the next installment for Maryland's interoperable public safety radio communication system; and
- \$34 million in the Department of Juvenile Services to replace obsolete, inefficient and inadequate detention centers with modern facilities including appropriate education, treatment and program spaces. These include construction of a center in Prince George's County and design of a new center for female youths.

The five-year Capital Improvement Program incorporates the initial phases of a master plan to demolish antiquated facilities and modernize the state correctional complex in Baltimore. Funds are included in fiscal year 2015 to construct the youth detention facility. In subsequent years, the state will construct a new Women's Detention Center and design the first phase of a new Men's Detention Center.

Health

The capital budget includes \$56 million in health-related projects, including:

- \$30 million towards a \$200 million multiyear state commitment to assist in the development of a modern, regional medical center for Prince George's County;
- \$8 million for 16 projects at community facilities providing primary care, mental health, addiction

treatment, and developmental disability services; and

- \$5 million for projects at 11 local hospitals.

Economic Development, Tourism and the Arts

The capital budget also includes \$18 million for projects related to economic development, tourism, and the arts. Highlights include:

- \$5 million for improvements at the Maryland Zoo in Baltimore;
- \$2 million towards modernizing the infrastructure at Baltimore's Inner Harbor;
- \$2 million as part of an overall \$4 million state commitment towards a permanent home for the National Cybersecurity Center of Excellence in Montgomery County in conjunction with the National Institute of Standards and Technology (NIST);
- \$1 million towards the construction of a new National Cryptological Museum in Anne Arundel County adjacent to the National Security Agency (NSA); and
- \$1 million to preserve African-American historical assets statewide.

Other Investments

The remaining \$74 million in the general capital budget addresses a variety of goals.

- \$32 million provide basic maintenance and building improvements for state parks, veterans' cemeteries, and state government facilities.
- \$5 million provides improvements for the boating public – such as channel dredging, boat ramps, and marina improvements.
- \$1.25 million will help create facilities for food production, distribution, and education in Baltimore and on the Eastern Shore.

Capital Budget for Transportation

The proposed FY 2015 capital budget for Department of Transportation projects totals \$2.6 billion. The budget includes funding to build and maintain the entire range of Maryland's transportation infrastructure including roads and bridges, motor vehicle facilities, mass transit networks, mobility services, the Port of Baltimore, BWI Thurgood Marshall Airport as well as various small airports.

The transportation capital budget is primarily funded through State sources and federal aid. The State sources consist of taxes, fees, and bonds. In FY 2015, State sources comprise \$1.6 billion of the capital budget, or 60.9%, and federal aid makes up \$794 million, or 30.8%. Other sources of funding, including user fees and federal funds received directly by the WMATA, comprise \$215 million or 8.3%.

The Secretary's Office (TSO)

TSO's FY 2015 capital budget totals \$122.0 million and includes \$3.6 million for the Bikeways Network Program, \$20 million for a grant to CSX toward the construction of the Baltimore Rail Intermodal facility, and \$30 million in a federal High Speed Intercity Passenger Rail Grant for engineering work for the B&P Tunnel.

State Highway Administration (SHA)

SHA projects constitute \$1.17 billion, the largest share of the FY 2015 capital program for transportation. The SHA capital program is funded with \$722.7 million in State sources and 38.4% or \$451.0 million from federal aid. Major projects by region include:

- Western Maryland: \$3.4 million to finish replacement of the dual bridges on I-70 over MD 63 in Washington County and \$6.8 million for the rehabilitation of bridges along I-68 in Allegany County.
- Eastern Shore: \$8.7 million for MD 404 widening in Caroline, Queen Anne's and Talbot counties, \$14.4 million to replace the Dover bridge in Caroline and Talbot counties, \$6.4 million to replace the MD 272 bridge over Amtrak in Cecil County, \$4.7 million to replace a maintenance facility in Dorchester County, \$9.6 million for a new interchange at US 301/MD 304 in Queen Anne's County, \$6.9 million to rehabilitate the US 13 bridges over the Pocomoke River in Somerset and Worcester counties and \$5.9 million for engineering and right of way acquisition on US 113 in Worcester County.

- Suburban Washington Region: \$12.6 million for a new interchange on US 15 at Monocacy Blvd. in Frederick County; \$16.7 million for a new interchange at MD 97 and Randolph Rd., \$15.6 million for BRAC intersections around the Naval Medical Center in Montgomery County; \$15.3 million to construct new access to the Branch Ave. Metro Station, \$15.1 million for a new interchange on MD 4 at Suitland Pkwy., \$10.7 million for a new interchange on MD 210 at Kerby Hill/Livingston Roads, and \$6.5 million to construct a streetscape project along MD 500 in Prince George's County.

- Southern Maryland: \$15.3 million to replace the MD 261 bridge over Fishing Creek in Calvert County, \$4.1 million to start engineering for the MD 4 Thomas Johnson Bridge replacement between Calvert and St. Mary's counties, and \$3.1 million to replace the bridge on MD 5 over Eastern Branch.

- Baltimore Region: \$15.2 million for BRAC improvements near Ft. Meade in Anne Arundel County; \$33.3 million for various improvements along I-695 in Baltimore County; \$4.0 million for various improvements and studies along MD 32 and \$20.5 million for various improvements and studies along US 29 in Howard County; and \$6.7 million for improvements to MD 24 as well as \$11.8 million for BRAC improvements near the APG in Harford County.

- Watershed Implementation Program (WIP): \$80.2 million has been allocated for various WIP projects. \$45 million is from GO Bonds and \$35.2 from the TTF. Of this, \$40 million is for engineering and over \$22 million for construction projects. The remaining funds will be used for stream restoration projects, additional engineering, or planning.

Motor Vehicle Administration (MVA)

MVA's FY 2015 capital budget totals \$27.9 million. \$3.0 million of this funding is for building improvements, \$2.0 million is for the e-MVA service delivery system and \$15.1 million is for upgrading IT systems.

Maryland Aviation Administration (MAA)

MAA's FY 2015 capital budget totals \$196.7 million and includes the following major projects for BWI/Thurgood Marshall Airport:

- \$6.2 million for parking revenue control system;
- \$69.2 million for the runway safety area/pavement management program; and
- \$60.5 million for the D/E Concourse Connector project.

Capital Budget for Transportation

MPA's FY 2015 capital budget totals \$153.4 million, including:

- \$58.9 million for projects related to dredging for the Port of Baltimore;
- \$13.3 million for the reconstruction of berths at Dundalk Marine Terminal; and
- \$21.5 million for the Fairfield TIGER Grant expansion project.

Maryland Transit Administration (MTA)

MTA's FY 2015 capital budget totals \$653.9 million, with \$270.4 million, or 41%, coming from federal sources.

- MARC commuter rail improvements include \$33.0 million for various improvements on the Camden, Brunswick and Penn lines; \$6.4 million for positive train control; \$44.4 million for coach and locomotive overhauls and the purchase of new rolling stock; and \$14.3 million for overall system homeland security improvements.
- Improvements in the Baltimore area include \$21.2 million for mid-life overhaul of light rail cars; \$30.1 million for bus procurement; \$33.2 million for Phase 1

of the Kirk bus facility replacement; and \$90.9 million to move the Red Line Transitway forward.

- Improvements in the Washington area include \$158.9 million to move the Purple Line Transitway into construction; \$10.0 million for engineering the Corridor Cities Transitway; and \$9.0 million for the Takoma/Langley Park Transit Center.
- Improvements in the Southern Maryland area include \$6.1 million for a Commuter Bus initiative and \$3.0 million for a Mass Transportation Analysis.
- \$39.9 million is provided to assistance a variety of locally operated transit systems around the State.

Washington Metropolitan Area Transit Authority (WMATA)

WMATA's FY 2015 capital budget totals \$253.9 million. This includes \$109.6 million in federal funds that go directly to WMATA. Most of Maryland's share is for the WMATA capital improvement program (\$181.1 million) and \$50 million is for Maryland's match to the Passenger Rail Investment and Improvement Act of 2008.

Department of Agriculture

The Maryland Department of Agriculture (MDA) works to preserve Maryland's agricultural heritage while providing the resources needed by agricultural-based businesses to ensure their success in the 21st century.

The FY 2015 allowance for MDA totals \$114.1 million, an increase of \$7.2 million from FY 2014. This increase is largely attributable to the inclusion of transfer tax revenues that support agricultural land preservation programs. While reflected at \$114.1 million in the allowance, legislation is proposed to maintain funding for the Maryland Agricultural and Resource-Based Industry Development Corporation (MARBIDCO) at \$2.9 million and to replace \$17.3 million of the transfer tax allocation with General Obligation bonds over a three-year period. The FY 2015 operating budget for MDA is \$95.7 million after these contingent reductions.

Major Accomplishments

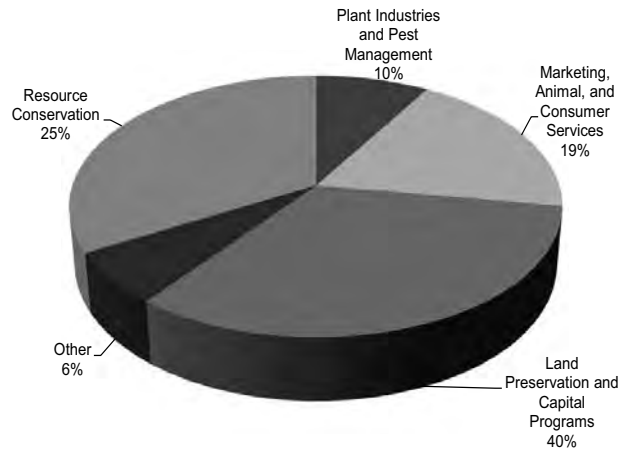

The Department plays a pivotal role in the State's successful efforts to restore the Chesapeake Bay and preserve agricultural land for future generations. MDA is one of the key participants in the State's Watershed Implementation Plan (WIP), a multi-agency three-phased planning process to achieve nutrient and sediment clean-up goals for the Chesapeake Bay.

In FY 2014, nearly 1,800 Maryland farmers enrolled 602,000 acres in MDA's cover crop program, which continues to be one of the State's most cost effective means of controlling soil erosion and reducing nutrient runoff into the Chesapeake Bay. FY 2014 spending for this program is estimated at \$20.4 million, and comparable spending levels are anticipated for FY 2015.

Reduction in Nitrogen Entering the Chesapeake Bay

Expenditures

The Maryland Agricultural Land Preservation Foundation receives \$15.2 million in general obligation (GO) bonds after contingent reductions and \$1.1 million in agricultural transfer tax revenue. To date the Foundation has preserved approximately 286,000 acres.

In October 2013 the State Board of Veterinary Medical Examiners began the Spay/Neuter program, a program to limit the breeding of stray animals. MDA's FY 2015 budget receives \$859,300 to help defray these costs.

Major Programs Funding

- The Office of Resource Conservation, responsible for working with farmers to reduce runoff from reaching the Chesapeake Bay, receives \$43.1 million in FY 2015.
- The Tobacco Transition program receives \$7.0 million. The Program helps landowners and farmers transition from Maryland's 300-year-old tradition of tobacco production to other natural resource-based enterprises.
- The State Chemist program, which ensures the quality, safety, and labeling of products like pesticides, commercial fertilizers, and feed, receives \$2.9 million.
- MDA's FY 2015 budget also includes \$3.2 million to protect the health of domestic animals, \$2.7 million to prevent the occurrence of mosquito-borne disease, and \$1.9 million to ensure the safety and quality of animal and human food.

Department of Business & Economic Development

The Department of Business and Economic Development (DBED) leads the effort to stimulate the State's economy and to foster job creation by providing financial and technical assistance to businesses, leveraging investments, and promoting tourism and the arts. The FY 2015 allowance for DBED totals \$161,881,417, an increase of \$3.7 million over the FY 2014 appropriation.

Major Accomplishments

In Fiscal Year 2013, DBED played the lead role in securing numerous high-profile business expansions and relocations throughout the State.

- In Baltimore City, DBED worked with Amazon.com to secure a distribution center which will create over 1,000 jobs with both health insurance and tuition remission.
- In Washington County, DBED worked with Volvo to create and retain over 1,500 jobs by enhancing the company's power-train manufacturing facility.
- In Harford County, the agency worked with cosmetics powerhouse Sephora to create and retain over 600 jobs.

DBED has also served as a resource to businesses for technical assistance. In Fiscal Year 2013, the agency resolved almost 800 issues for Maryland businesses and helped to create or retain more than 10,600 jobs in the State. Working with the National Institute of Standards and Technology, DBED established the National Cybersecurity Center of Excellence, a resource dedicated to furthering innovation of practical cybersecurity solutions.

Significant Funding Changes

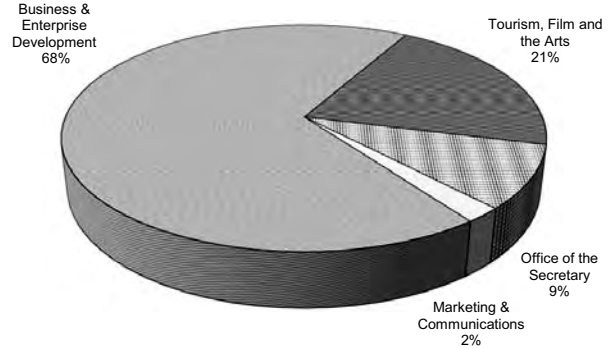

The Fiscal Year 2015 allowance includes unprecedented increases in the Department's financing programs that drive economic growth:

- \$28.0 million for the Maryland Economic Development Assistance Authority and Fund to facilitate business

Promoting Maryland's Competitive Business Advantages

Expenditures

expansion and bring jobs to the State;

- \$12.0 million for the Biotechnology Investment Incentive Tax Credit, an increase of \$2 million, to spur investment in high technology life sciences firms;
- \$11.1 million to provide investment capital and loans through the Small, Minority, and Women-owned Business Investment Account, an increase of over \$2.0 million;
- \$9.0 million for the Research and Development Tax Credit, a \$1 million increase, to further strengthen Maryland's competitive advantage in high technology industries; and
- \$4.0 million for the Cybersecurity Investment Incentive Tax Credit, an increase of \$1 million, to secure investment in early-stage cybersecurity companies.

Major Program Funding

The FY 2015 allowance includes millions in investments for economic development:

- \$29.9 million for the Maryland Enterprise Investment Fund and Challenge Program which makes investments in emerging high-technology businesses;
- \$11.0 million for the film tax credit to support Maryland's thriving film production industry; and
- \$6.3 million for the Maryland Small Business Development Financing Authority to enhance businesses owned by socially or economically-disadvantaged persons.

The Fiscal Year 2015 Allowance also includes record investments in tourism and the arts. Tourism promotion is funded at \$14.4 million, including \$2,000,000 for the State's War of 1812 bicentennial celebration. The State Arts Council receives \$17.1 million, and \$2 million is included for the Preservation of Cultural Arts.

Department of Education

The Maryland State Department of Education (MSDE) provides leadership, support, and accountability to achieve effective systems of public education, libraries, and rehabilitation services. MSDE's budget will increase by \$100.2 million, or 1.4% in FY 2015.

Major Accomplishments

Public education has remained a top priority for the O'Malley Brown Administration. Over the Administration's eight years, when most states have been spending less per pupil due to the economic downturn, State aid to Maryland's public schools has grown by nearly 40%. The Administration's continuing investments are showing results.

- For five years in a row, Maryland's public school system ranked first in the nation according to Education Week.
- Maryland has led the nation in the percentage of seniors (29.6%) who earned a score of 3 or higher on Advanced Placement (AP) exams for seven years in a row.
- Maryland has ranked number one in the nation in terms of student academic progress, including economically disadvantaged students, since 2003.
- Maryland students are graduating from high school at a record rate.

Significant Funding Changes

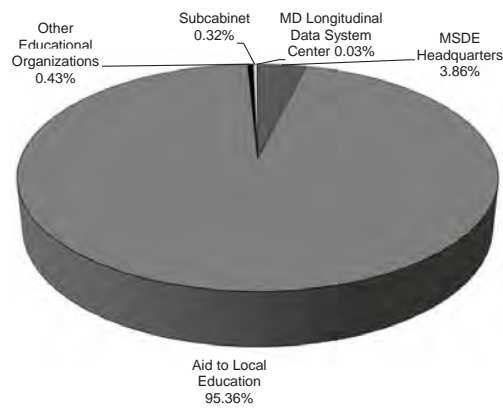

The FY 2015 budget includes:

- A \$135.6 million increase in aid to public schools, after contingent reductions, bringing the FY 2015 total to a record \$6.12 billion. This includes an additional

Another Record Level of Direct Local Aid for Primary / Secondary Education

Expenditures

\$18.5 million as the result of Administration legislation passed during the 2013 Legislative Session which changed the calculation of net taxable income used in aid to education funding formulas, ensuring greater equity across jurisdictions;

- \$41.8 million in additional funds for school lunch and breakfast programs, bringing the total for school nutrition programs to \$318.2 million in FY 2015. This includes \$6.9 million for Maryland Meals for Achievement, a \$1.7 million increase over FY 2014 that will provide breakfast for an additional 57,000 public school students;
- \$4.3 million to expand access to pre-kindergarten education; and
- \$1.8 million in State funds to sustain the progress Maryland has made through federal Race to the Top grants, including support to local school systems for teacher and principal evaluation, the continuation of the Breakthrough Center, a tool for MSDE to directly assist in the improvement of low performing schools, and ongoing efforts to enhance data collection and coordination.

Major Programs Funding

- Early childhood development funding grows 6% over FY 2014, totaling \$153.7 million in FY 2015. As a result of Maryland's support for early childhood programs, 82% of students entering kindergarten in 2013 were fully ready to learn, a 15% increase since FY 2007.
- The Division of Rehabilitation Services (DORS) promotes the employment and independence of individuals with disabilities. The FY 2015 allowance for DORS is \$103.7 million.

Maryland Energy Administration

The Maryland Energy Administration's (MEA) mission is to promote affordable, reliable, and clean energy in Maryland. MEA serves as the State's leader on energy-related policy matters and in meeting the State's energy efficiency, renewable energy, and greenhouse gas reduction goals. The fiscal year 2015 allowance for the Maryland Energy Administration totals \$49.7 million, a decrease of \$12.7 million or 20.3 percent from fiscal year 2014. This decrease is largely attributable to anticipated declines in annual revenues from Regional Greenhouse Gas Initiative (RGGI) auctions.

Major Accomplishments

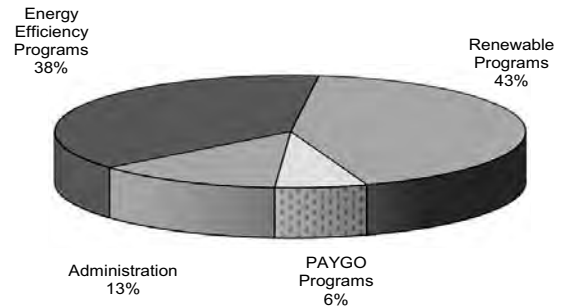

Today, Maryland is recognized as one of the leading clean energy states in the nation.

- Ranked 47th in 2007, Maryland has been ranked in the top 10 states for energy efficiency for each of the past three years and Baltimore is ranked as one of America's top 25 Electric Vehicle (EV)-ready cities.
- Maryland increased green jobs by 18 percent between 2010 and 2011 and has more green jobs per capita than any state in the Mid-Atlantic region.
- Smart and strategic energy policies such as the Renewable Portfolio Standard, have created 2,000 more solar industry jobs and have increased solar production to 150 MW from 0.1 MW in 2006.
- In 2013, MEA issued 1,821 residential and commercial grants to help Marylanders save more than \$31.7 million in energy costs over 15 years.

Significant Program Changes

RGGI auctions will continue their variability in 2015. MEA estimates \$69.2 million in RGGI revenues will be

Expenditures

placed in the Strategic Energy Investment Fund (SEIF) in FY 2015. SEIF is utilized for renewable energy, energy conservation, and low-income bill assistance programs.

Major Programs Funding

To accelerate Maryland's transition to the clean energy economy, MEA has launched initiatives to: promote energy efficiency; expand renewable power generation; finance clean energy innovation; and provide a resilient energy grid. Funding in the FY 2015 allowance for these programs includes:

- \$9.1 million for Low/Moderate Income Community Energy Efficiency grants;
- \$5.9 million for Exelon Customer Investment Fund programs to support Net Zero Schools, Small Business Energy Advances, and energy efficiency programs for the industrial sector;
- \$2.0 million for Smart Energy Community grants to implement energy efficiency, renewable energy, and transportation policies at the local government level;
- \$1.5 million for Commercial/Industrial grants to promote energy efficiency;
- \$6.5 million for Off Shore Wind Development and \$1.5 million for Off Shore Wind Business Development, consistent with legislation passed in 2013;
- \$5.0 million for Clean Energy Grants;
- \$4.0 million for Alternative Transportation Grants; and
- \$1.7 million for emergency generator projects.

Department of the Environment

The Maryland Department of the Environment (MDE) is the State's regulatory agency responsible for protecting Maryland's air, water and land resources. The FY 2015 allowance for MDE totals \$390.6 million, a 0.5% decrease from the FY 2014 appropriation. This includes a general fund appropriation of \$37.7 million.

Major Accomplishments

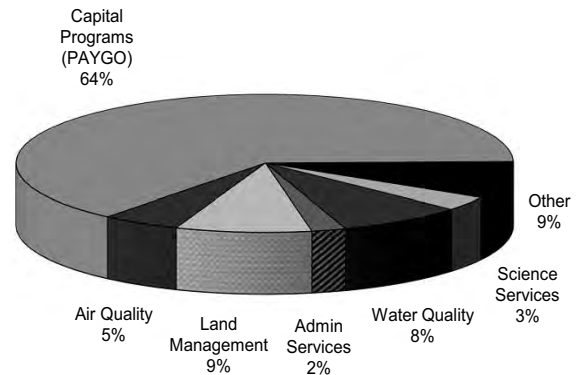

During the O'Malley Brown Administration, MDE has made noteworthy progress in Chesapeake Bay restoration and water quality improvement, lead poisoning prevention, and greenhouse gas emissions reduction. Significant achievements of the Department include:

- An 89% reduction in emissions of hazardous air pollutants from Maryland power plants as a result of clean air regulations;
- Thirty-three wastewater treatment plants upgraded to reduce pollution flowing to the Chesapeake Bay by approximately 1.9 million pounds of nitrogen per year and 259,000 pounds of phosphorus per year;
- A 50% decrease in the number of Maryland's children exposed to toxic levels of lead paint for a total reduction of 98% since program initiation in 1994; and
- \$319 million added to Maryland's economy from a market-based regulatory program to reduce greenhouse gas emissions in collaboration with the Maryland Energy Administration.

Significant Funding Changes

The FY 2015 budget provides additional support for

Expenditures

MDE's work in a number of environmental protection and regulatory arenas, including:

- A \$3 million increase in operations and maintenance grants for Enhanced Nutrient Removal (ENR) wastewater treatment systems;
- Eleven new positions and \$400,000 in additional special funds for the Lead Poisoning Prevention Program to continue to protect Maryland citizens from exposure to lead paint;
- Eight new technical assistance positions to increase capacity to review and implement Chesapeake Bay 2010 Trust Fund projects;
- One new position and \$140,000 in increased funding for the Shellfish Water Quality Monitoring program to ensure that Chesapeake Bay waters continue to produce healthy oysters and foster growth of aquaculture businesses; and
- One new position and \$70,000 in additional funds to increase the capacity of the Dam Safety Division to undertake risk management activities related to the State's inventory of 423 dams.

Instances of Elevated Blood Lead Levels Continue to Decline

Major Programs Funding

- The Science Services Administration receives \$12.9 million in FY 2015 to provide scientific and technical analysis for regulatory programs in both MDE and other State departments.
- The Air and Radiation Management Administration is allocated \$19.8 million in the FY 2015 allowance.

Department of Health & Mental Hygiene

The Department of Health and Mental Hygiene (DHMH) oversees Maryland's health care delivery system and funds health services for over one million vulnerable Marylanders. The FY 2015 allowance for DHMH totals \$11.4 billion, an increase of \$1 billion or 9.7% over the FY 2014 appropriation.

Major Accomplishments

Since 2007, in historically difficult economic times, the O'Malley Brown Administration has:

- Expanded health care coverage to approximately 548,000 more Marylanders;
- Implemented the expansion of Medicaid, per the Affordable Care Act, to cover an additional 140,000 individuals with full Medicaid benefits;
- Increased access to dental care for 185,000 low-income children; and
- Reduced Maryland's infant mortality rate to a record low in 2012 through various government interventions.

Significant Funding Changes

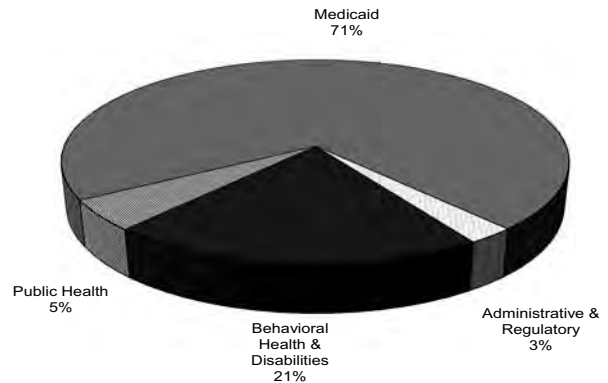

The budget includes a number of initiatives to enhance critical community services, including:

- \$49.1 million for provider rate increases, most of which will be effective mid-year;
- \$42 million to maintain physician and psychiatrists' reimbursements rates for primary care services to a level equal to that of Medicare;
- \$4 million to continue implementing Health Enterprise Zones, a pilot program to reduce health disparities through expansions of primary care, loan assistance repayment, and community-based services; and

Maryland's Cancer Mortality Rate Is Declining

Expenditures

- \$2.4 million in new funding to maintain support for the Access to Recovery Program.

The O'Malley Brown Administration has continued to provide unprecedented investments in the system of supports and services for individuals with developmental disabilities. During the three year period from fiscal years 2013 to 2015, the Administration has budgeted more than \$28.5 million in general funds (\$17.2 million in FY 2015) to support a full, ongoing set of services for additional individuals at high risk. By the end of the three year period, at least 300 additional people will have received ongoing services.

The FY 2015 budget includes:

- \$5.1 million (\$2.9 million in general funds) to support 596 new community placements for transitioning youth;
- \$777,000 (\$422,000 in general funds) to support 30 new service placements for individuals involved with the court; and
- \$460,000 (\$287,000 in special funds) to support 37 new service placements through the Waiting List Equity Fund.

Major Programs Funding

The FY 2015 allowance for Medicaid services is \$8.9 billion, including \$782.2 million for Behavioral Health Medicaid Services. Implementation of the Affordable Care Act is one of the primary drivers of this increase as full Medicaid benefits for 140,000 new enrollees will be 100% federally funded. The FY 2015 budget also includes \$316.9 million for the Behavioral Health Administration.

Maryland Higher Education Commission

The Maryland Higher Education Commission (MHEC) is the State's coordinating agency responsible for establishing statewide policies for and oversight of Maryland public and private colleges and universities and for-profit career schools. MHEC also administers State student financial aid programs and is responsible for developing the Maryland State Plan for Postsecondary Education.

The FY 2015 allowance for MHEC totals \$489.4 million, an increase of \$18.7 million or 4% over the FY 2014 appropriation. This growth is largely attributed to statutory increases in formula aid to local community colleges and Maryland's independent institutions. While reflected at the mandated level in the budget, proposed contingent reductions totaling \$8.5 million would limit growth in aid to community colleges to 5% and provide level funding for private colleges and universities. These contingent reductions reduce MHEC's FY 2015 allowance to \$481 million.

Major Accomplishments

Funding for community colleges has grown by \$92 million or nearly 45% since FY 2007, even after adjusting for contingent reductions in FY 2015. This growth demonstrates the State's choice in recognizing the important role that community colleges play in providing education and training to more than 139,000 Marylanders each year.

MHEC continues to help students attain degrees in critical workforce shortage fields.

- Between FY 2007 and FY 2013, the number of graduates in workforce shortage areas increased by 37.1%, from 6,403 to 8,781 graduates.

Alleviating Maryland's Nursing Shortage

Expenditures

- During the same years, the number of students who graduated from targeted health personnel shortage programs increased by 39.3%, from 4,231 to 5,894 graduates.
- By supporting campus efforts to expand their capacity for educating nurses, MHEC's Nurse Support Program II contributed to a 51.9% growth in nursing graduates between FY 2007 and FY 2013.

Major Programs Funding

In FY 2015, MHEC-administered financial aid programs will provide \$119.5 million in scholarships and grants to more than 60,000 Maryland students, 70% of whom receive aid on the basis of financial needs.

- The Educational Excellence Award program, the State's largest need-based student financial aid program, will provide \$77 million in awards to over 34,000 low and moderate income students attending colleges and universities in Maryland.
- The Veterans of the Afghanistan and Iraq Conflicts Scholarship will provide \$750,000 in financial assistance to veterans, active duty members of the reserve or Maryland National Guard, and their children and spouses. The program has served 946 veterans and family members since its initial year (FY 2008).

Funding for educational grants rises to \$12.8 million in FY 2015. This includes a one-time stabilization grant of \$1.5 million for St. Mary's College of Maryland.

Funding for community colleges totals \$304.7 million in FY 2015. While reflected at the mandated level in the allowance, proposed contingent reductions would bring the total to \$297.5 million or almost 5% over FY 2014. Independent colleges and universities receive \$44.8 million in FY 2015. Once adjusted for contingent reductions, independent institutions will be level-funded at \$40.9 million.

* Legislative scholarships are not included due to a change in awarding practices begun in FY 2012.

Higher Education Institutions

The FY 2015 allowance for public higher education totals \$5.53 billion, an increase of \$144.6 million, or 2.7%, from FY 2014. The Governor's FY 2015 budget contains an additional \$81.2 million in State funding, a 6.1% increase from FY 2014.

Major Accomplishments

The FY 2015 budget continues the Governor's commitment to making higher education more affordable. To this end, the budget provides \$9.6 million in State funding to hold the tuition increase for in-state undergraduates at University System of Maryland (USM) institutions to 3%. Morgan State University and St. Mary's College of Maryland freeze tuition at FY 2014 levels. The non-partisan College Board reports that Maryland has held tuition and fee increases to the lowest in the nation since the O'Malley Brown Administration took office.

On major performance measures, Maryland public higher education institutions are either maintaining or showing improvement in recent years.

- Six-year graduation rates for first-time, full-time students at public four year colleges and universities reached 61.6% in FY 2013.
- Public institutions awarded more than 5,300 bachelor's degrees in science, technology, engineering, and mathematics (STEM) in FY 2013, a 9.8% increase from last year.
- The number of community college students who transfer to a Maryland public four-year campus has gone from 7,987 in FY 2006 to 9,807 in FY 2013.

STEM Degrees Awarded by the University System of Maryland and Morgan State University

Expenditures

Maryland's public higher education institutions continue to focus their resources on financial aid to students, instruction, and expanding research programs. Campuses are dedicating an additional \$6.8 million to campus-based financial assistance to students, with a total of \$431.8 million for FY 2015. Support for academic instruction increases by \$43.5 million to \$1.34 billion. Research expenditures grow by \$10.9 million to \$1.03 billion in FY 2015.

Major Programs Funding

The University System of Maryland encompasses eight four-year comprehensive institutions, three doctoral research institutions, one research center and the System office. USM's operating budget increases to \$5.14 billion in FY 2015, growth of 3%. USM's operating budget includes \$10 million to support enrollment growth in STEM and health programs, completion initiatives, research, and economic development.

Morgan State University is the State's public urban university offering a range of academic programs through the doctorate level. Morgan's FY 2015 budget increases to \$223.2 million, a 2.2% increase from FY 2014. This includes \$1 million in enhancement funding to support various campus initiatives and the Lillie Carroll Jackson Museum.

Funding for St. Mary's College of Maryland, the State's public honors college, receives an additional \$1.4 million in base funding, bringing total funding to \$73.1 million. In addition, St. Mary's receives a one-time stabilization grant of \$1.5 million.

Baltimore City Community College (BCCC) receives \$41.8 million in State funding, bringing the total budget for FY 2015 to \$91.6 million.

Department of Housing and Community Development

The Department of Housing and Community Development (DHCD) expands homeownership opportunities and the availability of affordable rental housing for Maryland's working families, seniors, and individuals with disabilities and revitalizes communities for all Maryland citizens. The FY 2015 allowance for DHCD totals \$375.8 million, an increase of \$10.6 million or 2.9% over the FY 2014 appropriation.

Major Accomplishments

During the O'Malley Brown administration, the Maryland Mortgage Program has helped 11,421 families achieve homeownership. Under DHCD's leadership, the Program has provided Maryland families with mortgage, down payment, and closing cost assistance totaling more than \$2.18 billion.

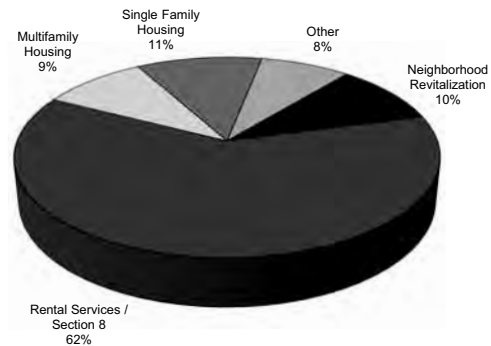

DHCD has also expanded its residential energy efficiency services to Marylanders, especially to low- and moderate-income households.

- Through the American Recovery and Reinvestment Act (ARRA) Weatherization Assistance Program (WAP), DHCD has helped more than 12,000 households become more energy efficient since July 2009, for an expenditure of more than \$62.4 million.
- In FY 2014, DHCD began to administer \$28 million in funds awarded through the Customer Investment Fund, established as part of the Constellation/Exelon merger settlement. These funds will be used to implement new single and multi-family energy efficiency programs through FY 2016.

Helping Marylanders Purchase Homes

Expenditures

Significant Funding Changes

The Governor's FY 2015 budget for DHCD includes:

- \$5.9 million for the Department's move to a new headquarters in New Carrollton, Prince George's County. This move serves as a milestone in the Governor's transit-oriented development vision for State agencies and brings an agency dedicated to neighborhood revitalization closer to one of the population centers it serves most.
- An additional \$1 million in State funding for Emergency Solutions Grants that support rapid rehousing programs administered by local governments and nonprofit groups. These programs keep individuals from falling into homelessness and provide immediate support to individuals who have become homeless.

Major Programs Funding

- \$43.2 million in total funds for energy programs. This will allow DHCD to weatherize 3,288 single and multi-family units, for an estimated savings of 8,080 MWh per year for the lifetime of the work.
- \$37.2 million in total funds for the Division of Neighborhood Revitalization. DHCD estimates that its Neighborhood Business Works loan program will assist 185 new or expanding small businesses and will support the creation or preservation of at least 800 jobs in FY 2015.
- \$7.9 million in total funds for foreclosure prevention and mediation related activities. These funds will provide outreach and counseling to an estimated 15,000 Maryland homeowners who are in danger of foreclosure.

Department of Human Resources

The Department of Human Resources (DHR) provides services to vulnerable children and adults and assistance to those in economic need, administering such programs as child welfare, foster care, child support enforcement, and public assistance. The FY 2015 allowance for DHR totals \$2.73 billion, an increase of \$175 million, or 6.8%, compared to FY 2014. The increase is largely attributable to projected growth in participation in the Supplemental Nutrition Assistance Program (SNAP).

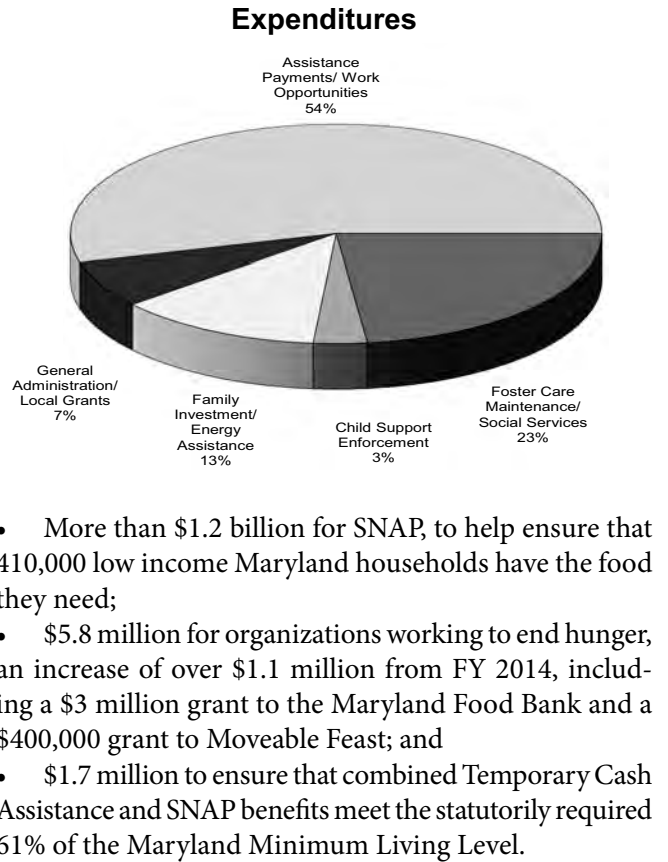

Major Accomplishments

As a result of DHR's efforts under the O'Malley Brown Administration, there are fewer Maryland children in foster care and overall outcomes for children have improved. Successful efforts to increase transitions from welfare to jobs and to collect child support have contributed to the economic stability of Maryland's families.

- The number of children in out-of-home care declined from 10,330 in FY 2007 to 5,848 in FY 2013, a 43% decrease.
- A record 12,504 Marylanders left welfare for jobs in Federal Fiscal Year (FFY) 2013.
- A record \$549 million in child support was collected in FFY 2013.

Significant Funding Changes

The Governor's FY 2015 budget for the Department of Human Resources includes:

In addition, \$3.4 million in FY 2014 deficiencies is included to backfill anticipated shortfalls in Social Services Block Grant and Promoting Safe and Stable Families funding due to federal sequestration.

Major Programs Funding

- \$222.7 million for the Child Welfare Program, which provides services to prevent, identify and remedy neglect, abuse and exploitation of children.
- \$40.6 million for the Child Support Enforcement Administration, which works to ensure that non-custodial parents, if able, contribute towards the success of children.
- \$34.9 million for the Work Opportunities Program, which transitions public assistance recipients to independence through employment.

Child Support Collections Continue to Increase

Department of Juvenile Services

The Department of Juvenile Services (DJS) is charged with ensuring public safety and fostering the successful rehabilitation of youth and their transition back into the community. Accounting for FY 2014 deficiencies, the DJS budget will increase by \$6.3 million (2.1%) in FY 2015.

Major Accomplishments

Through the Violence Prevention Initiative, Operation Safe Kids, Global Positioning System (GPS) enhanced supervision, and continued collaboration with local partners, DJS has been at the forefront of efforts to drive down incidents of violence involving Maryland youth. As a result, between 2007 and 2012:

- Juvenile homicides declined by 55% statewide, and by 52% in Baltimore City; and
- The number of juvenile victims of non-fatal shootings in Baltimore City has been driven down by 74%.

In addition to these efforts, DJS is collaborating with state agencies and the Baltimore City Public Schools to provide wraparound services to pre-teens who have had contact with DJS. Maryland's first Under-13 (U-13) Initiative was developed as a result of data indicating that from 2007 through 2011, nearly 40% of juvenile homicide victims from Baltimore City had some prior contact with DJS by age 12 or younger. The U-13 Initiative became operational in Baltimore City on May 1, 2013, and DJS is currently working with Prince George's County Public Schools to expand the initiative.

The Number of Youth Who are Victims of Homicide While Under DJS Supervision Has Declined 85% Since 2009

Expenditures

Significant Funding Changes

The Governor's FY 2015 budget for DJS includes:

- An additional \$1.2 million for diversion programs, including an expansion of the Children in Need of Supervision (CINS) program, which will now be implemented in Cecil and Montgomery Counties in addition to Baltimore City, Baltimore County, and Prince George's County. This funding supports the Department's effort to treat youth in the communities where they live instead of more costly and disruptive out-of-home placements; and
- A FY 2014 deficiency appropriation of \$715,000 for the purchase of surveillance camera equipment for the Western Maryland Youth Centers. This new system will help to ensure the safety and security of DJS youth in treatment at the Youth Centers.

Additionally, the Governor's FY 2015 budget invests \$366,804 in a partnership between DJS and the Department of Public Safety and Correctional Services (DPSCS) to provide intensive outreach and workforce development services to 25 youth whose cases have been closed by the juvenile courts and are at high risk of future incarceration in the adult system.

Major Program Funding

The FY 2015 allowance continues to focus on funding mission critical functions and the Department's major priorities. The FY 2015 budget for Residential Operations, which oversees residential facilities for youth in DJS custody, is \$114.4 million. DJS also provides 24 hour intake, probation, aftercare and community detention services for youth and families. The FY 2015 budget for Community Operations is \$142 million.

Department of Labor, Licensing & Regulation

The Department of Labor, Licensing and Regulation (DLLR) is responsible for workforce development and training, adult education and literacy services, unemployment benefits, wage oversight, workplace and consumer safety inspections, financial institution regulation, occupational and professional licensing, and horse racing in Maryland.

The FY 2015 allowance for DLLR totals \$375.7 million, an increase of \$11.9 million, or 3.3% from FY 2014.

Major Accomplishments

DLLR is leading the way in developing the State's 21st century workforce with the Employment Advancement Right Now (EARN) Program, an industry-led initiative to fill training gaps identified by businesses through public-private partnerships in key sectors such as cybersecurity, healthcare, manufacturing, and construction. In just the first six months of the program, DLLR has awarded 29 grants totaling \$641,410 to plan needed investments in our State's workforce.

In Fiscal Year 2013, the Department's Division of Financial Regulation played a pivotal role in the ongoing implementation of the nationwide \$25 billion mortgage settlement. The settlement delivered reported benefits to Maryland homeowners valued at more than \$1 billion. Additionally, the Division has worked to curtail the ability of online payday lenders to operate illegally in Maryland.

The Department also maintains one of the strongest unemployment insurance systems in the country, leading to further reductions in tax rates paid by businesses.

High School Diplomas Awarded by the Division of Workforce Development

Expenditures

Maryland was selected as the lead state for Unemployment Insurance modernization and was awarded over \$82 million in federal funds to improve the efficiency of the department's IT systems.

Major Program Funding

The FY 2015 allowance includes key investments to train and educate the States' veterans, New Americans, unemployed, and dislocated workers. Highlights include:

- \$66.0 million for workforce development to ensure that every Marylander has the skills needed to secure gainful employment;
- Over \$700,000 to keep the GED test affordable for the nearly 10,000 Marylanders who seek the credential annually; and
- Over \$19.0 million to educate and develop job skills among the State's incarcerated populations.

Finally, the allowance also includes support for vital programs which ensure our safety and security. Highlights include:

- Funding for four new positions in the Prevailing Wage enforcement unit to ensure that workers at public projects are paid a fair rate;
- \$10.7 million for Occupational and Professional Licensing to safeguard customer's security when dealing with licensed professionals throughout the State;
- \$9.8 million for the Occupational Safety and Health Administration to ensure that every workplace is safe to all employees; and
- \$5.1 million in Safety Inspection to make sure that elevators, boilers, and amusement rides meet the necessary standards.

Department of Natural Resources

The Department of Natural Resources (DNR) is responsible for securing a sustainable future for Maryland through the protection, enhancement, and balanced use of the State's natural resources. The fiscal year 2015 allowance for DNR totals \$320.4 million, a 26.7% increase from the fiscal year 2014 appropriation of \$252.8 million. This increase is largely attributable to the inclusion of transfer tax revenues that support land preservation programs. While reflected in the budget, legislation is proposed to reduce the allocation and replace \$51.9 million of Program Open Space and Rural Legacy funds with GO Bonds over FY 2016 through FY 2018. After the contingent reduction, DNR's budget increases by 6.2% in FY 2015.

Major Accomplishments

Maryland touts a diverse geography, giving DNR the task of protecting rivers, preserving forests, restoring the Chesapeake Bay, and providing access to more than 140,000 acres of State parks from the Appalachian Trail to the Atlantic Ocean. Under Governor O'Malley's leadership, DNR has:

- Invested more than \$190 million in operating and capital funds in Chesapeake Bay 2010 Trust Fund projects to prevent nitrogen and phosphorous from polluting the Chesapeake Bay through the restoration of 313 acres of wetlands and 1,180 acres of forests, planting of 773,698 acres of cover crops, and participation of 13,000 students;
- Preserved more than 140,000 acres of land through land preservation programs;
- Provided 1,800 youth with green jobs through the Conservation Jobs Corps; and

Increasing Park Land Available to Marylanders

Expenditures

* Includes Program Open Space and other capital programs.

- Increased Maryland's network of oyster sanctuaries from 9% to 24% of remaining quality habitat.

Significant Funding Changes

The O'Malley Brown Administration continues to demonstrate leadership in environmental conservation and stewardship efforts through the FY 2015 budget allowance, which includes:

- \$42.4 million in record operating funding for the Chesapeake Bay 2010 Trust Fund, a \$10.9 million increase from the FY 2014 appropriation;
- \$2.4 million in increased funding for the Maryland Park Service for critical maintenance projects, vehicle and equipment replacement, and additional contractual employees in Park Service sites throughout the State;
- \$1.5 million to expand production of oyster spat at Horn Point Laboratory; and
- \$1.3 million in additional funding for the Natural Resources Police to increase capacity to hire officers to protect Maryland's vast array of natural resources.

Major Programs Funding

- The Fisheries Service receives \$26.0 million in FY 2015, a 13.3% increase from FY 2014, to regulate recreational and commercial fishing activities and ensure the sustainability of Maryland's fishing resources.
- The Wildlife and Heritage Service is allocated \$10.6 million in the FY 2015 allowance to promote the long-term conservation of the full array of native ecosystems and natural communities that comprise the biological integrity of Maryland.

Department of Planning

The Maryland Department of Planning (MDP) is responsible for promoting sustainable growth that fosters vibrant communities and protects the environment. MDP's FY 2015 allowance totals \$30.2 million, an increase of \$0.3 million compared to FY 2014.

Major Accomplishments

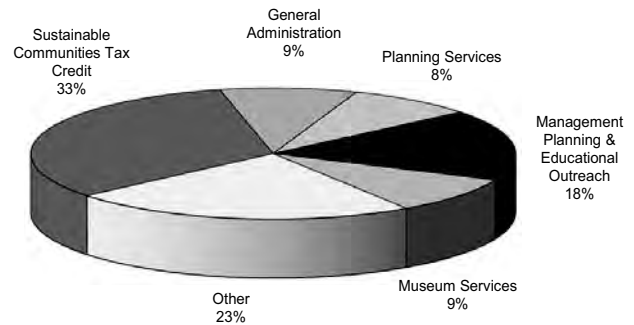

Under the O'Malley Brown Administration, MDP has fostered collaboration between State agencies, local governments, communities, businesses, and environmental groups to achieve balanced growth in Maryland.

- Based on recommendations from the Maryland Sustainable Growth Commission, legislation was passed that expands the authority of municipalities and counties to finance costs for infrastructure improvements located in or supporting Sustainable Communities through tax increment financing (TIF). MDP created a TIF user's guide to educate local government officials and planners about this financing tool.
- This past year, MDP reviewed over 60 County and Municipal growth tier maps of current and future sewage and septic systems. These efforts aid local governments by reducing the spread of septic systems and ultimately decreasing nitrogen pollution in the Chesapeake Bay.
- Through Fiscal Year 2014, projects supported by the Maryland Department of Planning's Sustainable Communities Tax Credit will have incentivized approximately \$379 million in commercial rehabilitation spending, created more than 25,000 jobs, and revitalized communities across the State.
- Jefferson Patterson Park and Museum (JPPM)

Over 20% of Maryland's Land is Permanently Preserved From Development

Expenditures

continued building on its success as a hub for cultural and recreational activities in Calvert County. In the past five years, annual attendance at JPPM has increased by over 11,000 visitors.

Significant Funding Changes

MDP continues to support the Maryland Integrated Map (MD iMap) initiative, a statewide mapping system and geographic data portal. In FY 2015, Maryland iMAP will be supported by the State and the agency's Parcel Mapping Fund and will be provided free of charge to users.

The Maryland Heritage Areas Authority program is fully funded at \$3 million. These funds support grants to certified heritage areas and other historic and cultural heritage preservation organizations across Maryland to increase the economic benefits of heritage tourism. Funding for the Maryland Humanities Council doubles to \$107,000 in FY 2015.

Major Programs Funding

The \$2.6 million allowance for Planning Services supports efforts to assist Maryland's counties and municipalities with land-use, water resource, school construction, and transportation planning.

FY 2015 funding for the Sustainable Communities Tax Credit program remains at the FY 2014 level of \$10 million. This allocation will leverage approximately \$50 million in private spending on commercial rehabilitation projects during the upcoming fiscal year.

The Museum Services program receives \$2.8 million in FY 2015 to support Jefferson Patterson Park and Museum, the State Museum of Archeology, and the Maryland Archeological Conservation Laboratory.

Department of Public Safety & Correctional Services

The Department of Public Safety and Correctional Services (DPSCS) is responsible for protecting the public, its employees, and the detainees and offenders under its supervision. The Department's FY 2015 allowance totals \$1.37 billion, an increase of 2.9% over the FY 2014 appropriation. Much of this increase is due to a variety of reform measures proposed by the O'Malley Brown administration to promote the integrity of Maryland correctional facilities.

Major Accomplishments

DPSCS's focus in recent years has been on improving facility safety and successful offender re-entry into the community.

- Between FY 2007 and FY 2013, serious physical, weapons, and sexual assaults are down from 24 to 10, representing a decrease of 58.3%.
- Recidivism is down as a result of coordinated training, educational and work programs, and therapeutic and rehabilitation programming. The rate has declined from 50.3% in 2003 to 40.5% in 2012.
- As part of the recent inmate health care contract, DPSCS has developed a telemedicine system that provides remote services from the University of Maryland Medical System and Johns Hopkins Medical Center. This partnership creates a healthier inmate population and significantly reduces the costs of transportation and officer overtime.
- DPSCS has been training 120 inmates involved in the deconstruction of the closed Maryland House of

Walkoffs Have Declined by 49% Since FY 2010

Expenditures

Corrections in asbestos and lead paint abatement and OSHA standards, saving the State \$5 million in the process.

Significant funding changes

The Governor's FY 2015 budget reflects a significant investment in rooting out corruption in Maryland's correctional and detention facilities, focusing on the most proven methodologies and innovative technologies. Investments include:

- \$8.1 million in FY 2015 and a \$5.1 million deficiency in new technologies, including upgraded video monitoring systems, keyword recognition software that allows for targeted intelligence gathering via inmate phone calls, and a system that prevents unauthorized cell phone use;
- \$4.1 million for 100 additional correctional officers as well as \$637,000 for year one of a multi-year in-service correctional officer training program, creating a better staff environment and reducing overtime;
- A \$1.5 million deficiency for improved hiring practices and oversight of correctional officers, including a new polygraph unit and expanded Internal Investigative Unit;
- \$563,034 and seven positions to expand the K-9 unit as a cost effective contraband detection solution; and
- \$366,804 in new funding for a jobs services pilot program for young offenders.

Major Programs Funding

The FY 2015 allowance includes \$787 million to safely house and rehabilitate a population of over 20,000 inmates, \$117 million to supervise over 50,000 individuals in the community, and \$174 million to detain arrestees and house pretrial offenders.

Department of State Police

The Maryland State Police (MSP) are responsible for protecting the citizenry of Maryland from foreign and domestic security threats and for promoting highway safety through enforcement of State laws. The MSP FY 2015 allowance totals \$352.8 million, an increase of \$16.9 million or 5% over the FY 2014 appropriation. This increase includes funds to hire additional helicopter pilots, forensic science professionals, and staff for the Maryland Coordination and Analysis Center, to purchase new vehicles as part of a multi-year plan to replace the State Police fleet, and to refresh MSP's information technology infrastructure.

Major Accomplishments

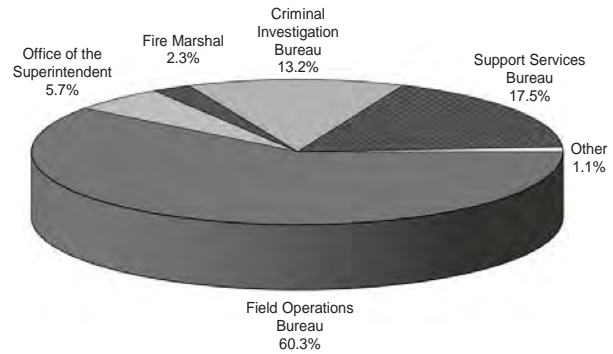

During the O'Malley Brown Administration, MSP has led the State's efforts to reduce violent and serious property crimes, to utilize DNA collection and analysis to solve and prosecute crimes, and to lower the number of traffic fatalities.

- As a result of coordinated activities of the State Police and law enforcement officers across the State, total crime in Maryland is at its lowest level since 1975. Violent crime has been driven down by 32.8% since 2002, including a 6.5% drop in homicides between 2011 and 2012.
- MSP's Forensic Sciences Division cleared a backlog of 24,000 DNA samples, uploaded over 110,000 DNA samples to the Convicted Offender Database, and achieved more than 2,985 "hits" leading to arrests.
- Ongoing efforts to make Maryland's roadways safer have resulted in a 27% reduction in traffic fatalities since 2002. Alcohol-related traffic fatalities have been reduced by 28% since 2002. In 2012, alcohol-related fatalities declined by 7.5% from the prior year.

The Alcohol-related Traffic Fatality Rate is Declining

Expenditures

Significant Funding Changes

The FY 2015 allowance includes several enhancements to strengthen support for criminal investigations and State Police operations.

- \$7 million begins implementation of a multi-year plan to replace the aging State Police vehicle fleet with modern, fully-equipped vehicles.
- \$1.4 million is allocated to replace the MSP's aging IT hardware and network infrastructure.
- Ten pilot positions and \$1.2 million is provided to fully staff the Maryland State Police Aviation Command as it transitions to two pilot operations, coinciding with the delivery of the new AW-139 helicopters.
- \$1.2 million to support nine new positions and eight new contractual staff enhances capacity at the Maryland Coordination and Analysis Center, including the Center for School Safety.
- Six positions and \$384,000 expands forensic staffing at the Hagerstown Crime Lab.

The allowance also includes a \$3.8 million deficiency to continue efforts to resolve the gun registration backlog.

Major Programs Funding

- The Field Operations Bureau, which consists primarily of field troopers and highway programs, receives \$212.5 million in FY 2015.
- The Criminal Investigations Bureau, which leads the intelligence, investigation, and homeland security sections, receives \$46.4 million in FY 2015.
- The Support Services Bureau receives an allowance of \$61.6 million.

Department of Transportation

The Maryland Department of Transportation (MDOT) is responsible for building, maintaining and operating a safe and efficient transportation network throughout the State. MDOT's FY 2015 allowance totals \$4.6 billion, an increase of \$408 million or 9.7% from the FY 2014 appropriation. This increase is attributable to revenue enhancements supporting capital transportation projects and operating costs of Maryland's transportation systems.

Major Accomplishments

Passage of the Transportation Infrastructure Investment Act of 2013 created a sustainable transportation funding source that will allow Maryland to move forward with the first new major transportation projects in more than eight years. Over the next six years, \$4.4 billion in new investments will support more than 57,000 jobs, create hundreds of millions of dollars in economic activity, and provide Marylanders with the transportation infrastructure necessary to grow and prosper for decades to come.

During the O'Malley Brown administration, MDOT has led the State's efforts to relieve highway congestion, expand transit options, spur economic activity, and create jobs.

- The final segment of the Inter-County Connector (ICC) is tentatively scheduled to open in the spring of 2014. As a major economic catalyst, the \$2.5 billion ICC project created 4,500 jobs, involving more than 200 contractors during its construction.
- The Port maintains its Ro/Ro ranking of 1st among East Coast Ports, with 50% of the market share.
- Weekend MARC service between Washington, D.C. and Baltimore began in December 2013 on the Penn Line.

Transit Administration Successful in Increasing Paratransit Mobility Ridership

Expenditures

Major Programs Funding

The FY 2015 allowance for the State Highway Administration (SHA) totals \$1.648 billion, including \$1.160 billion for capital projects and \$169.7 million directed to counties and municipalities. SHA also receives \$12.1 million for roadway maintenance projects that were delayed due to cost containment actions in previous budget years, including 15 new positions for the capital program.

The Maryland Port Administration (MPA) FY 2015 allowance for capital and operating programs is \$202.2 million, an increase of 40.5% over FY 2014. The bulk of the increase is due to capital projects. The MPA also receives \$500,000 to continue its efforts to meet Total Maximum Daily Loads (TMDLs) for a positive environmental impact.

The Motor Vehicle Administration (MVA) FY 2015 allowance for capital and operating programs is \$225 million. This includes funding of \$2.6 million and 76 additional staff to reduce customer wait times in MVA offices and enhance security in branch offices.

The Maryland Transit Administration (MTA) FY 2015 allowance is \$1.350 billion including \$622.3 million in capital projects. MTA continues to experience ridership increases on its commuter buses, local bus service, and paratransit mobility as well as MARC and light rail.

The Maryland Aviation Administration (MAA) FY 2015 allowance for capital and operating programs is \$286.3 million. MAA receives \$500,000 to enhance security at airport facilities. MAA continues to experience annual passenger growth of 2.3% or 613,424 additional passengers.

In addition, the FY 2015 budget includes \$16 million in grants to municipal governments to make improvements to the local transportation infrastructure.

GOVERNOR’S OFFICE FOR CHILDREN

The Governor’s Office for Children provides a coordinated, comprehensive and collaborative approach to prevention, intervention and treatment programs for children and families. The Office works to identify gaps in services, placing special emphasis on at-risk populations whose intensive needs can only be met through coordination among State agencies. The Office also works with the local jurisdictions, through the Local Management Boards, to ensure an integrated system of care to support children and families in their homes and communities. The continuum of care on both the State and local levels is designed to achieve the eight critical Child Well-Being Results so all Maryland’s children can be successful in life.

COLLEGE SAVINGS PLANS OF MARYLAND

The College Savings Plan of Maryland (CSPM) administers two plans to help families save for their children’s future higher education costs. The Maryland Prepaid College Trust provides a means for payment in advance for future tuition benefits that can be used at any accredited college nationwide. Prices are based on current tuition rates at Maryland public institutions and other factors. The Maryland College Investment Plan offers families a variety of mutual fund-based investment options with flexible contribution amounts starting at \$25 per month. Both plans offer significant federal and State tax benefits to families who participate. Revenue for the agency is derived from payments received from higher education investment contracts and interest income earned from the investments of the program.

STATE LOTTERY AND GAMING CONTROL AGENCY

The State Lottery and Gaming Control Agency manages the Maryland Lottery and the State's Video Lottery Terminal (VLT) and Gaming operations. The Maryland Lottery is the fourth largest source of State General Fund revenue. Sales are expected to increase by 1.3 percent in FY 2015 and revenue to increase by 0.3 percent. Pick 4, Instant Ticket, Racetrax, and Jackpot sales will drive sales.

Gross revenue from the State's VLT program is expected to increase 27.2 percent in FY 2015, driven by the opening of the Baltimore City facility. Total revenue for the Education Trust Fund (ETF) from VLTs will total \$351.7 million. The State's Table Games will generate revenue of \$326.4 million in FY 2015. The ETF will receive \$65.3 million of this revenue.

The budget for the State Lottery and Gaming Control Agency for FY 2015 will total 142.6 million, which will allow it to manage all of its responsibilities as approved by the voters in the November 2012 referendum. Shifting responsibility for leasing/maintaining VLT machines from the State to the operators of Maryland Live and Hollywood Perryville gives the State \$6.5 million.

Primary and Secondary Education

Foundation Program: The foundation program is the largest single local aid program. It increases by \$52.5 million in fiscal year 2015 and includes \$132.7 for the Geographic Cost of Education Index. Under the Foundation program, aid is distributed on the basis of public school enrollment and equalized for taxable wealth so that jurisdictions with smaller per pupil tax bases receive proportionately more aid. The fiscal year 2015 budget includes \$26.9 million for the second year of the Net Taxable Income wealth adjustment phase-in.

Compensatory Education: The Compensatory Education program is directed toward the education of children who are economically and environmentally disadvantaged. The Bridge to Excellence Act directs the aid according to the number of students receiving free or reduced price meals.

Special Education: Aid for special education is provided to school systems to help cover the additional cost of educating students with needs for special services. These funds are allocated on a formula basis for students in local schools and to support children placed in nonpublic special education schools. The fiscal year 2015 budget reflects the State's share at 70 percent of the cost of nonpublic placements over a certain amount.

Student Transportation: The Bridge to Excellence Act re-based the grant for the transportation of students to and from school and provides aid for transporting special needs students.

Other Education Aid: Other education aid includes \$197.7 million to support students with limited English proficiency and \$59.4 million for the Guaranteed Tax Base program, which provides grants to those subdivisions that have less than 80 percent of the Statewide average wealth per pupil and that provide local education funding above the local share required by the foundation program.

State Retirement System: In addition to direct aid for education, the State pays a portion of pension and retirement benefits for teachers, principals, administrators, and other eligible employees on behalf of each board of education.

Education Aid Per Pupil

The chart below shows State aid for public schools on a per pupil basis. Aid includes direct aid and contributions for teachers' retirement. Pupils are measured as full-time equivalent counts as of September 30, 2013, the same basis as used for allocating aid under the statutory formulas.

Total K-12 Education Aid - Fiscal Year 2015 Per Eligible Full-Time Equivalent Pupil

Libraries

Library Aid Formula: The State supports the current operating and capital expenses of local library systems. Aid is distributed on the basis of population and is equalized so that jurisdictions with smaller per capita tax bases receive more aid per capita.

State Library Network: The library network program provides aid for the State Library Resource Center at the Enoch Pratt Central Library in Baltimore and the three regional resource centers in non-metropolitan areas.

State Retirement System: In addition to direct aid for libraries, the State pays the entire cost of pension and retirement benefits for eligible librarians and other employees on behalf of the library systems. There is an exception for Montgomery County where librarians have elected to remain in the Montgomery County Retirement System rather than in the State system, in which case the State remits the lesser of the cost of retirement for the county or the State systems.

Community Colleges

Current Expense Formula: The current expense formula bases funding on a percentage of the appropriation per FTE student at four-year public higher education institutions. The fiscal year 2015 budget includes a reduction of \$4.6 million contingent upon the enactment of legislation limiting growth in the community college formula to 5 percent.

Unrestricted Grants and Special Programs: The budget includes \$6.0 million to fund a Statewide program for out-of-county or out-of-State students in regional or health manpower shortage programs, \$3.8 million for small community colleges, \$5.5 million for the English for Speakers of Other Languages program, \$678,830 for other out-of-county and out-of-State student agreements, and \$600,000 for Appalachian Mountain Grants.

Optional Retirement: The State distributes funds directly to the community colleges to reimburse them for the employer cost of members of the Optional Retirement System, a vendor operated, defined contribution plan offered as an alternative to the State's defined benefit pension and retirement systems.

State Retirement System: In addition to direct aid to community colleges, the State pays the entire cost of pension and retirement benefits for eligible teachers, administrators, and other employees on behalf of each community college.

Police, Fire and Public Safety

Aid for Police Protection: The State gives grants to the subdivisions to help provide for police protection services, which are distributed through a formula based on population and population density. Grants are shared between counties and municipalities on the basis of expenditures, and municipalities receive an additional grant based on the number of police officers.

Aid for Fire, Rescue and Ambulance Systems: Counties and municipalities receive grants for fire, rescue and ambulance equipment and capital renovations.

Special Grants: The budget includes funding to Baltimore City for foot patrol, violent crime grants, community policing, the War Room, and a \$2.5 million grant to the Baltimore City State's Attorney's office. In Prince George's County, funds are provided for drug enforcement, violent crime prevention grant programs, and \$1.5 million for the State's Attorney's office. Additional general funds are provided for STOP Gun Violence grants and the domestic violence unit. Also included are special funds awarded by the Vehicle Theft Prevention Council, grants from the State's telephone surcharge for the "911" emergency system, and grants to help enforce school bus safety laws.

Transportation

Highway User Revenues: The motor vehicle fuel tax, motor vehicle registration fees, a share of the motor vehicle titling tax, and a share of the corporate income tax are designated as Highway User Revenues. The State shares these revenues with the counties and municipalities to help fund the construction and maintenance of local roads. Baltimore City receives 7.7% in fiscal year 2015.

The remaining counties and municipalities receive 1.5% and 0.4% respectively in fiscal year 2015. The distribution is made according to a formula based on locally maintained road mileage and vehicle registrations

Elderly and Disabled Transportation: Grants are provided to fund local transportation services for elderly and disabled persons, with 60 percent of the money distributed equally among the counties and Baltimore City and 40 percent based on the distribution of the elderly and disabled populations. In addition, funding is included to help defray the cost of providing paratransit services required under the federal Americans with Disabilities Act.

Other Transportation Grants: The fiscal 2015 budget includes \$16 million for grants to municipal governments to be allocated pursuant to the provisions of Section 8-405 of the Transportation Article.

Miscellaneous

Local Health Grants: This program funds a wide range of preventive health services such as family planning, maternity and child care assistance, cancer control, and AIDS education and outreach.

Disparity Grants: Grants are distributed to subdivisions whose per capita income tax revenues are less than 75 percent of the statewide average. Beginning in fiscal year 2011, funding to any county is not required to exceed the fiscal year 2010 grant. The formula was modified during the 2013 legislative session to add a minimum grant amount based on the local tax effort of eligible counties and raises the local income tax rate required to be eligible to receive a grant from 2.4% to 2.6%.

Program Open Space: This program provides for the acquisition and development of parks and other conservation areas.

Retirement Contributions

Under this statutory program the State pays, on behalf of each county board of education a portion of pension and retirement benefits for eligible teachers, principals and other eligible school employees. The State pays the entire cost of pension and retirement benefits on behalf of community colleges and the library system. There is an exception for Montgomery County where librarians have elected to remain in the Montgomery County Retirement System rather than in the State system, in which case the State remits the lesser of the cost of retirement for the county or the State systems.

There is no distribution of funds directly to the subdivisions, but rather lump sum payments are made to the State's retirement board. Each subdivision's share of the State's retirement appropriation, however, can be estimated based on county-by-county salary data. Legislation is introduced reducing the required contribution of reinvested savings beginning in fiscal year 2014. This action saves approximately \$66 million in local retirement contributions in both fiscal year 2014 and fiscal year 2015.

FY 2013 - 2019 FORECAST

General Fund Summary

All projections of revenues and expenditures are based on existing State laws and the current economic outlook unless otherwise noted. Revenues from Video Lottery Terminals and spending from the Education Trust Fund are not included in the General Fund forecast as they are considered Special Fund revenues and expenditures, respectively. Revenues from Video Lottery Terminals deposited into the Education Trust Fund are expected to total \$362 million in FY 2014 and \$417 million in FY 2015 before increasing to almost \$576 million in FY 2019. Additional savings from the transfer in the ownership of VLT machines are assumed beginning in FY 2015. Revenues and expenditures from the Budget Restoration Fund are included in this appendix to ease the comparison between fiscal years.

Revenues - Projections are based on the December 2013 Board of Revenue Estimates (BRE) report. Overall, the BRE expects revenues to increase by \$345 million, or 2.3%, in FY 2014 before increasing \$775 million, or 5.1%, in FY 2015. Outyear revenue growth is estimated to be 4.7%, 4.7%, 4.4% and 3.8% for FY 2016 through 2019, respectively. The forecast assumes \$93 million in additional revenue in FY 2015, most of which comes from a proposal to divert a portion of the transfer tax to the General Fund. Other adjustments to revenues in FY 2015 and in the outyears are rather modest and include revenue losses tied to various tax credit program expansions. The FY 2014 and 2015 budgets are less dependent on transfers than prior year budgets. Finally, amounts also include reimbursements from tax credit reserves and transfers from the State Reserve Fund.

Expenditures - Expenditures are categorized by: general obligation bond debt service payments, local aid programs, entitlements, State operations, and Capital (PAYGO) projects. Overall, budget growth for FY 2015 totals \$741 million or 4.7% more than FY 2014. Excluding appropriations to the State Reserve Fund, budget growth is only 3.6%. The FY 2015 budget includes \$97 million in reductions contingent on the enactment of legislation, the largest of which reduces \$86 million in reinvested retirement savings. Debt service payments total \$195 million in FY 2015 and increase quickly in the out-years reaching almost \$500 million in FY 2018.

Aid to Local Governments is expected to increase by \$153 million, or 2.5%, in FY 2015. Assistance is expected to increase in all areas, with Education Aid growing \$123 million. For FY 2016 through 2019, local aid, including education aid, is expected to grow by 3.5% annually with most of the growth coming in the later years. If growth in revenues to the Education Trust Fund were included, the average annual growth in aid to local governments would increase to 3.8%.

Entitlements, including Foster Care Payments and Medicaid, are expected to decline 1.6% in FY 2015. The decline in Medicaid in FY 2015 is driven by savings from the implementation of the Affordable Care Act and reductions in the growth of provider rates. Growth in entitlement spending for the FY 2016 through 2019 period will average 4.9% a year. The rate of growth in Medicaid is lower at the beginning of the forecast because of savings from the Affordable Care Act, but increases more substantially in the later years. Growth in other entitlements is expected to be modest, with the exception of Temporary Cash Assistance, which is expected to decline by 6.0% a year.

Mandated State operations include funding for the legislative and judicial branches of government, St. Mary's College of Maryland and Baltimore City Community College, several scholarship programs, the Maryland School for the Deaf, Historic St. Mary's City Commission, and tourism/arts programs. Only about a third of the general fund budget is actually devoted to non-mandated, ongoing State operations. These include public safety, higher education and health/human resources. Most of the growth in state agency operations is related to adjustments for increments, health insurance increases, and retirement rates. Higher education institutions are expected to receive an average increase in State support of 4% per year for FY 2016 through FY 2019. Adjustments are included throughout the forecast period for the opening of new facilities.

The fiscal year 2015 budget includes funding for a 2% mid-year cost-of-living adjustment and employee pay increments. No funding is included for deferred compensation. Increases for employee pay increments are included in the forecast period consistent with current law and collectively bargained agreements. Other than health insurance and retirement rate contributions, no inflation has been included for the out-years. Finally, the out-year forecast includes PAYGO funding to cover the implementation costs of the Watershed Implementation Plan by the Department of Transportation.

The budget includes a net general deficiency appropriation, after cost containment actions, of \$51 million for fiscal year 2014. The largest deficiency appropriations are in the Department of Health & Mental Hygiene for the Medicaid program and the Developmental Disabilities Administration. Other large deficiencies are included for the Departments of Public Safety and Education. Cost containment reductions include savings from reduced retirement reinvestment funds and from the Employee and Retiree Health program.

FY 2013 – FY 2019 FORECAST

Higher Education Fund Summary

Reporting of revenues and expenditures utilize uniform standards of the National Association of College and University Business Officers (NACUBO) and the American Institute of Certified Public Accountants (AICPA). Standardized fund accounting facilitates comparisons with other public and private institutions. Financial accounting for non-profit education entities provides information about resources and obligations rather than tracking net income.

There are multiple fund classifications as to purpose and source: Current, Loan, Endowment, Annuity, Plant, and Agency. Only Current Funds, Unrestricted and Restricted, are considered in the operating budget appropriation process and utilized in the five-year projections. Unless "restricted" by an outside donor, grantor or contractor, all other funds support missions through single-year operations.

Tuition and Fees – FY 2015 undergraduate resident tuition rates will increase by 3% for all University System of Maryland (USM) institutions. Morgan State University and St. Mary's College of Maryland's (SMCM) tuition rates remain unchanged from FY 2014 rates. The FY 2015 budget assumes flat enrollment with FY 2014. Tuition and fee revenues from FY 2016 through FY 2019 are projected to increase 3% per year. This plan expects non-residents to pay at least 100% of "educational" costs per student. Similar relationships have been developed for part-time student rates.

State Appropriations – In the past, this has corresponded to the funds reported on the General Fund summary. The State appropriation includes \$50.0 million in FY 2013 and \$82.3 million in FY 2014 in Higher Education Investment Fund (HEIF) special funds. There is a total of \$57.7 million in HEIF funds in the FY 2015 budget. The FY 2015 budget provides approximately 6.5% over the FY 2014 working appropriation to USM and 4.1% to Morgan. This increase includes \$9.6 million to hold tuition increases at 3% for in-state undergraduates at USM. The budgets from FY 2016 through FY 2019 assume an average increase in additional State funding of 4% per year. Baltimore City Community College's State funding in FY 2015 will be approximately -1% below the FY 2014 level, which is attributable to large declines in student enrollment over the last two years. SMCM will receive a 7.3% increase in State funding in FY 2015; out-years reflect projected increases of the statutory economic deflator ranging from 2.0% to 2.6% per year.

Grants and Contracts – Because of the uncertainty regarding federal sequestration, Federal Grants and Contracts are projected to be flat in out-years. Grants and contracts from state and local governments and private donors are assumed to grow by an average of 1% per year.

Other Unrestricted Funds - Sales and Services of Auxiliary Enterprises are projected to increase 3% per year due to both the rates charged and the population served by dorms and dining halls. Sales and Services of Educational Activities are projected to grow by an average of 1% per year. Other Sources are projected to remain flat in out-years.

Transfers (to) / from Fund Balance - This category includes reserves and revenues from one year's operations being used for expenditures in another year. For example, it is common for fund balances to differ from actual year to current year because of the carryover of unfinished business because higher education uses accrual accounting versus the State's cash accounting.

Fund Balance - Most of the fund balances are from other than State-supported operations. For example, auxiliary enterprises are normally self-supported through revenues other than general funds. Operating "reserves" equivalent to outstanding debt is recommended to maintain favorable bond ratings. Finally, long-term facility renewal and replacement require a set-aside for future projects, even though no major uses are reported.

Restricted Funds – Because of the uncertainty regarding federal sequestration, Federal Grants and Contracts are assumed to remain flat in out-years. All other sources of restricted funds are assumed to grow by an average of 1% per year.

FY 2013 – FY 2019 FORECAST

Transportation Trust Fund Summary

The Department's revenue and operating cost projections are based on a long-term "moderate growth" scenario for the nation's economy. The major trends and assumptions are as follows: Bond interest rates are projected to fluctuate from 3.2% to 5.4%; inflation rates will vary from 1.5% to 2.2% annually. Normal "business cycles" slowly began to resume in calendar year 2010 and continued through 2013. There are no major changes in law, operating responsibilities or external events other than those changes enacted in the 2013 Legislative Session.

Revenues – Motor Fuel Tax is projected to reach \$5.8 billion over the six-year period. This projection includes both the base rates on gasoline (23.5 cents/gallon) and diesel fuel (24.25 cents/gallon) and the revenue components provided by the Transportation Infrastructure Investment Act of 2013. The Consumer Price Index (CPI) effect is estimated to average 0.5 cents per gallon over the program period. The sales and use tax equivalent piece will be phased in. The rate for Fiscal year 2014 is 3.1 cents per gallon. When fully implemented, it is estimated to average 10 cents per gallon. Motor fuel usage is expected to continue a normal growth pattern of between 1% to 2% annual consumption rate.

Motor Vehicle Titling Tax is projected to yield \$4.6 billion from the 6% of fair market value, less an allowance for trade-in, paid on the sale of all new and used vehicles as well as on new residents' vehicles. Following the recent down cycle, vehicle sales have stabilized, and titling tax revenues are starting to recover. It is projected that this six-year planning period will follow a normal business cycle around an underlying upward trend. Motor Vehicle Registration, Miscellaneous and other fees are projected to generate \$3.6 billion based mainly on an average 1.5% biennial increase in revenues from vehicles registered. This amount also includes the rental vehicle sales tax.

Transportation's share of Corporate Income Tax revenues is expected to be \$905 million. Federal Aid is projected to contribute \$5 billion for operating and capital programs, excluding the \$660 million received directly by Washington Metropolitan Area Transit Authority. The majority of federal aid supports the capital program.

Operating Revenues should provide a six-year total of \$2.7 billion. MTA revenues (\$1.1 billion) primarily include rail and bus fares. MPA revenues (\$292 million) include terminal operations, the World Trade Center, and other port-related revenues. MAA revenues (\$1.3 billion) include flight activities, rent and user fees, parking, airport concessions, and other aviation-related fees.

Bond Proceeds are assumed at \$3.7 billion from issuances in the six-year period based on the supporting net revenues of the Department. The remaining sources should provide \$750 million from trust fund investment income, reimbursements, and other miscellaneous revenues.

Expenditures - Normal expenditure projections utilize the CPI plus 1.0% for growth unless otherwise noted.

Debt Service reflects payment cycles of the planned bond issuances as of FY 2014 and thereafter. In FY 2015, the budget for modal operations increases by approximately \$43 million (2.5%). The growth is due to higher costs related to funding standard operating cost increases in Maryland's transportation systems.

The capital expenditures shown are in agreement with the Department's six-year Consolidated Transportation Program (CTP). Capital expenditures also are directly related to the level of revenues available for bond sale coverage. The bond outstanding ceiling is controlled by legislation and is adjusted when and as appropriate.

Closing Fund Balances – The Department's goal is to transition to a \$150 million fund balance over the program period to accommodate working cash-flow requirements during the year.

F10A02.08	Department of Budget and Management Office of Personnel Services and Benefits - Statewide Expenses	Federal funds appropriated for Cost of Living Adjustments (COLA) and Annual Salary Reviews (ASR) may be transferred to programs of other financial agencies.
F50A01.01	Major Information Technology Development Project Fund -- Major Information Technology Development Project Fund	General funds appropriated for Major Information Technology Development Projects may be transferred to programs of other financial agencies.
F50A01.01	Major Information Technology Development Project Fund -- Major Information Technology Development Project Fund	Special funds appropriated for Major Information Technology Development Projects may be transferred to programs of other financial agencies.
H00G01.01	Department of General Services Office of Facilities Planning, Design and Construction	Amounts appropriated for Maryland Environmental Service projects to transfer to the appropriate state facility effective July 1, 2014.
K00A05.10	Department of Natural Resources Land Acquisition and Planning - Outdoor Recreation Land Loan	Specifies use of special fund appropriation.

**APPENDIX H
BUDGET BILL CONTINGENT AND RESTRICTIVE LANGUAGE**

<u>Budget Code</u>	<u>Agency</u>	<u>Summary of Language</u>
K00A05.10	Department of Natural Resources Land Acquisition and Planning - Outdoor Recreation Land Loan	Specifies that special fund appropriation shall be reduced by \$51,851,510 contingent upon the enactment of legislation crediting transfer tax revenues to the general fund.
K00A14.02	Department of Natural Resources Chesapeake and Coastal Services- Chesapeake and Coastal Services	Specifies that special fund appropriation shall be reduced by \$3,200,000 contingent upon the enactment of legislation adjusting the revenue distribution to the Chesapeake Bay 2010 Trust Fund.
L00A11.11	Department of Agriculture- Office of the Secretary - Capital Appropriation	Specifies that special fund appropriation shall be reduced by \$17,275,034 contingent upon the enactment of legislation crediting transfer tax revenues to the general fund.
L00A12.20	Department of Agriculture- Office of Marketing, Animal Industries, and Consumer Services - Maryland Agricultural and Resource-Based Industry Development Corporation	Specifies that general fund appropriation shall be reduced by \$1,125,000 contingent upon the enactment of legislation reducing the mandated funding to the FY 2014 level.
M00Q01.03	Department of Health and Mental Hygiene Medical Care Programs Administration - Medical Care Provider Reimbursements	Places certain conditions on the use of appropriation for abortions.
M00Q01.03	Department of Health and Mental Hygiene Medical Care Programs Administration - Medical Care Provider Reimbursements	Specifies that general fund appropriation shall be reduced by \$1,500,000 contingent upon the enactment of legislation reducing the MHIP assessment.
M00Q01.07	Department of Health and Mental Hygiene Medical Care Programs Administration - Maryland Children's Health Program	Places certain conditions on the use of appropriation for abortions.
N00G00.01	Department of Human Resources Local Department Operations - Foster Care Maintenance Payments	Funds may be used to develop a broad range of services for specified children.
R00A02.07	State Department of Education- Aid to Education - Students with Disabilities	Specifies use of general fund appropriation and that funds may be used to develop a broad range of services for specified children.
R00A03.03	State Department of Education- Funding for Educational Organizations - Other Institutions	Specifies grantees and amounts.

**APPENDIX H
BUDGET BILL CONTINGENT AND RESTRICTIVE LANGUAGE**

<u>Budget Code</u>	<u>Agency</u>	<u>Summary of Language</u>
R00A03.04	State Department of Education Funding for Educational Organizations - Aid to Non-Public Schools	Sets per pupil amounts for purchase of textbooks, computer software, hardware and other electronically delivered learning materials. Specifies requirements for a school to participate.
R62I00.03	Maryland Higher Education Commission- Joseph A. Sellinger Program for Aid to Non-Public Institutions of Higher Education	Specifies that the general fund appropriation shall be reduced by \$3,902,334 contingent upon the enactment of legislation level funding aid to non-public institutions of higher education.
R62I00.05	Maryland Higher Education Commission- Senator John A. Cade Funding Formula for the Distribution of Funds to Community Colleges	Specifies that the general fund appropriation shall be reduced by \$4,595,627 contingent upon the enactment of legislation limiting growth in aid to community colleges to five percent.
R62I00.07	Maryland Higher Education Commission Educational Grants	Specifies purposes and amounts.
R75T00.01	Higher Education Support for State Institutions of Higher Education	Specifies transfer of general fund appropriation in quarterly allotments.
R75T00.01	Higher Education Support for State Institutions of Higher Education	Specifies transfer of special fund appropriation in quarterly allotments. To the extent revenue attainment is lower than estimated, the transfers will be adjusted at year end. Also that special funds of \$8,044,322 may be used only to support the Maryland Fire and Rescue Institute.
E50C00.01 Deficiency	State Department of Assessments and Taxation- Office of the Director	Specifies that general fund appropriation shall be reduced by \$303,553 contingent upon the enactment of legislation authorizing the use of Charter Funds to support costs in the Office of The Director.
E50C00.01 Deficiency	State Department of Assessments and Taxation- Office of the Director	Specifies that special fund appropriation of \$303,553 is contingent upon the enactment of legislation authorizing the use of Charter Funds to support costs in the Office of The Director.
SECTION 2		Authorizes Secretary of Budget and Management to allot funds and fix the number and classifications of positions.
SECTION 3		Lists non-classified per diem and flat rate positions.
SECTION 4		Prohibits payment of compensation for a second office of profit within the meaning of the Constitution.

**APPENDIX H
BUDGET BILL CONTINGENT AND RESTRICTIVE LANGUAGE**

<u>Budget Code</u>	<u>Agency</u>	<u>Summary of Language</u>
SECTION 5		Permits the expenditure of block grants and money derived from sources not estimated or included in the budget by budget amendment.
SECTION 6		Permits appropriation to be transferred among programs by budget amendment.
SECTION 7		Permits the expenditure of special and federal fund revenues in excess of budgeted amounts by budget amendment.
SECTION 8		Authorizes transfer of general fund amounts for operation of state facilities by budget amendment.
SECTION 9		Authorizes transfer of funds provided for tort claims to be transferred to the State Insurance Trust Fund. Sets limits on payments of tort claims.
SECTION 10		Authorizes transfer of general fund amounts for indirect cost pools by budget amendment.
SECTION 11		Restricts the use of funds budgeted for Annapolis Data Center charges. Authorizes the transfer of these funds among agencies by budget amendment.
SECTION 12		Sets forth the salary schedule for the Executive Pay Plan.
SECTION 13		Sets forth the salary schedule for the Department of Transportation Executive Pay Plan.
SECTION 14		Allows the transfer of funds from certain agencies to the Medical Assistance Program for services to clients who become eligible for Medical Assistance.
SECTION 15		Provides that amounts budgeted to conduct administrative hearings shall transfer to the Office of Administrative Hearings on July 1, 2014 and may not be expended for any other purpose.
SECTION 16		Funds budgeted in certain agencies may be transferred to the Children's Cabinet Interagency Fund.

**APPENDIX H
BUDGET BILL CONTINGENT AND RESTRICTIVE LANGUAGE**

<u>Budget Code</u>	<u>Agency</u>	<u>Summary of Language</u>
SECTION 17		Funds budgeted for health insurance, retirees health insurance, Workers' Compensation, DBM-paid telecommunications, Office of Attorney General Administrative Fee, DoIT IT Services Allocation, State Personnel System Allocation, and Rent Paid to Department of General Services (DGS) may not be expended for any other purpose without the prior approval of the Secretary of Budget and Management. Funds budgeted for health insurance and DBM-paid telecommunications may be transferred by budget amendment among agencies. Funds not spent for health insurance and retirees health insurance shall revert to a specific fund.
SECTION 18		Provides that amounts budgeted to support the Maryland State Retirement Agency shall transfer to the Maryland State Retirement agency on July 1, 2014 and may not be expended for any other purpose.
SECTION 19		Specifies that general fund appropriation shall be reduced by \$16,265,187, special fund appropriation by \$4,736,658, and federal fund appropriation by \$2,814,407 for health insurance within specific Executive Branch agencies to reflect health insurance savings from favorable cost trends.
SECTION 20		Specifies that general fund appropriation shall be reduced by \$86,319,856, special fund appropriation by \$6,229,678, and federal fund appropriation by \$4,129,001 for the retirement reinvestment contribution contingent upon the enactment of legislation reducing the amount of the retirement reinvestment contribution. Specifies the amount of the reduction within specific Executive Branch agencies.
SECTION 21		Specifies that subtotals and totals in the budget bill are informational only and are not legal appropriations.
SECTION 22		Sets out the estimated revenue and appropriations for the proposed budget to show that the budget meets the constitutional requirement for a balanced budget.

Expressed as a percentage of total recoveries.

A single indirect cost recovery rate is negotiated for usage by all Executive Department agencies.

Military Department has been included beginning this year (FY 2013 actuals).

Separate recovery rates are negotiated for each of the agency's programmatic units.

Calculated and stated as a percentage of salaries and fringes.

The Department of Human Resources utilizes a Federally Approved Public Assistance Cost Allocation Plan as required by OMB circular A-87 and does not have a fix

The State Department of Education has separate recovery rates, for each type of funding, that are approved annually by the U.S. Department of Education.

The Department of Public Safety and Correctional Services reflects a revised reporting format in FY 2013 due to agency reorganization.

Baltimore City Community College does not have a Federal negotiated indirect cost rate.

MSP will revert funds retained. Older rates are utilized due to the delay in finalizing proposals. MSP submits yearly requests for rates unlike others that are given rates three years out.

* FY13-FY15 will include approximately \$3.32 million per year for Capital Bond Repayment.

APPENDIX N

MAJOR INFORMATION TECHNOLOGY DEVELOPMENT PROJECTS

Major Information Technology Development Projects (MITDPs) are separate, budgeted programs throughout the State Budget. The individual MITDPs are identified separately within each program for those agencies with MITDPs. The MITDPs are presented separately in this section in a manner similar to the capital budget program.

An MITDP is any information technology development project that meets one or more of the following criteria:

- The estimated total cost of development equals or exceeds \$1 million;
- The project is undertaken to support a critical business function associated with the public health, education, safety or financial well being of the citizens of Maryland; or
- The Secretary of the Department of Information Technology (DoIT) determines that the project requires the special attention and consideration given to a major IT development project due to the significance of the project's potential benefits or risks, the impact of the project on the public or local governments, the public visibility of the project, or other reasons as determined by the Secretary.

Separate budget programs for information technology development spending are created during the budget cycle. The term "development" has been defined as follows:

- "Development" means all expenditures for a new information technology system or an enhancement to an existing system, including system planning, procurement, creation, installation, testing and initial training.
- "Development" does not include ongoing operating costs, software or hardware maintenance, routine upgrades, or modifications that merely allow for the continuation of the existing level of functionality.
- "Development" does not include expenditures made after a new or enhanced system has been legally accepted by the user and is being used for the business process for which it was intended.

Each information technology budget sub-program is based on spending for individual MITDPs. Individual project sheets are provided for each project. The aggregated costs of these projects equals the total proposed spending in the MITDP budget program for each agency.

MITDPs must now follow a two-step process: Step 1) Planning and Step 2) Implementation. A project planning request defines the initial planning process for the project and estimates total cost and schedule required to complete Phases 1-4 of the State's SDLC methodology. Step 1 (Planning) must be approved by DoIT before agencies can proceed to Step 2 (Implementation).

For fiscal year 2015, all General Fund allowances are contained in the MITDP Fund financial agency (F50). These allowances are included in the individual project sheets as 'Special MITDPF' for presentation of total project development funding and summarized at the end of this document. Funds appropriated from these sources will be placed in F50A0101 and transferred by the Department of Information Technology to the agency major project program in accordance with the oversight responsibilities contained in State Finance and Procurement Article § 3A-309. Projected operations and maintenance expenditures, excluding the first year, are not reflected in reported amounts.

The cost of FY 2015 Oversight Project Management (including all tiers of the oversight program) has been allocated to participating projects within the funding amounts indicated. DoIT and the participating agency will transfer funds at the end of the FY to cover Oversight expenses.

All MITDPs for the Maryland Department of Transportation are captured within the Capital Budget program, and thus are not included in this section.

Summary of F50

Summary of Reclassified IT Projects

D18 - Governor's Office for Children

Project Title: State Children, Youth and Families Information System (SCYFIS)

Appropriation Code: R00A0401

Sub-Program Code: 9592

Project Summary:

The Governor's Office for Children (GOC), on behalf of the Children's Cabinet, utilizes the State Children, Youth and Families Information System (SCYFIS) to receive, track, and analyze information on children placed in out-of-home Residential Child Care Programs. FY 2015 Allowance includes \$50,000 for oversight. This project was submitted outside of the regular budget cycle. Project costs shown here reflect those for the Project Planning Request (PPR) phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase.

Reimbursable								-
Total	-	-	345,000	300,000	2,200,000	-	-	2,845,000

Step 1 (Planning) funding only

Program Strategic Goals:

To bring the SCYFIS system up to current technology standards and to build a modern database that will be accessible, reliable, and useful for GOC, the Children's Cabinet agencies, Residential Child Care Program providers and other key stakeholders. SCYFIS will be easily updated, upgraded and positioned to interface with other agency databases.

D38 - State Board of Elections

New Voting System Replacement (NVSR) (formerly known as Optical Scan Voting System Implementation)

Appropriation Code: D38I0002

Sub-Program Code: 0003

Project Summary:

The Maryland State Board of Elections (SBE) has been mandated (see Election Law Article § 9-102 of the Annotated Code of Maryland) to select, certify, and implement a new statewide optical scan voting system to replace the existing voting system. SBE intends to have the system in place and ready for use in the 2016 Presidential Election cycle. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. The FY 2015 Allowance includes \$196,332 for oversight.

Step 1 (Planning) funding only

Program Strategic Goals:

In 2007, the General Assembly enacted legislation requiring SBE to select and certify an optical scan voting system. Accordingly, SBE's goal is to procure and implement a voting system that meets the requirements §9-102 of the Election Law Article.

D80 - Maryland Insurance Administration

Project Title: Enterprise Complaint Tracking System (ECTS)

Appropriation Code: D80Z0102

Sub-Program Code: 1200

Project Summary:

The MIA has identified the need to replace the current Enterprise Complaint Tracking System (ECTS) with a browser based document management technology that automates workflow by routing electronic documents and notifications across the organization, and enables on-line data entry, form creation, standard reports, ad-hoc queries and data exchange with internal and external systems. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. The FY 2015 Allowance includes \$50,000 for oversight.

Total	-	20,854	129,146	1,790,000	355,000	-	-	2,295,000

Step 1 (Planning) funding only

Program Strategic Goals:

Replacing the current Enterprise Complaint Tracking System (ECTS) with upgraded technology will provide the MIA with the ability to improve complaint resolution efficiency percentages beyond current targets.

F10 - Budget and Management, Department of

Project Title: Statewide Personnel System (SPS)

Appropriation Code: F50B0406

Sub-Program Code: P006

Project Summary:

The purpose of the SPS project is to obtain commercial off-the-shelf (COTS) solutions to replace the State's legacy personnel systems. The new SPS will have high "cultural impact" on agencies and their users statewide. Because of this, to help lower the overall project risk profile, a multi-phased implementation strategy has been adopted, breaking the large project into two smaller project phases. In Phase 1, DBM implemented a stand alone application for Recruitment and Examination. Phase 2, which is expected to begin in FY14, will implement core HRIS Modules and an HR Data Warehouse. The FY 2015 Allowance includes \$500,000 for oversight.

Program Strategic Goals:

F10A0201 (DBM) Goal 1: Retain employees in the State Personnel Management System.

F10 - Budget and Management, Department of

Project Title: Central Collection Unit (CCU) Columbia Ultimate Business System (CUBS) Replacement

Appropriation Code: F50B0406

Sub-Program Code: P008

Project Summary:

The Department of Budget and Management's CCU currently uses a customized version of Columbia Ultimate's Revenue Plus Collector System to track collection activity. Today, the CCU system manages over 1.4 million debtor accounts for the State of Maryland. The purpose of this project is to modernize CCU's core business application and implement a system to replace the legacy system. Cost can be better determined once requirements planning is complete. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. FY 2015 Allowance includes \$196,000 for oversight.

F10 - Budget and Management, Department of

Project Title: Enterprise Budgeting System (EBS)

Appropriation Code: F50B0406

Sub-Program Code: P010

Project Summary:

In 2005, DoIT commissioned the Statewide Application Risks Assessment (SARA) of 12 legacy statewide systems, including those supporting human resources, timekeeping, benefits, budgeting, purchasing, accounting, central collections and payroll. Three of those systems were assessed as high risk - human resources, budgeting and timekeeping. The high risk factor was assessed because these systems were at the end of their useful lives and based on old technologies, with a recommendation for replacement. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. FY 2015 Allowance includes \$50,000 for oversight.

Program Strategic Goals:

To ensure that the State has a fully functional and supportable budgeting system.

M00 - Health and Mental Hygiene, Department of

Project Title: Medicaid Enterprise Restructuring Project (MERP) - formerly Medicaid Management Information System (MMIS)

Appropriation Code: M00Q0108

Sub-Program Code: T801, T802, T803

Project Summary:

The State is required to align with the federally mandated Medicaid Information Technology Architecture requirements. This project will modernize existing system functions and significantly enhance the goals of the MMIS ensuring that eligible individuals receive the health care benefits to which they are entitled and that providers are reimbursed promptly and efficiently. DHMH intends to replace its legacy MMIS claims processing system with a new MMIS system, which will also support coordination of benefits, surveillance and utilization review, federal and management reporting, and case management. In conjunction with the MMIS replacement, DHMH intends to add a Decision Support System (DSS); improve and enhance the Pharmacy e-Prescriber solution; implement a Service Oriented Architecture (SOA) Integration Framework, and develop an eligibility portal. The FY 2015 Allowance includes \$500,000 for oversight.

Project Title: MERP (MMIS) ICD-10 Remediation

Appropriation Code: M00Q0108

Sub-Program Code: T805

Project Summary:

The U.S. Department of Health and Human Services announced a final rule that will facilitate the United States' ongoing transition to an electronic health care environment through adoption of a new generation of diagnosis and procedure codes. The final rules mandated that everyone covered by the Health Insurance Portability and Accountability Act must implement International Classification of Diseases 10 (ICD-10) for medical coding by October 1, 2013. To meet the deadline, DHMH will remediate the legacy MMIS to be ICD-10 compliant by using the Centers for Medicare & Medicaid Services General Equivalency Mappings to convert ICD-9 codes to ICD-10 codes. The FY 2015 Allowance includes \$57,304 for oversight.

Program Strategic Goals:

The major goal of this project is design, develop, migrate and implement an integrated Long Term Care tracking system in a multi-phased approach, in order to increase federal matching funds (FMAP), and meet the federal Balancing Incentive Program (BIP) and Community First Choice (CFC) program requirements.

M00 - Health and Mental Hygiene, Department of

Project Title: Maryland Board of Physicians (MPB) IT Licensure

Appropriation Code: M00A0108

Sub-Program Code: A803

Project Summary:

The Board of Physicians (Board) is seeking a new more fully integrated medical licensure and investigation software system to replace its current antiquated systems. The Board's needs have exceeded its 1995 vintage software capabilities. These shortcomings have been noted in the 2011 Sunset Audit Review and a recent Perman study. The new software will facilitate the generation of more accurate reports on ongoing and completed Board activities. It will also facilitate increased internet interactions, allowing applicants and clients to receive more timely status reports. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. FY 2015 Allowance includes \$50,000 for Oversight.

Project Title: Enterprise Content Management Solution (ECMS)

Appropriation Code: N00F0002

Sub-Program Code: 6B09

Project Summary:

DHR is implementing a secure, internet accessible, web-based enterprise-wide content management solution (ECMS) to capture, maintain, manage and share documentation and information both within the agency and with DHR's external business partners, related to the organizational processes of DHR. The FY 2011 Budget Book shows DHR received a \$14M federal appropriation; however, \$13.7M was cancelled due to DHR's TANF shortfall. To make up for the shortfall, DHR used \$2M in General funds, \$2.6M Special funds and \$1.8M federal funds to cover project expenses. FY 2015 Allowance includes \$98,646 for oversight.

NOTE: DHR used operating funding from sub-object codes FB220, FB230, FB240 (respectively for \$2,000,000, \$2,579,638, \$790,005 for a total of \$5,369,642) to fund the ECMS project. This was placed in FY12 Funding under "General".

Program Strategic Goals:

To provide DHR with an ECMS that will enable secure, electronic management of case and client content effectively across the organization. Strategic goals are to establish and develop an enterprise-level document repository, as well as incorporate advanced document management technologies. The long term strategic goal is to link the ECMS to a future automation project for DHR.

N00 - Human Resources, Department of

Project Title: Automated Financial System (AFS)

Appropriation Code: N00F0002

Sub-Program Code: 6B13

Project Summary:

The AFS is a computerized fiscal tracking system that allows DHR's fiscal users to set up, print and track payments to various vendors, including payments to child care and foster care providers, maintains a history of financial transactions, generates a variety of fiscal reports including the 302A for assistance and the General Ledger; and produces annual 1099 data on disk for submission to Financial Management Information System (FMIS). AFS is written in an antiquated and unsupported Delphi technology. The application is outdated, prone to sensitive errors and difficult to enhance. Skills to support the application are not readily available. The system cannot take advantage of the newer technologies until it is moved to a more robust application language and the User Interface is modernized. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. FY 2015 Allowance includes \$24,000 for oversight.

IT Project Funding

P00H0101 Goal 1: To promptly determine eligibility and pay benefits to qualified unemployed individuals.

Q00 - Public Safety and Correctional Services, Department of

Project Title: Enterprise Resource Planning Implementation Project (ERPIP)

Appropriation Code: Q000A03

Sub-Program Code: 1190

Project Summary:

This initiative will provide the ability for Maryland Correctional Enterprises (MCE) to revise and update its backend IT infrastructure, paper driven financial and manufacturing processes to better meet the needs of Maryland's correctional industries program. This initiative will allow more efficient management of an agency that currently generates over \$50M per year in sales and services and employs over 2,000 inmates daily in Maryland's correctional facilities. The current paper driven process and computing platform cannot keep up with the volume of information and sales being generated by MCE. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. The FY 2015 Allowance includes \$50,000 for oversight.

Program Strategic Goals:

This initiative supports the following MCE goal: A solution whose basic core capabilities address, at a minimum, the needs for all the following functions: a) Enterprise Resource Planning, b) Customer Relationship Management, and c) Integrates with other state of Maryland systems primarily FMIS.

R00 - Maryland State Department of Education

Project Title: Enhanced Child Care Administration Tracking System II (eCCATS)

Appropriation Code: R00A0106

Sub-Program Code: F700

Project Summary:

This follow-on to the CCATS project will define and implement enhancements to the base CCATS system. The goal is to improve the operational efficiency, system performance and end-to-end support of MSDE child care business processes responsibilities. Critical new functionality will provide for enhanced subsidy payments processing and tracking, correction of deficiencies in the credentialing interface to FMIS and completing business object report development and implementation of a robust reporting architecture. MSDE's approach is to implement enhancements as funds become available. FY 2015 Allowance includes \$84,551 for oversight.

R00 - Maryland State Department of Education

Project Title: Educator Information System (EIS) Expansion - RTTT 49

Appropriation Code: R00A0106

Sub-Program Code: F800

Project Summary:

The project will expand the data and reporting capabilities of EIS. The expansion will include (1) new educator data sets, (2) data import programs, and (3) data analysis reports that support the RTTT reform initiatives. Maryland's education reforms for RTTT implement a number of educator professional development, credentialing, evaluation, and assignment initiatives that require additional educator information to be collected, tracked, and reported. This project supports the additional data collections to meet those reforms. Federal funding of \$300,000 will be included as a FY 2015 supplemental item to support this project. FY 2015 Allowance includes \$50,000 for oversight.

Program Strategic Goals:

R00A0101 Goal 1. Achievement will improve for each student.

R95 - Baltimore City Community College

Project Title: Enterprise Resource Planning (ERP) System

Appropriation Code: R95C0006

Sub-Program Code: 6618

Project Summary:

Baltimore City Community College (BCCC) will be replacing its administrative system, which consists of archaic and no longer supported discrete silo modules. This legacy system was cobbled together beginning in the late 90's and is mainframe and COBOL based. Maintaining this system is no longer a viable option, as companies that developed these systems are no longer providing support or are no longer in business. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. FY 2015 Allowance includes \$50,000 for oversight. This project is funded by current restricted/unrestricted funds.

Step 1 (Planning) funding only

Program Strategic Goals:

The three main objectives of this project are to: 1.) Integrate platforms for simplification, 2.) Eliminate extraneous databases, and 3.) Improve workflows.

U00 - Environment, Department of

Project Title: Environment Permit Tracking System Modernization

Appropriation Code: U00A1002

Sub-Program Code: 3205

Project Summary:

The Environmental Permit Tracking System Modernization Project will modernize how MDE currently captures Departmental permit data through the use of Dot NET technologies. This modernization effort will update the existing PowerBuilder user interface (UI) with one developed using current Dot Net technologies. This project also supports the Web Revamp Project by making services such as ePermitting and eCommerce accessible to Maryland citizens, businesses, and other stakeholders through the use of an interactive, customer-centric, web-based portal. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. FY 2015 Allowance includes \$50,000 for oversight.

Step 1 (Planning) funding only

Program Strategic Goals:

MDE's goal is to reduce the level of effort required to enter data into our centralized permit tracking system and ensure the technologies that support MDE's mission are cost effective and sustainable.

W00 - State Police, Department of

Project Title: Computer Aided Dispatch/Records Management System (CAD/RMS)

Appropriation Code: W00A0112

Sub-Program Code: 0409

Project Summary:

This is a project of the MD Statewide Communications Interoperability Program. The Maryland State Police, in conjunction with the Department of General Services Police, the Department of Natural Resources Police, the Department of Transportation and the Maryland Institute for Emergency Medical Services Systems, have begun the procurement of a new Computer Aided Dispatch (CAD) Records Management System (RMS) in order to effectively coordinate agency and statewide public safety information sharing for operations, reporting, anti-terrorism and homeland security activities. FY 2015 Allowance includes \$50,000 for oversight.

Program Strategic Goals:

W00A0104 Goal 1. Serve as a catalyst for inter-agency exchange of criminal justice, homeland security and intelligence information at the federal, State and local level.

W00 - State Police, Department of

Project Title: IP Enabled Network for ANI/ALI (E911)

Appropriation Code: W00A0104

Sub-Program Code: 0104

Project Summary:

Potential exists for faster emergency response times and improved emergency service to the citizens of the state of Maryland. This can be accomplished in the routing and delivery of E9-1-1 calls throughout the State. The ENSB is responsible for administering the State's E9-1-1 fund. As part of these responsibilities, it is the intent of the ENSB to establish and implement a cohesive emergency E9-1-1 system that will provide citizens with rapid, direct access to public safety agencies in a cost-effective manner. As part of this initiative, the ENSB is investigating the possible implementation of an advanced IP-enabled network for delivery of emergency E9-1-1 traffic to the Maryland State Police barracks. The FY 2015 Allowance includes \$50,000 for oversight.

Total	735,000	372,340	-	772,205	4,047,553	575,730	793,272	7,296,100

Program Strategic Goals:

IP-based systems will allow the MDSP barracks to work together cooperatively in ways that the current systems do not allow. IP-based systems will allow the barracks to receive call-related data directly from multiple data sources such as telematics service providers, wireless carriers, or Internet-based telephone service providers, rather than being restricted to access to a single database (ALI) as in the many of the current Maryland E9-1-1 systems.

W00 - State Police, Department of

Project Title: Automated Licensing and Registration Tracking System (ALRTS)

Appropriation Code: W00A0104

Sub-Program Code: 1133

Project Summary:

The Maryland State Police (MSP) have been charged with automating and streamlining the process by which a citizen of Maryland requests approval to purchase a firearm. This will involve automating the 77R Process, replacing the hardcopy application form with a web accessible form that may be submitted electronically to MSP headquarters. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. FY 2015 Allowance includes \$50,000 for oversight.

Step 1 (Planning) funding only

Program Strategic Goals:

This project supports the MSP mission of: "protecting the citizens of the State of Maryland from foreign and domestic security threats, to fight crime, and to promote safety by upholding the laws of the State of Maryland." It also establishes the system foundation that will ultimately provide the MSP the ability to meet the legislative requirements included in SB0281, The Firearm Safety Act of 2013.

Total Receipts	<u>\$1,337.7</u>	<u>\$1,236.1</u>	<u>\$1,251.3</u>
Expenditures	<u>(\$1,223.3)</u>	<u>(\$1,288.9)</u>	<u>(\$1,350.6)</u>
Ending Fund Balance	<u><u>\$287.8</u></u>	<u><u>\$235.0</u></u>	<u><u>\$135.6</u></u>
Estimated Liabilities and Reserves ²	(\$99.5)	(\$105.9)	(\$110.6)
Fund Balance after IBNR	\$188.3	\$129.1	\$25.0

¹ Other adjustments include one-time revenues and repayments, net receipts from direct pay and satellite participants, and EGWP adjustments that affect prescription rebates.

² This amount is an estimate of the cost of services provided at the end of one fiscal year that are not billed until the next fiscal year. These costs are deducted from the end of year balance to better reflect an "available balance" amount, but are not actually expended and are reflected in the beginning fund balance of the following year.

Glossary

Appropriation: The amount of spending for an item legally authorized by the General Assembly.

Appropriated Positions: Synonymous with “authorized positions” (see below).

Authorized Positions: The number of full-time equivalent employees that may be employed at any one time on the regular State payroll. The number of authorized positions includes vacant positions. An agency may not exceed its total of authorized positions. Only the State’s Board of Public Works may increase the number of authorized positions during the fiscal year.

Budget Bill: Presents the Governor’s allowance as a bill that will become the legally enacted budget after the General Assembly approves it, including any amendments.

Budget Books: A series of volumes published each January that present the Governor’s allowance to the General Assembly for all appropriated programs in the budget as well as information on non-budgeted agencies.

Budget Book Appropriation: Reflects the Legislative appropriation plus/minus amendments approved during the fiscal year prior to the budget submission. The amount appears in the annual Budget Books.

Capital Expenditure: An expenditure for the acquisition or construction of buildings or other fixed assets, or for other tangible assets with a useful life of at least fifteen years.

Contractual Positions: The number of full-time equivalent employees working under employment contracts. Agencies generally use contractual employees for tasks of a limited duration or seasonal nature. Contractual employees are not eligible for most State fringe benefits.

Current Restricted Funds: Funds that may be used by higher education institutions only for restricted purposes. These consist principally of research grants and donations for particular purposes (i.e., student aid).

Current Unrestricted Funds: Funds that may be used by higher education institutions without restriction. These consist principally of the State appropriation, tuition and student fees.

Deficiency Appropriation: An appropriation for an expense in the current fiscal year that is not covered by the existing budget. Deficiency appropriations usually occur when workloads exceed projected amounts, new legislation requires expenditures not provided in the budget or unanticipated needs arise. The FY 2015 budget proposal includes deficiency appropriations for FY 2014.

Federal Funds: Grants and other payments from the federal government that flow through the State budget and are subject to applicable federal laws and regulations. Federal funds often require a State funding match. Medicaid and transportation programs are the largest sources of federal funding in the State budget.

Fiscal Digest: Book published annually by July 1 which reflects the State Budget enacted by the Legislature for the new fiscal year.

Fiscal Year (FY): The calendar on which the State operates for financial purposes. Maryland’s fiscal year begins on July 1 and ends on June 30. Thus fiscal year 2015 (FY 2015) begins on July 1, 2014 and continues until June 30, 2015.

Full-Time Equivalent (FTE): A method of calculating employment, workloads, enrollments or caseloads to adjust for part-time or part-year participation.

Glossary

For example, part-time or part-year employees are factored according to the share of a full 2,080-hour year during which they are employed. A seasonal employee who works twenty hours a week for one-half of the year would count as a 0.25 full-time equivalent.

General Fund: State funds that may be used for any activity of the State. State income and sales tax revenues are the primary sources of General Funds. About half of State spending is attributable to the General Fund.

Governor's Allowance: The amount proposed by the Governor for an item in the State budget. In most instances the General Assembly may subtract from but may not add to the allowance.

Non-budgeted Funds: Some agencies have independent authority to make expenditures without legislative appropriations. Examples include the Injured Workers' Insurance Fund (which provides workers' compensation insurance) and the Maryland Transportation Authority (which operates certain bridges, tunnels and other transportation facilities). These agencies have independent revenue sources (i.e., insurance premiums, toll revenues) and are presented in the budget for information purposes only.

Operating Expenditure: As distinguished from "capital expenditures," these are expenses of ongoing operations of government and other expenditures that do not result in a tangible fixed asset with a useful life of at least fifteen years.

Reimbursable Funds: Funds transferred among agencies as payments for services provided by one agency to another. This designation is used to avoid double-counting funds on a state-wide basis

as reimbursable funds are not generally included in budget totals. An example is telephone service. Each operating agency pays the Department of Information Technology for the actual cost of its telephone usage from its general, special or federal funds. The Department of Information Technology, in turn, pays the telephone service provider with reimbursable funds.

Request: In the fall State agencies submit a budget request at a targeted amount specified for the next fiscal year.

Special Funds: Revenues dedicated to a specific purpose, such as licensing fees or certain tax revenues that may only be used for the purposes designated by law.

Abbreviations

CRF	-	Current Restricted Funds
CUF	-	Current Unrestricted Funds
FF	-	Federal Funds
FY	-	Fiscal Year
FTE	-	Full-time Equivalent
GF	-	General Funds
NBF	-	Non-budgeted Funds
SF	-	Special Funds
RF	-	Reimbursable Funds

Acknowledgements

The FY 2015 budget maintains the O'Malley Brown Administration's commitment to fiscal responsibility, invests in programs that create jobs and build an educated and skilled workforce, and protects our most vulnerable citizens, our neighborhoods, and our natural resources. Record investments in education, economic development, public safety, sustainability, and health care are balanced by actions to constrain costs and achieve efficiencies. As a result of the effective leadership of Governor Martin O'Malley and Lt. Governor Anthony Brown, the structural budget deficit that at one time exceeded \$1.5 billion has been all but eliminated and the State's fiscal health is sound.

The process that results in the State's operating and capital budget submissions is an arduous one that would not be possible without the expertise, dedication, and professionalism of the staff of the Department of Budget and Management, the Office of the Governor, and agencies across State government. Their efforts are deeply appreciated and truly deserve the recognition provided below.
