Maryland State Forest Conservation Program Annual Report July 1, 2020 - June 30, 2021

Introduction

The Forest Conservation Act (NRA 5-1613) requires that on or before September 30 of each year, the Maryland Department of Natural Resources (DNR or Department) shall submit a report that shall include:

- (1) the number, location, and type of projects subject to the provisions of the Forest Conservation Act;
- (2) the amount and location of areas cleared, conserved and planted in connection with a development project;
- (3) the amount of reforestation and afforestation fees and noncompliance penalties collected and expended; and,
- (4) the costs of implementing the forest conservation program;
- (5) the size, location, and protection of any local forest mitigation banks which are created under a local or State program;
- (6) the number, location, and type of violations and type of enforcement activity conducted in accordance with this subtitle; and
- (7) To the extent practicable, the size and location of all conserved and planted forest areas, submitted in an electronic geographic information system or computer aided design format. (Nat. Res. Art. 5-1613, Annotated Code of Maryland)

Due to amendments adopted in 1994, the Department is tasked with collecting individual reports from local jurisdictions and submitting a collective report for statewide Forest Conservation activities. This report provides summary statistics of reviews conducted by the local jurisdictions and the Department of Natural Resource Forest Service's State Forest Conservation Program during the report period, and details additional activities in the Department's implementation of the Forest Conservation Act. These activities can include: the biennial review of locally adopted forest conservation programs, training, and information on qualified professionals. Since a 1998 amendment, the reports submitted by the local jurisdictions contain information on the *previous fiscal year's activities*.

The Maryland Department of Natural Resource Forest Service reviews all applicable projects by: (1) state agencies; (2) state-funded projects conducted by local jurisdictions; (3) any projects conducted by a local jurisdiction which does not have a local program in effect; and (4) any projects making application to a local jurisdiction which does not have a local program in effect (COMAR 08.19.04.01). This review is conducted from the Forest Service's four regional offices with assistance and coordination from its headquarters office in Annapolis. The information reported contains information on the *current fiscal year's activities*.

For both local jurisdictions and the Department of Natural Resource Forest Service, only those projects that have received final forest conservation plan approval are reported. This underrepresents the total number of reviews conducted each year as every project requires the

review of both a Forest Stand Delineation and a Forest Conservation Plan prior to receiving final approval. Both may not be submitted or receive final approval during the same year.

Overall Summary

The combined local jurisdictions and Maryland Department of Natural Resource Forest Service reports indicate:

- 17 counties and 18 municipalities have submitted annual reports. Some municipalities' reports are submitted with or included in the county report. (See Appendix 1) **Reports are missing from the following jurisdictions: Dorchester County, Montgomery County, St Mary's County, Talbot County, Brookville, Chestertown, Easton, Greensboro, Hagerstown, Ocean City, Oxford, Poolesville, Preston, Rockville, and Washington Grove.**
- 1,555 activities subject to Forest Conservation regulations were reviewed; 973 were exemptions.
- 5,957.76 acres of existing forest on 10,974.14 acres of net tract area were reviewed.
- 2,844.64 acres of forest were approved for clearing
- 445.73 acres of forest were planted and 20.93 acres were planted for banking purposes.
- 2,857.34 acres of forest were retained and 492.86 acres were retained for banking purposes.
- 3,644.05 acres of mitigation (retained and planted) were placed in long-term protective agreements.

Local Jurisdictions reports:

- 1,534 activities subject to Forest Conservation regulations were reviewed; 960 were exemptions.
- 5,951.57 acres of existing forest on 10,931.62 acres of net tract area were reviewed.
- 2,840.8 acres of forest were approved for clearing.
- 441.65 acres of forest were planted, 2854.89 acres of forest were retained and 3,640.73 acres were placed in long-term protective agreements.
- Since October 1, 2019, fees-in-lieu of mitigation collected \$668,586.92 (22,30.89 acres); expended \$348,108.23 (146.03 acres): 25 acres reforestation, 6.5 acres afforestation, 114.52 acres conservation.

Department of Natural Resource Forest Service report:

- 21 activities subject to Forest Conservation regulations were reviewed; 13 were exemptions.
- 6.19 acres of existing forest on 42.52 acres of net tract area were reviewed.
- 3.84 acres of forest were approved for clearing.
- 4.08 acres of forest were planted and 3.32 acres were placed in long-term protective agreements.
- Since October 1, 2021, fees-in-lieu of mitigation collected \$11,425.79 (0.86 acres).
- Pre-October 1, 2021 fees-in-lieu, expended \$55,936 on tree plantings (16.3 ac).
- Enforcement actions 0; penalties assessed \$0; fines collected \$0.

The status of the 157 jurisdictions with planning and zoning authority in the state is noted in Appendix 1.

Biennial Reviews of Local Forest Conservation Programs

The Forest Conservation Act requires that the Department conduct reviews of local forest conservation programs every 2 years. In the process of conducting the program reviews, staff assesses the compliance of the local program with the intent and standards of the Forest Conservation Act and identifies necessary refinements. Since the biennial reviews were conducted in FY20, the next review will occur in FY22.

To the extent practicable, the size and location of all conserved and planted forest areas are submitted in an electronic geographic information system or computer aided design format.

Since 2009, the Maryland Forest Service has been collecting electronic easement information in a design format. The following jurisdictions submitted this information during the reporting period which can be made available upon request.

Electronic Easement Information	Submitted by Local Forest Conservation Programs
Baltimore County	Frederick City
Carroll County	Emmitsburg
Harford County	Middletown
Howard County	Myersville
Kent County	Snow Hill

Assisting Developers, Planners, Consultants and Others in Preparing Forest Stand Delineations and Forest Conservation Plans

The Forest Service continues to provide guidance through training workshops and other means to individuals qualified to prepare Forest Stand Delineations and Forest Conservation Plans. Since 1994, the Forest Service has offered a 40-hour Forest Conservation for Qualified Professionals Course through community colleges around the state. The forest conservation course has been offered at least twice a year by Carroll Community College and Anne Arundel Community College when the required class student registration number is met.

To date approximately 905 persons who have applied to the Department have met the Department's criteria for other qualified professionals (COMAR 08.19.06.01), and have been approved to prepare Forest Stand Delineations and Forest Conservation Plans. These are in addition to the Maryland Licensed Landscape Architects and Maryland Licensed Foresters who may prepare Forest Stand Delineations and Forest Conservation Plans according to Natural

Resources Article 5-1604 and 5-1605, Annotated Code of Maryland. These can be found at dllr.state.md.us/license/oplic.shtml

Department staff assisted with numerous continuing education seminars, classroom presentations in higher education natural resources departments, at professional and local government meetings, etc.
