Dear Roland:-

I am sending you, herewith, the Plats of the property of the Rockdale Powder Company - 1169 acres more or less - of which I was speaking to you the other day. This land was the former site of the Hoffman Paper Mills and long ago in Mayor Hayes' time I convinced him (I think) that the City ought to own it for the protection and future advantage of its water supply. However, in those days there was no money. A year or more ago the owners took the matter up with me again and I associated Graham with me, - for the same purpose.

The owners will pay the commission; but I am more interested in having the City acquire the property, at a fair price of course, than in any question of compensation.

If you decide that the property, on its merits, is one that should be so acquired, - I will do what I can to see that any fair offer will be accepted.

Yours truly,

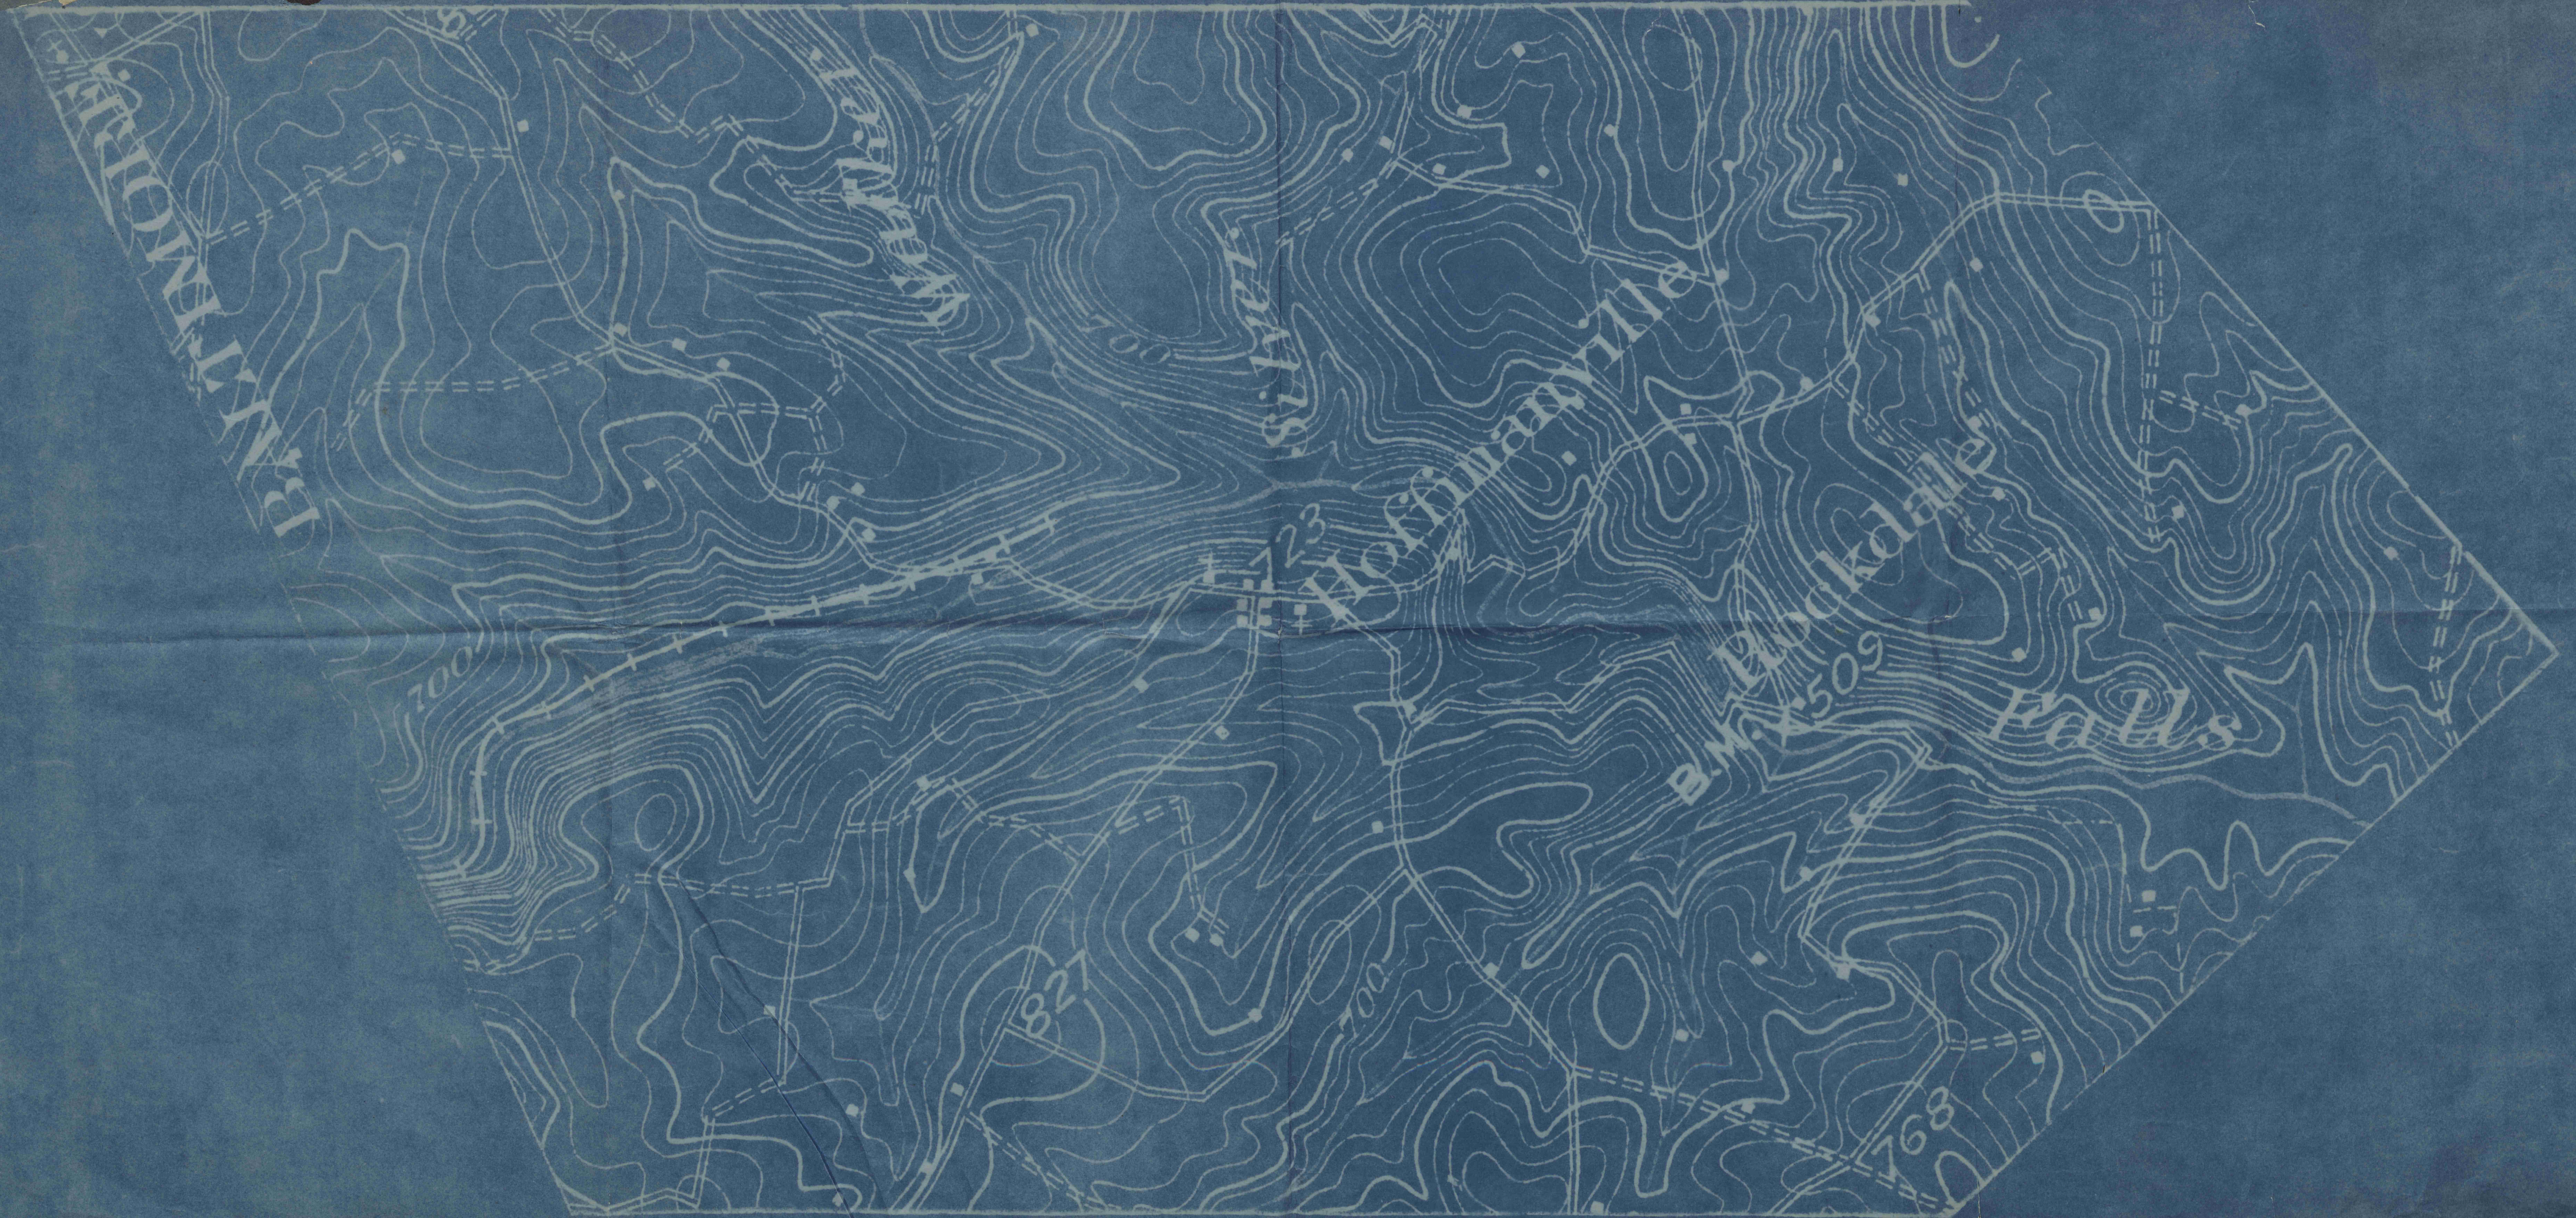

cjk
