

To Persons Interested.

A negro woman and man, were seen on Tuesday and Wednesday last in the State of Delaware, making off. The woman is stout and likely, very talkative, says she lives near Buck's Town, and talks about Vienna; she was dressed in black figured bombazet, a white apron, silk hat of a pink color, her complexion very black, and appears to be from 22 to 23 years of age. The man had on a striped blue and white roundabout, country make; a furred hat nearly new, the balance of his clothing not recollected; he appears to be not quite so old as the woman, but his complexion is the same. They both had passes or notes from under some persons' hands—one was signed with Mr. Keys' name to it. There is no doubt they are runaways: if any person has lost such negroes, and will apply to the subscriber immediately, they may be overtaken.
