

Dear Sir.

During this spring in a conversation connected with the disclosures made to the executive of the United States, by Mr. Henry, it was remarked by a Gentleman I deem incapable of originating an untruth, that the present Priestly Minister was very solicitous to suppress the communications, and that he had procured you to wait on Henry to effect that object, which was resorted by Henry!! From the general knowledge I had of your correctness, I undertook to contradict the assertion and to pledge myself that it was a falsehood. Before I do so to state if any such overture was made by you to Henry - You must be sensible that this letter originates solely from the conviction that it is absolutely necessary to preserve the purity of the character of those who possess the confidence of the Federal party, from the base flanders of our enemies.

I am with respects
yours

Dorsey
June 5. 1812.

Hon. Clement Dorsey
