Sir

Your favor of the 1st J^{ny}. is just the, Mr. Bullen
has not had any appointment from me, and Jam
confident Receipts pass'd from him to this State, must be
injurious and tend to embarras and create disputes
in the settlement of Acc^{ts}. between States and State
every endeavor in my power so far as my knowledge
in business extend, has been used to point out to
parties the disadvantages arising on indulging
individuals to transact business inconsistent with the
line laid down for a regular process, while persisted in
it must tend to disorder and cover the supplies for our
Army in such manner as to render it impossible for
such officer whose immediate duty it is to make
Accurate returns, (most essential to the operations of
an Army) and in its ultimate tendency operates as
as much against the Real Interest of a State as the
United States some time ago I was advised by
Gen^l. Gith in which he informed me he had your
concurrent opinion, that a temporary appointment
of a D^y Master at Annapolis was absolutely necessary
until you had Marched the State troops, on this advice
Mr. Foote being recommended I gave him the Appoint-
ment which was presented to the Hon^{ble}. Council Board
for such aid as could be afforded, no aid was gained
and he returned on the Commission
if necessary I'll make return to you of every person
employ'd by me in the State and shall be happy
in rendering you any information serviceable
to Redress Errors in business, Jam with much
Respect for

your very Able Serv^t.

Don^o. Yeates & Co
