

## REPORT.

The committee on internal improvements, in obedience to the order of the House of the 29th ult. directing them "to call upon the President and Directors of the Baltimore and Susquehanna Rail Road Company for a statement of the financial condition, and prospects of said company," have performed that duty, and believe they cannot do better, if indeed they are authorised by the order of the house to go farther, than to submit to the house the several communications which have passed between them and the said President and Directors on the subject. They, therefore, herewith lay before the house a letter addressed by them to the President and Directors of that company on the 30th ult. and their answer thereto received on the 5th inst., also a printed communication addressed by the said President and Directors to the House of Delegates, and referred to in their answer to the letter addressed to them by the committee.
