THE LAST

John Jones has a wife, an amiable, accomplished and beautiful lady, who loves him devotedly, but she finds so many cracks in his hat. One might be expected to find his words sticking up for him. She always does. She smiles when he talks. That also she does. "You said you had been taken sick," she says, "and I have been taking care of you ever since. You don't think I'm a little bit tight?"

"No, indeed, my dear," he says, "I am sure that another glass would hurt you. Now suppose you take a glass of Scotch ale with me; just a night-cap, my dear."

"You are too kind, my dear," she says, "I'll only take a little Scotch ale with me. I'll take a glass of ale at any rate; it cannot hurt you, dear; I will take one myself before I retire."

"The lady hastened to open a bottle, and as she placed two tumblers before her on the sideboard, she put in one very powerful smile. Filling the glass with the foaming ale, she handed that one with a most bewitching smile to her husband. Suspicion came suddenly upon his mind. "She had never before been so kind to him when he had been seen so kind to her," he thought. "What is the trick in the glass, raised it to his lips?"

"Certainly, love," replied the lady, "taking a mouthful, which she was very careful not to swallow."

"Suspicion vanished, and so did the ale, motion and all, down the throat of the satisfied husband. After spitting out the taste, the lady finished her glass, but seemed in no hurry to retire."

"She fixed a foot-bath of water before an easy chair, for which the husband was anxious to know the reason. A few minutes later, the girl and spouse from the throat of the husband gave the answer: "The 'brick' was gone when he rose from the easy chair, and he never afterward carried one home to his wife."

A New Tale of Indiana—Don T. Corbin is no more folk know, a man who has a dark complexion. His job about his "magnificent" adventure in New Orleans, which he tells in his own expense, is equalled by this one, which we never before happened to meet with. Corbin was introduced in New York to a freshly-arrived Englishman as being an Ohioan. This term puzzled John Bull; but in a moment, his face brightened, and he seized Corbin by the hand, expressed his joy at making his acquaintance, and kindly inquired whether his tribe were at the "white."
