

For Sale,

American Printed Goods.

CALICOES SHAWLS and POCKET HANDKERCHIEFS manufactured by the subscribers near this city, are offered to the dealers in those articles, at No. 13, Calvert-street, two doors above Lovely lane.
 Their assortment is yet small, but growing—and it was not thought well to decline advertising the public on that account, at a period when so many traders from the country visit the city, to make their usual purchases; and who may, before another season, be informed of the comparative merit and prices of their goods, with those imported.
 The Messrs. Lennays who conduct the printing work, have been regularly bred to the business under their father, who held, if not the largest, one of the best estimated factories formerly in France; and they have for several years owned and managed one for themselves. From their knowledge of the business, as generally done in Europe, they feel warranted in saying, that work of the like kind shall be as well executed here as there. The colors capable of being fixed, will be found as permanent, and equal in other respects. The quality of the goods they here will recommend them, and trust they will be found cheaper than the imported.
 To counteract a prejudice and distrust often existing against new undertakings, and sometimes cherished by men who are not a national as well as an individual interest to defeat them, they have enlarged more than was desirable or necessary in a simple advertisement.

FOR THE FIRST TIME IN BALTIMORE.

Will be exhibited ON MONDAY NEXT, The 23d inst. in Lemmon-street, between Market and East-streets, and near the Assembly room.

A PHENOMENON,
 Which the European and American newspapers have probably spread throughout the United States, that enthusiasm which was produced in Paris, Philadelphia and New-York, by the experiment of the **INVISIBLE WOMAN**; and which would formerly have accredited the inventor for wizard.

The habitation of the Invisible Woman, is a box about 5 feet long and 1 foot square, glazed with glass, so that the view of the spectators is clear through; it is suspended by a small chain and perfectly isolated; from thence she answers any question put to her by the spectators:—she will mention the form of colour of any thing presented to her; she blows, and finally does not differ in any degree from another person, but by her invisibility.
 If it was necessary to give a more splendid account of this experiment, the proprietor could relate many pages, were by the most learned men, on the subject; but it will be sufficient he conceives to repeat a paragraph extracted from the Philadelphia Gazette and Daily-Advertiser, (Dec. 18, 1834)—it follows:

This astonishing production was discovered about 12 months ago in Paris, by the present proprietor, and there exerted and resisted the most elaborate enquiry of numerous philosophical gentlemen. In this city we are informed it has already drawn the attention of several members of the Philadelphia Society; but hitherto no correct judgment has been formed as to the agency by which the effect is produced.
 Though it is deemed, that what has already been said is enough to excite the curious and to lead to it is further added, that the author of this discovery is a father of a family, cast by the late St. Domingo events, in distress, and left without other hopes, but the exhibition again of his invention, which he offers with great respect and solicits public patronage from philanthropic and benevolent Americans.
 Modes of exhibiting, are every day in the week, (Sundays excepted) from 9 o'clock in the morning until 12, and from 5 till 9 in the evening, at the above mentioned place.
 Price of admittance, for grown persons, half a dollar—children half price.

To the Voters of the City and County of Baltimore.

HAVING been encouraged by many of my friends in the city and county, to offer myself as a candidate to be put in nomination for the office of **SHERIFF**, at the ensuing election, I hope it will not be deemed improper thus early to signify my intention, and to solicit the patronage of my friends generally, and the voters of the city and county at large.
 Those who have not a personal knowledge of me, will, on enquiry, find that I have been bred to business, and have been conversant in mercantile transactions from early life.—Should my fellow-citizens think proper, at the expiration of the time of the present sheriff, to bestow on me the office, I trust my conduct therein will be such as will give satisfaction, if a diligent attention and a faithful discharge of the duties thereof, are capable of doing the same.

THE Managers of this Lottery flatter themselves, from the elevated and healthy situation, chosen by the Commissioners appointed for building the Market-house, that it will be of the greatest utility and advantage, to that part of the city, and to the country in general, and beg leave to recommend it as an object worthy of their encouragement.
 As the above scheme offers every possible encouragement to adventurers, from the many valuable Prizes it contains, and there being considerably less than two Blanks to a Prize, and all Prizes payable in 60 days after the drawing of the Lottery is completed without any deduction, the Managers entertain the greatest hopes of such a speedy sale of the Tickets, as may enable them to commence drawing without loss of time.
 Such Prizes as shall not be demanded within six months after the drawing is finished, will be considered as relinquished for the benefit of the Market-house.
 For the satisfaction of the public, it may not be unnecessary to inform them, that the Managers have given bond to the State of Maryland in the sum of 30,000 dollars, for the due performance of the trust.

Baltimore and Ann Arundel BRIDGE COMPANY.

NOTICE is hereby given, That the commissioners, appointed by law, for opening subscriptions for a Capital Stock of Nine Hundred Shares, of One Hundred Dollars each Share, for the purpose of building a Bridge across the River Patuxent, at the place where the Lower Ferry is now kept, called Portland, in Baltimore county, over said river into Ann Arundel county—Will proceed to open subscriptions, at the house of Mr. Wm. Evans, in the city of Baltimore, on **MONDAY**, the 30th day of July next, and continue open for three days, from 10 o'clock, A. M. until 3 o'clock, P. M. in each day; and at the counting-house of **JOHN MUIR**, esqr. in the city of Annapolis, on the same days and hours above mentioned—and the said subscription shall remain open for those three days at the above respective places, and if it should happen that more than the stipulated number of Shares should be subscribed for on the above three days, than the Commissioners are to apportion them among the subscribers, by deducting from the highest subscriptions until they are reduced to the proper number; or if more persons subscribe than there are shares, then the Commissioners are to cast lots to decide to whom they shall belong. But if the shares should not be all subscribed on the above three first days, then the Commissioners will again open the subscriptions on Monday the 6th day of August next, at the aforesaid places and hours in the city of Baltimore, and city of Annapolis, and permit any person or persons, bodies corporate or otherwise, to subscribe for any number of shares, until the whole number of nine hundred shares is completed, and then the commissioners will issue receipts to whom the shares may be long, mentioning therein the receipt of 5 dollars, in part of their subscription, which must be paid in cash, on each share, at the time of subscribing; the other payments will be called for by the directors chosen from the stockholders as the bridge expenditures require, agreeably to the terms and conditions expressed in the law.
 The Commissioners beg leave to remark, that for the satisfaction and information of the public, they have had the road run by Mr. John Boulding, his attested plat of which is lodged at Mr. Evans's, whereby it will appear, that the distance from Mr. Evans's tavern, in the city of Baltimore, to the Ferry landing, at Portland, is 24 miles and 70 perches, from thence across the river is 1 of a mile and 4 1/2 perches, and from the foot of the contemplated bridge on the Ann Arundel side of the river, in a straight line to Snowden's bridge, at the Furnace, where it intersects the present Federal road, is 16 3/4 miles and 60 perches, and this over remarkably level, dry, even country—Thus we shall be enabled to travel from Baltimore to Washington, the Federal City, in 59 miles, besides the great superiority of road, whereas the present road is generally estimated at 45 miles.

Those natural advantages, added to a liberal law and charter of incorporation to this Bridge Company, by the legislature of Maryland, at their last session, who viewed it as of the utmost importance to the interest of the city of Baltimore and Ann Arundel County, as well as to the public in general, must assuredly prove a productive fund to the stockholders.
