NEW HAMPSHIRE ELECTION
For Electors of President and Vice President, was held on the same day with the Election in this State. The Keene [Federal] paper after detailing the returns from 37 Federal towns, which give a majority of 84 for the Federal Ticket confesses that the event will probably be in favor of REPUBLICANISM. Ala! Poor Connecticut and Delaware!

IMPORTANT!

A gentleman of respectability informs us, that he has just received advices from Point Petre, (G.) through a confidential friend, stating, that a privateer, called the Grandville, mounting 28 guns and 2 thirty-six pounders, with a compliment of 280 men, besides seamen and mariners, each armed with a musket, had arrived there, with orders to take all American vessels bound to Hispaniola, and hang the crews as pirates. The Grandville was one of a fleet of well armed ships, daily expected at Point Petre, in order to cruise for Americans bound to Hispaniola.

Freeman's Journal.

[The information contained in the above paragraph, which we have copied from a Philadelphia evening paper of Monday last, it is believed, is not only incorrect, but a mischievous fabrication. In the first place, no vessel has arrived from Point Petre to the north ward within the last fortnight; and finally, secondly, intelligence, of this nature, so important to merchants and underwriters, and so alarming to our seamen, would not be withheld from the public for such a period. We have the authority of a gentleman just arrived from Philadelphia, to state, that the foregoing was the opinion at that place of the credibility of the article. The frigate from Point Petre, which has arrived with the French minister, must have brought such information and her officers must have promulgated it before now, if correct.] Fed. Cas.

Arrived at Camp Claiborne, on the 16th instant, Col. Thomas Butler, of the 2d United States regiment of Infantry, who has come here to take command of the United States troops, stationed in lower Louisiana.

Died, on the 12th instant at Camp Claiborne, captain AARON GREGG of the 2d regiment of Infantry. By his death the United States has lost a brave and valuable officer and his brethren in arms faithful, honest, agreeable companion and friend.

Died, on the 13th inst. Mr. BENJAMIN TUPPER, of the firm of Tupper and Foley, merchant in this city, late of Boston.

Died, on the 7th of September, Mrs. MARY DEWEES, wife of William Dewees, esq. of this city, in the 25d year of her age. It would be unjust to announce this melancholy catastrophe without adding that her friends and acquaintance deeply regret her loss.

In the circumscribed walks of woman's life; and in the various relations of wife, friend and mother, her example will not be forgotten.

New Orleans paper, October 20

It has been currently reported for some days past, on the authority of letters from Washington, that Colonel Burr will soon appear in this city, for the purpose of taking his trial at the next Supreme Court.

We are informed in a Halifax paper of the 5th instant, that the Island of Martinique and Guadeloupe are closely blockaded by Commodore Hood.

GENERAL HAMILTON.

In addition to the particulars we have already given respecting this Gentleman, we subjoin the following, furnished to us by a friend of General Hamilton, who possesses a narrative of his life, written by the General himself:

General Hamilton's grand father, Alexander Hamilton, Esq. of Grange, in Ayrshire, married Elizabeth Pollock, daughter of Sir Robert Pollock, in Renfrewshire; by whom he had a very numerous family. The General's father, James Hamilton, being the fourth son, was obliged to sell his fortune in the West-Indies, where the General was

born in the Island of St. Vincent's. His mother was an American lady, and to her relations at New-York he was sent at the age of sixteen, for his education. After attending the College at New-York for three years, he entered the American army as captain of Artillery, and soon after by General Washington's invitation, became his aid de camp in which station he served until the capture of Lord Cornwallis's army at York Town, in Virginia. In 1780 he married the second daughter of General Schuyler, a gentleman of one of the most respectable families in America.

On Saturday, the 3d instant, at the request of the lieutenant-general, a grand feint took place at Halifax. At 10 minutes before 9 o'clock on that day, the alarm signal for an enemy was made at York redoubt, and repeated at the different harbor posts, and fort George; when the troops in garrison, were immediately under arms, and repaired to their several alarm posts. As the supposed enemy approached, detachments were sent to attack them, &c. A Halifax paper mentions, that the above feint took place, merely to ascertain in what time the different corps of militia, &c. in the town and its vicinity, could be brought to assist his majesty's troops, in case of the actual approach of an enemy. The whole arrangement was effected, and every corps at its respective destination, and ready for actual service within one hour after the alarm was given. The lieutenant-governor, vice admiral Mitchell, and lieutenant-general Bowyer, appeared on the parade.

In the afternoon of Saturday last, says the Jamaica Falmouth Mercury, of October 3, we had here one of the most awful thunder storms attended with heavy rain and repeated flashes of lightning, that has been known for many years. About 4 p. m. the lower part of the building, lately erected at a considerable expense, for the displaying of signals, under which, is the powder magazine, was struck with lightning, which broke the conductor, shattered one of the windows, and knocked down one of the soldiers on guard, who was much injured, and lay a considerable time speechless. The spot where the lightning struck, is not more than 10 or 12 feet from the magazine, where there is a considerable quantity of gun powder, (report says) enough to have destroyed the town of Falmouth and its inhabitants.

A cure for sheep-biting.

An intelligent farmer in New-Jersey seized a dog, which often worried and bit his sheep. He tied the leg of the dog by a tether to the leg of a strong active ram and placed them on the top of a hill. The ram immediately began to kick and buck the dog, who, after a little snapping, attempted to fly. The tether held him, so that the ram easily overtook, kicked and bucked him. After a short time the ram, excited to exertion, raced down the hill and forced the dog after him. When the dog was to be punished, as not to forget it, he was let loose and would never touch a sheep afterwards.

The following are copies of letters passed between the chief judge Regnier and M. de Meau:

The Chief Judge and Minister of the Palace to Mr. Victor Moreau.

"PARIS, June 21.
"In allowing you, sir, the liberty to retire to the United States of America, as you have requested, it is the intention of his majesty the emperor that you are not to return to France without having first obtained an express permission for that purpose.

"Mr. Henry, who will deliver you this letter, has instructions to bring me an answer from you, conformable to the intentions of his majesty.

(Signed) "REGNIER."
"Barcelona, July 7.

"SIR,
"My husband being too much indisposed to be capable of writing, desires me to inform your excellency, that Mr. Henry has delivered your letter to him. I must add that it was myself only who requested that his majesty would allow us to quit our country, and that my husband did nothing more than to submit to the determination which had been taken respecting him; but he was far from expecting that the duration of his exile was to be indefinite.

"As our return to France is made to depend upon the Emperor's pleasure alone. I am in hopes that it will be much sooner than I had reason to expect, &c."

AURORA.

SHIP NEWS

PORT OF BALTIMORE.

ENTERED.

Schr. Catharine, Stone, Martinique
Schr. CLARE D.
Ship Dean Vibert, Naples
Fame, Lewis, Liverpool
Brig Brilliant, Bartlett, Guadeloupe

New York, November 19.

Arrived since our last.

The British Letter of Marque brig Margaret, Miller, from Greenock, and 11 days from Halifax. Nov. 10, in lat. 40, long. 69, 30, spoke the British ship of war Leander, in company with the frigate Cambrian, from this port for Halifax, and delivered dispatches for them. Nov. 15, spoke a brig from Rochelle for Boston; but having sprung her bowsprit, was beating for New-York. Nov. 19, in lat. 33, 40, long. 72, 50, saw a French privateer (chr. of 14 guns, which hovered round the Margaret for some hours, but thought it most prudent to keep without the reach of her guns)—passenger Dr. Shaw & seaman who belonged to the British ship Ivo Brothers, captain Anderson, burthen 600 tons, which vessel was lost on Cape Notch, (Cape Breton) on the 10th ult. on her passage from Liverpool to Pictou, Nova-Scotia—crew saved.

Returned schooner Phoebe Ann, with the loss of her rudder—bound to Richmond.

Yesterday at half past 2 o'clock the three masted schooner Regulator, captain Steele for the West-Indies. She got under way in the north river with the wind at W. S. W. and as a proof of her failing near the wind, she lay through the narrows on the first stretch to the southward and eastward of the buoy at the side of the West Bank—The next tack she cleared Sandy Hook, and got to sea in two hours and a half from the time of her leaving the city, with a scant wind. The object of this remark is to shew, that a vessel rigged like the Regulator, possesses advantages in failing by the wind, which no other vessel is, capable of.

Cleared, schooner Resolution, Steel, Curracoa; Vigilant, Clark, Jamaica.

From Jamaica papers to the 3d of October, via Philadelphia.—Arrived at Falmouth, the D. M. C. Bell; brigs Triton, and Nancy, and schooner Experiment, Spence, all from N. Y. the Experiment was plundered by the French privateer Flying Fish off Cape Nicholas Mole, of poultry, colors, chests, and even letters & news papers. At Lucia, the Integrity, Funk, from New York.

Kingston, (Jam.) Sept. 15.

The Bacchante frigate, of 28 guns, captain Dathwood, from Antigua; and the ship Minerva, Reilly, one of the homeward bound July fleet from this Island, arrived the same day. The latter vessel was captured off Cape Antonio, on the 5th ult. after an action of an hour and a quarter, by the same French privateer which beat off the Reynard's boat's crew some time ago, and afterwards retaken by the Hound sloop of war. The ship W. Indian, Richardson, from Salt, another of the same fleet, was also captured by the same privateer on the 5th ult. Three ships and two brigs, supposed to be captures of the same convoy, were observed with two privateers within the Martyr's Reef.

The Hunter brig, captain Inglefield, arrived on Tuesday at Port Royal from a cruise with the American brig Orange, with provisions, taken by a French privateer, and cut out of Tafua Bay by the Hunter, in co. with the La Superieure schooner, Lieut. Fromow.

The schooner Generous Friend, Ruffel, from New York for the Windward Islands, has put into Port Royal in distress; having lost her masts, rudder, and 4 men, in a gale on the 4th and 5th ult.

Philadelphia, November 20.

Cleared, schooners West Indian, Guyer, Jamaica; Antelope, Morfe; St. Jago de Cuba; Hiland, Hand, Alexandria.
Ship China, M'Pherron, hence arrived at the Cape of Good Hope the 14th of Sept. last.

American Manufacture.

CALICOES, Furniture Cottons, Shawls and Pocket Handkerchiefs printed and sold by the subscribers, at No. 13, Calvert-street.

To remove a distrust experienced in new undertakings, and often prejudicial to manufacturing attempts in America; they think it proper to observe, that nothing material is wanted in the business to enable good artists to perform the work here, as well as in Europe. That they have these artists—that two of the partners were bred to the business in a factory of the best repute, carried on by their father, and long afterwards by themselves. They trust that while foreign goods are received without a question, an unreasonable suspicion will not prevent their countrymen from giving an equal trial to such as are wrought among themselves—Beside a natural doubt, there is room to fear, that certain interests, national, as well as individual, may suggest objections to their undertaking—it is necessary therefore to say, that work of the like kind, shall be as well executed here, as by foreign hands abroad. The colors capable of being fixed will be found as permanent, the cloth perhaps of better substance, and the price lower than of the imported cottons.

The customary credit will be given on good notes or acceptances in the city.
