Scott's Patent Window Springs
AN INVENTION of great utility to all
who have a desire to prevent unnece-
sary expense in fixing their Windows, to a con-
venience better attended to than hitherto. They
are superior to weights, for the security and
safe guard of persons and property in fastening
the windows when they are down, and equally
useful in supporting the window at different
heights. It is the first of the kind that has
been offered to the public here, and from the
manner in which they have been received in the
northern and southern states, he flatters him-
self that he shall meet with the patronage of
the inhabitants of Baltimore, and its vicinity.
The subscriber is authorized by the patentee,
to circulate them in any part of the United
States. Any person desiring to have their
windows fixed, will please to call at Mr. Ren-

Land for sale.
A PART of that very valuable tract of
LAND, formerly the property and resi-
dence of John Mercer Porter, deceased—situa-
ted in Baltimore county, in Back river neck, and
about 14 miles from the city—containing 204
acres of strong fertile land, a great part of which
is in a high state of cultivation; 14 acres in ex-
cellent timothy meadow, and about 20 acres
more may be added at a very small expense.—
The improvements are of wood, lately erected,

VENERIAL COMPLAINTS.
A Dr. WARNER'S practice has been
very extensive both in public and pri-
vate, daily experience convinces him of the
propriety of his method of removing the
venereal disease, in preference to any medicine
vendod or known in Baltimore. He has re-
moved the most desperate cases with care and
dispatch, after the failure of some of the most
physicians both in Europe and America. Com-
plaints of the urinary passages and debility
thereof, from various causes and accidents,
removed in the shortest possible space of time.
As there are persons from various causes
cannot personally apply, it may be necessary
to inform them, they may be relieved from a
description of their complaint.
Dr. W. warrants a cure in all cases. Specimens
of vessels and travellers may have their medi-
cine so prepared that a safe, effectual and ex-
pedient cure may be effected, without the ex-
cessive restriction in drink or diet.

Proposals
[FOR PUBLISHING BY SUBSCRIPTION,
AN ORIGINAL WORK,
ENTITLED,
THE AMERICAN DRAWING
MAGAZINE;
OR,
A COMPLETE SYSTEM OF DRAWING,
Adapted to the use of all persons who would be-
come accomplished in this branch of educa-
tion, by which they may be instructed without
the aid of a teacher, and also, become ac-
quainted with the first rudiments of paint-
ing, sculpture and architecture.
By JOHN ECKSTRIN,
Lith. Painter and Statuary to the King of Prussia,
and was Professor of Drawing to the Academy
of Fine Arts in Philadelphia.

CONDITIONS.
FIRST. The work shall be published in num-
bers, each number containing twelve engravings
or etchings, thirteen inches by ten, three of
which shall be coloured. The whole work will
be completed in twelve numbers, and the num-
bers shall be published at intervals not greater
than three months each.
SECOND. The price to subscribers will be two
dollars a number, to be paid on delivery. To
non-subscribers the price will be two dollars and
fifty cents.—The necessary explanations and
instructions will be given in the early pro-
gress of the work.

THE liberal encouragement which is given
to all attempts for the cultivation of the arts
and sciences in this country, induces the artist
to present the above plan to the consideration of
the public. His immediate object in this
publication will be to establish and exemplify such
rules and principles in the art of Drawing, as
shall enable any person to obtain a proficiency
therein without any other assistance. The
work also will be found extremely useful in all
drawing schools, particularly where the teacher
is occupied with the theoretical parts of the
subject, as to be abridged in the time which
should be devoted for the practical improvement
of his pupils.

To the American public it will be unnece-
sary, for the success of a work like this, to offer
any remarks on the importance and usefulness
of the subject of which it treats. That public
is well aware, that the art of drawing is natu-
rally connected with all other of the fine arts,
and that an acquaintance with it is essential to
the painter, the sculptor, and the architect.
As a source of amusement, and as forming a
branch of polite education, the art of drawing
will ever be cultivated when true taste and
polished manners shall prevail. The display of
skill for a perpetuation of the remembrance of
objects which are dear to us, must ever award
gratification to a feeling mind; and there is per-
haps no more lively pleasure than that which is
experienced by a successful exhibition of a
beauties of nature by the hand of art.
To the taste and judgment of a polished com-
munity, the artist proposes to offer the testimo-
nials of his skill. Should that taste and judg-
ment approve of his plan, an allud encourage-
ment for his exertions, it will be the highest
reward to which his ambition can aspire. To
every person conversant with works of this
nature, and acquainted with the expenses of
their publication, it will be evident that no mo-
tives of pecuniary emolument can influence him
to make these proposals. His most favorable
calculations permit him only to expect a remun-
eration of the expense, and a very limited re-
ward for his trouble.
Subscriptions will be received by WARNER
& HANNA, No. 37, Market-street, Baltimore;
and by the principal booksellers in the United
States.
