**French Night School.**  
NOTICE is hereby given, that I the subscriber, Teacher and Translator of the French & English Tongues, have resumed the FRENCH NIGHT SCHOOL in my common dwelling, between Light-street and Charles-street; but as to promise to do wonders in the half of my pupils—I have no need, it suffices to tell them that no language can be learned without grammatical rules, even as far as translation; the master and scholars must take a great deal of pains; also, that every person is not capable to learn a foreign language. Those impartial judges who know me will certainly agree, that after having taught the French language to the most respected Ladies & Gentlemen of America, during more than 43 years; I ought to be a competent judge. I would advise those promising youths who will favor me with encouragement, to apply as soon as possible, so that they may get some benefit of their studies by the 15th of March.

**VENEREAL COMPLAINTS.**  
A S Dr. WARNER'S practice has been very extensive both in public and private, daily experience convinces him of the propriety of his method of removing the venereal disease, in preference to any medicine vended or known in Baltimore. He has removed the most desperate cases with care and dispatch, after the failure of some of the ablest physicians both in Europe and America. Complaints of the urinary passages and debility thereof, from various causes and accidents, removed in the shortest possible space of time.—As there are persons from various causes cannot personally apply, it may be necessary to inform them, they may be relieved from a description of their complaint.  
Dr. W. warrants a cure in all cases. Masters of vessels and travellers may have their medicines prepared, that a safe, effectual and expeditious cure may be effected, without the least restriction in drink or diet.  
N. B. Dr. Warner has removed to the corner of Calvert and Bank streets.

**PROSPECTUS**  
OF the Philosophical Exhibitions intended to be displayed in the Octagon building below the Court-House: to begin on Tuesday, the 3d of December, at half past 6 o'clock P. M. and continue every Saturday and Tuesday the same hours.  
The spectacle proposed to be presented to the public consists altogether of Philosophical operations.  
It will be a series of Phenomena, which will fix the attention by surprising effects and exercise the genius for discovering the causes of action.  
Even those persons who may be acquainted with the works of the operations, will probably find something new and interesting in the application of them.  
Fire will be seen glittering inside of glass vessels, and the same fire extinguishing in others, all of them clean and empty.  
Artificial fountains, will throw water, light, flame and fire under different forms.  
Lamps will be seen fed by common water, others will burn at the top of vessels containing nothing.  
Signs of these lamps with a faint flame hardly giving any light at a few inches distance, will inflame and even fuse all combustible matters, metals, or vitrifiable bodies, and iron in an instant will become red hot.  
A fine and hard white metal will be seen in full fusion coming out of water and taking any form in moulds.  
Fire will burst out and loud reports will be heard, considerably stronger than what can be produced by gun-powder without any application or use whatever of fire.  
A light will be seen perhaps more dazzling than the sun at noon of a fine summer day, suddenly created and visibly without any kind of fire.  
Iron will be seen in full fusion, in a glass vessel, filling its capacity with large shins, sparks, and going down to the bottom in red hot globular particles—this will be produced without any other fire than a little grain of sulphur lighted by a candle.  
A child will be seen lifting considerable weights, by no other action than his blowing; and many hundred pounds will be lifted by the power of only a few ounces of water.  
The spectators will see the strange effects of a combination of metals (which is called Galvanism) upon the muscles and nerves of animals.  
Many other operations will be exhibited, which are not present to the memory, or an enumeration of which, would exceed the limits of this notice.  
Thus will be employed the first part of every night, in a selection of subjects, always varied.  
The second part will be of a quite different nature; it consists of optical illusions.  
The spectators in the dark will see apparitions, spectres, and figures of various kinds; some appearing suddenly, others issuing gradually from luminous points and clouds; some advancing forward in a manner which would terrify such as could forget that they are at a public spectacle.  
In these apparitions personages will be seen of every age and conditions, figures in motion, shades of the dead, coming out of graves; monsters of various shapes; and they will see a representation of the Elysian Fields.  
As a diversion to such doleful objects, figures will also be presented from fable, from history; inhabitants of different parts of the world, in their natural dresses: the most remarkable species of wild animals; landscapes, herds of cattle, marine vessels, vessels at sea, and many objects which altogether will, it is hoped, give satisfaction and pleasure to the lovers of the arts.  
The present notice is only intended to give an idea of the nature of these exhibitions. No exaggeration is attempted; what is announced, will be exhibited and many other objects equally curious which are not mentioned.  
By the new distribution of the hall in the Octagon, there are boxes of 12 seats each, where ladies, families, or friends may unite if they choose. The rest is in common rising seats; all very solidly fixed.  
A new stairway and plat form have been placed at the door; and the foot way will be made easier and more secure, along the damp place on coming to the Octagon.  
Admittance One Dollar to the boxes; 75 Cents to the back seats—the boxes may be hired separately for every night, or for the course which will be of ten nights; tickets may be had on application at Messrs. Conrad's book store, No. 138, Baltimore-street; Mr. Carr's music store, corner of Baltimore & Gay-streets, at the coffee-room, and at the door of the Pantheon on the evenings of exhibition.
