EGS leave to lay before the public, the pr posals of the Phonix Assurance Comery of London, for the purpose of insuring Houses, and Property against Fire: the very moderate terms on which insurance may be effected, it is hoped will prove an inducement to insure generally—A discretionary power is vested in me, to relax a little from the rates now published, where the situation of the property; or other circumstances are peculiarly favorable—Orders lodged at the Office of the Company in Second-street, will be promptly attended to.

DAVID STEWART, Agent for · The Phanix Fire Company of London.

PROPOSALS

FROM THE PROENIX COMPANY OF LONDON For insuring Houses, Buildings, Stores, Ships in Harbour, Goods, Wares, and Merchandize,

FROM LOSS OR DAMAGE BY FIRE Insurance from loss or damage by FIRE hath been found a measure of great importance to the happiness of families, and has given ádditional security to commercial transactions.—The distinguished approbation with which the public throughout Great Britain received the improved system of this office, occasioned trequent application for the insurance of property in the principal cities and towns in Europe and America, and induced the company many years since to extend their plan to the continents of Europe and America and to the West India Islands. The Phanix Company can refer to the unerving test of experience to ascertain their character; and, gratified by the unbounded confidence they have obtained, and for the purpose of facilitating to the inhabitants the means of effecting insurance on their property, the directors have lately deter mine i to extend the sum which they have been accustomed to inscre in any single risk, and have arranged rates of premium upon the various descriptions of preperty, which, they trust, will be found moderate, just, and equi table.-The promptitude with which this office has adjusted the claims of sufferers, and the solidity of its funds, are so well known, that it is unnecessary to offer more on the subject, than to refer those who desire information, to the merchants of London with whom they COPT'S DOTAL.

In this Office no insured person is liable to any cell to make good the losses of others; but in case of Fire, the sufferer will be fully indemnified by the Company.-The Com. in also make good losses on property burt by lightning.

FROM LOSS OR DAMAGE BY FIRE, On terms so moderate, as will, it is presumed, make it the interest of all to resort to a measure so well calculated to give additional secuirity to commercial transactions, and to afford t protection from the injury which Fires have so

colter occasioned. Luthis Office, no insured person is liable to any call to make good the losses of others ; but In case of Five, the Sufferer will be fully indemnified with that liberality and promptness which have always distinguished this Compamy requiring no other delay (even where presumption of fraud appears) than is necessary to distinguish the honest Sufferer from the fraudu-

lent Incandiary, As a proof of the usefulness of this Institution, and the benefit that individuals have derired from it, it is only necessary to state, that since the commencement of the Office, in 1782, near Seven millions of pollans have been paid to claimants upon their Policies. The following is published for the information of

these who reside at a distance. Each building must be separately valued, and a specified sum insured thereon—and in like manner a separate sum insured on the property contained therein.

X Persons choosing to insure for seven years, will be charged for six years only; also, for a less number of years than seven, will be allowed a reasonable discount.

Pitch, Tar, Turpentine, Saltpetre, Flax, Hemp, Oils, and Tallow, are deemed hazardous goods: Tallow-melters, Soap makers, Brewers, Dealers in Spirituous Liquors, Vinegar and Sweet-makers, Hemp and Flax. dressers Printing-houses, Coopers, Capenters, Cabinet-makers, Coach-makers, Mait houses Bakers, Ship-chandlers, Boat-builders, R parmakers, Sugar-refiners, Distillers, Chymists, Varnish-makers, Turpentine-works, Theatres, and all Mills and Machinery, are deemed extra hazardous, and the rate upon such risks

The rates on buildings, (and on property conained in them) depend so much on the materials of which they are constructed, the purposes for which they are used, and their situation with respect to other buildings that may be deemed hazardous, that particular attention is requested to these circumstances in the orders for in

In cases requiring a Surveyor's report, or plan of the buildings, where there are several, showing their situation with respect to each other and tootherbuildings, such survey or plan must be furnished by the Assured, or at his expence; but, where a clear description of the property can be given, of which the Agent must be the judge, they may be dispensed with. The Assurve is subject to no charge or expence in this

Office, except 50 cents for the Policy. In stating the sums for which insurance may be requested on any property, it should be rerellected that indemnity only is the object of insurance against Fire, and that berefit, or expeeted profit or interntage, beyond a just estimate of the value of the properly destroyed, is against

the principles of the contract. Ordirs left at the Office of the company, in Second-street, will be attended to Agent for the Phonix Assurance Company
