Just Received,

AND FOR SALE AT THE BOOK STORE OF GEORGE DOBBIN & MURPHY, No. 10, Baltimore-street, opposite Centre Market, The first vol. of a second edition, highly improved, and much enlarged, of the original work, entitled

Nature Displayed,

In her mode of teaching languages to man; Or, a new and valuable method of acquiring a language in the shortest time possible, deduced from the analysis of the human mind, and consequently suited to every capacity.—Adapted to the French, in two volumes.

By N. G. DUFIEF, OF PHILADELPHIA.

Extracts from respectable Reviews, &c. The author tenders his most grateful thanks to the gentlemen who recommended the first edition to public patronage, and in particular to Thomas Jefferson, Esq. president of the United States, to whom the manuscript was submitted. He was pleased to write an encouraging letter on the subject, and thereby greatly promoted the success of the undertaking. It concluded in the following handsome and polite manner:

"I can see by what you have done, that your work will be eminently useful, and ask permission to subscribe for half a dozen copies for the different members of my family. THOMAS JEFFERSON."

Mr. N. G. Dufief.

AND ALSO, To the respective editors of the following periodical works, who, since its publication, have reviewed "Nature Displayed."

"This work is a system of instruction, which the writer has adopted from its conformity to the precepts of simple nature, and from his long and multiplied experience of its success. He styles it the method of Nature, in teaching languages, and he anticipates the most splendid success in his efforts to explain and introduce this method in the seminaries, not only of America, but of every part of the world, where the French language is attended to. This method possesses the singular excellence of being adapted to all languages. So far as we are able to estimate the merits of works of this nature, we do not hesitate to bestow the feeble sanction of our praise, and the slender aid of our wishes for its success."

Literary Magazine. "Finally, we conclude, that those who peruse "Nature Displayed," with attention, will agree with us that it has much originality and much merit, while it promises such utility to society (as the principles are applicable to all languages) that the laws of the old world will probably be lost in those of the new, in teaching this important branch of literature." Fort Folio. "The chief merit of this method consists in its being a close imitation of the process of nature, in conveying the knowledge of language to children. A higher encomium need not, in our opinion, be sought by the ambition of the author."

"We hope this performance will be in the hands of all who wish to spare themselves the drudgery, the circuitousness, and the waste of time, which attend the acquisition of languages in the modes commonly practiced." Medical Repository. "We earnestly recommend Mr. Dufief's "Nature Displayed" to all those parents who are desirous of having their children instructed in the French language."

Monthly Register. "We therefore conclude these remarks by wishing him success in his laudable undertaking, proportioned to the ingenuity and ability with which these volumes are executed."

"We are happy to learn that several instructors in different parts of the United States, are teaching the French language on Mr. Dufief's principles"

Paeodist, or Christian Armory. "We consider this work, not only as a valuable acquisition to the student of the French language, but as a performance which reflects credit on the literature of our country."

Monthly Anthology and Boston Review. "The subscription price of this work is five dollars, in boards. Such gentlemen as have become subscribers to the above publication at our book-store, will please call for their copies."

United States' Mail Stages.

THE public are respectfully informed that the NEW LINE, "The Four Man's Line" of mail stages from Baltimore to Washington, (as contracted for and established by Solomon Myer, under the full authority, meaning and intention, to be incorporated in the general line from Maine to Georgia, under all the advantages and profits which one contraction derives from the other by the just and special management of the post-master-general) has performed its route with punctuality, success, and under patronage from its commencement, notwithstanding all the disadvantages of false alarm, a bulging opposition, and the absence of the post-master-general.

The public are further informed, that Solomon Myer, has, in the whole of the establishment, taken into partnership Charles J. Myer, of the city of Baltimore, and the arrangement in future will be from Myer's hotel and stage office at Baltimore, to Myer's hotel and stage office at Washington. They will also pay particular attention to passengers from and to Mr. Bryden's, Mr. Faget's French Coffee House, Gay-street, Mr. Froct's, at Washington, and Mr. Simins's at George-town; and will wait on passengers at either of these places agreeably to the address left at the stage offices. The proprietors flatter themselves that they will in a few days be able to extend the line from Washington to Alexandria twice a day, for the special accommodation of the citizens of those places; and also those who may wish to travel from Baltimore to Alexandria in one day.

The best drivers in the U. States are in their employment, and the strictest attention will be paid to baggage and the accommodation of passengers, by

The public's obedient servants, SOLOMON MYER, CH: J. MYER, eo4t

Veneréal Complaints.

Omnibus ad quos hac pervenerint Saltem.

A S DR. WARNER'S practice has been very extensive both in public and private, daily experience convinces him of the propriety of his method of removing the Veneréal Disease in preference to any Medicine vendid or known in Baltimore. Among the numerous cases of the most delicate females in very advanced stages of pregnancy, when to all human probability their tender offspring must have been destroyed in the common mode of cure, there has never been an unfortunate termination. The advantages of medicine not in the least disagreeable to the taste or stomach, the ease to the patient without confinement or restriction in drink or diet, must be self-evident to all. As he has removed cases deemed incurable by the ablest physicians both of Europe and America—The Doctor solicits particularly the attention of those who have made ineffectual trials with others. As Dr. Warner is in the daily habit of receiving communications from other states, and sending medicine to them, he will attend to any letters, postage always being paid, as usual. Those who have injured their constitutions by imprudence may be restored by a timely application. Many infants who have been born with this evil affliction, have been most effectually restored to health by the subscriber. Masters of vessels and travellers may have their medicine so prepared, that a safe, effectual and expeditious cure will be made without any restrictions whatever. Cure is warranted in all cases.

Dr. Warner has removed to the corner of Cumberland-Row and Water-street, at the west end of the Marsh-market. eo
