He said take the Criminal Docket and then draw a line through the county from north to south and you would fin that one criminal came from the north, and yet the whole county was taxed for the Court Expenses and it ought to be the same for the road tax.

county but more especially to devise ways and means by which an immediate improvement could be effected on the road leading from Monkton eastward to St James' P. E. Church, on "My Lady's Mannor," a distance of about 3 miles, was not as largely attended by representative farmers and tax-payers as the importance of the business under consideration demanded. Among those present were noticed Col. M. W. Offutt, Jacob M. Pearce, Wm. B. Krout, of the Baltimore Sun Wm. Perdue, one of the Road Supervisors of 10th District; Wm. Hutchins, Wm. H. There is nothing that troubles the mind of the hardworking farmer more than the knowledge that he is in debt and cannot make ends meet. We know quite a number so situated, and an additional tax of any pro

portion to be levied upon their already siender incomes in these depressing times would create discontent, and give rise to bitter murmuring. That the roads of Baltimore county need looking after and improving, and to bring them out of their wretched condition in which they have been for some time, is of course conceeded, and that at least some of the Road Supervisors, who have charge of these important works, need looking after when they least expect it, is, although roughly stated, quite a necessity. Take the road tax as now apportioned, with perhaps a slight addition, similar to that practiced in the 1st and 13th District, and employ noth ing but good, practical men-men that know how to build a road and are willing to do it, without taking out their carts and wagons every morning and leaving them idle all day, but charge for them all the same. If some such mode was adopted and strictly obeyed, or made to obey the benefits arising therefrom would be seen in less than six months. 379.727 in 1880, or \$26,595,423, while in Maryland the But we have strayed from the real object of the decrease during the same time was \$18,136,571. The debt per capita in New Jersey was \$43.66, in Mary-Krout, Secretary. The Colonel made a vigorous speech in favor of better roads, and illustrated in

several forms how property would enhance in value by having good roads to get to and from market, &c. Then a general discussion followed, participated in by several gentlemen, of how the the Manor road could best be improved. Mr. Thomas Kauffman, Mr. John W. Merryman and Mr. Wm. Hutchins were appointed a committee to consider and report the advisability of the changing of part of the present road bed of the Manor Road which, however, is not a feasible plan, as it would depreciate the value of some property would make a great deal of labor and expenses, and could not be entertained for a moment by the property holders. The original plan of digging down the hill some 8 or 10 feet directly opposite the M. E. Church, which stands upon a hill overlook. ing the vitlage, is also strenuously opposed by some of the Trustees, because it would leave the church and cemetery insolated, as either ingress or egress could be had, as well as injure some smaller prop erty situated along the road. The taking down from Monkton to the mill, would be of great bene fit to the community at large, and Mr. Smuel Miller is steepest and no by road could be had to get to the church; therefore vehicles or funerals coming

tend the general meeting of tax payers at Towson from the east of the church would have to come t Monkton and then turn and take the by-road back to the church, making a double trip, and no doubt rather laborious. However, all these things will be more fully discussed at the next meeting. Mr Herbert Hutchins, Mr. Thomas J. Miller and Mr. F. M. Sparks were appointed a committee to solicit funds to carry on the work, and we understand that nearly \$300 have already been promised. It is calculated that it would require about \$600 to com-plete the work as contemplated. Messrs. Jacob M. Pearce, Wm. H. it would require about \$600 to com-plete the work Ford, F. M. Sparks, Henry C. Hutchins and Oliver M. Hutchins were appointed a committee to represent the Distract at a mass meeting to be held at Towson on Monday, December 30th in the interest of better roads. The meeting then adjourned until Saturday, January 11th, 1500, at 2, o'clock P. M., when another meeting will be held at the same place.

resolutions is at hand I presume we had paste them in our hats. The road question seems to be agitating the minds of our tax-payers considerably. The bond aystem does not meet with much favor among our farmers. They are airaid, especially the older ones, that it will incur a debt that they will not see liquidated during their time, and thus to hand down to their posterity a fine role of the posterity and the second transfer of the role of their posterity. their poeterity a financial embarrament that would demonstrate the fact that they were gov-erned by political instinct and not by that acumen which should characterize them in such an important question. The following suggestion was made by a non-tax-payer: Pass a law to make every voter who is single and a non-property holder pay a poll tax before he can vote. Well, as this party was a married man we are afraid such pro ceedure would force all our young men into matrimonial felicity, and the last state would be worse Christmas holldays passed off without any notable events, except some few jokes which were played by our proverbial jokers. The Rev. Wm. J. Nicoll is holding a protracted meeting at Eklo. He seems to be indefatigable in his efforts for the success of the meeting, but the community as yet have not shown a very strong appreciation for the brother's labors from the fact that the congregations have been small. Probably after the holidays are over the folks will settle down to the important business of the salvation of their immortal souls.

I's history and manual,

BY THEODORM A. ROSS, SECRETARY TO SOVEREIGN GRAND LODGE.

This work is the most succinct and correct history

and chronological record ever prepared by any historian of the Order. Mr. Ross, from his constant association with the internal workings of the Order for many years past, and his prominence in official station, makes him the best qualified person to pre-

pare such a history as he presents.

The work, besides, is a complete Manual to the interested Odd Fellow. It corrects many facts as to the origin and wonderful progress of the Order.

No intelligent Odd Fellow should be without the
