Mr. Cleveland says that he is going to live the life of a retired gentleman, so far as he may be permitted to do so, and will not engage in the practice of law. He has arrived at the age of nearly sixty years, and, being in the possession of a comfortable competence, will devote the remainder of his life to quiet pursuits.

The above article might have explained a little farther by saying: "That Mr. Cleveland was the first President of the United States to retire on a 'comfortable competence.' And as the New York Sun, says: "Acquired mainly through opportunities for money making conferred upon him because of his tenure of of the Presidency."

He rétired from office on Thursday, and with the exception of the millionaires and a small coterie of mugwump idolaters no regrets or tears will be expressed or shed at his retirement.

On Thursday a change of administration took place at Washington: Grover Cleveland, President of the United States, stepped down and out and William McKinley, the newly elected President, assumed the reins of government. Every good thinking American citizen, no matter how he differs politically with the administration of President McKinley, but that will wish his administration of the affairs of our government a success, because all have a common interest in its management.

President McKinley will call an extra session of Congress for the purpose of revising the tariff and with the opening of that session will begin

The House of Representatives is to employ two bicycle riders at \$5 per day to carry copy and proofs to and from the Government Printing Office. Here are excellent chance for a pair of statesmen who may happen to be out of jobs.

A bill has been introduced in the Kansas legislature to enforce the Ten Commandments by law. A bill appropriating a sum for additions to the state insane asylum is also pending, but this may be merely a coincidence.

Now that the streets and roads are in good condition for general spring cycling, it is expected that much of the present fevered agitation over public and international affairs will pass away.

Ex-President Cleveland can now go duck shooting as often as he pleases, and stay as long as he wants to. It is now nobody's business but his own, and nobody will care.

This month will, doubtless, be one of more than usually interesting his tory making. And it is very likely to do some blowing about its achieve ments.

Is the question of the hour—is the question of dollars.

Men who own gold mines want the stand-

ard to be a single gold dollar.

Men who own silver mines want a silver standard.

Men who own BOTH gold and silver mines (there are only a few of us left) want a gold and silver standard.

We've got a scheme! Sugar has gone up. If it goes much higher nobody but the angels can reach it.
Oil is up among the clouds. A little higher and it can be poured upon the troubled waters in the clouds. Hides are up and

shoes may go skyward, so the papers say.
Why not make our dollars out of rubber? That's a great scheme; then they'll stretch. Its a pretty hard matter to make a fivedollar bill stretch over a ten-dollar purchase and even we can't do that for you; but yet, until rubber dollars are made, we'll come nearer to it than any store you know of.

We'll stretch a dollar and fifty cents so that it will cover a fine pair of pants worth a dollar more.

We'll stretch fifty cents of your silver money so that it will cover a splendid pair of Overalls-which will stand rough usage -worth one dellar, and they would cost you that if this store wasn't here.

We'll stretch one dollar of your silver, paper or gold money so that it will cover a pair of nice Shoes, worth at least a dollar

We'll stretch a dollar so that it will cover a dollar and a-half worth of Groceries. We'll stretch two dollars of your money so that it will cover enough dress goods to make a dress fit for your wife or daughter to wear to church.

Want to stretch your money? Bring it to our store; you'll think it
