wrinkles. The incessant action of my brother entered school as soon as the school law would admit him, and jaws throws the mouth out of shape attended as regular as any of his and must sooner or later, bring out brothers, received the same mental the wrinkles on the face. Tutti- and moral training, (because our dear fruitti girls will take warning ac-parents were partial to none), but I am very sorry to say that he having cordingly.

The Tobacco Trust has put up its shutters and gone out of business. You accepted our invitation to All its contracts with jobbers have visit our school when at leisure. been annulled. The greater number Would it not be wiser for you to of the Trusts, however, will continue make it a special object, lay aside to do business until the people shall we'll assure you a pleasant time, and pull down the tariff roof over their feel confident that, after a thorough heads. Without that shelter the examination, you will admit that, most obnoxious of these monopolies would not find it profitable to exist. In the standing our flower borders, flower mounds, &c., are gone, we still have as attractive school premises as

The brillance of Venus-the evening star-during the last two months has attracted general attention and has caused many persons not conversant with astronomical matters to imagine that a new celestial visitant has appeared in our system. As she has hung upon the Western horizon her great effulgence and apparent increase in magnitude have given her NEW AND SECOND-HAND almost the appearance of a radiant globe of softly glowing fire, and inglobe of softly glowing fire, and inlan, have actually been made ether this beautiful light in the heavens was not the result of new electric experiments made by Mr. CA Park" has done many wonderful things, but he has not yet created a

Edison. The "Wizard of Menlo star. As has been explained several Mr. M. L. THOMAS, times during the last two months, this is a period of great brillancy with Venus. There is nothing new or irregular in these manifestations. It is the lady planet's time for being bright-possibly her gay season, when the lieavenly belle arrays herself in her finest jewels and puts on the most dazzling robes of glory she can find in the sky, According to a recent astronomical theory, she is dead, but, if this be true, it is clear that she is still beautiful in death and that "e'en in her ashes live her wonted fires."

[COMMUNICATED.]

The Winchester correspondent in answer to my last letter said, that the right man must have been hit, because the fence was repaired last Saturday. Where are your eyes, and what use do you make of them? Just step across the road, place your hand over one eye, and partially close the other, and then you can readily see that the fence has not seen Ic. see that the fence has not seen re-paired, only temporarily in one or two places, and this was done, not to satisfy you, but to keep stock, that sometimes trespass upon the county road, from trespassing upon the school premises. There are still a number of places where boards are off and posts to be set in. You have therefore either failed to let your eyes perform their true function, or, you have allowed the abominable and horrible sin-falsehood-to escape your lips. I would rather be-lieve it is the former; but you say, there is no better proof of a thing than to see it. If this be a fact, why R was it, after the slight repairing which was done last Saturday, you could not see that there were still boards off, new posts needed, and in fact, the same repairing still needed,

that was needed. You ask me to read one of my mottoes, "Wait, and waiting pays no man." No such motto as this ever hung upon the walls of the school-dtorellouse in Queenttown for rent. hung upon the walls of the school-house since its erection. You also call my attention to another, "Think, and thinking pays." Neither did we and thinking pays." Neither did we ever have one which reads like this. Our walls are decorated with mottoes equally as good, and that teach as important and useful lessons. These mottoes, which you say, hang upon the walls of my school-room and, which I say, do not, is a proof to the minds of all intelligent readers that you have made false statements, and doubtless done, because of a lack of love for your fellowman, and a proper regard for and practice of the "Gold-

The idea that I wished to convey in reference to the erection and protection of the flower mounds, flower borders, and other improvements was entirely misunderstood by you. Take your paper and read carefully my letter again, and you'll find that the thought advanced was, not that I claimed the most credit for the work and attention towards the flower mounds, flower borders, &c., but it was to convince intelligent and reasonable thinkers, that to fill a school yard with flower mounds, flower borders and various other decorations is depriving the scholars of a free access to the grounds, hence destroy-

ing, to a very great extent the enjoy-ment and pleasure that the scholars should have and would have, were

You said that my brother, who labors hard in order to obtain a living was, time after time, sent out of school to work the flowers or wheel these mounds these mounds of these s positively no truth in this state-ment. My brother, while he labored and toiled as hard as any of his brothers, and hence deserves as much credit as any, he was never deprived of an opportunity to improve himself intellectually in order to do the work that you speak of. You say that he did not have the chance that I had to obtain an education. This is another Chewing gum is productive of sad mistake that you have made. an unusual bad impediment in his

The Money

Is the question of the hour—is the question of dollars.

Men who own gold mines want the standard to be a single gold dollar.

Men who own silver mines want a silver standard.

Men who own BOTH gold and silver mines (there are only a few of us left) want a gold and silver standard.

We've got a scheme! Sugar has gone up. If it goes much higher nobody but the angels can reach it. Oil is up among the clouds. A little higher and it can be poured upon the troubled waters in the clouds. Hides are up and shoes may go skyward, so the papers say.

Why not make our dollars out of rubber? That's a great scheme; then they'll stretch. Its a pretty hard matter to make a fivedollar bill stretch over a ten-dollar purchase and even we can't do that for you; but yet, until rubber dollars are made, we'll come

nearer to it than any store you know of. We'll stretch a dollar and fifty cents so that it will cover a fine pair of pants worth

a dollar more. We'll stretch fifty cents of your silver money so that it will cover a splendid pair of Overalls—which will stand rough usage -worth one dollar, and they would cost

you that if this store wasn't here. We'll stretch one dollar of your silver, paper or gold money so that it will cover a pair of nice Shoes, worth at least a dollar

We'll stretch a dollar so that it will cover a dollar and a-half worth of Groceries. We'll stretch two dollars of your money so that it will cover enough dress goods to make a dress fit for your wife or daughter

to wear to church. Want to stretch your money? Bring it to our store; you'll think it

is rubber! DAVIDSON & CO., LEADERS OF LOW PRICES.
