Some time ago Colorado abolished capital punishment. P. S .- Two men have just been lynched in Col-

The sun got all the notice and glory of the eclipse, while the moon did all the work. Such is life, even

in celestial circles. If Oom Paul possesses anything like the sprinting abilities of Aguinaldo, the Boer war won't be over for some time to come.

It might be well for the members of the Baltimore milk trust to bear in mind that the animal ealled cow cannot be trusted in fly time.

The man who rocks the boat and the girl who tries to show her friends on shore how far she can swim have oth arrived in the season's news.

Mrs. Dewey said about a week ago that she didn't want George to run for the presidency, and he doesn't seem to have done any running since.

The eclipse of the sun Monday s frightened some negroes at Norfolk. Ya., that they took to the woods, but it didn't phase Mark Hanna and McKinley.

The worst thing about McKinley prosperity is that it only strikes cer tain spots spots occupied by trusts ed stock and employing rvation wages.

Republican papers condemn the prices. buban scandal in terms equally as severe as the Democratic papers, only some of them have not yet reached the point where they can say "steals" instead of "discrepancies" and "robberies" in lieu of "irregularities."

Two New York bachelors attended failure?"and now they have married and hoping by strict attention to avoid the necessity of going away ment, to receive a share of cheapest. A share of patronfrom home for their debates hereafter.

Its record of theft and scandal in Cuba is an awful load for the Mc-Kinley administration to stagger under. Given a good Democrat campaign, with good Demoratic nominees, and this Cuban issue alone will be sufficient to bury the Republican party "ten thousand fathoms deep at the November election.

Our losses in the Philippines have reached 2,029 killed and 2,152 wounded, a total of 4,181. To this total of actual casualties must be added the hundreds who have been enfeebled by disease and the enervating climate, and who will probably lever again be sound men. And this fearful price, with the end not yet in sight, and with an enormous money expenditure to be added, we are paying for a war against a people whose only offence is a desire to control their own country and establish a republican form of government.

It often happens that the best laid plans of great men are often turned to naught. It was mooted that there WARRANTED. PRICE 50 cts. was a move in order to replace the position of Prof. R. A. Rowlenson as principal of the school in this town. The cause of which we are unable to state, unless, because he controlled the children instead of the children running the school to suit their notions. It would have been a grave mistake if such a valuable teacher as Prof. Rowlenson had been turned down to suit the whims of a few people who could not run school matters to suit their fancy. We feel sure that his recent re-appointment by the new board of trustees will meet with the hearty approval of all the town patrous of the school.

Perhaps it will be just as well not to repeal the war taxes. It looks as though we shall need the money to make good the thefts of our imperial administrators. Manila is yet to be heard from.

The English should not be too certain that the war is "over." . Like all courageous peoples, the Boers must be absolutely vanquished and overwhelmed before they agree to stop fighting.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said it was a slight strain and would soon be well, but it grew worse and the docter then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug mixed as soft as it can be store and the druggist recommended me try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now more digestible and keep fresh recommend it to all my friends.—F. longer. A. Вансоск, Erie, Pa. It is for sale by B. E. Bread with

Sherwood

1. Bread should always be handled. It will rise sooner and higher, be lighter and

2. All the processes attending should take place in a moderately warm room, as cold arrests fermentation. Too much heat, however, will make it ferment too fast.

3. Always sift your flour when you use it, warming it a little afterwards if the weather be cold. Sifting twice is even better than once, as you get more air between the particles 4. Bread should be knead-

ed thoroughly and faithfully from all sides until it rebounds like india rubber after a smart blow of the fist upon the center of the mass. Lazy people are therefore never good bread makers.

5. Poor yeast will make poor bread.

6. Don't have the oven too hot, but have it hot enough, and keep the heat steady after putting the bread in.

7. When the bread is taken from the oven it should The Celebrated Latest Improved be tilted on edge upon the table, the upper part against the wall, and a course cloth, dry cloth, thrown over it until the loaves are cool. Bread keeps best in a tin box or earther crock with a cloth at bottom enwrapping the loaves
