SATURDAY, DECEMBER 21, 1901. The first break in the cabinet of

President Roosevelt occurred Tuesday, when Postmaster-General Chas. E. Smith resigned. He is succeeded by Henry C. Payne of Wisconsin. A girl in New York has sued per-

sons interested for preventing her from marrying her sweetheart. If the law continues to be applied to in cases of the heart, the old-time court cases of the heart, the old-time court and kindred ills a confidence in this cases of the cases of the heart, the old-time court case of the heart, the old-time court case of the heart, the old-time court case in a thousand is it necessary to refund the money of love on a modern basis will have to be re-established.

If the anarchists are rounded up, according to a plan now proposed, on some island where they can live by themselves and establish their own Utopia, the tale of the Kilikenny cats will be tame and mild in comparison with the result.

Mrs. Carrie Nation has found newspaper-making as unprofitable to her as talking and saloon-smashing, and she has wisely given it up. Now, if she will only abandon the dulged she may be forgiven and for-They like it. J. S. Denny and Wyc

A man who hunted for the ga leak with a lighted match tempted fate in Cleveland a day or two ago and provided employment for the surgeons. The chap who cuts "figure 8s" on thin ice and the pater familias who adorns Christmas tree with lighted candles will soon be heard

Another delicate case of conscientions scruple as to the acceptance of gifts from sources that do not commend themselves to the strictly orthodox mind has arisen. It is mention ed that the Prohibitionist women in West Virginia are very much embittered because a Methodist clergyman in that State accepted a church donation from a wealthy and liberal brewer. The only legitimate question in this case is whether the beer from which the gift proceeded was of pure malt or of inferior substitutes.

No sooner had announcement beer made that Signor Marconi had succceded in transmitting electric communication across the Atlantic Ocean without the aid of wires, than he was served with notice by a cable company that he was infringing upon its grant of exclusive privileges of ocean telegraphy in New Foundland. This action will only make the protesting company ridiculous. If Marconi has solved the problem of wireless electric communication across the waste of waters, no obstructive tactics on the part of cable line interests will stay the progress of his wonderful achievement.

With this issue we enter upon our twentieth volume. It is with much pride that we are able to return to our many friends and patrons our sincere thanks for their kind and friendly feelings toward us. It is with pride that we-with the assistance of our friends-have brought THE NEWS up to the standard, that it ranks with the best country papers. With vast improvements in our office in latest machinery, type, etc., which we contemplate putting in in the next few weeks, we expect to have one of the best equipped newspaper and job offices on the shore, and hope to be able to give our patrons their money's worth in the newspaper as well as job printing. Again thanking all our friends and patrons for their assistance, we wish you'all A MERRY CHRISTMAS and HAPPY NEW

A movement from which far reaching results are expected was inaugurated in New York City, Tuesday, at the conference of representatives of large employing interests, representatives of labor organizations, and representatives of the general public, held under the auspiecs of the Civic Federation. The object of the conference was to arrive at a mutually satisfactory method of determining all disputes between

employers and employes. It was unanimously agreed that the working details of the plan shall Dyspepsia Cure mittee of thirty-six, to be chosen in mittee of thirty-six, to be chosen in equal numbers from the ranks of organized labor, the great industrial and financial leaders, and the public not identified with either of these two interests. The committees of employers and laborers represent the heads of large concerns and prominent members of various labor or-

the markets of the world for our steel bridges, and now the Pennsyl vania Railroad prefers stone as it begins to "build for posterity." Again we see there is nothing new under the sun, and we go back to the pyramids for lessons and learn from he Roman engineers.

An Evangelist's Story.

"I suffered for years with a bronchial or lung trouble and tried various remedies but did not obtain permanent relief until I commenced One Minute Cough Cure," writes Rev. James Kirkman, evangelist of Belle River, Ill. "I have no hesitation in recommending to all sufferers from maladies of this kind." One Minute Cough Cure affords immediate relief for coughs, colds and all kinds of throat and lung troubles. For croup it is unequalled. Absolutely safe other follies in which she has in. A Good Cough Medicine.

From the Gazette, Tootcoomba, Australia I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wock-NER. This is the opinion of one of our oldest and most respected residents and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by B. E. Cockey & Co.
