

As to the Indians of Virginia we know nothing of them nor
 what place is meant by that name. But those of Virginia and those
 of the Chesapeake are very friendly to the Indians but we do not
 know any thing that that Governor who was just and good man
 will endeavour to make them Indians give you good Sa-
 tisfaction

To us you are our Friends and Friends to us. But
 those of Virginia we must all be sorry that any of your
 People should be killed and if our Friends or our Brothers
 or ourselves should do you any harm 'tis the Custom and
 Law amongst us that you should have Satisfaction made
 You the same way if we should hurt one another

But as we do not know the Virginia Indians so
 well as our dear friend and Brother the Governor of Virginia
 does, who is a good man and we are sure will do you no wrong
 we will write to him to desire him to use his best endeavours
 that these Indians may satisfy you to your Content if all
 you say to him they have done you wrong

But you must by no means do any hurt to the Chris-
 tian People of Virginia for they and we are all as one man
 Children and Subjects under one King the Great King
 George

And we shall write to our good Friend the Governor
 of Virginia to desire him to renew the ancient ^{Peace} with you that
 they and you and us who are all Friends may live as Bro-
 thers and Friends in perfect peace and that your Children
 and our Children may live as one mans Children for
 ever

The Indians Answer

They return the Governor thanks for the Friendship promised
 them which they shall never forget but be always your very
 Good Friends
