

and preservation of stray items and hybrid materials present additional problems in making up individual reels. These considerations require a continuing readjustment of the arrangement scheme to meet new situations and to allow for contingencies arising in future preparation of reels. Notes and cross references in the table of contents are being used as aids in locating and correlating materials which may logically appear to be displaced from a normal order. In time a general index of the collection will provide a more adequate reference guide.

James C. Hiatt, Benjamin R. Wilkinson, Peter L. Long and Lena H. Slevin all participated in microfilming Class D. Proper reference citation to be made by users of the microfilms will be RSUS., followed by the reel symbol and number and the unit number.
