

And the Court of this house is that we should
can be of the Court as well before as by
this house in the papers sent in instant.

John Gittings

To the hono. the House of Assembly

The humble petⁿ of Robt. Dunn

Sheweth

That about 12 years since John Good Surveyor
a parcel of Land (near to the Meeting place
to the City of York on the Eastern shore of
Robert Clarke being then Surveyor. The part
of which Land was delivered to Philips Calver
Esq. to the end he might have a patent for
that Land wth Court. It seems through the
unfortunate disturbance of the Province is left
that the J^r Good dying one of the J^r Morgan
 hath since surveyed the same Land & obtained a
patent for the same for out to the orphan
of the J^r Good of his just right

Wherefore he humbly prays that the J^r
Morgan's patent may be null & void & the
Orphan of the J^r Good may have patent
and enjoy the J^r Land according to his
Survey. Thus he sheweth prayer

There appears nothing upon Record which
may Evidence the Claim of the petⁿ to the
Land this house think it necessary to grant
a patent under the seal upon bare affid. &
that notwithstanding the petⁿ may have the
benefit of the Right upon which the Land
was taken up,

John Gittings

The house adjourned
till morning

Wednesday 21 Present as yesterday
