Mr. W. Stevenson brings in and delivers to Mr. Speaker the following report:

THE committee appointed to enquire into and report the quantity of flour, corn, and other provisions, procured by the commissioners in virtue of the act for the immediate supply of flour and other provisions for the army, beg leave to report, That at the last session of assembly it was ordered, that all the commissioners should, on or before the first day of July next, make their return of all flour and grain procured by them, but that no returns have been made in consequence thereof.

Your committee have therefore carefully examined the returns heretofore made, and find, that 4500 $\frac{1}{2}$ barrels of flour, 52,593 $\frac{1}{2}$ bushels of wheat, 3849 bushels of rye, and 48,797 bushels of Indian corn, have been procured by the commissioners (as will appear by the list delivered in) exclusive of what may have been taken by Richard Dallam and the other commissioners for Harford county; the accounts of the former being so confused and irregular, and the others having made no return, it is out of the power of the committee to ascertain the quantity.

All which is submitted to the consideration of the honourable house.

Signed by order,

GEO. RANKEN, clk.
