"Over 18 feet long and more than six feet wide—the neighbors are simply green."

"And the way it's furnished—wall-to-wall carpeting, saddle-grain vinyl on the seats."

"The paneling? Dreamy! Rich, deep, laminated walnut grain."

"Who's the builder? Dodge, of course."

WHAT HAPPENS NEXT?

Will a fuse blow? It might be better if one did. Too often, another appliance added to a loaded circuit causes low voltage. Then appliances work slowly, do their jobs poorly, and can even be damaged.

Up-to-date wiring, on the other hand, gives you all the outlets and circuits you need for fast, good service. With up-to-date wiring, you have full Housepower, for modern, convenient Electric Living.
