Exemptions Not to Count.—No Deferred Classification. To Solve Labor Problems. -- Gambler's First On the List.

Every man of draft age must work or fight after July 1st, under a drastic amendment to the selective service regulations announced

Tuesday last by Provost Marshal General Crowder. Deferred ciassifications, granted on account of dependents, will be disregarded entirely in applying the rule. A man may be at the bottom of Class 1 or even in Class 4, but if he falls within the regulation and refuses to take useful employment he will be given a new num-

ber in Class 1 that will send him into military service forthwith Local boards are authorized to use discretion only where they find that enforced change of employment would result in disproportionate hardship upon his dependents

To Soive Labor Problems.

It had been known for some time that some form of "work or fight" plan had been submitted to the President, but there had been no intimation that it was so far-reaching in scope. Both the military authorities and Department of Labor officials believe that it will go a long way toward solving the labor problem for farmers, shipbuilders and munition makers, and will end, for the present, at least, talk of conscription of labor

The statement of the Provost Marshal General's office follows, in

"This regulation provides that after July 1st any registrant who is found by a local board to be a habitual idier, or not engaged in some useful occupation, shall be summoned before the board, given a chance to explain and, in the absence of a satisfactory explanation, be inducted into the military service of the United States

"Any local board will be authorized to take action, whether it has original jurisdiction of the registrant or not, in other words, any man loafing around a pool room in Baltimore may be held to answer to a Baltimore board, even though he may have registered in Chicago and lived there most of his life

Gambiers First On List.

"The regulations which apply to idle registrants will be deemed to apply also to gamblers of all descriptions and employees and attendants of bucket shops and race tracks, fortune tellers, clairvoyants, palmists and the like, who, for the purpose of the regulations, shall be considered as idlers

Other Occupations. The new regulation will also affect the following classes. (a) Persons engaged in the serving of food and drink, or either in

public places including hotels and social clubs (b) Passenger elevator operators and attendants, doormen, footmen, and other attendants of clubs, hotels, stores, apartment houses, office

buildings and bath houses (c) Persons including ushers and other attendants engaged and occupied in and in connection with games, sports and amusements, excepting actual performers in legitimate concerts, operas, or theatrical

(b) Persons employed in domestic service

(e) Sales clerks and other clerks employed in stores and other 6. mercantile establishments

Men who are engaged as above or who are idlers will not be permitted to seek relief because of the fact that they have drawn a late \sigma order number or because they have been placed in Class 2, 3 or 4 on the grounds of dependency. The fact that he is not employed will outweigh both the above conditions
