RE: Road names for Rt. 228
Relocation

Dear Mr. Hess,

In conjunction with our conversation this date, I would like to confirm the road names with the assigned State Highway Routes so that signs will be less confusing for the public.

The following are the names that have been approved by the Commissioners and are currently in use:

1. Rt. 228
Berry Road - Currently from Rt. 301 (Crain Highway) to Rt. 227 (Marshall Corner Road)
2. Rt. 227
Marshall Corner Road - Currently from Rt. 301 (Crain Highway) to Rt. 225 (Hawthorne Road)
3. Old Rt. 228
Bensville Road - Once construction is completed will be from Rt. 228 (Berry Road) to Rt. 227 (Marshall Corner Road).

I hope the above is helpful, and should you need any additional assistance, please do not hesitate to contact me.

Sincerely,

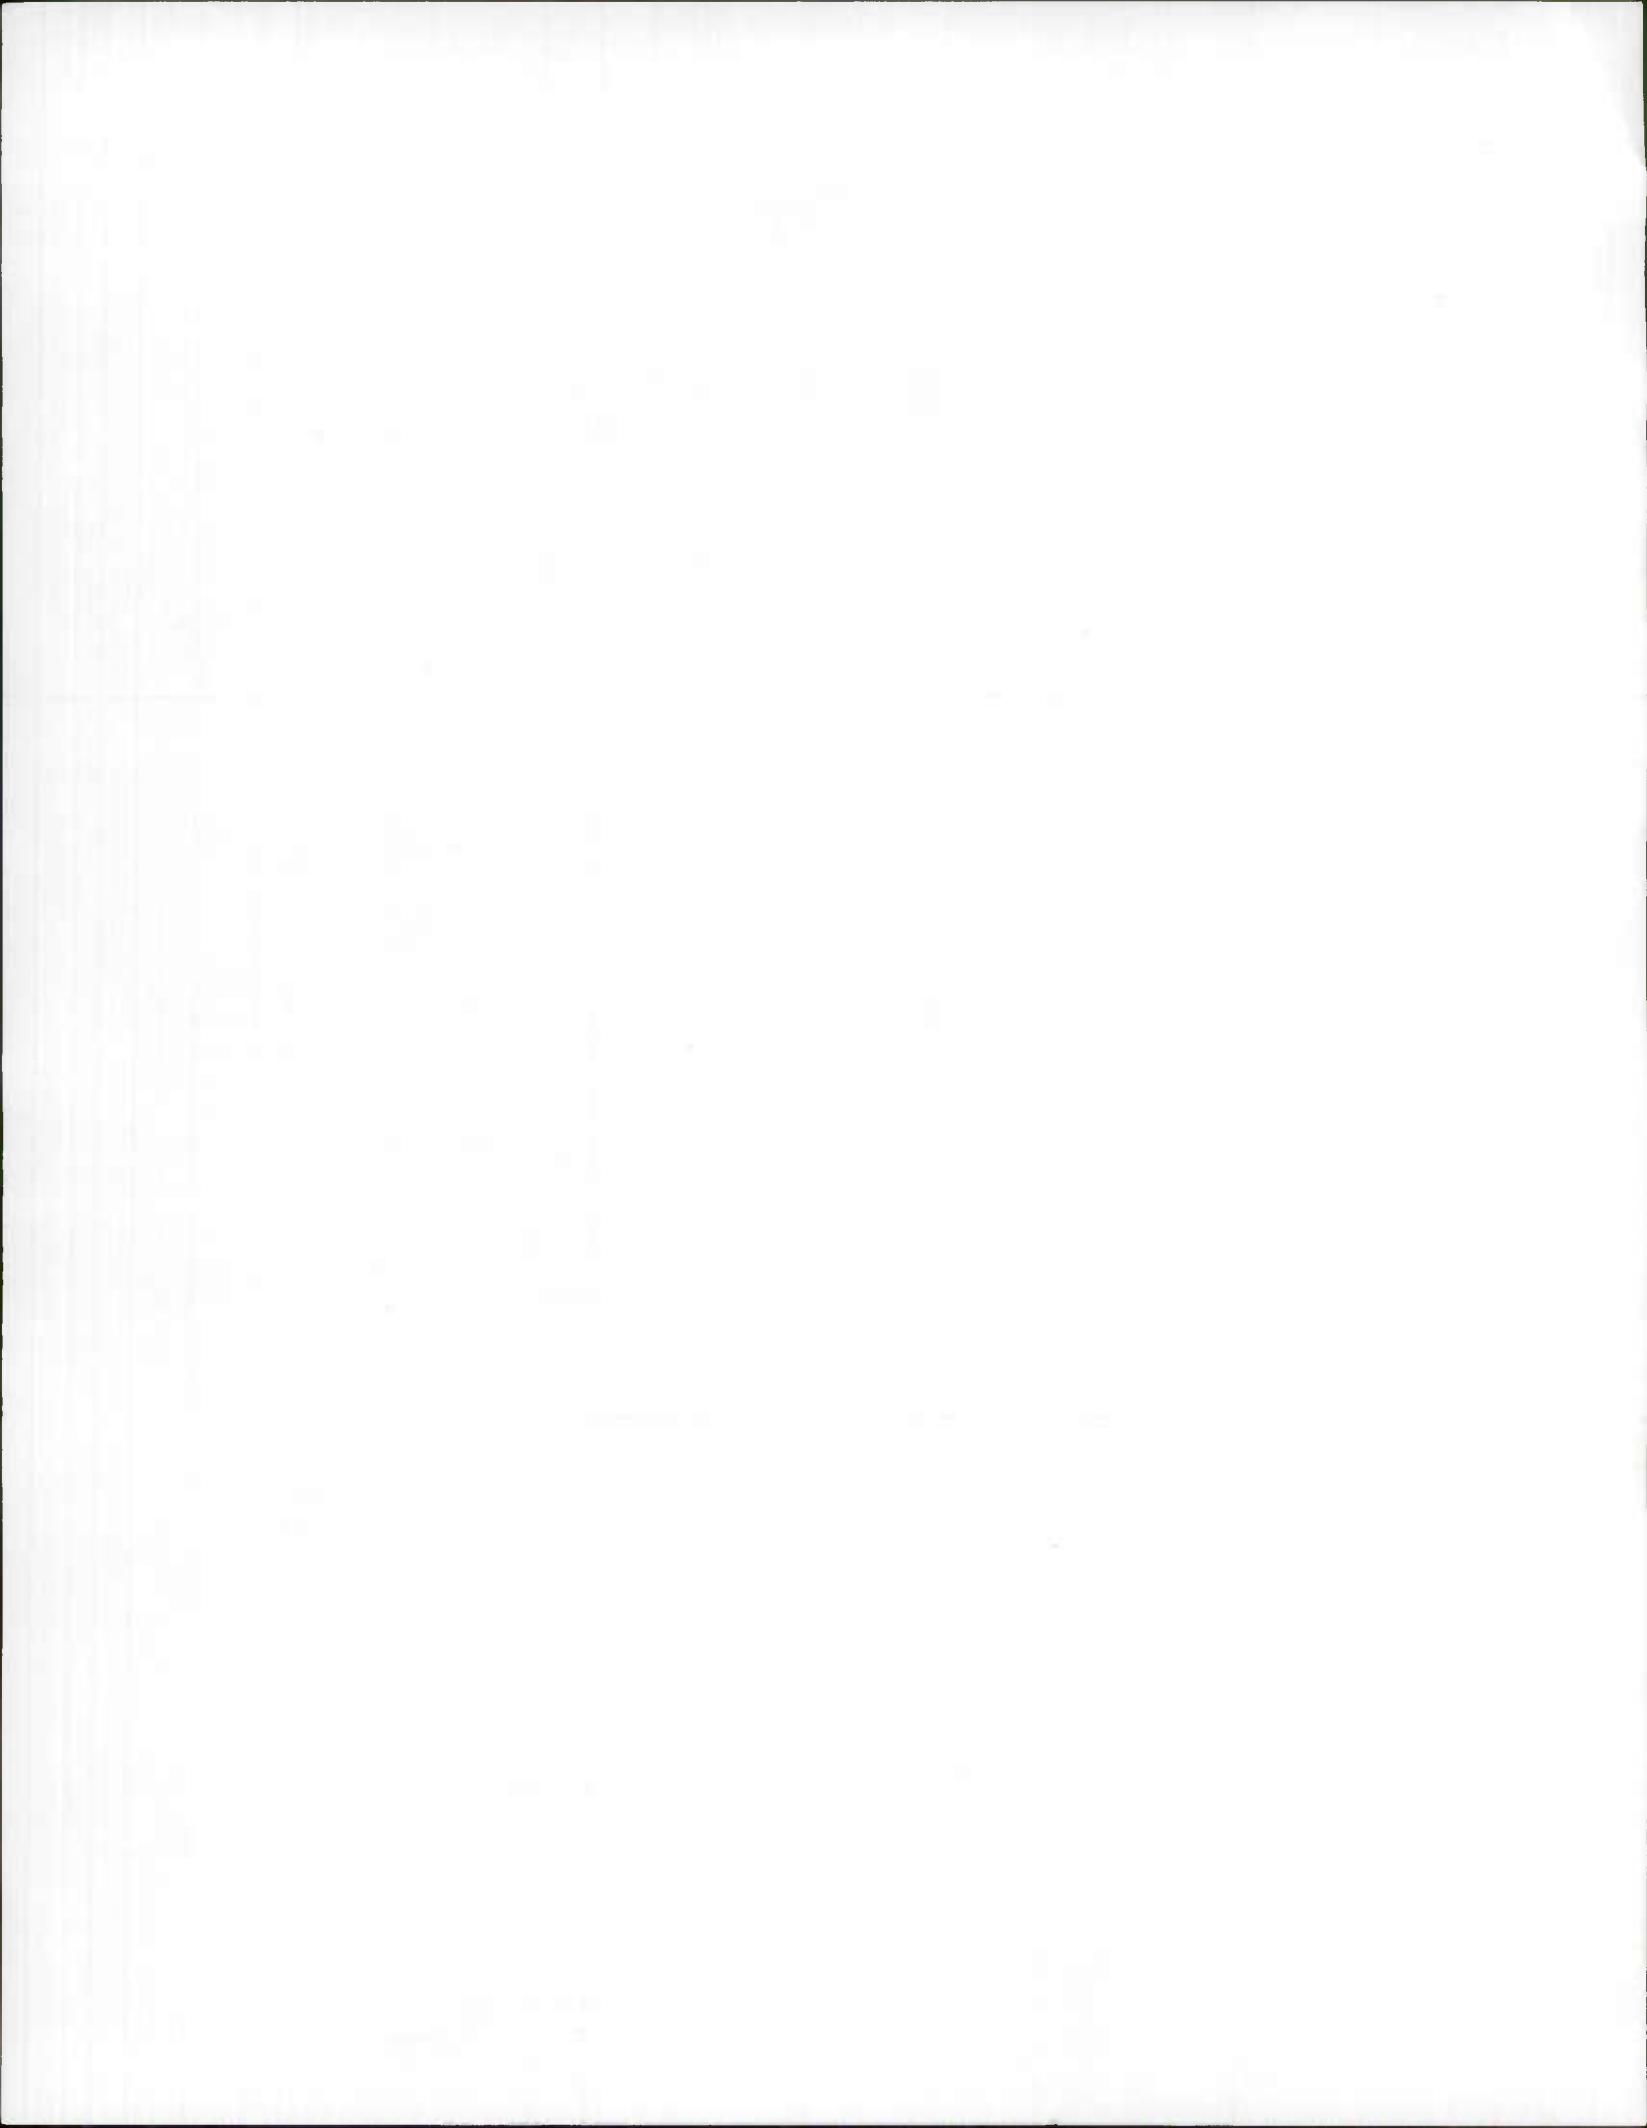

Sheila K. Boswell
911 Enhancement Coordinator

Re: State Road Names - request for information

Dear Ms. Farndon:

Please find enclosed the information requested in your memorandum of September 17, 1993. I apologize for not getting this information to you earlier but I was unaware of your memorandum to the PSAP Directors.

Sheila Boswell, 911 Enhancement Coordinator, has been in contact with Edward Paulis of State Highway Administration (SHA) and has provided him a list of Charles County roads/intersections that are considered a priority for street sign installation.

If I can be of any further assistance please feel free to contact me.

Your assistance is always appreciated. Thank you.

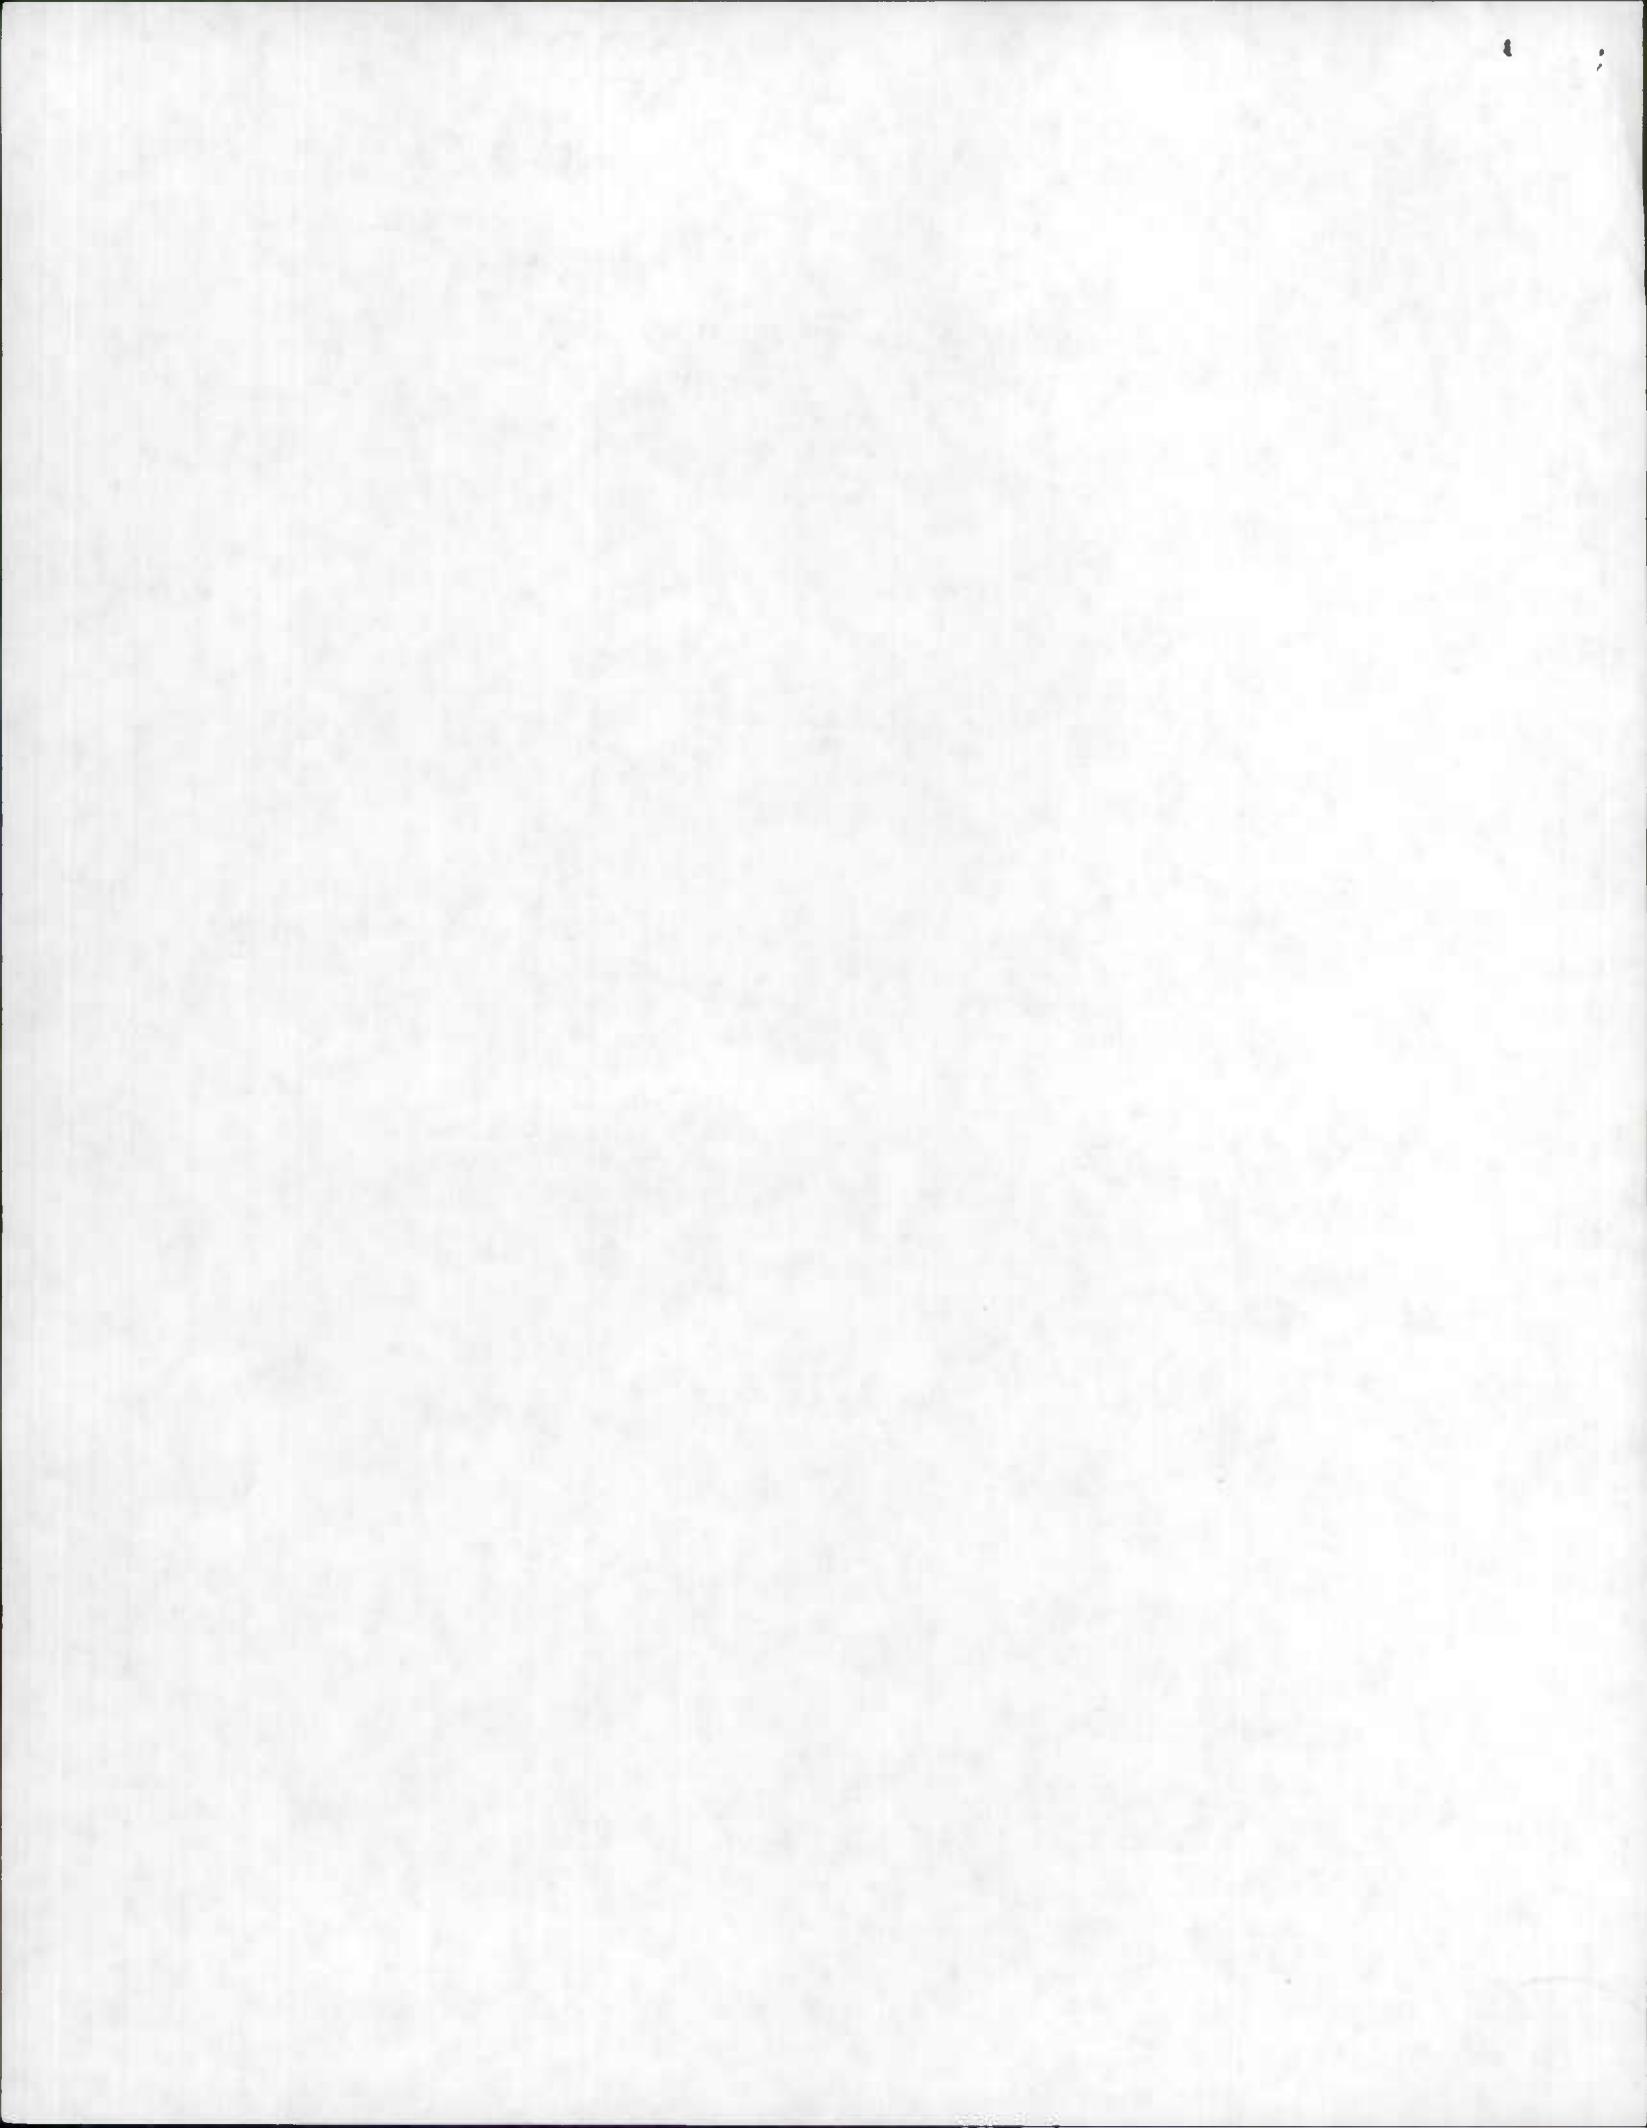

Very truly,

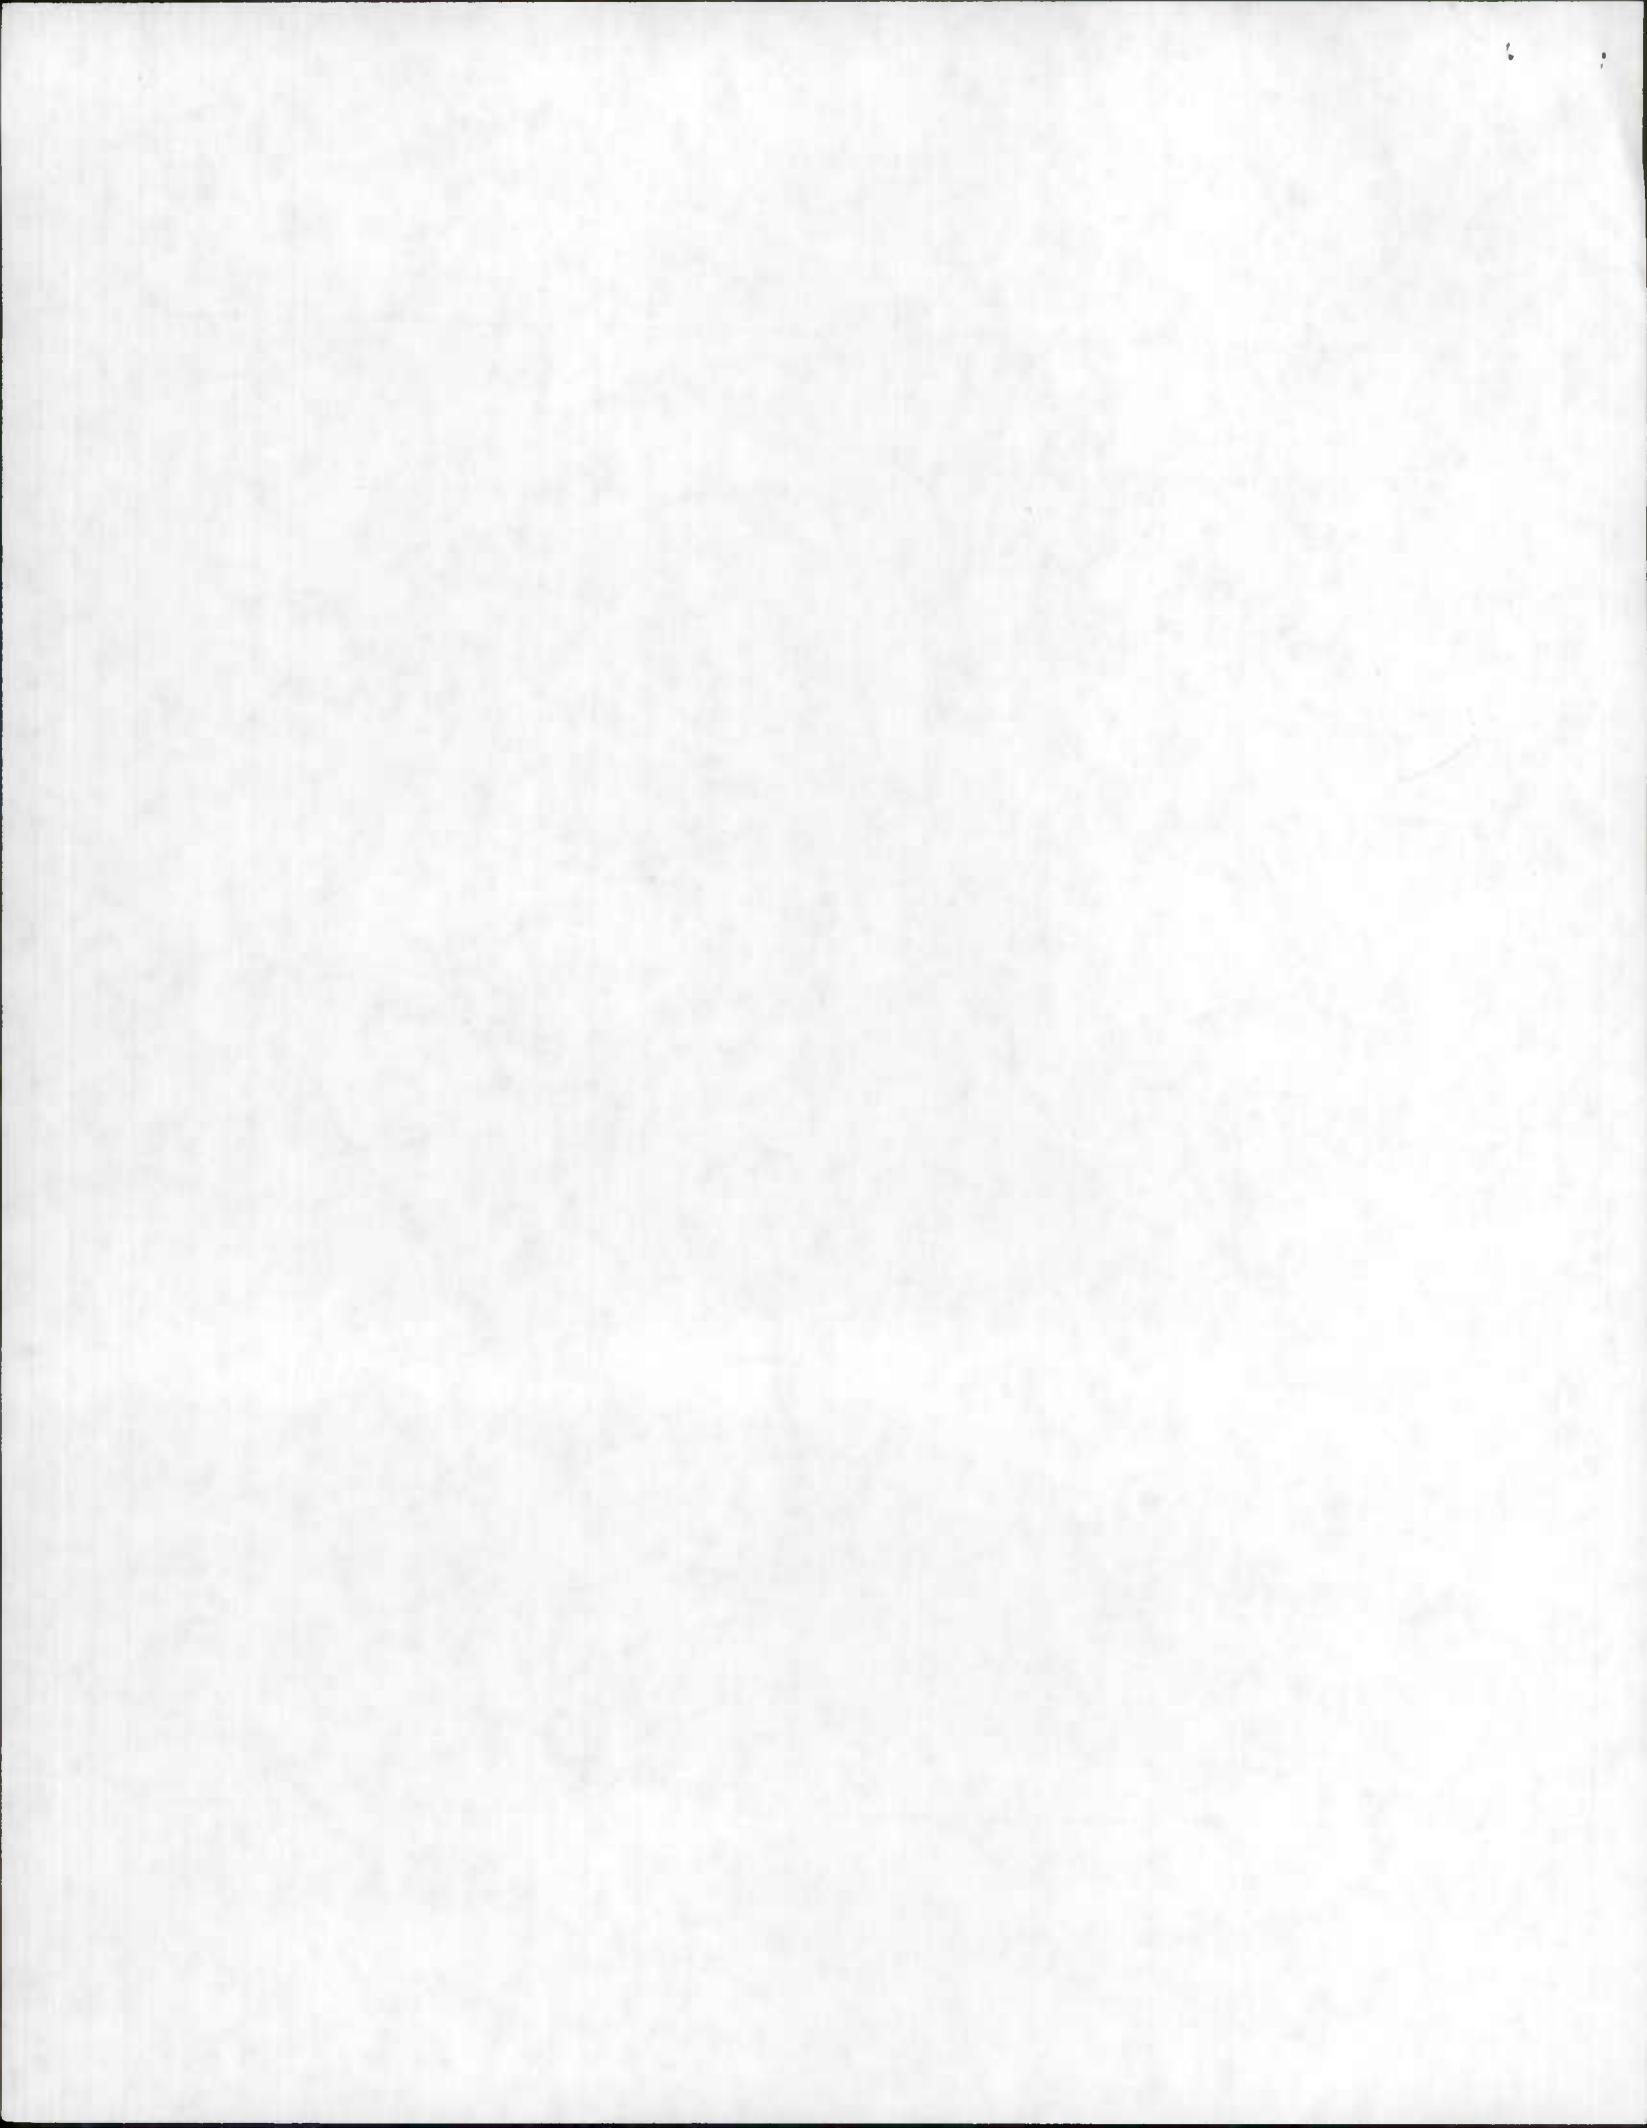

Paul L. Wright
Assistant County Administrator

SHA will provide new highway signs

By SHANE ARTIM
Independent Staff Writer

State Highway Administration officials have pledged to post new road signs at critical locations in the county by the end of September, as part of the countywide re-addressing for enhanced 911 dispatching of police, fire and emergency services.

As far as installing new signs at less critical points in the county, though, state highway officials say those locations will have to wait until development of a statewide policy this fall.

The SHA's plan was detailed to

Charles County officials in a letter from SHA Administrator Hal Kassoff last week.

One aspect of the pending SHA policy, said administration spokesman John Healy, will involve placing signs before an intersection to notify motorists of the names of the upcoming roads, rather than just those with state route numbers.

"We have a pretty large list of signs and all have to be hand-lettered," added Healy, as the other reason for the delay in the policy.

County officials, though, are providing the SHA with some input regarding where new road signs are of critical importance and

See Signs, A-11

Signs

Cont'd from A-1

should be installed first.

"The list (of critical signs) was reduced," said Assistant County Administrator Paul Wright of the "critical" list the county forwarded to the highway administration.

The list of signs to be installed first nears 90 road signs in the county along intersections of state-maintained roads and major county roads.

The list signs along state roads demoted to less-critical importance numbers about 75, and will be installed by the SHA when it develops its statewide policy.

According to Sheila Boswell, the county 911 enhancement coordinator, county crews are installing new county road signs roughly three weeks after residents of an area that has been readdressed have been informed. In Bel Alton

and Cobb Island, Boswell said, new road signs where the names have changed have been installed.

Boswell noted, for example, that under the new 911 addressing, Route 6 west of U.S. 301 in La Plata will be changed to Port Tobacco Road. East of U.S. 301, Route 6 in La Plata will be changed to Charles Street.

The county also installs new road signs on private drives with more than three homes that have been addressed in the new enhanced system.

Two of the critical sign changes by the end of September will be changing the signs at the intersection of Route 210 and Route 225 to read the intersection of Indian Head Highway (Route 210) and Hawthorne Road (Route 225).

Route 224 will be changed to Livingston Road.

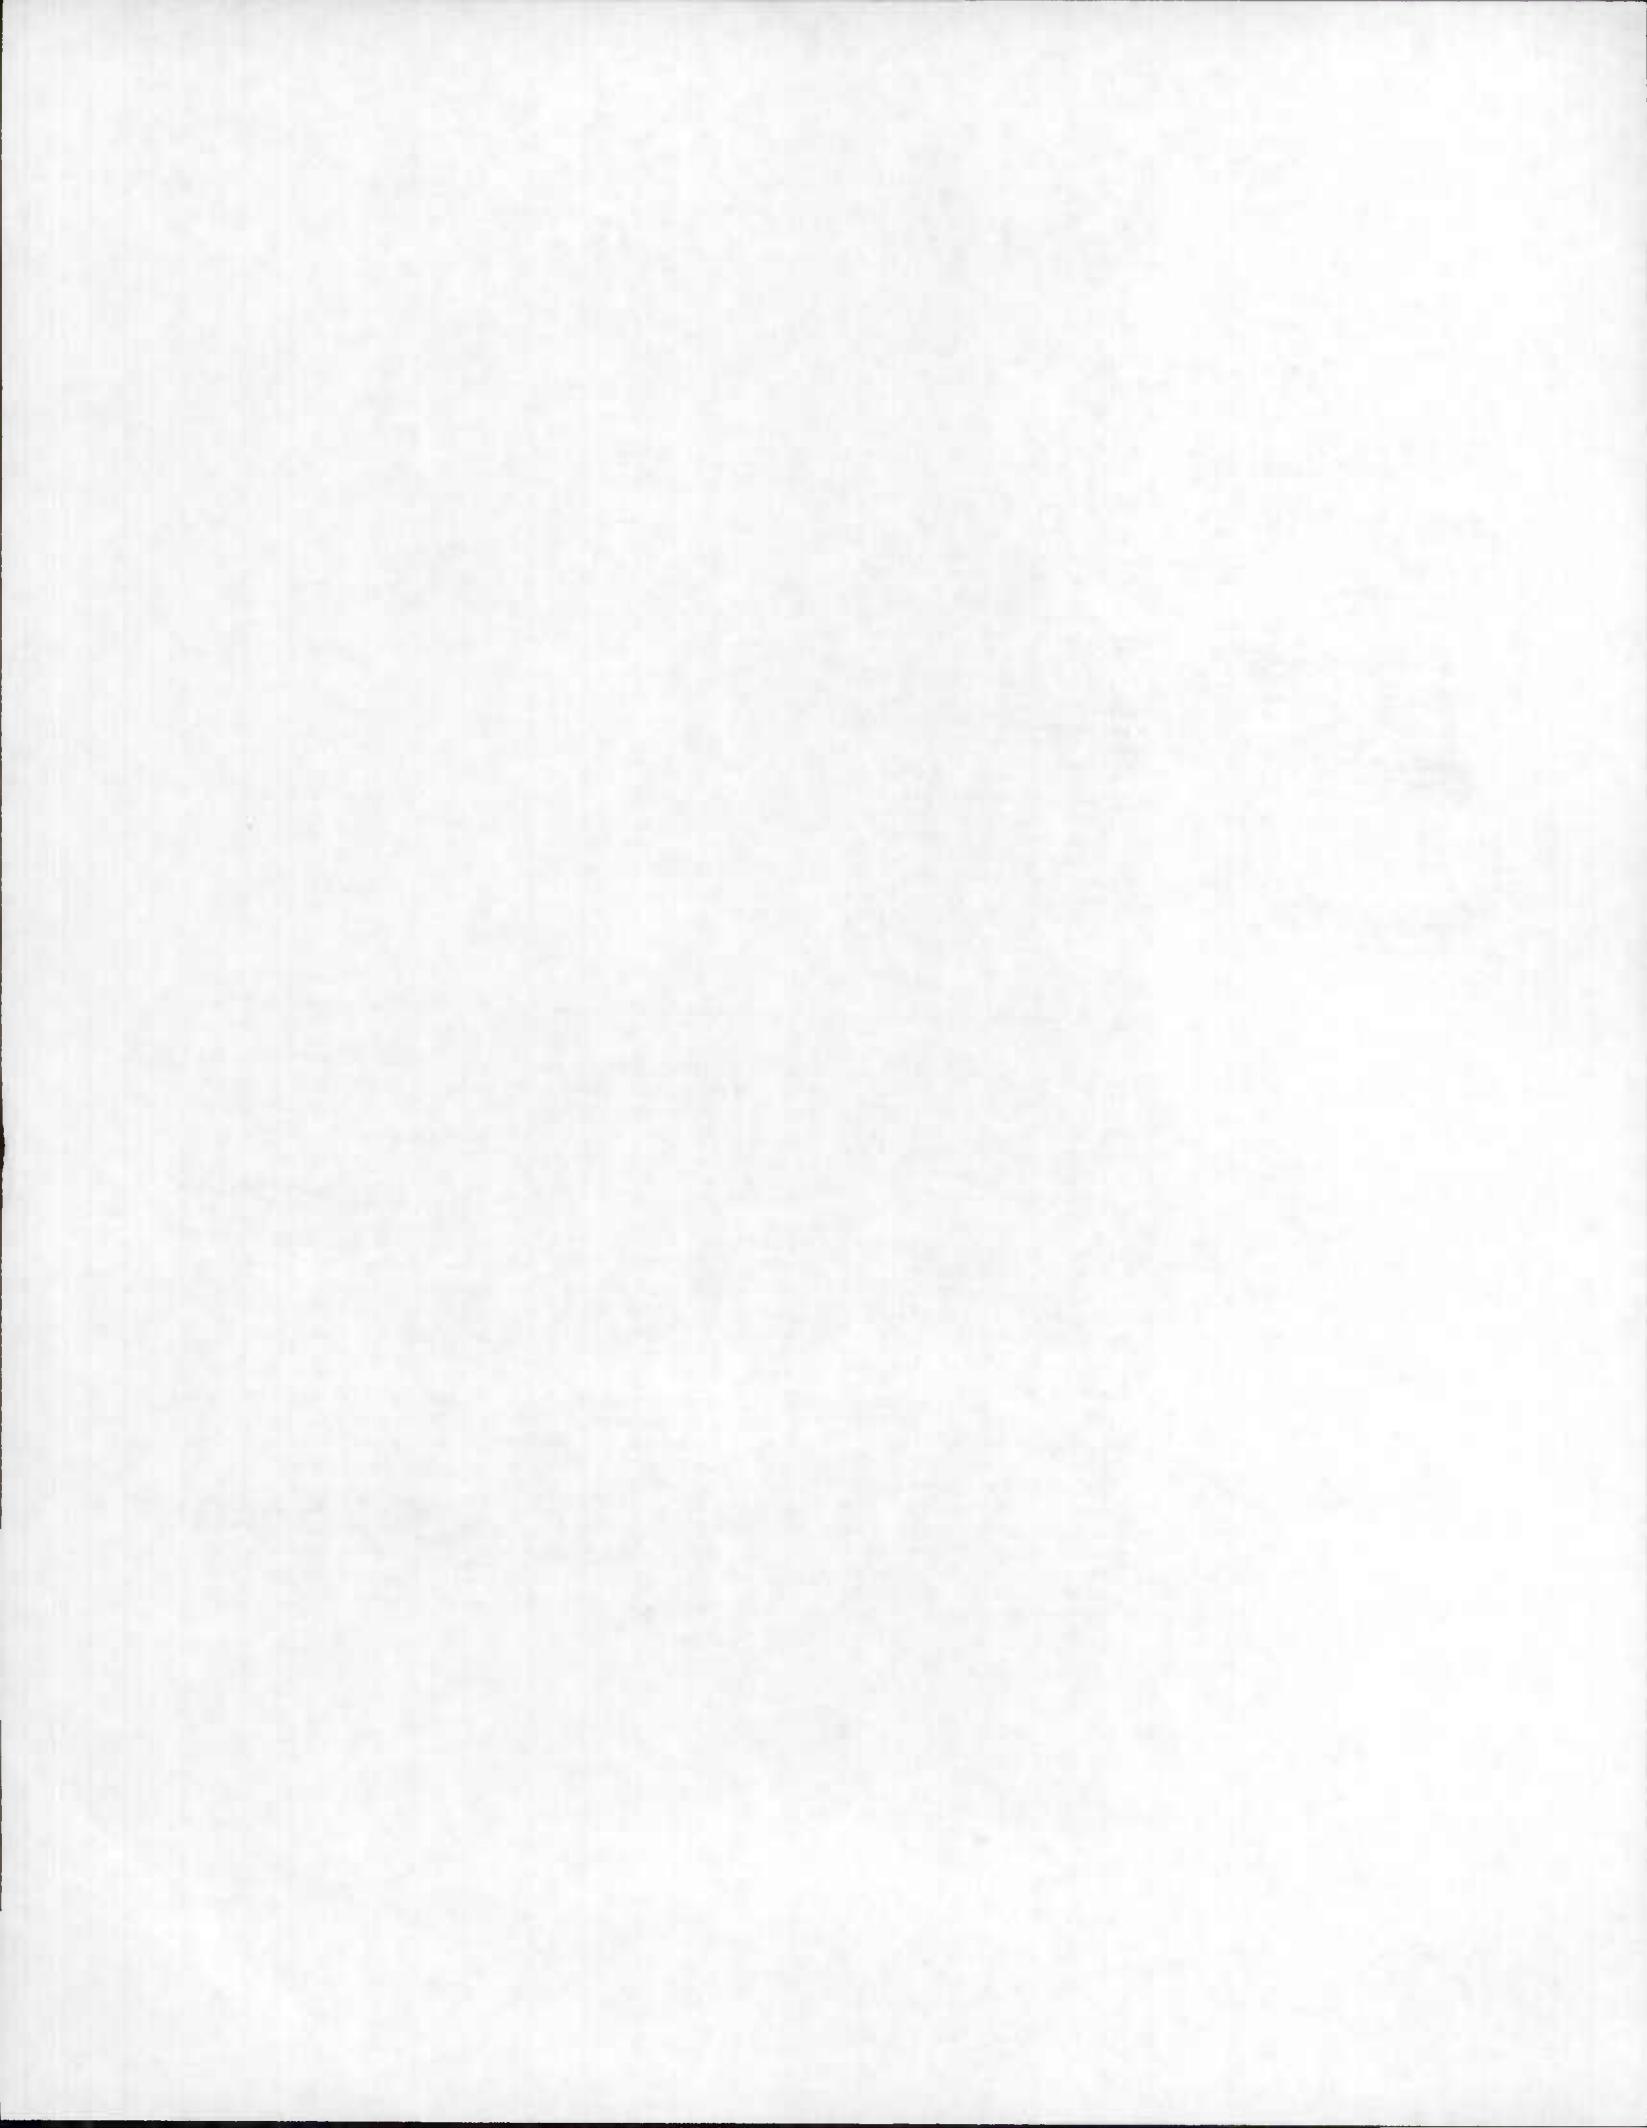

At intersections along Port To-

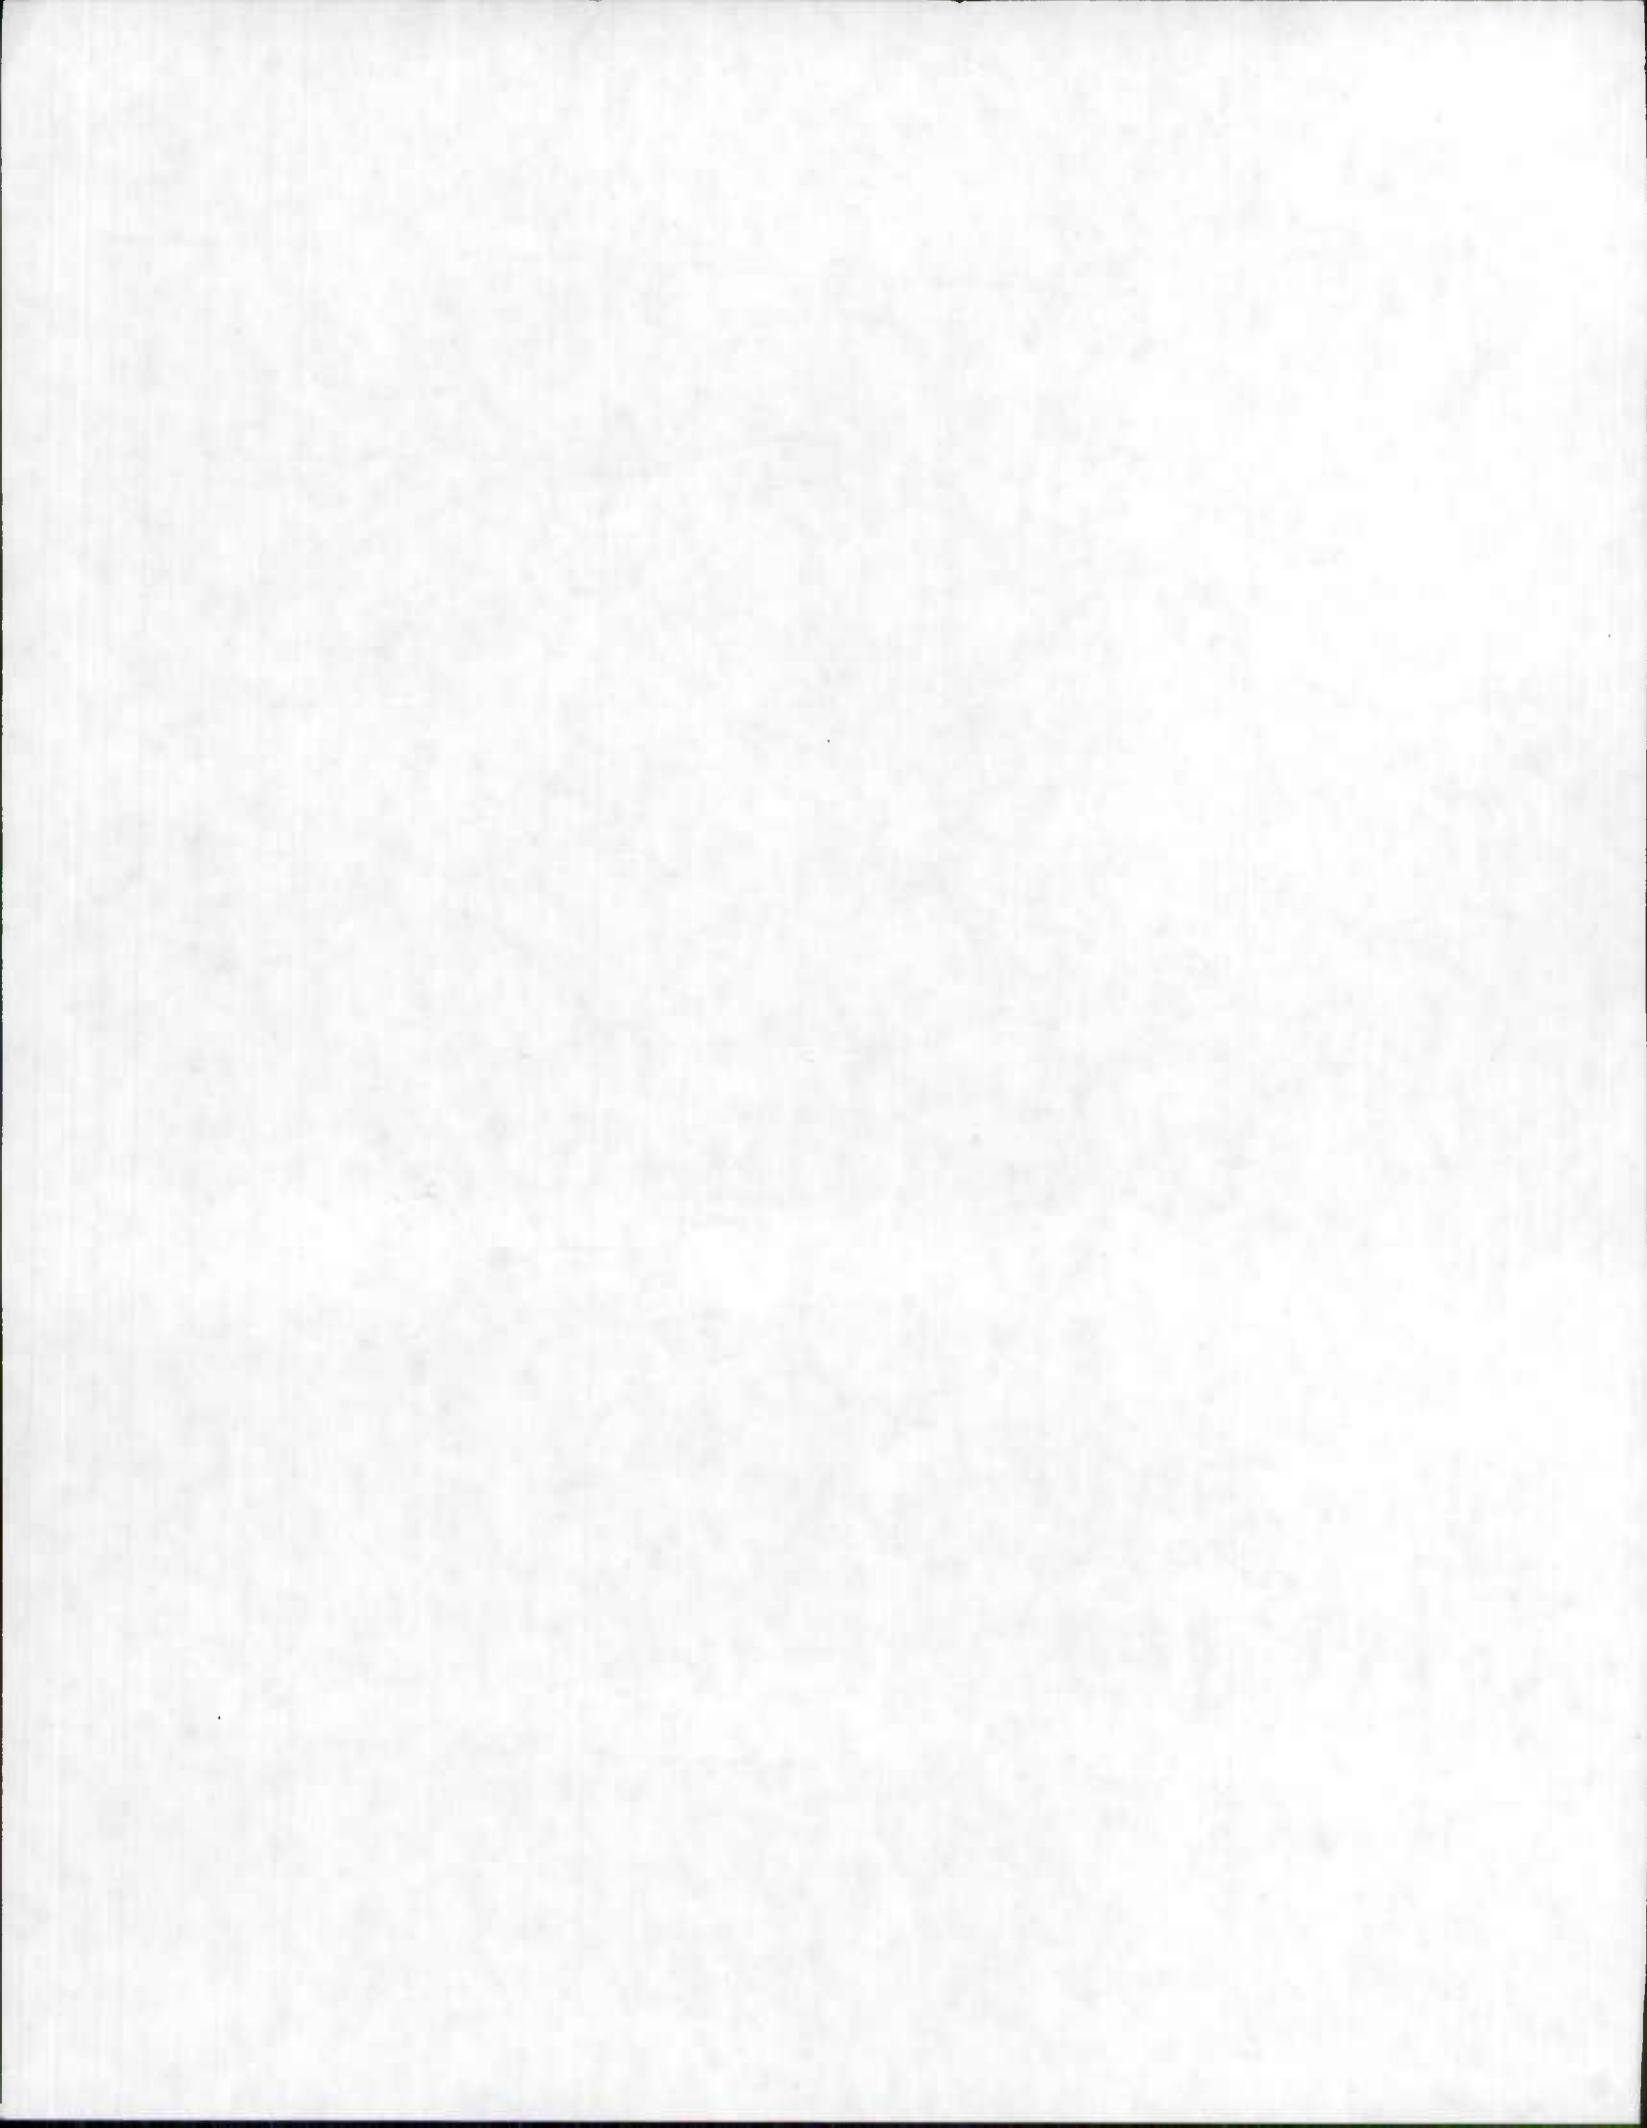

bacco Road (Route 6), for instance, Route 425 will be named Mason Springs and Ironsides Road and Route 344 will become Gilroy Road.

Later, with the development of the SHA policy, for example, new road signs will be placed along Port Tobacco Road (Route 6) at Quailwood Parkway, Valley Road, Chapel Point Road, Rose Hill Road and Poseytown Road.

Along Indian Head Highway (Route 210), for example, new road signs will be placed at the intersections at Chapmans Landing Road and Glymont Road.

The county is required to complete its 911 enhanced addressing by 1995. So far, county officials say, roughly 40 percent of the county is complete.
