DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This small, almost square, one-story frame building is three bays wide by two bays deep and faces east. It is sheathed in board siding, with tarpaper covering its gable roof, which has a pronounced kick at the eaves. The entrance is located in the central bay of the east facade: the door has a four-pane window and is surmounted by a semicircular three-light transom. Engaged columns at either side of the entrance give the impression of supporting the small cross-gable hood which projects over the doorway. 6/1 sash windows occupy the flanking bays.

The south facade has a doorway in the west bay, a 6/1 window in the east, and a louvered attic ventilator at the peak of the gable. A shed addition extends to the rear.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This building is significant in its combination of a variety of design features reminiscent of the Colonial Revival. Its form and size seem appropriate to a small detached office building, such as might be associated with a motor court, or an early gas station.
