405 MAIN STREET

405 Main Street is a symmetrical frame house, two storeys in height, five bays in length with a gable centered in the west or street front above the central bay and half of each flanking bay. The interior of this house was not accessible for inspection but the single-flue chimneys which rise internally at each end the 4/4 windows with louvred blinds suggest 1865-1875 as the date of construction. An arched window, with louvres, is in the west gable and the principal entrance, with transom, is in the center bay of the first storey. A one storey porch extends across the west or street front, its shed roof supported by turned columns with elaborate jig-sawn brackets.

STATEMENT OF SIGNIFICANCE

405 MAIN STREET

*Elizabeth Choate is entitled to a life estate in the property... which she has

The land on which this house stands was originally part of Brotherly Love and was contained in a 16 1/4 acre tract sold by John Reister, Jr. to Thomas Moale in 1812 (WG 118/43-95). The land passed through several hands until it came into the hands of Colomon Choate. Choate, a descendent of an early Baltimore County family was a merchant and a framer. He owned extensive real estate in this part of Reisters-town (Marks op. cit., p.69). When he died in 1861, his holdings were willed to his wife and two daughters. (B.C.Wills ILR 2/137) In September 1963, his wife, Elizabeth, and eldest daughter, Mary Ann Owings (m. Philip Reister Owings) devised the land under consideration here to a younger daughter, Maria Berryman (m. James Berryman)(38/434)

he deed read in part; "The parties agreed to make division of the real estate of Solomon Choate... and to execute to each other deeds for their respective portions of said properties... and whereas the above mentioned*agreed to release and convey for sum of \$50 to Maria Berryman quarterly... during her natural life..." Elizabeth went to live with the Berrymans who were living at #410 Main Street.(Marks op.cit p.69)

It is not clear if any building was yet on the land which was about 12 acres. In 1867, Maria Berryman sold a 1/2 acre parcel on the land to Alverda Gore (54/409) This is the parcel where the house now stands. The 1877 Atlas (Hopkins) designates the site as belonging to a Dr. Gore and it appears he had an office there. Architectual details seem to place the house's construction between 1865-1975, so it would appear that the house was built by Miss Gore or Dr. Gore. Just who Alverda Gore was and what her relationship was to Dr. Gore has not been established. The Dr. Gore was probably Dr. Albert Philip Gore (1843-1923) whose mother, Dorothy Beckley Gore was instrumental in giving land to Asbury Methodist Church(q.v.). Dr. Gore was a dentist. The 1898 Atlas (Bromley) also shows the site belonged to Alberta (sic) Gore.

In 1913 Alverda Gore (unmarried) sold off part of the land purchased in 1867 from the Berrymans to Austin Stoneburner.(422/228) Stoneburner is shown with over 7 acres in the 1915 Bromley Atlas-

In 1921 Lola A.Stoneburner, widow of Austin C. sold the land to Robert Beveridge and Rosa, his wife. (542/194) Rosa Beveridge had been married before to H. Lewis Gies. H.L.Gies had owned the lot adjoining one under discussion to the south since 1870. He had a Boot and Shoe Manufacturing establishment there. When he died, in 1912, the children deeded this land (next to #405) to their mother, Rosa (401/212) When she remarried it was to Robert Bevridge and eventually they were able to buy the house and lot next door(#405) in 1921; The two adjoining parcels approx. 1/2 acre are joined and have remained that way to the present.(Shown on 1915 Atlas)

In 1950 Rosa L.Bevridge sold the parcel to Marion B. Gore (1830/190)

In 1953, the Gores sold to Jesse McAnally and Elma, his wife (2385/56)

405 MAIN STREET

Significance cont.

Sheet #2

In 1974 Jesse F. McAnally devised the property to his son in his will. The son sold the property a short time later to its present owner.

405 Main Street is a large traditional house, its front gable and single flue chimneys indicating its date in the second half of the nineteenth century. Externally it appears to be little altered.
