DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. 23(24) marks Mason and Dixon's 23rd horizontal mile west of the initial stone at the northeast corner of Maryland, the beginning point of their West Line. It is an original milestone of 1766, in fairly good condition, unaltered, and ^{firmly set} at its original site, preliminarily surveyed in 1765.

The area here is a wooded bluff, overlooking the Susquehanna River, about 150' below. The site is within Election District VIII of Cecil County, Fulton Township of Lancaster County; about 1.7 miles southwest from the scattered settlement of Pleasant Grove and the main road (PA LR-36007); about 40' due west of Judge Mueller's summer cottage, in a deciduous woods at the edge of a footpath overlooking the River. It cannot be seen from Cook's Landing Road, nor easily until closeby, and is protected by this remoteness.

The monument was originally cut to stand about 3' above ground, but was reset during the course of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary to stand about 1½', as it does at the present time. Identical to the other original Mason and Dixon West Line milestones, No. 23(24) is an embellished, squared oolitic limestone post with a low pyramidal top, and was quarried and carved in England. It measures about 12" square; the P on the north side facing Pennsylvania is clear and intact, but the M on the south side facing Maryland has been chipped, as have all edges and top corners. Most fluting, ^{circle panels} and margins remain clear; and the top planes show little weathering.

(see Thematic Group National Register nomination form for a description of the original Mason and Dixon monuments and the 1900-03 Resurvey method of resetting them)

SURVEYORS

STATEMENT OF SIGNIFICANCE

There are 24 original crownstones and 111 milestones of 1766-67 still standing along Mason and Dixon's West Line, set at mile intervals through the 132nd mile, and including 12 added in 1902 beyond that point (3 crownstones, 9 milestones) set at irregular intervals. Milestone No. 23(24) is primarily significant as one of this original series, which represents a boundary of national and state importance, not only for its symbolism since Civil War times, but also for Mason and Dixon's innovative survey methods and the settlement of longstanding provincial boundary disputes a century earlier. Individually, and as one of 20 (of the original 24) monuments remaining within the present Cecil/Chester and Lancaster county boundary, it is also significant locally as one of the diminishing number of objects and structures visually identifiable with our colonial and Civil War heritage.
