

Thompson-Parkinson House
CE-1060
Bethel
Private

C. 1860

The widening of the C & D Canal and the subsequent removal of the Pivot Bridge have reduced the canal crossing community of Bethel (also known as Pivot Bridge) to the Methodist Church Cemetery and the Thompson-Parkinson House. The cemetery retains its intricate cast iron entrance gate. The Thompson-Parkinson houses is a traditional three story three bay by one room center hall frame house with ell kitchen wing.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- A. Bethel Cemetery
- B. Thompson - Parkinson House

The road from Back Creek to Elkton along the Maryland - Delaware used to cross the Chesapeake and Delaware Canal at a small community called Pivot Bridge. (Lake, Griffing and Stevenson). The bridge undoubtedly rotated on a central support when ships passed by. In 1877 the atlas recorded a number of structures on both sides of the canal. Bethel Methodist Church was on the south side and contributed to the small grouping of residences. When the canal was widened most of the building were removed including Bethel Church and the Parsonage.

The only evidence of this community's existence is the church cemetery and the Parkinson-Thompson House c. 1860. The frame house has been extremely altered on the east (main) elevation with the addition of four picture windows in the four front rooms on the two floors. This was undoubtedly done to take advantage of the canal view. The three story three bay by one room frame rests on a full fieldstone foundation and is sheathed with aluminum siding. A tin hip roof covers the structure.

A central entrance opens into a central hall. The four panel door is flanked by three light sidelights with a molded panel below. A seven light transom is found overhead. One 6/6 sash remains on the first floor and three 3/3 sash lights illuminate the third floor. Each surround has a simple bead with shutter pintles. The shutters are gone.

The south end has two 6/6 sash on each floor and two 3/3 sash windows that flank the exterior end chimney stack.

The west end is partially covered by a two story two bay by one room flounder (half gable) which serves as a kitchen.

The interior has been partially remodeled. The hall entrances into the parlors were widened and multi-pane glass doors added. The mid 19th century mantels the south room mantel is marble with beveled pilasters that support a plain frieze and thick shelf.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

What remains at this once active crossing of the C & D Canal is the bare bones of a small church community. The cemetery with its numerous tombstones and the Thompson-Parkinson House which has seen disfiguring renovations are all that remain.
