CARR- 212 Lewis Myers House
3352 Uniontown Road

John Ferguson bought **3352 Uniontown Road** from the heirs of Earhart Cover in 1816 for \$600. Again, the price indicates that there were improvements on the lot at that time. The property remained in the Ferguson family until 1900. John E. Heck, a Uniontown cigarmaker, lived here during the early twentieth century. The house now standing at 3352 Uniontown Road was probably built in 1917 by Lewis Myers. It has the popular two-section windows as well as a sash arrangement of three vertical panes over a single pane that was considered fashionable at the time. The hipped roof dormer contains three small windows with the same design of sash. The first story uses sidelights on the door and window for ornamental effect. Of course, the full-length front porch that wraps around one corner is a major feature of houses of this period. This house is an excellent example of early twentieth century construction. Increased commerce and improved means of transportation led to national styles that superseded earlier regional architectural characteristics. This house demonstrates how the national styles were represented in rural areas such as Uniontown. Another feature in this house that is found frequently in this rural area is painted initials and dates on boards in the attic. When painters would finish painting the exterior of a house or barn, they would leave a record of it in the rafters. The earliest date in this house is 1919, which is consistent with the 1917 date of construction.
