

F-1-39
Edward Snouffer House
Buckeystown
Private

1907

The Edward Snouffer House was built in 1907 by Newton Schaeffer, the local builder, soon after Edward Snouffer purchased the property from John Delashmutt for \$500.00 in the same year.

According to local oral history, the house was constructed of Buckeystown brick burnt at the local C. F. Thomas and Son Brickyards. The stone for the foundation was quarried at the local Otho Keller quarries.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Ed Snouffer House is a two and one-half story hip roofed brick house laid in common bond which faces east from the west side of Route 85 in Buckeystown.

The principal facade is three bays wide. The main entrance, an original paneled door is located in the third bay. Occupying the remaining bays on the first and second level are 1/1 windows flanked by louvered shutters.

Flat brick arches are located over the windows on the first level.

A small Palladian window flanked by narrow 1/1 windows is centered in the front gable.

The most prominent architectural feature of the building is a two story three bay wide turret with spired roof which rises from the southeast corner of the building.

A one story frame columned porch with plain railing and dentiled cornice extends across the front and south side of the building.

The main block of the building is three bays deep. A two story frame addition with open porch has been added to the rear of the building.

The house is constructed on a low brick foundation. The entire building is constructed of bricks fired at the Thomas Brickworks (F-1-62) across the street.

The house is covered by a slate hipped roof with front center gable. It is attached by a boxed cornice with dentiled frieze which extends across the base of the front gable.
