DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Ed Keller House is a two and one-half story cross gable frame residence which faces west from the east side of Route 85 in Buckeystown.

The principal facade is five bays wide. The main entrance, an original four panel door with arched entrance which accommodates a two light transom with circular moldings and three paned side lights is located in the third bay.

Occupying the remaining bays on the first and second level are 2/2 windows inset in arched openings with original louvered shutters. A simple one story frame porch with turned columns extends across the front of the residence between the first and fifth bays.

A Victorian Gothic window is located in the center gable. An original two story frame addition is located to the immediate rear of the main block of the building and accommodates a two story open porch facing the south.

The entire building is constructed on a low coursed stone foundation which was faced at a later date with cut stone.

The cross gable roof is covered with standing seam tin with wooden snow stops. The roof is attached to the building by a plain boxed cornice with dentiled trim.

Three brick chimneys rise from the north, south, and east gable ends of the building.

A summer kitchen with domestic living quarters were once located in the rear of the residence, but was torn down in the 1950's.
