The Grace Trinity United Church of Christ is a two story banked brick structure which faces north from the south side of the old Baltimore Road (now I-70).

The church is one bay wide and four bays long and was built on a high random stone foundation. The brick walls are laid in common bond and double hung gothic windows with louvered shutters are located in all four bays on the east and west sides. A round quadrafoil window is located over the doorway in the north gable.

A slate roof is supported by exposed rafters rather than a finished cornice.

All the entranceways have been replaced. A modern one story brick addition is located south of the main chancel.

A small graveyard which contains the graves of children only is located southwest of the church.
