Other Type Name _____

Description:

Describe Setting:F1002 carries Sunshine Trail Road over Friends Creek in Frederick County, Maryland. Sunshine Trail Road runs north-south at this location; Friends Creek flows east-west. The bridge is located in a wooded rural setting with no structures in view.

Describe Superstructure and Substructure:The superstructure of F1002 is a single span, 12 steel beam with a 12 gauge corrugated metal deck filled with 6" of bituminous wearing course. The span length, and total bridge length is 34'. There are no curbs on the deck, and the roadway is bounded by a W-beam guardrail on both sides. The substructure is stone masonry abutments with concrete additions.

Discuss Major Alterations:In 1975 the entire superstructure of F1002 was replaced. This entailed installation of new steel beams and a new deck. The abutments were also stabilized at this time by widening them with concrete additions.

History:

When Built:1930

Why Built:local transportation needs

Who Built:

Why Altered:safety and structural improvements

Was this bridge built as part of an organized bridge building campaign:yes

Surveyor Analysis:

This bridge may have NR significance for association with:

A Events B Person

C Engineering/Architectural

Was this bridge constructed in response to significant events in Maryland or local history:no

When the bridge was built and/or given a major alteration, did it have a significant impact on the growth and development of the area:no

Is the bridge located in an area which may be eligible for historic designation and would the bridge add to or detract from historic and visual character of the possible district: no

Is the bridge a significant example of its type: no

Does the bridge retain integrity of the important elements described in the Context Addendum: Because of the 1975 replacement of the beams and deck, and the widening of the abutments this structure does not retain its integrity.

Is the bridge a significant example of the work of the manufacturer, designer, and/or engineer and why: no

Should this bridge be given further study before significance analysis is made and why: No further study is warranted for F1002.
