DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This small brick structure was initially built as an office for Hammacker Brothers Memorials and is positioned back from the street.

It is 1-1/2 stories in height with the gable facade facing the street. There is a centrally positioned entrance door flanked by two proportionately large 6/6 sash windows; the door, initially narrower, appears to have been enlarged within the last 25 years: Above is a half round lunette window. The end walls are raised above the roof line, and there is a two string stepped brick cornice along both sides.

This office was closed on the death of the owner (one of two brothers). A new house has recently been built to the rear and attached in an "L" shape.

Federal style		<input type="checkbox"/> INVENTION		

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This building ends a streetscape of old Federal houses of about the same period. It is rather quaint in appearance.
