**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

\*  

 This is a tall, three story brick detached early Victorian mansion. It is approximately three bays square with rear galleries and a lower, three story brick "L" shaped wing, five bays long and two bays wide with side balconies and a two story brick extension, two bays long and one bay wide with an added third story frame section. Brickwork is of unpainted common bond. This house has a very attractive entranceway of classic lines and decor. The large double doors contain long panels with three sided endings\* and is topped by a large rectangular transom. Bands of carved roping surround this entrance. The whole is framed by wide pilasters\*\* with recessed round ended panels and topped by a large flat entablature with the frieze being paneled like the pilasters. This is supported by large blocks and carved cyma curved brackets decorated with acanthus leaves (Greek ornament). This leads to a wide vestibule with a three part doorway of the same Victorian designs as the outside with round arched glass door panels and sidelights with lower panels of the same design as the outside doors and headed by an overlight with a Victorian scrolled and colored decal. The inside hallway has rich mouldings topping the walls, a large scrolled, three dimensional moulding holding the hallway chandelier and a beautiful curved stairway with a large newel post leading to the upper floors. The entrance is approached by a white marble stoop of two steps and sidewalls carved with cyma-curved scrolls and acanthus leaves. Front windows are of 1/1 sash with flat brick voussoirs and stone sills with louvered shutters. Rear area windows are of 6/6 sash with wood lintels and sills and there are doors with glass over panels and four pane overlights. Rear area windows have either louvered shutters or unusual louvers over panel designs. The roof of the front section slopes to the rear and the wing has a metal shed roof, and there are stepped sidewalls. The front roofline has a protruding Victorian cornice with closely spaced brackets with bosses carved in acanthus leaves and with panels in between carved with acanthus leaves. This building rests on a high fieldstone foundation.

**STATEMENT OF SIGNIFICANCE**

This early Victorian mansion was constructed by Dr. George Johnson. It was quality built and stands today as a beautiful example of early craftsmanship, impossible to duplicate at today's costs. This is one of the best townhouses in downtown Frederick and has been well maintained over the years.
