## DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

JAN 1971

This 2-1/2 story common bond building is located on the south side of W. Second Street. It is common bond brick and has a gable roof, flush gable chimneys on the east and west ends of the building.

There are projecting corner bay windows on the front facade and it has three windows at each level of 6/6 pane sash and louvered shutters. The first story is three bays in width, each having plain stone lintels and stone sills. An added portico with slate mansard roof covers a centered entrance with two modern doors having nine lights in each. The east door is the entrance to a private apartment and the west door is the entrance to the public offices.

The second story front is the same as the first except for two windows centered over the front doors. The centered cross gable above frames two small windows.

The east side of the building has six bays - five are windows having stone lintels and sills plus louvered shutters. One bay is a door having a seven step side entrance.

The second story has four bays. At the gable level are two small windows. There is an open gallery across the rear of the building.

There are cellar windows (three) on both east and west ends of the building and added brick planters on either side of the front entrance.
