between 1889 & 1903

F. W. Baker House #2
30 E. Broadway
Bel Air
Private

The west two bays of this house are probably original; the last bays were probably added by J. Stephenson Hopkins between 1910 and 1923. The front gable window and its bossed surround are worthy of note. The surround is a duplicate of the one next door at #28, but the Queen Anne top of the window is unusual. So are the molded hoods over the windows in the west two bays. Most Bel Air windows have plain surrounds.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two and a half story clapboard house is at 30 E. Broadway in the Town of Bel Air, Harford County, Maryland. It has a slate gable roof with a front gable over the west two bays of the front (south) elevation. The 1904 Sanborn Map shows that at that time the house was only two bays wide. The additional bay to the west was added between 1904 and 1930, possibly by Dr. J. S. Hopkins for use as an office. The 1930 map shows the house in its present configuration. A unique round-arched window is in the gable. It has a multiple paned top window over two panes in the bottom and is set in a thick surround studded with bosses. The east and west gables have 4/4 flat-arched windows. The windows are varied. The side windows are 6/6 as is the east window in the first story front. The front second story windows are Queen Anne: at the top a large center pane with side mutins separating the smaller panes. The bottom pane is single. The west window in the first story front has the Queen Anne top over 4 panes. The front windows in the original section have hoods supported on brackets. The ground floor east bay on the front and south bay on the east side look like an enclosed sunporch.

The front porch has a hipped roof supported on thin doric columns. Attached to the rear elevation is an enclosed two story porch, also added between 1904 and 1930.

The entrance to the ground floor apartment is a panelled door in the center bay of the south elevation. An entrance to the second floor apartment is a 2 pane over panel door in the north end of the east elevation. It is up a flight of cement stairs with a wrought iron balustrade.

The east elevation shows a room, probably a bathroom, projecting slightly north of center.

SPECIFIC DATES Between 1889 & 1903 BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This L-shaped Victorian house was built after 1889 by Frederick W. Baker on land purchased from the heirs of Dr. Munnikhuysen in 1887 (58/179). It was originally the same shape as #24 next door to the west. The east bays were added later, probably by J. Stephenson Hopkins between 1910 and 1923. The house was on the lot in 1903 when Baker sold it to Harry S. Carver (109/450) because the deed says it was occupied by Mathew H. Peterson, but it was probably built soon after 1889 because of the corresponding decoration on the window in the front gable of both #30 and #24. #24 was built in 1888 and sold in 1889.

Carver sold the house the next month to the Rosan Brothers for \$1440 (109/445). In 1905 they sold it to Mrs. Avarilla Colburn for \$2000. She sold it in 1909 to Margaret M. Hopkins (127/188), who sold it the following year to J. Stephenson Hopkins for \$2200 (130/501). When the Hopkins family sold it in 1923, Laura Wilson paid \$4000 for it (181/219), suggesting the addition of the eastern section. Laura Wilson died in 1942, leaving it to Anna, Blanche, and William Wilson. Blanche died in 1947, and in 1948 William sold his half to Anna (312/300). She sold it back to William in 1950, reserving a life estate (342/68). They both sold it to Robert Graham in 1955 (443/448). Graham died in 1965 and his widow Doris sold it to Holden Rogers and John Biemiller (675/619). They sold it in 1967 to Clive T. Hendrix (737/70), who sold it in 1977 to John F. Blevins and Gwynn Blevins, Jr. It is now divided into two apartments and has townhouses for company on the lot.
