

The Charlotte Augusta Tazewell House  
Ellicott City  
Private

Ho-90  
circa 1842

The residence of Oliver and Charlotte Augusta Tazewell in 1842, this double brick house is a four bay wide, one and two room deep, three and a half story high, gabled roof (running east-west) brick (laid in English garden wall brick bond) structure whose south facade has been covered with a crushed marble painted and blocked veneer. Its rectangular entrances are located in the first west bay and the second east bay with one story alleys located on the east and west corners of the building whose east and west walls are attached to its neighboring stone buildings.

Symetrical fenestration, proportionally scaled from second to third floors punctuates the facade. Dormer windows, each flanked by pilasters and topped by a pointed pediment, are placed in the gabled roof. A simple wooden cornice adorns the roof line whose profile reveals a central brick chimney.

Part of Jonathan Ellicotts' west Ilchester tract, it was acquired by Charlotte Augusta Tazewell in 1842 "free of all control whatever" from her present husband, Oliver Tazewell or any future husband.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Charlotte Tazewell house is located on the north side of Main Street, Ellicott City and is a double brick house which rests between the Powell House (Ho-53) and the Alexander Walker House (Ho-69). It is four bays wide and three and a half stories high, with alleys running along its east and west walls which have segmental arched entrances and brick walkways. First floor rectangular entrances are located in the first west bay and second east bay. Large rectangular display windows lie east of these entrances, all of which along with the second and third floor windows and the two gabled roof dormer windows inset into its gabled roof (running east - west) have red and white aluminum awnings.

A central brick chimney is centered into its gabled roof. This entire elevation has been faced with blocked out crushed marble which has been painted white. The two brick buildings rest side by side and are divided in half. The brick chimney centered into its gabled roof indicates the division.

### North Elevation

These buildings are set into the northern granite slope of Main Street so that the second and third floors of its north wall (which is laid in English garden wall brick bond) become its first and second floors. A tall square brick exterior chimney is centered on this wall.

A shed roof frame addition runs along the entire north elevation of this building almost meeting on level the cement patio, stone walk and lovely little garden which lie north of the house.

Four second floor rectangular, double-hung windows lie above, decorated with red and white aluminum awnings.

SPECIFIC DATES    circa 1842

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This property is significant architecturally and historically, serving as a link in the streetscape of the north side of Main Street between the Powell House, Ho-53 and the Alexander Walker House, Ho-69.

Originally it was part of a tract of land called "West Ilchester" and part of a lot distinguished upon the sale plat of the property of Jonathan Ellicott and Sons by the number 147.

On the 31st of March 1842 Robert Mickle, trustee, conveyed the property to Philip T. George who conveyed it to Marcus Denison on April 19, of the same year. It was given at that time "in trust and special confidence" with the stipulation that Marcus Denison would permit and suffer Charlotte Augusta Tazewell to receive and enjoy the rents, issues and profits from all control whatever from her present (Oliver Tazewell) or any future husband for and during her natural life. (Howard County Land Records, Liber LSM3, folio 208)

old panoramic view of Ellicott City indicates the residence of O. Tazewell which would date the building March 7, 1855 when Marcus Denison, trustee for Charlotte Augusta Tazewell sold the land to Tabitha A. Waters and to Edward Franklin "together with appurtenances." (Howard County Land Record Liber 16 Folio 234) Sometime between 1842 and 1855 the two adjoining brick buildings and their side alleys were constructed. In 1870 Eliza Thomas received the land "together with buildings, rights, alleys, waters ..." from her father William Thomas in his will of July 8 of that year. (Howard County Wills, Liber 2, Folio 367). Eliza in turn conveyed it to Edward M. Hammond who on July 23rd, 1918 conveyed the property together with the buildings "to Ann F.W. Johnston for and during the term of her natural life and from and after her death to Eliza Thomas for and during the term of her natural life, and from and after her death to Emma A. Thomas absolutely. (Howard County Land Records Liber HBN 105, Folio 537.

On November 27, 1922 Ann F.W. Johnston, Eliza Thomas etal conveyed the property consisting of two lots, the first thereof being improved by two brick buildings and described in a deed from Marcus Denninson, trustee to Tabitha Waters etal 7 March, 1855 to Mr. and Mrs. Charles W. Belts.

One year later on April 14th, Mr. and Mrs. Charles Belts sold the property to Charles A. Hermann etal (Howard County Land Records Liber H.B.N. 117, folio 412.)

On February 2, 1926 Charles A. Herrmann etal conveyed to Elizabeth B. Rogers

CONTINUE ON SEPARATE SHEET IF NECESSARY

and her husband Lots No. 2 and 3 of the plat made of the property on which two adjoining brick buildings stood (Howard County Land Records Liber 126 folio 122).

On April 16, 1934 Elizabeth B. Rogers and her husband Caleb Dorsey Rogers conveyed the property to the Home Building Association (Liber 148 folio 345) which they conveyed on July 2, of the same year to Mr. and Mrs. Herbert Mellor. (149-284)

Almost twenty years later on September 25, 1953 Mr. and Mrs. Herbert Mellor conveyed the property to Henry F. and Lena M. McCauley. Mrs. Lena McCauley, who is the present owner, inhabites the west half of the two dwelling houses with her daughter and family inhabiting the east building.

Architecturally the building has been altered during the tenure of the McCauley's when the softness of the bricks on the south facade made it necessary to veneer it with crushed marble which was blocked out and later painted. The two alleys are also constructed of this same brick and have been painted and covered with cement.

The property is in excellent condition. A terraced back yard north of the house is outstanding in its unique character and charm.

One of the very early buildings in Ellicott City, then called "West Ilchester" it should be considered for inclusion to the National Register and any future local landmark legislation.

Please see last paragraph of significance statement for Ho-62.
