DESCRIBE THE PRESENT AND ORIGINAL (*If known*) PHYSICAL APPEARANCE

The oldest part of the house is the three-bay, east el. It is built of stone and has the entrance in the west bay. There are chimneys at either end, with brick stacks. The cornice is boxed. Windows are 6/6 double hung sash. The present facade is late Victorian with a central doorway and a bay window on the south end of the facade. The chimneys at either end are internal. There is a porch with round column supports around two sides of this facade.

West of the house is a sandstone building called a shop. It has flush gable stone chimneys at either end. The west side wall has been obscured by a road embankment but was once four bays, as is the east facade now. There are mortises for rafters for a porch roo on the east facade. The attic floor joists are log, exposed at the second floor ceiling and whitewashed. The walls have quoining blocks at the corners. The roof is slate.

North of the house is a frame bankbarn on a stone foundation. The sheathing is weatherboard.
