- Present use park
- Previous Survey Recording 1976 M-NCPPC Federal State X County X Local

6. Date c. 1718 7. Original Owner unknown

8. Apparent Condition

- a. excellent c. original site
- b. unaltered

9. Description

The Linden Oak is located in Rock Creek Park, near the intersection of Beach Drive and Rockville Pike. It is a white oak (Quercus Alba), sixteen feet in circumference, ninety-five feet high and more than 132 feet wide across the crown.

10. Significance

The Linden Oak is estimated at over 260 years old. It is the largest white oak in Montgomery County and the fourth largest in the state.

In 1976 the Linden Oak was proclaimed a Maryland Bicentennial Tree.

A commemorative plaque has been placed on the site.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The trunk of the Linden Oak is shorter than many other types of trees, but is a large 16' in circumference. Like other white oaks, the crown of the tree is larger than its height. But this tree's dimensions are obviously larger than most, with a height of over 95', and a width of more than 132'. A batch of shrubbery grows in the "crotch" where the branches spread apart, some 20' above the ground.

The bark of the tree is whiteish and scaly, having survived storms and sun perhaps from as far back as the 17th century. The leaves are feather-lobed, a characteristic of only some oaks, and its acorns, shaped thinner than other oaks', help feed herbivorous birds and mammals in Rock Creek Park. The diameter of the tree at the trunk is a thick 64".

STATEMENT OF SIGNIFICANCE

This local landmark, estimated to be over 260 years old, sits on the edge of Rock Creek Park. It is the largest white oak tree in Montgomery County, and the fourth largest in Maryland (the Wye Oak being the largest in the nation as well as in the state). The white oak was made the Maryland State Tree in 1941, and the Linden Oak stands as a fine example of that grand tree. Its wonderful features make it a beautiful sight.

The source of the Linden Oak's name is not known, but it probably came from the nearby Linden Hill community. The tree itself though, is not located in Linden Hill.

Metro subway construction through the area threatened the life of the tree in the early 1970s, but a promise to preserve the oak was obtained from Metro (perhaps they appreciated the ancient custom in Anglo-Saxon England of fining anyone who purposely injured or destroyed an oak tree). A plaque was placed at the site and passersby on foot, bike or car may observe the tree at the Grosvenor Lane-Beach Drive-Rockville Pike intersection, amid other less majestic trees in Rock Creek Park.

In 1976, it was proclaimed a Maryland Bicentennial Tree, because it "stood its ground, survived the American Revolution, and continues to serve an appreciative nation."

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This is a local landmark that sits on the edge of Rock Creek Park. It is estimated to be 260 yrs. old. Supposedly, the second or third largest white oak tree in Maryland (the first, the Wye Oak, is the largest and finest in the entire United States.) The name "Linden" is an ironic misnomer, that probably results from the nearby Linden Hill/Pooks Hill development. (Pooks Hill was an estate formerly located on the hill near here, and that name comes from a Rudyard Kipling poem.)

The Metro subway development threatened to destroy this tree in the 1970's, but a pledge to preserve it has been promised.
