

PRINCE GEORGE'S COUNTY
HISTORIC SITE SUMMARY SHEET

Survey #: P.G. #69-12 Building Date: 1928/29
Building Name: Riverdale Baptist Church
Location: 6200 Riverdale Road, Riverdale, Maryland

Private/Religious/Occupied/Good/Inaccessible

Description

The Riverdale Baptist Church (now part of the Refreshing Spring Church of God complex) stands on a small town lot. It is a one-and-one-half story frame T-shaped building with hip roof. The principal facade is the east end which forms the stem of the T. Two double 6/6 double hung sash windows fill this two-bay east end. A cornerstone with "1928" inscribed is built into the southeast corner. The building is covered with plain wooden siding painted white. The foundation of the east-west stem of the T is of concrete block, while that of the north-south bar of the T is of molded concrete block. Built into the southeast inner corner of the T is a two-story bell tower, covered with German siding. There is a square louvered window in each face of the tower, and its roof is pyramidal. Entrance into the building is through plain double doors in the east face of the tower. Immediately to the west of the small frame church is a two-story gable-roofed brick school building; and immediately west of the hall is a modern brick sanctuary; its principal facade is highlighted by projecting bricks in the form of small crosses.

Significance

The old Riverdale Baptist Church is a good example of a modest urban church building of the 1920's. It is a departure from the simple gable-roofed meetinghouse form, in that it was built in the shape of a T. The bell tower was constructed approximately a decade later, adding an interesting asymmetry to the building. The Baptist congregation of Riverdale was organized in the middle 1920's; in 1927 the congregation purchased five small lots in the newly platted subdivision of Riverdale Hills, and in the next year began construction of the frame church. The new church opened in June of 1929. In later years, as the Riverdale area was developed and the congregation grew, the church was expanded by the addition of an attached brick school building, and by the erection of a large and modern brick sanctuary to the west. In the 1970's the Baptist Church purchased property in Largo and began construction of a new church and school on the grounds of Woodlawn. The old Riverdale Baptist Church building was sold in 1977 to the Refreshing Spring Church of God in Christ.

Acreage: 18,029 sq. ft.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The Riverdale Baptist Church (now part of the Refreshing Spring Baptist Church complex) stands on a small town lot, on a heavily travelled road, facing east toward a small side road. It is a one-and-one-half story frame T-shaped building with hip roof. The principal facade is the east end which forms the stem of the T. Two double 6/6 double hung sash windows fill this two-bay east end; above each is a smaller four-pane single-sash window. A cornerstone with "1928" inscribed is built into the southeast corner.

The north-south bar of the T also has two-bay ends; these windows are 6/6 double hung sash. All of the T-shaped building is covered with plain wooden siding painted white. The roof is covered with green asphalt shingle. The foundation of the east-west stem of the T is of concrete block, while that of the north-south bar of the T is of molded concrete block.

Built into the southeast inner corner of the T is a two-story bell tower, covered with German siding. There is a square louvered window in each face of the tower, and its roof is pyramidal. Entrance into the building is through plain double doors in the east face of the tower.

Immediately to the west of the small frame church is a two-story gable-roofed brick school building; and immediately west of the hall is a modern brick sanctuary. The new church is a very large gable-roofed brick structure with entrance in its principal facade, the south gable end. There is a modern spire at the ridge at the south gable end. The principal facade is highlighted by projecting bricks in the form of small crosses.

Prepare both a summary paragraph of significance and a general statement of history and support.

The old Riverdale Baptist Church is a good example of a modest urban church building of the 1920's. It is a departure from the simple gable-roofed meetinghouse form, in that it was built in the shape of a T. The bell tower was constructed approximately a decade later, adding an interesting asymmetricality to the building.

The Baptist congregation of Riverdale was organized in the middle 1920's, by Reverend B. Robertson, pastor of the Baptist Church of Hyattsville, and Reverend C.W. Ericson. From 1926-29 the congregation met in private homes; in 1927 they purchased five small lots in the newly platted subdivision of Riverdale Hills, and in the next year began construction of the frame church. The new church opened in June of 1929 and was known at first as the Ericson Memorial Baptist Church. It later came to be known as the First Baptist Church of Riverdale.¹

In later years, as the Riverdale area was developed and the congregation grew, the church was expanded by the addition of an attached brick school building, and by the erection of a large and modern brick sanctuary to the west. In the 1970's the Baptist Church purchased property in Largo and began construction of a new church and school on the grounds of Woodlawn (#78-1); that historic Greek Revival style dwelling is now the pastor's residence. The old Riverdale Baptist Church building was sold in 1977 to the Refreshing Spring Church of God in Christ.²
