DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This house is located west of Maryland Route 66 just north of its intersection with Mt. Aetna Road in Washington County, Md. It is situated on a gentle rise of ground and faces east.

The structure is a two-story, five-bay stone dwelling with white trim. A two-bay modern enclosed porch is attached to the rear or west wall of the house and a one-story screened porch is present at the north end.

The walls are constructed of coursed local fieldstone at the front elevation with somewhat rougher masonry displayed in the other walls. No decorative stone work is associated with the exterior of the dwelling.

Openings appear to be spaced evenly in the front and side elevations. Six-over-six pane double-hung hung sashes are held within narrow frames with wide undecorated lintels and sills of wood.

The main entrance is located in the center bay of the facade. It is trimmed with pilasters and a broken pediment with dentil molding. A narrow transom is present over the door.

The roof is covered with asphalt shingles and extends for several inches beyond the end walls of the house. The eaves boxing is plain with only a narrow band of quarter round finish.

Small brick chimneys with several courses of corbeling at their tops rise from inside each gable end.

Located behind the house are two small stone outbuildings which appear to be in good condition. The house is in excellent condition and stands on a tract containing approximately 200 acres which has been included in a larger 619-acre parcel.

STATEMENT OF SIGNIFICANCE

The area of significance of this house is its architecture. Although the house appears to have been built relatively recently and may date from the late third or fourth quarter of the 19th century, it is an example of an important architectural group in Washington County and the Cumberland Valley.

Constructed in the five-bay, center-front-door plan, the house is representative of the many Georgian form dwellings which are present in Western Maryland and Pennsylvania. Such structures date from the late 18th through the 19th centuries.

According to Ralph Wyand, a previous owner of this house, the structure was built by Samuel Funk, who acquired the property on March 23, 1875 (Liber 73, Folio 232) from the Davis family for \$16,738.28. The property remained in the Funk and Kaylor families until 1932, when it was purchased by Mr. Wyand.

For further information and historical data pertaining to this property and others in the Chewsville election district, contact Howard L. Spessard, 911 View Street, Hagerstown, Maryland 21740.
