DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE	
<p>This house is located on the south side of Maryland Route 64, just east of Chewsville in Washington County, Md. It is situated on a rise of ground and faces north, toward Route 64.</p> <p>The structure is a two-story, three-bay brick dwelling painted yellow with white trim. A two-story, two-bay el extends to the rear or south.</p> <p>The walls are set on carefully coursed fieldstone foundations. Common bonding is employed at all elevations with five rows of stretchers generally occurring between header rows.</p> <p>The openings appear to have been spaced evenly in the walls. All windows in the main section of the house are double with pairs of four-over-four pane sashes divided by heavy wooden mullions. Each window is topped with a wide lintel trimmed with decorated corner blocks. Windows of both sections of the house show similar framing and trim. Small modified Gothic windows are present at the attic level.</p> <p>The main entrance is located in the center bay of the front elevation. It is rather elaborate in appearance and is framed similarly to the windows. The door, sidelights and a broad transom are flanked by paneled jambs.</p> <p>The roof is of sheet metal and asphalt shingles and extends beyond the end walls of the house. An elaborate bracketed cornice is finished with carved gingerbread. Additional elaborately carved woodwork is attached to the barge boards. A brick chimney is located inside the south end wall of the el.</p> <p>The interior of the house has a central stair hall. Door and window trim in main rooms includes ogee molding and decorated corner blocks. Fireplace mantels display decorative marbeling.</p> <p>The house is in good condition and is located on a farm containing 118.43 acres. The property is currently used as a salvage yard.</p>

STATEMENT OF SIGNIFICANCE			
<p>The area of significance of this house is its architecture. Apparently constructed during the latter part of the 19th century, this house is worthy of note for its fine Victorian gingerbread. Although the structure has a rather traditional floorplane, its elaborate carved woodwork is rather unusual in Washington County, thus making it a significant example of the area's late 19th century architecture.</p>
